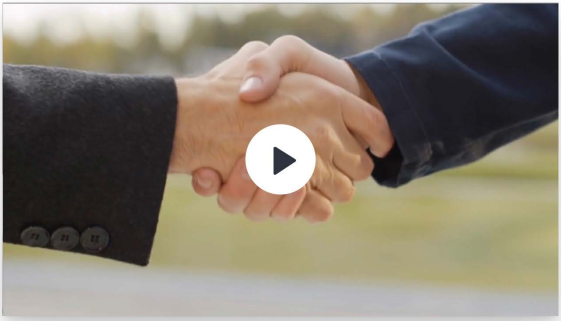
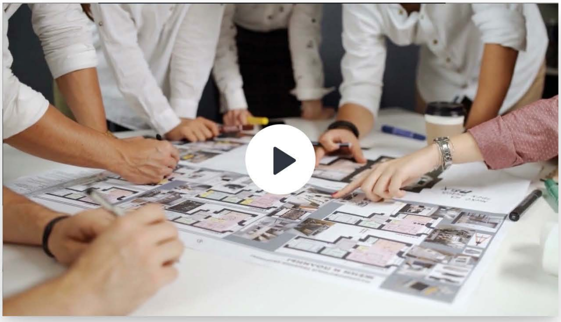
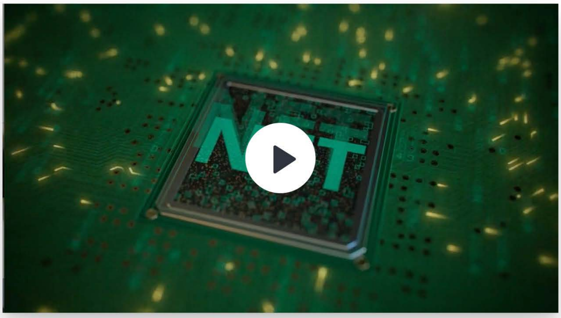
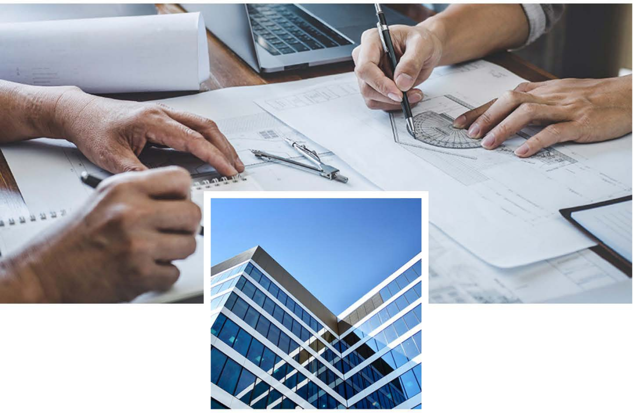
How Homes CNL Works:









Project Evaluation

CNL offers users from all over the world the opportunity to participate in the real estate market. An option that allows them to earn profits, through attractive and accessible projects after having been studied by the team.

Capital Collection

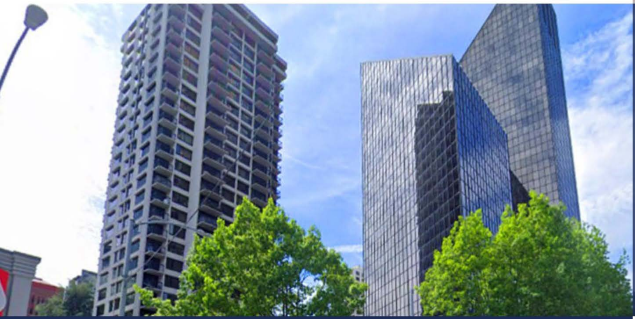
All properties are held through an LLC of which CNL acts as the managing member and owner of the Class B units in the LLC (and has full voting rights).

Smart Partnership

Each participant is a member and owner of the class A units in the LLC. And as an owner of the class A units, the user has an indirect economic interest in the real estate asset of the LLC.

Distribution Of Returns

The proceeds from the sale of these properties are distributed between the CNL manager and the participating users on a 65 (investor) / 35 (manager) split.



Why Trust Homes CNL?

Thanks to its business model available to all bussines flipping, anyone can participate with a minimum capital.

Bussines flipping consists of acquiring a property at a low cost, to sell it once it has been rehabilitated (or remodeled) and obtain a profit in the short or medium term with attractive advantages:

- ✓ Flexibility DeFi.
- ✓ Stability in financing properties.
- ✓ Crowdfunding purchasing power.
- ✓ Not a REIT or equity model.
- ✓ Backed by state-of-the-art technology.
