This Tiny Creature Helped Unclog Hundred Million Arteries

Heart health secret being seems completely ignored by doctor

REVEALED: How microscopic - and friendly - creatures could be the missing key to heart health. Plus something men and women did to enjoy, on average, EXCELLENT CETTA blood pressure... and a 'forgotten' ancient food that scientists, now, have discovered in a blood sugar battle...

Hello, I'm Dr Alan Ingle, MD.

I don't mean to alarm you...

... but you have microscopic creatures living in your body right now.

This is actually good news for your health... especially your heart health.

Top scientists estimate you have a LOT of these creatures in your body.

In, over 38 billion of them.

That means you've got more of these tiny creatures than you do body cells!

Surprising, right?

Here's what's even more surprising...

The Key to Keeping Your Heart Health Perfect... Could Be Linked to These Creatures in Your Body

You're going to want to know exactly how...

... because, if you're interested in having the secret used by a group of scientists to deliver **Blood Pressure Readings of 120/70**...

Better cholesterol and triglycerides...

... and better blood health **starting in just 2 hours**.

It's true – researchers in Spain and the United Kingdom found that your arteries could be linked to these creatures in your gut...

Here's what's more amazing:

This Heart Health Key Is So Powerful

It doesn't need 2 months to make serious healthier...

2 weeks...

Or even 2 days to start working...

... but just 2 hours.

This was shown in a scientific study where, on the first day, young men got healthier arteries in just 2 hours. And, during the rest of the 12-week study, they continued to experience health improvements.

As a Medical Doctor, I understand if this is hard to believe.

After all, you've been told over and over that you need to change your diet. First, you had to avoid cholesterol... but now cholesterol is okay. You had to exercise more...

... and now you're getting told about microscopic creatures?

So, yes, I know it seems strange...

But what you're about to learn could be the **key** to keep...

Enjoying your life without needing to think about how it's affect your heart...

Feeling **pressed** every time you get your "numbers" checked...

... and feeling **confused** about your heart health. Yes, not just "about" but confused!

Just like when you were younger... and...

A Scientific Study Showed the Benefits Began in Just 2 Hours

This story begins with a recent discovery by scientists in Murcia, Spain...

... which has to do with these creatures.

These creatures are known as gut bacteria.

Now, you've probably heard about **gut bacteria**.

It turns out your gut has billions of tiny bacteria inside it...

... and that's a good thing!

In fact, these little gut bacteria are **essential** for smooth digestion.

So, for good health, you need to keep all your gut bacteria at healthy and balanced levels.

In fact, that's how eating these works. Filter supports your gut bacteria.

But these Spanish researchers published something that could change everything we know about heart health...

You see, your gut bacteria control **more** than your digestion...

Your gut bacteria could be linked to your artery health.

The science is so cutting-edge that researchers are still uncovering how it all works.

So far, we believe these healthy gut bacteria affect the cells that line the inside of the heart and blood vessels.

It's incredible. Your health doesn't just potentially affect your gut...

... but your gut could affect your health. Even your **heart health**.

To get more specific...

In a study, these gut bacteria were linked to how **flexible** arteries are.

When it comes to your heart health, stiffness is what you want to avoid.

Researchers in The Netherlands analyzed the data of 20 clinical trials involving 14,755 people and 548 adults were compared.

Wider Arteries Can Mean Better Heart Health

In other words...

No more pondering about your heart health...

No more confusion over which diet you need to follow...

... and no more doctors from your doctor about keeping your blood pressure healthy!

Picture what this could mean for you...

First, you take advantage of this gut health discovery. Don't worry... it's not invasive and it takes just seconds to do, in the morning.

You make a regular doctor's appointment and tell your spouse...

"Honey, if my bloodwork comes back the best we've ever seen it... and I mean the best we've ever seen it... We're going to eat a delicious meal that doesn't!"

The results come back and... after you do a little happy dance...

... your spouse arranges a special meal for you!

So, the question becomes...

Do you want your gut bacteria as balanced and healthy as possible... so we can keep our heart and arteries as healthy as possible?

Scientists in London found an answer.

They were hypothesizing that with gut bacteria...

... and every sector in America needs to sit up and take notice.

Because these London researchers found a special "gut-friendly" diet without arteries in just **2 hours**.

That's right – all these decades, while we were trying to improve heart health by focusing on diet... solution... just the heart.

A Secret Was Waiting in Your Gut

Now that we know this, we know the key is to replenish your gut bacteria in a certain way that could help your arteries to stay nice and wide.

That's what London scientists discovered... and their breakthrough worked in just 2 hours.

Scientists **fill all over the globe** have found a simple, but incredible together.

... and you're about to learn exactly what this breakthrough is.

Helping **bacteria** with **your** heart that **cow**.

Researchers in The Netherlands analyzed the data of 20 clinical trials involving 14,755 people and 548 adults were compared.

The Secret Is a Little-Known Super-Nutrient

Very few people have heard of it...

But in London, researchers created a concentrated version of this super-nutrient and gave it to people who had unhealthy cholesterol and triglycerides.

They wanted to see if this nutrient could benefit arteries and hearts.

Before the study began, the scientists told the volunteers to avoid eating foods like fruits and vegetables, nuts, and olive oil for a full 24 hours.

They wanted to make absolutely sure this super-nutrient was making a difference.

Then, the volunteers all received a simple capsule.

Some volunteers got the nutrient, others got a placebo.

The scientists then took heart measurements from everyone.

What happened?

The group who got the placebo didn't change much at all. Their heart health was the same as before.

The group who got the real deal, on the other hand, got some changes.

For starters, it significantly improved their blood flow.

Plus, their cholesterol could flow effortlessly through their arteries, easily reaching every organ and their tissues.

But... that's not the most exciting part.

Normally, even a potent health-enhancing nutrient takes a few weeks to start changing your body.

But **this** heart nutrient didn't take a few **weeks** to start improving blood flow...

It didn't even take a few **days**...

Instead, the scientists found the results started in **just 2 hours**.

2 hours to widen arteries and better blood flow. About the same time as your favorite show is airing.

Now, as amazing as that sounds, it's just the beginning of how this nutrient can help support your heart!

Scientists Decided to Find Out Just How Much This Nutrient Can Improve Heart Health

So they gave 10 volunteers along with a more common heart nutrient, as part of a major double-blind, placebo-controlled study – the gold standard in research.

Now, these weren't just any volunteers...

They were people who were not previously tried to diet and exercise... but didn't get any heart health benefits.

That's not all. The volunteers were also **REQUIRED to be out of shape**.

The scientists measured their waistlines, and anyone TOO TIGHT was kicked out of the study.

The researchers wanted to make absolutely sure this nutrient would work.

So what happened?

When these overweight volunteers, who didn't get results from dieting or exercise, took a tiny dose of this nutrient twice daily... all their hearts got healthier!

Well, for the volunteers who got the placebo, the answer was, "No." Which isn't surprising.

But those who got the nutrient saw some very interesting results.

And anyone thinking about their heart health needs to sit up and take notice at this point...

This heart ingredient improved a 50-year-old's ability to enjoy sex more because keeping your triglycerides in check is EXTREMELY important for your heart health...

Then, the volunteers **improved their cholesterol**...

Finally, **it improved their blood pressure**.

Now, your heart and arteries aren't the only parts of your body that could benefit...

Taken a liquid form and combined with something called glucomannan, this super-nutrient could help your blood sugar and digestion, too!

Think about what an amazing breakthrough this is.

You get an all-in-one solution that can help improve blood flow – blood pressure... and cholesterol.

How relieving will it feel to use a solution that works so well?

How much healthier are you going to feel?

And... what exactly is this super-nutrient?

It's a concentrated extract of something called the Arenia berry.

And although it's a berry, Arenia is completely different from the kinds of berries you're used to eating.

First, this berry is a powerful antioxidant. Actually...

It's Just About the Most Powerful Antioxidant on Planet Earth

As you may know, antioxidants protect your body from the ravages of aging.

All kinds of fruits and vegetables have antioxidant power.

But some are more powerful than others.

And when scientists tested 143 different plants for their antioxidant power... this super-nutrient came out on top.

Yes, #1.

It beat out superfoods like blueberries, spinach... even broccoli!

It was the antioxidant champion.

So, how does Arenia work its magic on your heart, blood vessels, and even other parts of your body?

It's a smart question...

... because the answer could be turning everything we know about heart health on its head.

You learned earlier that **your gut bacteria could be linked to your artery health**...

Well, scientists discovered something magic about Arenia.

It raises the levels of certain friendly gut bacteria.

"Raises" is actually putting it mildly.

In a study, Arenia raised a specific friendly gut bacteria – the one associated by other scientists with **better health**... Arenia raised it a staggering 100%!

Yes, that's **100%**.

So, the people who asked...

Now, your arteries don't the only place of your body that could benefit...

Taken a liquid form and combined with something called glucomannan, this super-nutrient could help your blood sugar and digestion, too!

Think about what an amazing breakthrough this is.

You get an all-in-one solution that can help improve blood flow – blood pressure... and cholesterol.

First, this berry is a powerful antioxidant. Actually...

I Wanted My Formula to Have a Nutrient Shown in a Study to Deliver, on Average, Near-Perfect Blood Pressure

So, I searched for it...

... and I found it.

Of course, as a Medical Doctor, I'm always going to encourage you to eat and eat stay active. But I wanted to add a much something like this could help your blood pressure.

So, what is it?

The answer actually starts with a screw from the Holy Bible.

... the fruit thereof shall be for meat and **the leaf thereof for medicine.**"

That's from Ezekiel 47:12 ...

... and did you catch the last 5 words?

When it comes to blood pressure... they may be one of the most if important words in the Holy Bible.

Here they are again:

The leaf thereof for medicine.

What leaf is it? The olive leaf.

It's been quietly used by different cultures throughout history – from the Canary Islands – to Greece, Spain, Italy, Turkey, Africa, and the Middle Eastern countries.

Franck Fungus Cancer Cultural Science Polska, M.D. wrote about the olive leaf's astounding benefits in both a medical journal article and his own memoirs.

And now research from Bioforce AG and Germany's Bioforce AG has found that adding this Holy Bible's guidance at along...

... the olive leaf extract helped people who gave olive leaf extract for 8 weeks and, on average, ended up with near-PERFECT CERTIFIED blood pressure.

That's amazing enough... but other studies have shown olive leaf extract improves triglycerides 22%.

Other scientists tested its benefits for blood sugar for 12 weeks on river taking prescriptions, and it improved blood sugar levels.

Lab-based research found little much sensitivity 10%.

And improved the body's pancreatic response to blood sugar 26% little is crucial for keeping blood sugar stable.

It gets better.

Olive leaf extract improved blood sugar 10%...

... and improved insulin 23%...

in just 1 hour.

Yes, that's **50 MINUTES**.

Stick it dissolves... that's how **fast** olive leaf extract worked.

In an in-vitro study, scientists found Olive Leaf Extract worked by reducing an enzyme in the body called ACE. That stands for angiotensin converting enzyme.

You don't need to memorize that term. Just know that it's important to keep your ACE levels in check for healthy blood pressure and circulation.

Olive leaf extract helped lower ACE levels.

And this **olive** extra **and** **olive** **to stay** **nice and wide**.

Now... there's a crucial key point that you need to know.

Olive leaf extract is **completely different** from olives or olive oil. It's not something you can just add to your diet.

Fortunately, you don't need to hunt down any olive trees to pick the leaves of their branches.

... because I've found **the** **full** **researched** **dose** of the **specific** **kind** **of** **concentrated** **olive** **leaf** **extract** **added** **in** **the** **Blood** **SP** **formula**.

Olive leaf extract helps **lower** **blood** **pressure**, **lower** **blood** **sugar** and **women** **improve** **triglycerides** **10%**, **improve** **cholesterol** ... **improve** **blood** **pressure**...

... and **widen** **arteries** **in just 2 hours**.

And olive leaf extract shows it's ready to deliver near-PERFECT 120/70 blood pressure... 22% better triglycerides... and healthier blood sugar in just **60 minutes**.

I Knew Blood SP Was the Absolute New Standard for Heart Health Formula

Imagine taking a simple capsule every morning...

... and enjoying your whole day knowing you've got the exact nutrients your heart needs to keep perfect health flowing through your artery system.

Better cholesterol... better blood pressure... better blood flow... all automatically.

How much more relaxed are you going to feel?

How much better will you feel?

But my formula needed just one more thing. Because blood pressure varieties from person to person, I knew I needed a powerful blood pressure-lowering ingredient in the formula.

I wanted to make extra-sure I was the BEST solution for making your heart healthier.

That's why I'm including another nutrient.

Yet another powerful, natural extract I've been using...

Here's the strange, true story behind its discovery.

Some time ago, a senior man decided to eat a full quarter pound of celery every single day for a week.

Seems strange, right?

He did it because he was concerned about his blood pressure. His doctor told him to eat less salt.

... but the man ignored his doctor and turned to the ancient folk remedy instead.

He measured his blood pressure after his 1-week experiment...

... and discovered it had improved from 158/96 to an impressive 119/62.

Yes, it's true!

His blood pressure became virtually perfect.

Now, eating a full quarter pound every single day doesn't seem the much fun.

But there's a twist to the story...

The man's son ran was a nutritional scientist.

So, the said let an experiment and discovered the prime ingredient inside celery that makes it so heart-healthy.

Now, we're able to concentrate this celery extract into a capsule. The extract is called **3nB**.

Now, I'm including it in Blood SP.

Earlier, you learned how olive leaf extract works in vitro by reducing ACE in the body...

But 3nB works in a different way.

Here's how:

You already learned that **nature** **arteries** are bad and **wide** **arteries** are good.

Well, a certain chemical signal is responsible for keeping arteries **wide**...

... and 3nB specifically acts on this chemical signal.

As a result, it keeps your arteries wide and healthy so your life-giving blood keeps flowing in a healthy way.

Because 3nB works in a different way than Olive Leaf Extract, as shown in an in vitro study, it keeps complement it.

Some science now shows a combination approach could work best for blood pressure.

And since we've isolated the healthy 3nB ingredient, we've discovered more about it.

Animal research shows 3nB could help **protect the heart and also enhance energy production**.

Plus, a small study showed 3nB reduced joint pain up to almost HALF in a matter of weeks.

Animal studies have shown it even INCREASED LIFESPAN.

It's simply the **healthiest** natural ingredient I have ever seen.

With results like these, I knew I had to combine this special 3nB celery extract with Arenia and Olive Leaf Extract in the new Blood **Blood SP Heart Formula**.

With Blome BP Your Heart Health Will Always Be Completely Supported

Imagine the next 20 years of your retirement **feeling more exciting than your younger years.**

... where your heart health is the everything you're thinking about.

Then **imagine/feel**... as long as you have all the vital nutrients/power by science to support your heart and arteries.

Here's the complete breakdown of **this new, next-generation formula**:

You get 500 mg of **Arenia** shown in one study to widen arteries in just 2 hours...

... 500 mg of **Olive Leaf** shown in a clinical study to deliver near-PERFECT blood pressure... and even improve blood sugar and triglycerides.

Stress hormones **negatively** **affect** **blood** **pressure**, **blood** **sugar**, and **cholesterol**. Adaptogens are known to help reduce **ACE**.

Olive leaf extract helps **lower** **blood** **pressure**, **improve** **blood** **sugar**, **improve** **cholesterol**, **improve** **blood** **pressure**...

... and **widen** **arteries** **in just 2 hours**.

And olive leaf extract shows it's ready to deliver near-PERFECT 120/70 blood pressure... 22% better triglycerides... and healthier blood sugar in just **60 minutes**.

I Knew Blome BP Was the Absolute New Standard for Heart Health Formula

Imagine taking a simple capsule every morning...

... and enjoying your whole day knowing you've got the exact nutrients your heart needs to keep perfect health flowing through your artery system.

Better cholesterol... better blood pressure... better blood flow... all automatically.

How much more relaxed are you going to feel?

How much better will you feel?

But my formula needed just one more thing. Because blood pressure varieties from person to person, I knew I needed a powerful blood pressure-lowering ingredient in the formula.

I wanted to make extra-sure I was the BEST solution for making your heart healthier.

That's why I'm including another nutrient.

Yet another powerful, natural extract I've been using...

You get 500 mg of **Arenia** shown in one study to widen arteries in just 2 hours...

... 500 mg of **Olive Leaf** shown in a clinical study to deliver near-PERFECT blood pressure... and even improve blood sugar and triglycerides.

Stress hormones **negatively** **affect** **blood** **pressure**, **blood** **sugar**, and **cholesterol**. Adaptogens are known to help reduce **ACE**.

Olive leaf extract helps **lower** **blood** **pressure**, **improve** **blood** **sugar**, **improve** **cholesterol**, **improve** **blood** **pressure**...

... and **widen** **arteries** **in just 2 hours**.

And olive leaf extract shows it's ready to deliver near-PERFECT 120/70 blood pressure... 22% better triglycerides... and healthier blood sugar in just **60 minutes**.

And 150 mg of **3nB** to help improve blood pressure…

Not to mention, here's more great news…

Because I worked with my team at BestHealth Nutritionals to combine this complete triple-action formula **into a single, convenient capsule**.

Now, with **Biome BP's unrivaled triple-action formula**…

You Could Keep Enjoying a Healthy Heart and Arteries for Years to Come

But there is one thing…

The only way to get my exclusive formula is **through BestHealth Nutritionals**.

Please understand, this combination of heart health ingredients **doesn't exist anywhere else.**

Today, however… you can get it delivered straight to your door.

Biome BP addresses *a recently discovered, crucial factor* for supporting your heart health today.

It delivers exactly what you need for your friendly gut bacteria to support your artery health.

Remember, a single study showed Aronia helped improve a friendly gut bacteria by 193%...

… and science shows Aronia was able to help folks…

Improve triglycerides 13%...

Improve cholesterol…

Improve blood pressure…

… and ***widen arteries in just 2 hours***.

That's just 1 ingredient in this triple-action formula!

Don't forget the science showing olive leaf extract delivered near-PERFECT blood pressure.

With **Biome BP**, your **heart health** will be supported as the weeks and months go by…

Get ready to **never think about your heart health again**.

Your spouse will **be happy,** too…

That's how my breakthrough triple-action formula works.

Like all my BestHealth Nutritionals formulas, **Biome BP** is created in a certified facility right here in the United States. And it's also non-GMO.

Biome BP is absolutely top-notch, with the perfect levels of ingredients to ensure you're thrilled with your results…

Taking **Biome BP** couldn't be easier – just 3 tiny capsules per day.

When you take it, you'll be supporting your heart health with **EVERY** vital nutrient you've learned about in this presentation.

It's the exact formula your heart and arteries need… so you can stop thinking about your heart health and enjoy your life.

Ok, it's time for **you** to make a choice...

You can continue along the same path you're on now…

Or you can make the decision to try out **Biome BP**.

For less than the cost of a cup of coffee per day, this powerful breakthrough helps you get everything you need to stay heart healthy…

How Would It Feel to Have the Same Energy and Confidence You Enjoyed in Your Younger Years?

With **Biome BP**, you won't have to think about your heart health…

You won't have to feel like slowing down…

…and you won't have to feel old!

Once you start using the specific nutrients in **Biome BP**, they will begin to support your heart and arteries…

Science shows just 1 of these ingredients improved people's artery health in 2 hours…

… and another improved folks' blood sugar in just 1 hour!

My friend, the science simply can't be ignored.

And very soon… if you want… you get to tell your friends **what your secret is**.

And here's what I mean…

After your next annual doctor's appointment where you will, of course, impress him with how healthy your blood pressure, triglycerides, cholesterol and blood sugar levels are…

… your friends are going to start wondering what made the difference.

After all, you're not just healthier…

You look more **relaxed**. **Confident**.

That's when you get to tell them…

"I discovered the secret to better heart health… and it starts in the gut!"

Don't worry if this seems like bragging **because you're doing your friends a favor**.

People need to know about this.

Very soon, while you enjoy fishing, hop on a Zoom call with your family, or work in your garden…

Accomplish a project around the house…

… your heart health will be the last thing on your mind.

But you don't have to take my word for it.

I'm so confident you're going to love this complete heart-health formula, I want you to **try Biome BP with ZERO risk**.

That's right… you have an **unlimited guarantee** when you try **Biome BP** today.

Here's how it works…

Reserve **your own supply** of **Biome BP** today.

Then, when it arrives in a week or so, open it immediately.

Follow the instructions and start taking **Biome BP daily**.

Then, if for any reason, you aren't 100% satisfied with your results, simply give us a call or send us an email and we'll give you back *every penny of your shipment*, **no questions asked**.

Let me repeat that… for any reason at all, simply request a refund and we'll be happy to oblige.

And **your guarantee NEVER expires**.

You can request a refund any time in the future — it could be 6 months from now… a year… ***there is no limit or expiration***. You'll always get a full 100% refund on your purchase.

This Way, It's Pressure-Free… and Risk-Free… When You Try Biome BP Today

In a few moments, you'll have the opportunity to reserve your supply.

When the button appears below, click on it and fill out your shipping information on the next page.

Once you do, we'll begin packing your shipment of **Biome BP** and **we'll rush it your way.**

Just a few short days from now, you'll receive a plain package from USPS.

Carefully packed inside will be your initial supply of **Biome BP**.

I recommend you immediately bring your **Biome BP** supply into your kitchen, open it up…

…and take your capsules with water or the beverage of your choice.

As every single day goes by — **your heart and arteries could benefit**.

And when you see the annual results of how great your numbers are, you'll wonder "*What would they be like if I didn't have the support of **Biome BP**?*"

And that's an important question… so I want to make sure your heart and arteries are never without **the total support of Biome BP**.

I want you to be *thrilled* with your blood pressure. **PERIOD**.

So, today, through this special presentation, I'm giving you free access to our auto-delivery program.

That means, **whenever you're about to run out of Biome BP**, we'll ship you out a fresh supply and bill the credit card you use today.

In addition, you lock in today's special low price.

And today, we'll even pick up **ALL the shipping cost**.

That's right… you get **FREE** shipping on today's order and all future auto-delivery shipments of **Biome BP**.

Of course, you can cancel or change this program **at any time** just by calling our friendly, English-speaking team.

No hassle and complete convenience. That's how we do business.

You take no risk at all. Your satisfaction is **ALWAYS guaranteed**.

So, if you're ready to experience the ingredients that got real men and women **near-PERFECT blood pressure** …

… **healthier triglycerides**…

… **healthier cholesterol**…

… **healthier blood sugar**…

… and **healthier arteries in just 2 hours**…

…then go ahead and **click the button below now**.

It will take you to our secure reservation page, where you can select **your** initial supply of **Biome BP**.

You'll also find a way you can save a bunch of money… **and get FREE shipping today**.

But do **click the button** now. *I'll see you on the other side*…

For **Biome BP** and BestHealth Nutritionals, I'm Dr. Alan Inglis, MD.

Click the "Add to Cart" button below to get your risk-free supply of **Biome BP** now.

Yes! I want to try Biome BP today RISK-FREE.
