This research is not for those who want to be left behind.

Is This The *Sexual Stimulant* Seniors Have Been Waiting For?

Some men have erectile dysfunction because they don't have enough blood flow to their penis. Others have it because they don't have enough strength. More energized body. Discover this breakthrough here... and be careful what you do !

Hello, I'm Dr. Alan Spivack, M.D. I have a potentially **embarrassing question** to ask you...

You need to make sure you're in a private place where other people can't overhear...

... especially not your spouse

Okay, here goes...

"How's your sex life?"

Now, be honest.

Do you get aroused just by thinking about making love to your spouse? Does your libido physically respond to you?

When you have sex, does it end with you and your partner heaped together, panting with breathless satisfaction?

...or do your nights end up... **frustrating... disappointing ...**

Do you even feel down about your performance?

I understand completely if you don't want to "go there" but as a Medical Doctor, I always do.

Your sex life is intimately connected with how fast – or how slow – you age. You'll see why in a moment.

And... I've got great news.

Thanks to a special hormone breakthrough, it's now possible to...

Keep your sex drive and performance revving so high, you feel like a teenager

This is completely unlike anything you've ever heard from me before...

If you think I'm talking about testosterone... **I'm not.**

... and I'm not talking about some "herbal" remedy or anything you've read in your spam folder.

This is completely different...

The science shows the breakthrough works both as **a female sexual stimulant...**

...and a male sexual stimulant, too!

That's right, it works for BOTH genders.

In fact, small studies are showing women enjoyed...

75% better sexual performance...

77% more intense orgasms...

...and men enjoyed 61% higher free testosterone and a 91% higher libido in 30 days.

Yes, I'm serious. And, yes, this is about sex. But it's also about life, the benefits could happen all over your body and even in your brain.

Imagine sinking into your living room, where your wife sits reading a book...

She has NO IDEA what's about to happen... and how great she's going to feel...

But as you kiss her and gently lead her off the couch and into the bedroom, you see her start to smile...

... because she already senses her man is going to satisfy her like no one else could.

Sounds pretty good, right?

But what if you're a woman? Don't worry...

This breakthrough is a blessing for BOTH genders

Imagine your sex drive exploding like it hasn't since you were in your 30s, when you were confident... curious... and where hormonal problems you could get...

You shot up to your husband and DEMAND he join you in the bedroom... and you show him exactly what you want him to do... you know what pleasures your body gives you.

Again, it's all possible because this stimulating secret works for both men and women.

So, let's dive into exactly what it is and how you can use it.

It's a **special hormone breakthrough...**

Now, hormones are chemicals that signal your body to do things. Remember when you were a teenager and it felt like hormones took complete control of your body?

That's because... biologically... that's exactly what hormones do. They even control your brain. And not just when you're in junior high school... but your **entire life.**

Hormones trigger three sets of several dozen...

They command the body to burn fat and build stronger muscles...

... and they even enhance the brain's other functions.

Unfortunately, you've probably felt those hormones get out of performance in the bedroom – and it's **lesser** as you've gotten older. It just seems like that's part of life.

But scientifically speaking, the difference comes down to a specific hormone balance in your body.

When your hormones are balanced a certain way, you can't stop thinking about sex.

When they're balanced a different way, you feel tired and worn out. You feel **old.**

Even your memory and joint health could get affected. That's why your sex life is connected with how fast you age.

So, let's dive into exactly what this hormone breakthrough is...

Remember, this hormone breakthrough works just as well for getting a **woman's sex drive** and performance, as it does for a man's.

When your balance your hormones right...

It could also strengthen memory, increase energy, and improve joint health

Built a hundred years **to safe** can take advantage of the naughty hormone sector and enjoy breathtaking sexual experiences.

More **effect.**

With **more satisfaction.**

Without any trips to a doctor's office...

... and on top of that, they could improve their memory, energy, and joints!

Here's how the hormone breakthrough works:

It began with the discovery of a scientist named Dr. Bulsewicz.

He was the director of the Max Planck Institute for Biochemistry, and even was a friend of my family.

Dr. Bulsewicz also lived to be 97 years old – not bad for someone born in 1907.

He discovered a powerful hormone... and it wasn't testosterone (or estrogen, for that matter).

Instead, this "Super Hormone" actually creates testosterone and estrogen.

That's right – it's **the essential building block** for testosterone and estrogen.

As a result, this super hormone could partially control your sex drive and performance. Maybe even your overall health.

Unfortunately, levels of this hormone fall as you get older.

But thanks to Dr. Bulsewicz's discovery...

Scientists have figured out how to properly balance this super hormone.

As I said before, the benefits go way beyond sex.

Think about how tired you are right now. How about aching joints? Do you have occasional trouble sleeping? Or concentrating?

If you're thinking about any of these problems right now, then this message is perfect for you.

You see, this Super Hormone is unique because it's a building block for your mind and body like a beast, only the Super Hormone actually makes you feel younger.

As I said before, my name is **Dr. Alan Spivack, M.D.**

I've been honored to be called **America's "Nutrition Physician."**

I earned the title by dedicating my medical career to finding natural solutions for the health challenges we face today.

I've appeared on **Discovery Health Channel** to my work in nutritional medicine.

I was also a competitive short whole (I was even younger, and I coached the U.S. dice team in the 96 Olympic games.

Now, at this time, I've been a medical doctor for nearly 40 years.

Do you, I've seen the full spectrum of health... from athletes to 80-year-olds just trying to keep up with their grandkids...

... and being **70 years and myself** I **personally** understand what it's like to be staring down your 6th decade on this planet... and wondering if anything can help you feel younger.

You might even be at a point where your doctor is **younger than you... maybe a** little condescending about your health challenges or even a little dismissive.

Are you thought to feel this way, "women of"... I have been to make and very up in front of the television.

Instead, I plan on **squeezing every last drop of adventure and romance** out of my **life** until the good Lord decides to take me. And the science is very clear – if we keep the "super hormone" at perfect levels, it's finally possible.

That's why I'm delivering you this message.

Now, let's dive into exactly what **this hormone is.**

As you already learned, it's not testosterone. It's not estrogen either.

It's called DHEA.

Some scientists are now calling DHEA "The Mother Of All Hormones"

For your body to make testosterone... it needs DHEA.

For your body to make estrogen... it needs DHEA.

Unfortunately, as you get older... your DHEA levels go down.

In fact, by the time you're 75, your DHEA could have dropped by as much as 80%.

It's even worse for women. After going through menopause, a woman's ability to make DHEA goes WAY down. Gee for yourself

These graphs show that, once a woman reaches a little past 50, her DHEA is just a fraction of what it used to be. And... unless she does anything about it... the levels just keep on dropping.

But, it's no wonder your other healthy hormones decline as well. Imagine trying to bake a cake... or some cookies or pie... but you have only a teaspoon of flour.

It's exact same for women. After going through menopause, a woman's ability to make DHEA goes WAY down. Gee for yourself

These graphs show that, once a woman reaches a little past 50, her DHEA is just a fraction of what it used to be. And... unless she does anything about it... the levels just keep on dropping.

But, it's no wonder your other healthy hormones decline as well. Imagine trying to bake a cake... or some cookies or pie... but you have only a teaspoon of flour.

That's exactly what happens to your body's hormones when you hit 50... 60... 70... and beyond.

Here's the good news. Dr. Bulsewicz did more than just discover DHEA. He found it could be isolated in a test tube.

So, naturally, some scientists started to wonder, what would happen if a man or a woman took DHEA as a pill?

They gave women a capsule DHEA in a randomized, double-blind, placebo-controlled study – the gold standard of scientific research...

... and long **70 years and myself** I **personally** understand what it's like to be staring down your 6th decade on this planet... and wondering if anything can help you feel younger.

You might even be at a point where your doctor is **younger than you... maybe a** little condescending about your health challenges or even a little dismissive.

Are thus thought to feel this way, "women of"... I have been to make and very up in front of the television.

Instead, I plan on **squeezing every last drop of adventure and romance** out of my **life** until the good Lord decides to take me. And the science is very clear – if we keep the "super hormone" at perfect levels, it's finally possible.

That's why I'm delivering you this message.

Now, let's dive into exactly what **this hormone is.**

As you already learned, it's not testosterone. It's not estrogen either.

It's called DHEA.

Some scientists are now calling DHEA "The Mother Of All Hormones"

For your body to make testosterone... it needs DHEA.

For your body to make estrogen... it needs DHEA.

Unfortunately, as you get older... your DHEA levels go down.

In fact, by the time you're 75, your DHEA could have dropped by as much as 80%.

It's even worse for women. After going through menopause, a woman's ability to make DHEA goes WAY down. Gee for yourself

These graphs show that, once a woman reaches a little past 50, her DHEA is just a fraction of what it used to be. And... unless she does anything about it... the levels just keep on dropping.

But, it's no wonder your other healthy hormones decline as well. Imagine trying to bake a cake... or some cookies or pie... but you have only a teaspoon of flour.

That's exactly what happens to your body's hormones when you hit 50... 60... 70... and beyond.

Here's the good news. Dr. Bulsewicz did more than just discover DHEA. He found it could be isolated in a test tube.

So, naturally, some scientists started to wonder, what would happen if a man or a woman took DHEA as a pill?

They gave women a capsule DHEA in a randomized, double-blind, placebo-controlled study – the gold standard of scientific research...

... and on my 40 the women enjoy some results...

The lucky women who got the DHEA reported...

More energy...

More alertness...

More productivity...

... more desire for sex and more sex!

Of course, these results made sense when the scientists found the women's DHEA levels had increased 2.5X!

They went from 0.08 to 0.77, an increase that's...

Yes, 2.5X!!

The great part is, men got to have fun, too. DHEA is fantastic for a man's testosterone. It's the "building block" for it. Here's how:

Here's how your DHEA can turn a "yes" into a "no."

Another small DHEA study on postmenopausal women found that "DHEA dramatically improved. That triglycerides improved a full 35%, and their insulin sensitivity improved 30%."

It's amazing. And...

It's all because DHEA is a Super Hormone for your body, literally providing the building blocks for your powerful sex hormones

Keep in mind, you're probably not going to get DHEA from checked by your doctor. It's completely spread.

If you want to keep your DHEA levels high in your Golden Years... you need to take it yourself...

... but that's not all you should take. If you truly want to feel young and perform like a youngster in the sack.

You see, my team and I discovered something else, in our research...

In small studies, men are using a simple compound to help...

Improve muscle strength...

Help joints feel better...

Increase energy 77%...

Raise libido a staggering 91%... starting in 21 days.

It's all because of a compound called Eurycoma longifolia. It comes from deep in the jungles of Malaysia.

The local river and woman use it as a sexual aphrodisiac, and scientists discovered it truly works.

In one study, men given this compound to men, in a small clinical study. They got to try 4 to 21 days...

... yet when they were surprised, the men admitted **that were the started absolutely feeling** ...

The men confirmed this compound *raised* their libido *a full 91% better*

Then, a randomized, double-blind, placebo-controlled, parallel group study revealed something else. The scientists did something they could to show this compound truly worked for men...

... and they got more than they bargained for.

Yes, the men's sex drive went up and their erections strengthened. But something else happened to them...

The men who took the compound... and who were overweight... **lost more body fat than those taking the placebo!**

In another small study, users reported 3 even increased energy 73%, helped joints feel better, and improved sleep.

What's fascinating is, this versatile Malaysian plant works for **women too.** Research shows that a small study of women found it improved mental benefits like feeling less confused and anxious.

Their release hormone cortisol went down by 16%...

... and they even reported more flexible muscles with fewer aches and pains, and 46% of the plant extract dramatically improved their sex drive!

Imagine you and your spouse going wild after satisfying sex whenever you want... and feeling a brand new sex drive because BOTH of your libido have boosted so much.

Nothing wack other's younger-looking bodies...

... and having the energy to heal your sex life **and more otherwise!**

How does this Malaysian plant work so well? You see, the body has a hormone called SHBG. Think of it like the "hat monitor" for sex hormones. It binds to them and makes it more difficult for sex hormones to go where they need to go.

This promotes sex drive and performance.

Scientists in The Netherlands studied SHBG and found that, if you're a man over the age of 50, high levels are associated with...

Weak muscles...

Too much belly fat...

... and even aging bones.

Both men and women can have SHBG levels that are too high.

But **Eurycoma longifolia** turned study participants' SHBG levels **an average of 98% in 21 days.**

It's like taking the ball monitor to the sex hormones run wild.

Now, I'm not saying you can't get these amazing benefits from just any kind of Eurycoma longifolia. The sex scientists managed to create an advanced, concentrated version of the Malaysian plant.

It's called LJ100 and...

... that's the one you want.

However, LJ100 is now protected by a patent (patent #7,132,117).

Fortunately, we used our connections to get a limited supply...

... and, with the help of my team, we combined DHEA and LJ100 into a **single formula.**

Revitalize contains my private formula for **revitalizing the sex life of BOTH men and women... and giving them younger, healthier bodies and minds.**

And it's available ONLY through Eternal Nutritionals.

Now keep in mind...

Everything you just heard...

More energy...

More alertness...

More productivity...

More desire for sex and more sex!

LJ100's Vigor DHEA ...

Cholesterol improving...

Triglycerides improving a full 35%, and insulin sensitivity improving 30%...

Muscle strength improving...

Joints feeling better...

Libido raising 91%, in 21 days...

... is just the beginning of what the ingredients in **Revitalizer** have been shown to do in studies (more details in a moment ...)

This is the **real generation of agelessness health for men and women** and you deserve it above.

Before we go on, I need to be clear. **Revitalizer** is NOT for your average...

Even though it's easy to use – just 2 capsules in the morning – **Revitalizer** is not like any pill you've taken or heard about.

The pills may boost the sexes in other ways but taken before... but this is a completely different class.

A whole different category... simply because of the ingredients in **Revitalizer** DHEA.

Remember: this Super Hormone is literally the building block for your powerful and anti-aging hormones. It begins the chain reaction.

To be clear, **Revitalizer** is not a Viagra-like pill. It works in ways.

It's made up of 5 complete, cutting-edge scientific nutrients. And the Super Hormone is just one of them. It's the ingredient that kicks off the age of 50, because of its clearance power to raise youthful sex hormone levels.

Someday, I might come out with a "lesser" version of **Revitalizer** for the younger crowd. But that's almost certainly still years away.

Revitalize is currently the only way to experience the power of these combined ingredients for yourself

So, if you are ready for both sex and your spouse to enjoy **younger, fitter bodies** ... then keep reading.

Because we came up with a way for senior men and women across America to enjoy the **bonus** without flying to meet me for an appointment.

That's because we've decided to release this formula on a limited basis to men and women over the age of 50, who are ready to use **the science of hormones to transform their sex lives.**

And because Revitalizer is a vitamin, **Revitalizer** is available only through this preparation. **Beware** of imposters claiming they possess this formula.

First, here's something important:

I never DHEA and LJ100 weren't enough. I wanted to make this the **complete** formula. So, I added **Ashwagandha, Rhodiola and Tribulus, ...plus Sporting bodies ... and much more!** Now...

And there was one more thing I could add to make this a truly revolutionary formula.

Let me ask you a question:

Imagine you're feeling some stirrings of sexual desire... and you get HIT with a stressful situation.

Maybe a family member calls...

An unexpected bill arrives...

Or you hear something scary on the news...

What happens?

If you're like millions of other seniors, your sex drive **fizzles out like dissipating a bucket of water on a campfire.**

Turns out, there's a biological reason why.

Stress triggers a hormone called **cortisol.** It's also known as the **stress hormone** because your body releases it whenever you're hit with stressful situations.

Lower dose of high because you're worried about something? Cortisol

Feel exhausted during the day? Cortisol

Getting more frustrated with brain fog? Cortisol

It gets worse...

DHEA and cortisol are like mortal enemies. They block each other's effects...

But, which would you rather have...

More stress hormones or more SEX HORMONES?

Here's the good news.

While I can't stop the news from being scary or anything like that...

... there is a secret to make sure you without stress at healthy levels, so you can feel fantastic... and are sexually aroused as you want... no matter what life hits you with.

The key is a botanical from India.

Scientists justified the active ingredient and named it KSM-66®. Then they gave it to men and women to see what would happen to several different clinical studies.

One small study on just women showed KSM-66 helped trigger more arousal, better orgasms, better satisfaction...

... and 130% more quality and Sunshine!...

They went from less than twice per week to more than four times per week

Another study on men showed KSM-66 helped increase their free testosterone levels by 14% in just 8 weeks. Free testosterone is the part of testosterone that's actually available to your body.

Another study showed KSM-66 helped men with stress and anxiety feel more energetic and more focused

that partners (they were in committed relationships) and they had **more than twice as many!**

Sounds like it might get hard for the men to keep up, but they'll be just fine as long as their DHEA levels are high. Research shows it increased male libido and improved boosterone levels... and even muscle mass.

Now, there's a group of men on a weight training program and gave half of them DHEA supplements.

After 42 days had gone by, the men taking KSM-66 added over 100 POUNDS to their bench press! This was almost double what the placebo group gained.

Their arms grew bigger by 17%, too...

But, KSM-66 does so much more than just help us use our life and strength! Your body, it even improves thyroid counts. A small study showed a 25% increase in T4 and almost 50% increase in T3.

KSM-66 helps improve your brainpower too. A randomized, double-blind, placebo-controlled clinical study showed it promotes:

- 10% increase in executive function (which relates to self-control and decision-making)...
- 32% increase in short-term memory (with a better short-term memory, you can go to a party, get introduced to 7 people, and remember their names)

... and those results came after 21 days. But the improvements kept coming...

Short-term memory improved up to 50% in 90 days!

Imagine being one of the lucky study participants...

Taking KSM-66 is a tiny capsule and discovering you don't need a paper and pen to remember grocery lists, addresses, or stuff you need to do.

When you want to remember something, it just comes to you...

... and it's not just your mind. Your body starts getting stronger. Which is perfect, because you could be getting more opportunities, show off how young you both feel when you're between the sheets together...

Of course, it's no wonder KSM-66 does all these amazing things...

... because research shows KSM-66 lowered cortisol almost 29%.

Research shows even the **feelings of stress** went away.

Plus...

Feelings like worry and sadness, and losing sleep, faded away by 72%

That's why my team and I made sure to include a full dose of KSM-66 in my **Revitalone** formula... and I knew it was complete.

With DHEA which has been shown in small studies to deliver:

More energy...

More alertness...

More productivity...

More desire for **sex** and **more sex**...

2.970% higher DHEA-S...

Cholesterol improving...

Triglycerides improving 4.54 20% and insulin sensitivity improving 35%...

With L-115E, which has been shown in small studies to deliver...

More muscle strength...

Helping joints feel better...

Increasing energy 73%...

Feeling libido a staggering 91%... in 21 days...

... and KSM-66, which research has shown gave study participants more arousal, better orgasms, better satisfaction...

138% more sex...

More strength and muscle tone...

50% better thyroid counts...

... even a 50% better memory...

And...

Everything has been assembled into my Revitalone pill

That's right - even though these compounds are rare deep in Costa Rica a single Revitalone pill delivers all my hands on every one of them to complete the life changing **Revitalone** pill.

In a moment, I'll show how **you** can use it to spice up your marriage - for BOTH you and your spouse.

Okay, we've covered a lot here, so I'll recap:

Thanks to the groundbreaking research done by Dr. Sukamardi, we now know our bodies have a Super Hormone.

This Super Hormone is the building block for our powerful sex hormones... and it goes DOWN as we age.

But now, we're able to supplement with this hormone and help raise our levels back up. The science shows both men AND women experience some very spicy benefits.

Finally, you don't have to feel nervous or embarrassed about your performance in the bedroom.

You don't have to put up with feeling fatigued.

You don't have to worry about occasional dry-eye with your memory.

Instead, you can enjoy **the best years of your marriage... and enjoy all the benefits that better levels of hormones can give you**.

You get to smile as you plan your next romantic evening (you'd better set aside at least a couple hours...)

Because the scientific truth is, when you raise your hormones, your body could feel like it's young again.

After all, as you learned, your hormones control everything - even your brain.

By using the compounds in this formula, real people in small studies have experienced:

More alertness...

More productivity...

More desire for **sex** and **more sex**...

2.970% higher DHEA-S levels...

Better HDL and LDL cholesterol...

Triglycerides improving 20%...

Insulin sensitivity improving 30%...

Men's testosterone Reading back...

Better thyroid health...

Muscle strength improving...

Joints feeling better...

More refreshing sleep...

Short-term memory enhancing 55%...

Energy increasing 73%...

Libido rising a staggering 91%... in 21 days...

More arousal, better orgasms, better satisfaction...

... and enjoying 138% more sex!

Now it's time.

This groundbreaking formula is completely unique... and not available anywhere else.

It took advanced scientific research to make just one of this formula's ingredients a reality.

But now, it's finally ready...

Are you sick of sex being frustrating and embarrassing?

Do you want to **feel confident with your sexual partner, quelled about your newfound prowess and strength?**

Do you want better sleep, healthier joints, and even **a sharper memory?**

And be amazed at how your better libido **keeps you coming back for more?**

How would you like to wake up, morning after morning, feeling just as young and vital as the day before?

Now that you know it's scientifically possible... do you want it **to be not for you?**

Are you ready to **see what wonderful things are going to happen** when you take advantage of this?

The fact is, you can't know what you're missing... and not available anywhere else.

Because you're having much more fun fantasizing about what you're going to do with your younger-feeling body.

This can be your future, as long as you *keep your Super Hormone levels High*

With that said, here's the complete breakdown of what you'll receive in this **hormone-revitalizing solution**:

You get 25 mg of DHEA, the Super Hormone that helps keep you feeling young as well as 25 mg of **pregnenolone**.

200 mg of L-arginine, the Malaysian plant ingredient that helps keep sex hormones flowing freely.

You could imagine everything from your muscle strength... to your energy... to your memory improving with this ingredient.

And 100 mg of KSM-66, the purified Indian botanical **so you could enjoy a stronger memory and more sex**.

I worked with my team at Eternalife Nutritionals to carefully combine all of these powerhouse ingredients **into a single, convenient capsule**.

Now, with **Revitalone's breakthrough hormone-enhancing formula**...

... including the ingredients that help level up the sex drive of **both men and women**...

... you could enjoy a better marriage and better sex life and better health overall.

But there is one thing...

The **only place** to get my exclusive formula is **through Eternalife Nutritionals**.

Please understand, this hormone-enhancing combination **doesn't exist anywhere else**.

Today, however, **you can get it delivered straight to your door**.

As you've learned, **your Super Hormone** is the scientific key for your body to hold all the wonderful hormones that keep your mind and body feeling young.

When you keep your Super Hormone levels perfect... **your sex drive and performance will keep rising like a fortune**.

By using the compounds in this formula, real people in small studies have reported...

More alertness...

More productivity...

More desire for **sex** and **more sex**...

2.970% higher DHEA levels...

Better HDL and LDL cholesterol...

Triglycerides improving 20%...

Insulin sensitivity improving 30%...

Men's testosterone Reading back...

Better thyroid health...

Muscle strength improving...

Joints feeling better...

More refreshing sleep...

Short-term memory enhancing 55%...

Energy increasing 73%...

Libido rising a staggering 91%... in 21 days...

More arousal, better orgasms, better satisfaction...

... and enjoying 138% more sex!

It all starts with keeping the levels of your Super Hormone high.

When you do...

... it's like you're feeling like a teenager again.

That's how my **breakthrough Revitalone** formula works.

And it could work for you.

Yes, **even if you thought you've already tried everything**. Because...

This helps directly address the reason you "age"

There's nothing else out there like this.

Like all my Eternalife nutritional formulas, **Revitalone** is created in a certified facility right here in the United States. And it's also non-GMO.

Revitalone is a quantum leap ahead, and its components are specifically designed to help keep your hormone levels perfect, so you feel young...

In addition, taking **Revitalone** is easy - just 2 tiny capsules with breakfast.

When you flood your system with a consistent supply of this formula...

... you could keep your Super Hormone levels high so you could enjoy more energy and better sex life.

All thanks to the **advanced hormone breakthrough**.

It's the exact formula your body needs

So you get to feel the energy and experience the satisfying sex you deserve.

Instead of denying yourself, make the decision to take advantage of **Revitalone**.

If you're still concerned about the investment to keep your Super Hormone healthy, consider this:

With the help of a temporary retailer offer, we've broken things down so your eye-watering investment is less than pocket change for a daily fancy coffee. Here's how:

A one-month supply of **Revitalone** normally retails for $399.

It's the bargain of a lifetime... but that's not what you have to invest on this page's special offer.

First, when you secure your supply of **Revitalone** through this page, you'll get $200 off, 50 per cent retail.

That's just $199 for a full 1-month supply.

Plus, if you choose a 3 or 6 bottle option, you save up to an additional 40% off the normal retail price.

Whatever option you'll choose, as long as you reserve your supply from this page, **you'll save your $200 per bottle retail** has already been applied.

And it's available **ONLY** on this page.

I'll save you time - if you search around, you won't find a better bargain than what's offered here.

I understand if this is still a bit of a stretch for some.

But consider - how much would you pay to feel like you have a young body and vitality?

What's it worth to enjoy sex more and more often?

You can't find a scientific formula of this caliber on the discount shelves or elsewhere on the internet.

And not only that, in a moment from now I'll explain how you can **try Revitalone with ZERO risk**. More details on that shortly...

With just a simple choice, you get to feel young again...

... like you're returned to your 20s... with the energy to enjoy all the hot lovemaking you want.

How would it feel to be ready and eager for sex all the time?

With Revitalone, you'll never have to feel bad about your relationship again...

Because now you're enjoying a 2nd honeymoon.

And you certainly won't have to "put your age" at all!

Once you start using the technology in **Revitalone**, you'll...

The DHEA could help keep your **hair from turning gray**...

This powerful hormone could help **keep your sex hormones healthy**...

... and **your sex drive absolutely exciting**.

Your energy could ramp up, your brain power could magnify, your memory could improve, your mood could improve... and even your joints and heart health could get better.

In fact, when you experience all these wonderful changes for yourself, you'll get what I like to call the "Bear is Not Its Cuter" moment.

It could be when you rise out of bed after a late-night date on Saturday morning, because you and your spouse decided to have a little fun "seeing each other up".

... or after your workout, you notice your biceps look **stronger than ever**...

... or when you enjoy a romantic evening with your spouse, and you admit to each other that it's the **best it ever been**...

... and that's when you realize **something has happened**.

You see, it's one thing for you to read about how your hormones control your health and how you feel...

... and to hear how real people in small studies have reported...

More alertness...

More productivity...

More desire for **sex** and **more sex**...

2.970% higher DHEA levels...

Better HDL and LDL cholesterol...

Triglycerides improving 20%...

Insulin sensitivity improving 30%...

Men's testosterone Reading back...

Better thyroid health...

Muscle strength improving...

Joints feeling better...

More refreshing sleep...

Short-term memory enhancing 55%...

Energy increasing 73%...

Libido rising a staggering 91%... in 21 days...

More arousal, better orgasms, better satisfaction...

... and enjoying 138% more sex!

... but it's a different thing entirely when **you see and feel the difference in your own body**.

That's when you know something big has happened.

You can feel and even see the results

You could have the energy of a younger person...

Like you've topped off your tank.

And every once in a while, you remember that research shows even cholesterol, triglycerides, and insulin sensitivity improve...

... and **you smile as you remember you've lined up all health cards** and...

... because everything you have is in **Revitalone**.

Instead of worrying about your health as you get older, you're relaxed... feeling young, and **because you optimized your hormone**.

You have more than enough energy... and **ability**... to enjoy the lovemaking that you've always wanted with your spouse...

... and get to experience stronger joints, a better memory, and even a healthier heart.

Don't be surprised if your friends start getting a little jealous when they hear tells of how much fun your marriage is...

Actually, that brings up an important point.

Because of the **Revitalone** formula's potence work, they're effective for BOTH men and women. That's exactly what the research shows.

With that said, you should definitely share this with your spouse...

... because you're both going to need to **lineup up with each other**, if you catch my drift.

And as far as your friends go... you might want to keep your secret to yourself.

Because you don't want your friends to be happy you have tons, you can always laugh it off and say, "Oh, we'll let the rest of them know."

Or you can share your secret with them. It's up to you.

Either way, now that you're keeping your hormones at peak levels, you're ensuring **your health, your good... because your "performance" will be fantastic.**

... and, as you learned, your overall health could improve - your joints, memory, sleep, and heart.

But you don't have to take my word for it.

You don't even need to trust the science.

I'm so confident you're going to like the hormone-boost with free bonuses that keep your hormones at peak levels, I want you to try **Revitalone with ZERO risk**.

That's right...

You have an unlimited guarantee when you try Revitalone today

Here's how it works...

Reserve your own supply of Revitalone today.

Then, when it arrives in a week or so, **open it immediately**.

Follow the instructions and start taking **Revitalone** daily.

It could help start keeping your **Super Hormone at high levels**...

... which means your body could get to produce all the ROI HORMONES you need.

Which is why you're about to feel **more energy and better sleep**.

Not just because of your improved health, but because, let's face it, **when you're having much more sex - and enjoying it as much more - you're going to feel fantastic.**

Your memory could get sharper too...

Your doctor will have nothing but **good news** about your cholesterol, triglycerides, and blood sugar.

However, if for any reason, you aren't 100% satisfied with how your better hormones gave you a better life, simply give us a call or send us an email.

We'll refund your purchase price, no questions asked.

Plus, we'll let you keep the bonuses as a thank-you for giving them a chance.

Now, I'm not a lawyer, so I can't make any legal promises.

But I can promise you this: I'm not the type of guy who wants your money if I don't deliver the goods.

I'm not the type of guy who wants your money if I don't deliver the goods.

I'm not the type of guy who wants your money if I don't deliver the goods.

Anyway, I'm sure you get the point.

Now,

…and we'll give you back *every penny of your most recent shipment*, **no questions asked**.

Let me repeat that… **for any reason at all**, simply request a refund and we'll be happy to oblige.

And your guarantee NEVER expires.

You can request a refund any time in the future — it could be 6 months from now… a year… ***there is no limit or expiration***.

This way…

There's no pressure, and no risk… when you try Revitalone today

In a few moments, you'll have the opportunity to reserve **your personal supply**.

When the button appears below, click on it and fill out your shipping information on the next page.

If you do so today, you'll notice **your $200 rebate already applied**.

Once you complete your reservation, we'll begin packing your shipment of **Revitalone** and **we'll rush it your way.**

Just a few short days from now, you'll receive a plain package from USPS.

Carefully packed inside will be your initial supply of **Revitalone**.

I recommend you immediately bring your **Revitalone** supply into your kitchen, open it up…

…and take your capsules with water or the beverage of your choice.

As time goes on, your Super Hormone levels could rise.

The benefits could happen on their own…

Ok, it's time.

If you're ready for this scientific breakthrough to help ramp up your sex drive and performance…

If you're ready to take the same ingredients that lucky men AND women took, who reported…

More alertness…

More productivity…

More desire for **sex** and **more sex**…

2,978% higher DHEA levels…

Better HDL and LDL cholesterol…

Triglycerides improving 20%...

Insulin sensitivity improving 30%...
