Celebrity Doctor Develops "Restore FX" Hair Growth Protocol So You Could...

Finally, Regrow Thicker, Healthier Hair

Reported to work for both men and women...
Continue BELOW to see incredible REAL results...

Hi, my name is Dr. Allan Spreen, MD...

If you've been told your thinning hair is due to bad genetics…

Or if your doctor said there's just no way to re-grow the hair you've lost…

Then I'm afraid (through no fault of your doctor's)…

You've been LIED to.

For decades, millions of men and women have given up on a fuller, thicker head of hair because they've been told…

If you have a family history of hair loss, there's just no hope for you.

But that all changes today.

Because thanks to **breakthrough research from the world-renowned Tokyo Medical University** I'll show you in the next 35 seconds…

We now believe we have found a TRUE cause of hair loss

It's not genetics…

It's not stress…

It has nothing to do with your hormones…

And best of all…

It can be fixed.

So if you're struggling with **thinning hair**…

Or a **receding hairline…**

You're about to see what could *actually be* behind that frustrating loss…

And how our simple 3-step **Restore FX Hair Growth Protocol** has already worked for the 647 men and women who have given it a try.

Yes, you heard that right.

You, too, could see thicker, healthy, “run your fingers through it” hair growing in

So you won't have to spend extra time in the morning styling your hair *just right* to hide those thinning spots…

Or feel that redness rising in your cheeks when your friends or family make *another* bald joke…

And I'm sure they mean well…

And think making light of your hair loss will make it easier to handle.

But the truth is: When it's your own hair we're talking about, hair loss is NOT funny.

It can be one of the most embarrassing things to deal with.

And no matter how many different treatments you try…

Or hours you spend researching for a solution…

It feels hopeless.

But friend, that all changes today.

With our revolutionary **Restore FX Hair Growth Protocol** you could notice more hair growing in.

So you can finally have the hair you want *and deserve.*

Imagine, instead of watching your hair get thinner and your hairline recede…

You wake up one morning next month, stroll to the bathroom mirror…

And do a double-take!

You're looking at your hair line and the part in your hair… and you can't believe it!

You have new hair growing in

As the days pass… more and more healthy, new strands fill in those thin patches…

…thickening the hair on top of your head…

…filling in your hair line and on the sides…

…with the thicker head of hair you used to have…

And that's not all you notice. You're suddenly getting lots of **compliments** on how you look.

You stop wearing hats…

You stop brushing your hair into that "I hope no one notices I'm balding" hairstyle…

Instead, your friends… family… old acquaintances… and everyone can't stop exclaiming **how great you look**…

You downplay their compliments, not wanting to seem egotistical…

But to be honest: You don't just look great, **you FEEL great**.

Your confidence is back. **100% back.**

In fact, you start making excuses to go out to see friends or have a nice restaurant dinner – **because you're confident you look just as good as you feel**.

Sounds pretty great, right?

Now, I do have to warn you…

There's a chance your friends and family might ask you for your secret…

Because our **Restore FX Hair Growth Protocol** is so powerful, they might not believe *it's all your natural hair*.

And I know it sounds too good to be true.

After all, with the "special" shampoos, messy at-home hair masks, and expensive hair surgeries…

You're right to be skeptical.

But…

This breakthrough solution is different than anything you've tried before

Because it supports hair growth in a **completely new way.**

You see, the medical community has settled on the idea that hair loss is a direct result of genetics.

And if going bald is in your family history…

Or you simply have the wrong genetics…

…there's no way for you to avoid the same fate.

But in 2016, a group of researchers challenged that theory…

To find out *what could be causing your hair to fall out and eventually stop growing altogether.*

So they took a close look at a group of women who suffered from hair loss...

And found something shocking.

This group of researchers found they all have one thing in common…

…damaged hair follicles.

You see, hair follicles are the roots of your hair…

And each strand of hair has its own hair follicle.

Their job is to deliver the necessary vitamins and nutrients your hair **needs** to keep growing strong and healthy.

But as you get older, these hair follicles become damaged.

Causing your hair to become brittle and weak…

Until it eventually falls out.

That's when you get that thin, fragile hair that feels like it's going to break just from combing it…

And you notice there's more and more hair in your shower drain.

Eventually, as the hair follicle ages over time…

…it closes up and stops growing hair for good.

So what is causing that hair follicle damage?

Researchers found every damaged hair follicle was lacking enough of one specific protein, called **collagen 17A1**.

And collagen is the building block of your hair follicles…

Meaning without enough collagen, your hair follicles can't survive

And, unfortunately, as we age, **we lose *a lot* of collagen**.

When you turn 25, your natural collagen begins to **decline**…

And by the time you turn 80, you've lost 75% of your collagen production.

Meaning your hair follicles have lost nearly half of the special proteins they need to stay healthy and continue growing strong hair.

And as a result of this collagen deficiency…

Your hair follicles begin to shrink up…

Causing your hair to become **thin and brittle**.

But this is just the **beginning**…

And as your body continues to lose collagen…

And these hair follicles continue to age…

They eventually close for good.

Meaning **you can stop growing hair all together**.

That's when you get those hard to hide patchy spots, receding hairline, and complete thinning over your entire head.

But friend, there is now hope for you

And I'm so happy you found this presentation today…

In a few minutes I'm about to show you how our simple **3-Step Restore FX Hair Growth Protocol** can help give your body the nutrients it needs for healthy collagen production.

Helping to support healthy hair follicles and **new hair regrowth**.

You can see how this breakthrough research on **collagen could** *completely change everything we thought we knew about hair loss.*

And how your hair loss is not necessarily because of your family history…

Or how much stress you're under…

But a simple, REVERSIBLE deficiency in collagen.

That is causing your aging hair follicles to shrink… and eventually shed your hair.

Now you probably didn't hear about this Tokyo Medical University study revealing collagen as one of the true causes of your hair loss when it was published in 2016.

And your doctor probably didn't, either.

And while it was reported widely by the Japanese media, there wasn't a word about it here in America.

But we were paying close attention.

And when I saw the proof that collagen decline is a **cause of hair loss…**

I began searching for a way to help **reverse collagen loss** and support hair growth.

At first, I thought it would be an easy fix.

Simply take a collagen supplement and voila: healthy, full hair.

Unfortunately, the human body isn't this simple.

You see, when collagen is taken orally, it's broken down by your stomach acid and may not even ever reach your scalp.

So if you've seen collagen supplements or powders, don't be fooled – **these products could be a waste of money.**

The truth is…

…the form of collagen that can best help improve your hair follicles and recover from the damage that's already happened…

…**is the form of collagen your body creates naturally**.

*The **same collagen** you produced when you were younger…*

Back when your hair would blow in your face when you had the windows down in the car…

And when you had to get your haircut every few weeks, *or else your long, thick hair became too much to manage.*

So, since collagen supplements might not actually work…

My team and I spent many months searching for a way to give your body the nutrients it needs for robust collagen production

Helping promote the growth of that **long, shiny, healthy hair** you once took for granted.

And after hours on end of dedicated research…

We've finally found the solution.

Our simple 3-step Restore FX Hair Growth Protocol…

…that gives your body nutrients to support collagen production…

To help you regrow healthy hair.

So instead of hopelessly watching your hair getting progressively thinner…

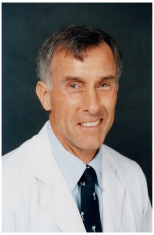
You may notice you're actually growing more hair than before…

Your scalp could start to be less visible through your hair…

In just a moment, I'll tell you everything you need to know about each step of this **hair restoration** process…

…so you can get on track to healthier, thicker hair.

But first, let me tell you a little bit more about myself.



Like I said, my name is **Dr. Allan Spreen**, and I've been a Medical Doctor for well over 3 decades.

In that time, I've seen my fair share of men and women who have *completely* lost their confidence after losing their hair.

So I understand how it can affect your life.

Whether you're avoiding social situations, like meeting up with old friends who haven't seen your *new look* yet…

Or trying all kinds of hats, wigs, or toupees…

Losing your hair sometimes feels like it's taking over your life…

But that changes today.

With our **3-step Restore FX Hair Growth Protocol**, you can now give your body everything it needs for healthy collagen production…

It starts with…

Step 1: Casanova's Collagen Activator, which helps give your body the nutrients it needs for natural collagen production

Then…

Step 2: Hair's Fountain of Youth, which in high doses turns back the clock on your hair, helping support **thicker hair and even more growth**…

And finally…

Step 3: The Strength Extending Compound, which allows your hair to produce the protein it needs to stay strong and healthy for years to come.

Imagine the next time you get your haircut…

And your hairdresser is in awe at **how much more hair** you have since the last time she saw you…

She's going to be begging to know your secret, so she can share it with all of her clients.

And I encourage you to tell her all about the **Restore FX Hair Growth Protocol.**

And how the 3 steps work to help your body produce collagen…

So your hair follicles can produce stronger, thicker, shinier hair

She'll be so impressed.

But you don't have to take my word for it.

Thank you letters have been piling up in my office from men and women who have given this 3-step hair restoration system a try…

Like this one from David M. from Santa Fe, New Mexico who said:

*"Success at last with **The Restore FX Protocol**! After taking it for one month, I now have fine hair on top of my head. You must realize I lost my hair when I was 21. Now I am 81. Any regrowth after 60 years is a miracle. I have tried other products in the past. None have produced any results like **Restore FX**."*

Or Roger P. from Billings, Montana.

*"The **Restore FX Protocol** really works! I have been almost completely bald except the lower area from ear to ear. This already existing hair feels way softer and hair is slowly re-growing in areas I lost them – at last."*

Or Penny P. from Austin, Texas who told me:

*"**The Restore FX Protocol** really works! I've been using it a little over a month and I have stopped losing hair when I wash my hair. It's really noticeable. My hair seems to be thicker. I would recommend **Restore FX** to friends and family."*

And these are just the letters on the top of the stack!

647 of our clients have already used our **Restore FX Hair Growth Protocol** and are coming back for more.

Friend, when I saw these results…

I knew I had to share it.

So today, I'm making this process available to a select group of men and women.

And if you or someone in your life is struggling with hair loss, you need to see the 3 steps in this hair restoration process…

Exactly how they work…

And the scientific studies that show you how each of these steps can help support healthy hair growth…

Are you ready to get on track to thicker, full, strong, healthy hair?

Let's get started with…

Step 1: Casanova's Collagen Activator

After seeing how you lose nearly **75%** of your vital collagen by the age of 80…

Resulting in damaged hair follicles, shedding, thinning, and those hard to hide patchy spots…

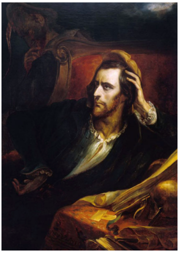
I knew the first step in our hair restoration protocol had to help **stop and reverse this loss of collagen**.

And since simple collagen supplements might not work…

We went searching for a way to help trigger your body's natural collagen production.

That's when we discovered **Casanova's Collagen Activator.**

I'm sure you've heard of Casanova before.



The Italian adventurer known for his womanizing ways and long, thick hair.

But there's something about Casanova that most people don't know…

Something he ate in abundance that could be the real secret behind his long handsome locks…

Oysters.

And its rumored that his love of this shellfish played a big part in his famous head of hair.

You see, oysters contain large amounts of a certain mineral…

Zinc - which could help activate your body's natural collagen production

But unfortunately, just like collagen, your levels of zinc plummet as you age.

And as these zinc levels drop, animal studies have shown that it significantly inhibits collagen production.

Meaning the older you get…

The lower your zinc levels are.

And low zinc levels could mean low collagen production…

…which means damaged, thinning hair.

But luckily there's a simple solution.

You see, once your body has the zinc it needs…

…you'll be well on your way to **supporting a beautiful head of hair.**

But you don't have to take my word for it.

In a study of 66 men and women treated with 5 mg/kg of zinc sulphate for 3 months…

Nearly 60% saw complete hair regrowth after taking zinc

Yes, you heard that right, **complete hair regrowth**.

Meaning almost **all** of the hair that they had lost, or had thinned out, came back in full force.

Now you could try to get all the zinc you need from oysters like Casanova did…

But it's been reported that he ate **50 oysters** every single morning…

And, if you're anything like me, that's **way** too many oysters for one sitting – *much less your daily breakfast.*

Plus, there's another problem…

Animal research suggests that, it's harder for the body to absorb zinc as it ages…

Which is why I went searching for the very best kind of zinc…

That's slightly different than the one used in this study…

But when 50 mg of this special form of zinc, called zinc picolinate, was given to a group of 15 volunteers over 4 weeks…

It absorbed into their system much easier than the other two forms they tested.

Meaning it is the best form of zinc for your body to absorb.

That's why we use 15 mg of zinc picolinate in our **Restore FX Hair Growth Protocol**.

In just a moment I'll tell you exactly how to use it so your body has all the nutrients it needs for healthy collagen production…

Leading to **a boost in hair growth.**

Imagine how you would feel knowing you're growing more healthy hair on your head

No more hopeless attempts with at home hair masks or combing what you have left into the perfect position.

You'll have confidence that **your hair will keep growing**…

Because you know your body is working from the inside out to encourage healthy hair follicles…

Maintaining the hair you have and encouraging regrowth.

In just a moment, I'll show you exactly how you can get on track to this kind of hair regrowth…

But first, I need to tell you about the 2nd step in our **Restore FX Hair Growth Protocol**.

Because while zinc gives your body the nutrients it needs to help produce collagen...

…and **encourage hair regrowth** from the root…

I wanted to make sure your hair comes back **strong, thicker, and most importantly – healthy.**

After all, who wants new hair growth if it's thin, wiry, brittle hair?

That's why we added this next step to our **Restore FX Hair Growth Protocol.**

Step 2: Hair's Fountain of Youth

Friend, this step is essential to turning back the clock, and making sure your new hair growth is **youthful and healthy**.

Think about the hair of most older men and women you know.

For the most part, it's probably a little wiry, thin, and very fine, right?

That's because as we age, our body can't absorb nutrients as well as it used to.

So we went searching for something that would turn back the clock…

And allow you to grow thicker, healthier hair.

And after years of searching we finally found it… **The fountain of youth for your hair…**

It works to help restore essential nutrients to your scalp…

…allowing your hair to **grow longer, shiny, and strong**.

Clinical studies have shown that this natural ingredient helps boost hair quality…

Causing not only additional growth, but **increased thickness and volume,** too.

It's scientifically known as L-Cysteine.

And it's an amino acid found abundantly in sunflower seeds…

But it's also one of the only amino acids that has the ability to form something called "disulfide bonds."

And these bonds are what hold your hair together, giving it its strength.

So more cysteine means more support for disulfide bonds…

Which in turn could mean stronger, more attractive hair.

But it wasn’t until we saw the clinical study on how effective it could be for hair growth…

…I knew we had to include it in our **Restore FX Hair Growth Protocol.**

See for yourself…

In one study, volunteers were given 4 capsules per day of a combination cysteine, methionine, zinc, and copper…

…and saw a **significant increase in hair mass…**

…and an **even higher increase in hair number.**

Meaning…

They not only had thicker, stronger hair, but there was more of it!

Imagine being one of the folks in the study, saying goodbye to those patchy spots…

And thin, stringy strands…

And finally enjoying newfound healthy, abundant hair.

While the study didn’t give the exact dose of cysteine used, we’ve included 200 mg, along with the methionine, zinc, and copper, in what we believe are the perfect doses for supporting healthy hair growth.

Now you’ve seen how **Casanova’s collagen activator**, zinc, works to help encourage collagen production…

…supporting healthy **hair regrowth.**

And how we’ve discovered the **fountain of youth for your hair – cysteine…**

Which was shown in a study to not only help encourage more hair regrowth… but helps it grow in **thicker and attractive.**

These 2 steps of our Restore FX Hair Growth Protocol are everything you need to help restore the minerals your body needs in order to produce collagen…

…and regrow healthy hair.

But there's 1 problem.

You see, while these steps are essential for supporting attractive, new growth…

There's one final thing *necessary* to guarantee you'll have stronger hair *that lasts.*

And friend, with this final ingredient…

Your friends and family will *still* be complimenting you on your healthy, thick hair…

And people will not believe that you have such a youthful head of hair.

You can have all of this with…

Step 3: The Strength Extending Compound

You see, while zinc works to help provide your body with the nutrients it needs for healthy collagen production…

And cysteine works to help give you thicker, healthy hair…

There is something else your hair needs to stay strong and healthy.

It's keratin and its known as a "protective protein".

Meaning it's responsible for helping maintain your hair's quality.

But as we age, we unfortunately begin to lose this keratin… and the quality of our hair along with it.

Take a look at this…

A study published by our own National Library of Medicine found certain types of keratin significantly decline with age.

Meaning your hair follicles could be at a much higher risk of damage the older you are.

So my team and I went searching for a way to help your body naturally produce the keratin it needs…

So you'll have healthy, strong, protected hair

Which is when we found biotin.

It is known to help significantly improve your body's keratin infrastructure…

So your hair can remain strong and healthy.

And trust me, it works.

3 doctors reviewed a whopping 18 different studies in which high doses of biotin were used for hair and nail health.

And every single study showed improvement after receiving biotin.

Friend, there is no denying your body needs biotin in order to produce the keratin your hair needs to remain healthy and strong. And that's why we included 600 mcg biotin in our protocol.

And when combined with **zinc**…

…and the **effects of cysteine**…

You have our complete **3 step Restore FX Hair Growth Protocol**.

And it's natural, so you don't have to worry about it damaging your hair or scalp.

So, how can you take advantage of our **Restore FX Hair Growth Protocol** on your own?

It's easy…

My team and I at **NorthStar Nutritionals** have combined all 3 steps of the **Restore FX Hair Growth Protocol…**

…together into one small, convenient formula.

And through this presentation you can now get your hands on this proprietary **hair-regrowth formula**.

It's the only formula that **combines ALL the ingredients your body needs for healthy collagen production**…

…to support thicker, healthy, new hair…

…and protect your hair from thinning…

No strong smelling shampoos or expensive laser treatments or surgeries…

Just one daily dose of **Restore FX**.

ONLY Restore FX™ has each step you heard about today…

Step 1: Casanova's Collagen Activator, zinc, which gives your body the nutrients it needs for healthy collagen production, preventing thinning, and supporting new hair regrowth.

Step 2: Hair's Fountain of Youth, cysteine, which turns back the clock on your hair, helping give you stronger, healthier hair.

And finally…

Step 3: The Strength Extending Compound, biotin, which helps your body produce the keratin it needs, so you can have healthy, strong locks.

And I am giving you the chance to get your very own supply of **Restore FX** today.

But you can only access your supply through this presentation and NorthStar Nutritionals.

And our supplies are limited, so please don't hesitate to claim yours.

And get on track to NEW full, healthy, shiny hair in no time.

Just take a look at this success story from Ralph P. from San Diego, California:

*"**Restore FX** is awesome - it works! My hair stopped falling out and I noticed small fine hair sprouting. The areas that had hair loss started noticeably filling back in. My hair seems thicker and healthier now. I've been taking it about two years and noticed improvements within the first 30 days of taking it. **Restore FX** has helped boost my confidence. It seems to matter in business too, people don't discount my professional advice as much with fuller, thicker hair."*

Or Kathryn J, from Richmond, Virginia:

*"**Restore FX** is a fabulous product! My hair is much fuller since I started taking **Restore FX**. I have more hair on the top of my head. My hair is stronger and not as fine. I love getting compliments about my hair. It has helped boost my confidence."*

Richard E. from Wilmington, Delaware is experiencing the **Restore FX** difference, too:

*"I have thicker hair, more hair growth in the front, and more hair on top since I started taking **Restore FX** three months ago. More hair, more confidence! I was surprised my hair was growing back!"*

Are you ready for regrowth like this?

In just a moment you'll see an "order now" button appear at the bottom of the screen.

NORTH STAR
Restore FX

Go ahead and click it.

You'll be taken to a secure order form page where you can place your order of **Restore FX** today.

Then, in a few days, a plain box will arrive on your doorstep (we like to keep things discreet)…

Open it up and take out your first bottle of **Restore FX.**

It'll look exactly like this.

Then, start taking it right away!

After all, the sooner you start, the sooner you could be enjoying new hair growth.

You should notice less shedding and thinning…

And there isn't as much hair building up in your drain or brush…

And you'll know it's thanks to **zinc, providing your body with the nutrients it needs** to produce enough collagen and support healthy hair growth.

Soon enough you'll start to feel confident about the way you look again…

Because your hair is filling in, giving you a healthier head of hair.

Thanks to **Hair's Fountain of Youth, cysteine…**

You'll be walking taller, and actually looking forward to social situations you once would've made any excuse to avoid…

You'll be proud of the way you look again…

And I promise, you won't be the only one who notices.

Your friends and family aren't going to believe their eyes… and will be begging to know your secret.

I can't wait for you to see the look on their faces when you tell them it's all natural.

No wigs, plugs, or toupees**, it's 100% you.**

But the best part?

You'll know that these new locks and confidence that come along with it aren't going anywhere.

Because the **Strength Extending Compound biotin** is helping your body produce the keratin it needs so your hair stays thick, shiny, and healthy.

Now I do have to warn you…

Your spouse might even get a little jealous…

Because you're probably going to be getting much more attention from the opposite sex.

Whether it's more over the shoulder glances after you walk by…

Or strangers assuming you're much younger than you are…

This new attention will be something to get used to

But it will all be worth it knowing that your healthy hair isn't going anywhere.

You can have all of this with **Restore FX**.

In just a moment you'll see an "order now" button at the bottom of the screen.

When you click it, you'll be taken to our secure order page, where you can see options for getting **your own private supply of Restore FX**…

But just in case you're still hesitant…

I've included our **100% money back guarantee** on every order…

NORTH STAR
Restore FX
A Dietary Supplement
SATISFACTION
100%
GUARANTEED

So if you're not satisfied with your boost in hair growth, you can simply email or call our English-speaking customer service team…

…and we'll send you a **full refund**, *no questions asked.*

There's absolutely no risk to you.

And the best part is, this guarantee never expires…

So if you decide **Restore FX** isn't right for you 1 month, 3 months, or 3 years from now…

You can still get 100% of your money back

And as a thank you for reading this presentation, and spending time with me today, I have another offer for you.

For a limited time, I'm offering **free shipping** on this order and all future orders.

Plus, you'll be conveniently enrolled in our **free refill system**…

So when you run out of **Restore FX**, my team and I will be alerted and we will send a fresh supply right to your doorstep, simply charging the credit card you use today.

Of course, you can cancel this program at any time.

But I highly doubt you'll ever want to be without **Restore FX.**

Because once you regrow thicker, shinier hair – *you're not going to want to lose it again…*

The way I see it, **you have 2 choices**.

You can go on struggling with your hair…

Going through life trying to hide the thin, patchy spots…

Or you can take action today, and order your very own supply of **Restore FX.**

To me it's a no-brainer.

With **zinc**, giving your body the nutrients it needs for healthy collagen production, helping to support healthy hair growth…

Your hair's own fountain of youth, **cysteine**, that can help make your hair thick, strong, shiny, and healthy…

And the strength extending compound, **biotin,** that helps your body produce the keratin it needs so your hair stays healthy and strong for years to come.

So you'll be confident you're going to have thick, attractive hair.

And people will be in shock when you tell them your *real* age…

Only **you'll** know the truth.

That thanks to the **zinc giving your body what it needs to produce collagen…**

Your hair's fountain of youth **cysteine**…

…and the strength extending compound, biotin…

You've **regrown 100% natural, real hair** that you're proud of.

And remember **Restore FX** is backed by our 100% money back guarantee.

So there's **absolutely no risk to you** for ordering right now.

Go ahead and click the button below now… so you can get on track to that new *run your fingers through it* hair.

For NorthStar Nutritionals, I'm Dr. Allan Spreen, MD.

Thanks for spending time with me today.
