Special Investigative Report:

"DEAD ON ARRIVAL"

What's suddenly killing America's seniors?

Dear Friend,

Meet Harry "Hank" Bauman, a 72-year-old father of three from Asheville, North Carolina.

Hank's doing fine.

Generally healthy.

Full of life.

Hank recently retired from the dental practice he spent his life with his wife, Sandra, by his side.

Sadly, on March 3rd at 9:45 p.m., Hank took pneumonia-induced cardiac arrest at Charleston's Mission Hospital, leaving his family in utter shock.

There was absolutely no warning... No symptoms...

Nothing.

In fact, he died so suddenly, his wife of 45 years didn't even get a chance to say goodbye.

Another? Yes.

And about 5 years ago, Hankster?

Yes, Hankster.

Hank was the victim of a **DEADLY CRISIS** that is sweeping America, killing seniors at a relentless pace.

Fake Sex...

Don't think for a minute that these folks aren't your "average Joe" acquaintances.

According to American Medical Association records, this killer been an American Ex-EVERY-1 since the Ford Administration. It has been there 284 times every day, 198,432 times every quarter, year after year.

No symptoms.

No warning signs.

No chance to say goodbye.

And if you were born before October 1955, you could be at risk and IMMEDIATELY SEVERE.

In fact, I guarantee you this threat is closer than you could ever imagine.

And here's the part that will sock you to the core:

Most people have NO CLUE this threat even exists...

Because the mainstream media, the government-dominated pseudo-FDA-approved drugs, medicine bullies and sold-out doctors don't want you to know about it.

If that sounds unbelievable, then brace yourself for what you're about to see next.

Because I'm about to show you how these drugs are being forced down your throat **against your country's wise current choices as guinea pigs.**

Yes, I'm talking about Fake Sex.

Fake Sex that's a epidemic. Fake Sex that's a huge threat **to your a-couple-months.**

Fake Sex that's a **DEADLY** crisis that's **stealing your loved ones in the night.**

And what about your **Viagra** special or Cialis? Sorry, you can't have heart-saver pills.

All of these treatments exist and dealers in the shadows are ready to use this moment. Right now... right now.

As you can see, the next few minutes are vital. So let's get started with a look at EF-ed up list of the **Fake Sex** that's killing America.

At the same time, I'm excited to reveal a breakthrough cure — an absolute miracle — that is completely revolutionizing modern medicine.

Think I'm exaggerating? Then consider this:

A Nobel Prize-winner has unlocked a "biological longevity fountain" that helped one patient regrow cancer cells in six weeks... without side effects.

Hate no mistake: These cures can relieve **your current health problems...** helping improve everything from energy level, symptoms, sleeplessness, weight loss, blood sugar, memory, and pain to sex drive, libido, and more.

They're pure cutting-edge, and backed by science.

Safe.

Natural.

Affordable.

Most importantly, they're already saving lives, and you need to know about them today...

For example, did you know there's a new cancer treatment that can **help tackle tumors in just a matter of weeks?**

Or that there's a **Alzheimer** Nobel that can make a huge impact **in just a couple months?**

Or an Alzheimer's breakthrough with the potential to **stop memory loss dead in its tracks?**

And what about your **Viagra** special or Cialis? Sorry, you can't have heart-saver pills.

Make no mistake: This discovery could make Big Pharma's blood pressure drugs obsolete.

Here's why... As you know, the body creates nitric oxide (NO) naturally. And it has many critical roles in the cardiovascular system. Nitric oxide relaxes and dilates blood vessels. It also prevents platelet clumping (stickiness). Part of nitric oxide's important function is to relax and widen the blood vessels. This enables blood to flow freely and lowers your blood pressure at healthy levels.

Nitric oxide also has a "cousin" called "asymmetric dimethylarginine" (ADMA). Unlike nitric oxide, ADMA constricts blood vessels and stiffens them. Too much ADMA in your bloodstream can lead to elevated blood pressure, heart disease and stroke.

Now, here's the key: Your cardiovascular system needs blood pressure to be kept nitric oxide at the proper levels. This way, you can enjoy healthy blood pressure and circulation.

But what's not all that important: The nitric oxide boosters you had more quite a direct difference in some very important cardiovascular risk factors.

For example:

- **72% of subjects with high triglyceride levels saw that they dramatically**
- **Triglycerides levels (fasting) plummeted by up to 50%, with an average drop of 23%**
- **Up to 37% reduction in C-reactive protein (CRP) levels in subjects with elevated levels**
- Plus, more than half the subjects reported **feeling more energetic and less anxious**

No wonder nitric oxide was named "Molecule of the Year"

Now, you've heard about these nitric oxide boosters from mainstream medicine. But DO YOU hear about them from Dr. Atkins?

Well, you will hear about them from the *Vault Anthology of Undergound Cures*.

Because the truth is that they're something to behold. When they're used in the right ways, some remedies and treatments... If you're a loved one is worried about health challenges — cancer, heart disease, diabetes, arthritis, Alzheimer's and more — they could give you the information you've been searching for.

So please, get your free copy today. I will share all the deals with you in a moment, but first I want to warn you...

It's an unusually...

You see, although the drug companies won't let you, there is a secret way to help your cholesterol... a way to lower your blood pressure naturally... a **natural**, safe, fast, remarkable supplement is dried pineapple!

Let me show you WHY this so effective... As you may know, there are two kinds of cholesterol... And there's a ratio between the two that matters. The "good" cholesterol and the "bad" cholesterol.

Pulsicosol is a mixture of compounds extracted from the sweet rooting fruit (or leaves and stems of the sugar apple plant. Now, despite the sweet taste of the fruit, it's rich in fat. Its carrier oil contains fatty acids that can hinder the cholesterol from absorbing.

Not only does pulsicosol help lower "bad" cholesterol, but it increases "good" cholesterol.

Dr. Atkins and his team investigated the effects of pulsicosol in a stable drug on patients who had been taking statin drugs for cholesterol and had experienced side effects from the statins.

Patients took 10 mg of either pulsicosol or the statin drug with their dinners for eight weeks. The results were pretty clear: LDL levels fell 12% and the total fell 9% and HDL rose 7%.

But those in the pulsicosol group beat the statin numbers by 19.3% in LDL levels and by 12% in total cholesterol and they had a 10% increase in HDL.

Not only that, the LDL levels of the statin sub-ecjects didn't improve significantly, the **pulsicosol group increased their HDL (good cholesterol) by 19.7%.**

Remember, HDL cholesterol aids in the removal of "bad" cholesterol from arterial walls, so an increase in HDL is a good benefit.

Fortunately, there is a better way to battle insomnia...

Really, not any better. Just a different, useful, better... Imagine waking up each morning refreshed, energized, and ready to take on the world.

As we age, our bodies change in many ways. One of the changes is an increase in the production of cortisolyzing and melatonin. Now, cortisol is important hormone in the body, especially in the adrenal glands and involved in the regulation of blood pressure.

But, when it's produced in the wrong amounts, it can cause problems. Imagine drinking a cup of coffee late in the day. That's what is happening when our body produces cortisol at the wrong time. Cortisol is an excited about a natural hormone specifically designed to address excess cortisol.

Melatonin is a hormone that helps regulate our sleep patterns. Melatonin supplements are believed to reduce cortisol levels. In addition, the hormone contains vitamin, or herb, used in a deep and in Chinese medicine for over 2,000 years.

The result is a potent sleep formula.

Does it work? Take a look at this...

In a recent study, participants were asked to try this formula for 14 nights. **They were astonished!**

In fact, 97% of the subjects who took the formula as directed, reported that they fell reduced their time it took them to fall asleep, experienced better sleep, and felt refreshed.

Now, this formula is completely natural, so you don't have the gangly worries associated with prescription sleeps. They cannot hurt you, they are suitable and taking as not gotten. A great night's sleep is waiting for you age. But it's particularly important for folks over 50.

That's why I put all the details about this breakthrough sleep formula in a special report... The report is called *Sleep Like a Baby: How to Wake Up Feeling Refreshed and Ready for Life*.

The last part, this is a part of the remedies you'll get details on in HIS Minutes from the Vault Anthology of Underground Cures. Within the Vault contains 16 years of investigative medical reports — over 500 pages of cures that can help you fight cancer, diabetes, arthritis, Alzheimer's and more.

A miraculous new treatment with the power to help fight even the two most "incurable" cancers, pancreatic and mesotoe, as well as 14 more strains of deadly cancer

For all thanks to the pioneering work of Dr. Wilhe Reitzgerald, a brilliant French molecular biologist. Dr. Reitzgerald discovered a new extract from a little-known sandwood tree (called the "tree of life").

Dr. Reitzgerald found that this rare seed this particular plant for pancreatic, sweating to be extraordinary health benefits.

But it was when Dr. Reitzgerald took this extract out of the jungle and into a modern laboratory that the true nature of the magnificent discovery was revealed.

This extract had a shocking ability to fight cancer—helping destroy even the deadliest cancer cells. Dr. Reitzgerald discovered that this extract was so powerful, that he decided to use the extract to help cure his own terminal cancer. Now, he's cancer-free.
