Could These Crystals Be The Blood Pressure Solution You've Been Waiting For?

IN THIS PRESENTATION: Study on 27 adults shows natural ingredient made blood pressure 123/77 in 28 days. Helps improve triglycerides and cholesterol. *Feel more energy*. Finally, a complete heart health solution backed by science…

Hello, I'm Dr. Allan Spreen, M.D.

I want to talk to you today about your blood pressure… and the white crystals you see on your screen.

You see, they have a very special property…

It's something every man and woman in America needs to know about if they're over 55…

You see, these crystals could help improve blood pressure… without waiting months or even weeks for it to happen…

Not even days…

Because these crystals *made blood pressure better in just 3 hours*…

This was discovered in a small scientific study where the crystals were added in juice and drunk by normal men and women.

The same study found that, in just 6 hours, these crystals improved blood pressure up to 11 points.

With results like these, in just a single afternoon, they could have kicked back their feet and smiled, knowing that their blood pressure could be the best it's been in a long time.

Imagine getting results like the study participants.

To put an 11-point improvement in perspective…

A review of multiple studies showed that, on average, exercising **improved blood pressure roughly 3 points**.

It may sound hard to believe, but the science is clear. These crystals help trigger a heart health mechanism that's backed by Nobel Prize-winning research and studies by prestigious universities.

Now, you might wonder why you haven't heard of these crystals before. It's because they FOOLED scientists for decades.

Researchers had no idea they were **the answer** to helping keep a heart healthy.

But we finally know. You see…

The science behind these crystals literally helps keep your heart beating and your blood flow strong…

It's the secret behind your arteries staying wide and open…

It's absolutely vital for every part of your body to get life-giving blood…

And, until now, almost *nobody has thought to use these crystals to improve heart health.*

Not even your doctor. And it's not your doctor's fault. Let's face the unfortunate truth: Virtually all doctors are too busy dealing with patients and insurance companies to stay up to date on the latest scientific breakthroughs.

Plus, for many years, scientists never recommended these crystals because they didn't realize these crystals were good for the heart.

Which is why, as you've tried to keep your heart healthy with solutions for supporting cholesterol and blood pressure… you've completely missed out.

Fortunately, a small group of researchers finally started investigating deeper into the science…

In a small clinical study, they gave men and women teeny-tiny amounts of these crystals in the form of juice…

And measured blood pressure improving in just 3 hours… and improving up to 11 points *after just 6 hours*.

It gets better. Other heart health studies have been completed. And I think the benefits are even better…

Like people feeling more energy…

Healthier arteries…

And in another small study, losing weight.

Imagine impressing your doctor with how much your triglycerides and bad cholesterol improve…

And even feeling better. It's true. In another small study, participants reported actually feeling better.

Imagine feeling more energized… More *alive*

Isn't that what life with a healthier heart is supposed to be like?

Now, 3 American scientists won the prestigious Nobel Prize for this discovery.

Specifically, they found how the body can *send a signal to improve its own heart health…*

And these crystals are connected to that signal.

It's completely changed how science looks at heart health.

As a medical doctor, it surprises me to say this, but if you want…

A healthier heart…

More energy and a better memory…

To ace your next check-up with your doctor…

And to rest easy at night, feeling happier with your health…

Then you need to know about these amazing crystals.

They're natural, edible, and I'll reveal exactly what they are in a moment.

Scientists have discovered these crystals help keep virtually your *entire cardiovascular system healthy…*

Your *veins*…

Your *arteries*…

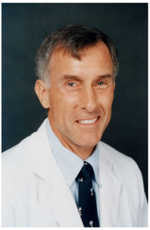
Your *heart*…

It all has to do with a discovery that's backed by 3 Nobel Prizes.

In this presentation, I'm going to show you what these crystals are… *and*… the best way to get your hands on some.

Also, I'll show you another breakthrough that helped participants achieve 123/77 blood pressure on average, in 28 days.

As I said before, my name is **Dr. Allan Spreen, M.D.**



I've been honored to be called **America's "Nutrition Physician**."

I earned the title by dedicating my medical career to finding natural solutions to support maximum health…

I've appeared on **Discovery Health Channel** for my work in groundbreaking medicine.

I was also a competitive diver when I was younger, and I coached for the U.S. dive team in the '96 Olympic games.

And believe me, I know firsthand what it's like to keep your heart perfectly healthy **and how confusing and frustrating all the conflicting advice can be**.

At this time, I've been a medical doctor for 35 plus years...

So yes, I've seen the full spectrum of health… from athletes to 85-year-olds just trying to keep up with their grandkids…

Not only that but… being **70 years young** myself, this is very personal to me.

I have **zero** plans to retire and veg in front of the television.

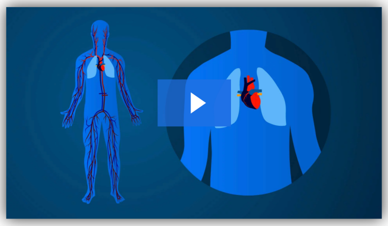
I plan on **squeezing every last drop of adventure and fulfillment out of life** until the good Lord decides to take me.

Here's why I'm delivering you this message:

As a physician, I know I need to keep my heart in tip-top shape if I want to enjoy my Golden Years. I *also* know the mainstream media has accidentally gotten the most common heart health advice DEAD WRONG.

The real secret to better heart health has nothing to do with avoiding cholesterol or fat.

Instead, you need to **focus on your blood flow**.



Here's what that means…

When your heart beats, it pumps oxygen-rich blood throughout your body. At the same time, blood returns back to your heart and lungs to get more oxygen.

This happens 24 hours per day, 7 days per week, for your entire life – even while you sleep.

To work perfectly, this delicate system relies on one thing:

Strong blood flow.

Think of it like a system of highways and neighborhood streets.

If traffic flows smoothly, we can breeze exactly where we need to go.

For this, we need nice, wide roads with plenty of lanes.

Well, it's the same for our hearts. **They need flexible, wide veins and arteries for perfect blood flow.**

And that's where top scientists and 3 Nobel Prizes come in…

They discovered the mechanism that helps control blood flow.

It helps *widen* veins and arteries.

In fact, a small study showed an ingredient that researchers believe uses this same mechanism, created BETTER blood pressure in study participants.

But that's just the beginning.

You see, this Nobel Prize-backed discovery doesn't just help improve blood pressure. It also has the power to improve health in your brain and other parts of the body.

In a small study, participants used this discovery to feel more energy. It even caused weight loss from the belly.

It could even help improve your triglycerides and bad cholesterol.

So, let's dive into what this heart health secret is.

It starts with something called nitric oxide

Nitric oxide is a special chemical that ***signals your blood to flow like an oxygen-rich river!***

With nitric oxide, your blood vessels stay wide and open.

Your eyes, lungs, stomach, limbs, and your brain and heart get **as much life-giving oxygen as they need**.

Which brings up the question, "Well if nitric oxide is so great, why isn't everyone taking it as a pill?"

That's the thing…

Nitric oxide isn't something you can eat or take as a pill.

Instead, your body actually creates **its own nitric oxide**.

When you were young, **you churned out plenty of nitric oxide**.

But that changes as you age…

Unfortunately, scientists estimate that nitric oxide levels can ***plummet 75%*** from the time you're a fit, healthy 20-year-old to a 70-to-80-year-old.

Take a moment right now and ask yourself…

Have you been feeling more fatigued in the last few years?

Have things been more difficult and frustrating in the bedroom?

Are you over the age of 55?

Then, there's a good chance your nitric oxide levels are lower than they used to be.

But here's the very good news…

Scientists figured out how to help raise your nitric oxide levels...

And it has to do with the special crystals I showed you earlier:

It gets better…

Scientists have looked even deeper into the mechanism behind these crystals.

One group created a compound they suggest might work the same way, and they performed a study on it.

They showed it gave study participants near-PERFECT 123/77 blood pressure in just 28 days…

When your heart, veins, and arteries get what they need, the change is going to be very rewarding.

Your arteries could stay **open and flexible**, smoothly delivering blood where it's supposed to go…

Because of this, animal and human research show better blood flow to the **BRAIN, stronger MUSCLES**, and more **energy**.

When life-giving blood flows through your veins, ***you feel the difference***.

Especially in your energy…

Just like when you were younger.

Now, as you learned before, nitric oxide is something your body *makes.*

However, for your body to make nitric oxide, it needs **building blocks**. Basically, your body needs the raw material to make nitric oxide…

And that's exactly what these crystals are:

They come from plants and, for many years, scientists thought these crystals didn't have any heart-healthy effects…

But, finally, some smart scientists in London tested just a little bit on volunteers. They gave the volunteers these crystals in the form of beet juice.

And they discovered the volunteers' blood pressure improved just 3 hours after their first dose!

They also found that in just 6 hours these crystals improved blood pressure up to 11 points.

Remember, a review of multiple studies showed exercising improved blood pressure roughly 3 points.

The comparison speaks for itself.

And scientists theorize it works because your body converts this substance into life-giving nitric oxide.

Imagine being one of these lucky study participants…

You take a swig of a drink, and just 6 hours later you find your blood pressure improving up to 11 points.

I'll show you exactly what these crystals are and the best way to get your hands on them, in a moment. But first, here's something important:

When your body creates more nitric oxide… the benefits are NOT limited to your heart, veins, and arteries. Far from it…

Instead, almost your entire body and even your brain could get healthier…

You already learned how powerful nitric oxide is…

With more nitric oxide, you'll be…

Enjoying more active time, whether that's powerwalking around your block, visiting the neighbors, or working on your backyard garden…

Enjoying some quality time with your spouse…

Planning your next cross-country trip…

And it all starts with these certain crystals.

Okay, as promised, here's exactly what these crystals are.

They're called **nitrate**…

And I used my connections as a medical doctor to source the **best kinds of heart-healthy nitrate available**…

I'm making it **available directly to American seniors** who read this presentation today.

And they easily fit into a little, natural pill you can conveniently take on a daily basis.

NORTH STAR
UltiCardio 24™
Cardiovascular Support†
A Dietary Supplement
120 TABLETS

Which is why I've chosen it as the superstar ingredient in my formula called **UltiCardio 24™**. It's the best solution I've ever seen for anyone who wants to maintain their blood pressure and heart health.

And it's available directly through this presentation. **Beware of imposters** selling unauthorized or inferior quality nitrates.

But when you get the real thing…

You could raise your nitric oxide levels.

You'll never have to think about your blood pressure again. *Ever.*

But there's one more thing. You see… I called it **UltiCardio 24** for a **reason**.

Because it's the ultimate 24-hour solution for supporting virtually your entire cardiovascular system

Your heart, veins, and arteries.

As you learned before, the key to everything is to raise your nitric oxide.

For that, you *start* with a healthy supply of natural nitrates…

But remember that your body must *transform* the nitrate into nitric oxide.

And it turns out another **nutrient might also go through this transformation**. And in my research, I uncovered *exactly what this nutrient is.*

When you use it, you could start feeling so much energy that you start skipping your afternoon **nap** for a fun game of **golf** instead…

And chuckle as you realize you might need to buy some new, slimmer clothes.

This nutrient is a certain kind of **grape seed extract**.

Now… when scientists gave a small amount of this grape seed extract to volunteers (whose ages ranged from 25 all the way to 80)… they improved their BP numbers so much… they ended up **near-perfect**.

The kind of blood pressure numbers that will get you a high-five from your doctor!

And nobody had to wait months and months for these results, either. Instead, they got these blood pressure results in just 28 days.

In fact, the average blood pressure of the participants ***was just 123/77*** at the end.

Imagine being one of the study participants… *and getting a reading like that?*

The scientists believe it's because the specific grape seed extract helps activate the "enzyme for nitric oxide."

So, now we know the truth. If you want better blood pressure, you need nitric oxide.

And like I just mentioned, this meant 123/77 blood pressure in just 28 days for study participants.

Either way, we know perfect blood pressure could be possible.

Now, here's the important thing.

There is only ONE kind of grape-seed extract shown by science to improve blood pressure in just 28 days

It's made right here in the **USA**.

And it's now protected by no less than **3 United States patents**.

(Here they are, if you care to know: U.S. Patents # 7,651,707 B2, 7,767,235 B2, and 8,075,929 B2).

This premium-quality grape seed extract has been studied in 3 double-blind, placebo-controlled human clinical trials.

As a doctor, I can assure you, these clinical trials are the **gold standard** of medical research.

Once I was satisfied with the results, I made sure this grape seed extract was included in my **UltiCardio 24** formula.

Here's my challenge to you:

Make an appointment with ***your* doctor** to have him check your blood pressure…

As he wraps the blood pressure cuff around your arm and starts squeezing the pump…

Get ready to give your doctor the ***biggest surprise of his day***.

Because, right when you feel the cuff deflate and the hissing begins… *you're going to hear your doctor say:*

"Wow! I had to check to make sure it's accurate… but these blood pressure numbers are much better."

Now, here's the thing…

I had the opportunity to go a little "overboard" with this formula… *so you won't need to wait long for amazing results…*

You see, once I reviewed the research about nitric oxide's ability to improve your heart health – I searched for other ways studied to raise your levels.

That's how I found a compound called S7™. It's a special blend of botanicals.

Hardly anyone's heard of it. But a small study on 8 participants showed S7 has the power to help raise nitric oxide levels UP 2.3 times higher.

It gets better…

It was possible to enjoy 2.3 times higher nitric oxide levels just 3 hours after taking just one dose

Of course, I made sure to include a dose of S7 in my formula, so **UltiCardio 24 truly includes the best of both worlds.**

Imagine for a moment walking through life with nitric oxide levels higher than they are now.

Ensuring your tissues get the life-giving nutrients they need…

Both your heart *and* your brain. Think of how clear-headed you could feel, as soon as you wake up in the morning.

You'll have so much fun taking walks around the block, planning a fun cruise vacation, or even a simple visit to your grandchildren… without feeling even a drop of stress.

You can swear you feel more energy.

Use **UltiCardio 24**…

And then get your blood pressure checked by your own doctor.

I can guarantee you, he's going to **congratulate you** on your BP results… *and ask what the heck your secret is!*

It's up to you whether you share it with him or not. *But I'll tell you this*…

That won't be the only surprise you'll both get during your check-up.

Which leads me to the next thing I want to share with you.

So far, we've learned your heart needs nitric oxide to stay in perfect health.

And, if you're over the age of 55, scientists estimate your levels could be much lower than they used to be.

Fortunately, you now have the secret to *make* nitric oxide… and help *raise* your levels up.

But, that's not the only thing you need to do to keep your heart healthy as you get older…

Because you need to keep your heart healthy in the face of 2 major causes of aging.

When you do… the benefits are profound. And I don't toss that word around lightly…

In just a moment…

You're going to see study results that go *way beyond* better blood pressure

I'm talking about improvements in your memory, sleep, energy, and even your waistline.

Your doctor might notice the changes… possibly as soon as they step into the room to examine you.

So, let's quickly cover what to do…

First, you need to know about a hormone in your body called cortisol.

It's often called the "stress hormone" because its levels go **up** when you're stressed…

And it might be why you sometimes feel so tired and your memory is foggy.

Fortunately, there's a certain ingredient that scientists theorize helps lower your cortisol levels. It comes from a plant, and it's been used for thousands of years in India.

More recently, scientists have taken this ingredient and concentrated its healthy properties. It's called Sensoril®.

When scientists gave some Sensoril to volunteers, something unusual happened…

Of course, their hearts got healthier – which they expected.

Their triglycerides improved.

Their bad cholesterol improved almost 17%.

But that was just the beginning…

You see, the scientists wanted to see how else the volunteers got healthier. *And they did…*

They reported their memory improved 57%, and their focus improved 76%…

They said their sleep was 68% more restful…

Their muscle soreness, occasional headaches, and stress dropped by 70%...

And the volunteers even said they felt 80% more energized.

As you can see, the benefits started with their heart… but quickly went way beyond.

Even though the benefits sound too good to be true, the science is very clear.

Scientists believe when your cortisol is balanced, you can deal with stress more easily.

Unfortunately, the opposite is also true. If you don't balance your cortisol, it could affect you almost constantly. You could get more and more tired.

Fortunately, you don't need to worry about this anymore. After reviewing the research, I made sure to include a full dose of Sensoril in my brand-new **UltiCardio 24** formula.

With nitrate for **better blood pressure**…

With premium grape seed extract, which a small manufacturer study showed **gave 123/77 blood pressure in just 28 days**…

S7 which was shown in a small study to raise nitric oxide levels 2.3 times higher in just 3 hours…

And Sensoril to **help balance your cortisol**…

UltiCardio 24 is truly the healthiest heart health formula ever created

Imagine making an appointment to get your cholesterol and triglycerides checked. And, by the time your appointment rolls around, you could already be sleeping better than ever. Like a log.

You could feel energized to take on the day, even before you take a single sip of coffee in the morning…

You could remember words quickly for crossword puzzles until you completely fill them in, and all the clues feel like easy ones…

Even your body has changed. When you get out of bed, you could stretch your arms up and realize your muscles might feel more limber and relaxed.

It's so refreshing when you get to tell your doctor, "I haven't felt like this in years."

Now, let's quickly cover the 2nd part of aging you need to address to keep your heart healthy.

It's **inflammation**.

Now, inflammation is a natural part of your body.

However, inflammation needs to be kept at optimal levels.

Even if you eat right… exercise… and your doctor claims you're fit as a fiddle!

But, here's the good news. Just like we know how to defeat free radical damage… science has cracked the code on keeping inflammation at optimal levels.

The secret is to infuse your body with special healthy chemicals called polyphenols. They're found in certain fruits and vegetables, which is why those foods are so good for you.

Of course, we all know we should eat more vegetables…

But some scientists conducted an interesting experiment.

They created an *extremely potent* blend of polyphenols – concentrating them way beyond what you'd find in a piece of broccoli.

The blend is called FiiT-ns®.

Here's what happened when they tested giving FiiT-ns to some volunteers in a study of 17 people for 12 weeks…

First, all the volunteers recruited by the scientists were overweight with **slow metabolisms**.

They ate a typical diet and were asked to get 30 minutes of physical activity per week… which is barely 5 minutes per day.

Now, this was a placebo-controlled study. So, some volunteers got a sugar pill, and they didn't experience any major changes.

But the men and women who got FiiT-ns got *very different* results.

First, their LDL cholesterol *improved* over 10%...

Their HDL (**good**) cholesterol even went **up** 8%.

Triglycerides **improved** a full 14%. Same with their HbA1c – a crucial marker for blood sugar.

The volunteers even lost almost 15 pounds on average

That's over a pound per week. Remember, they didn't go on any radical diet or exercise program.

Even more amazing was how the volunteers said they ***felt***.

First, they *felt more energy surging through their body…*

Imagine for a moment…

You get a simple bottle of pills in the mail with instructions to start taking them.

After some time goes by, you notice your weight could get lower on the scale…

And your energy starts going up.

Then, at your next check-up, you find out your triglycerides and HbA1c have *improved* too…

And your cholesterol's better.

How is this possible?

Remember, it all comes down to inflammation.

And in the clinical study, the researchers measured how FiiT-ns changed one marker of the volunteers' inflammation.

It *improved* a full 61%.

So, it's no wonder I simply *had to* include a full dose of FiiT-ns in my **UltiCardio 24** formula.

With nitrates for **better blood pressure**…

With premium grape seed extract, which was shown in a small study to deliver **123/77 blood pressure in just 28 days**…

S7 which was shown in one small study to raise nitric oxide levels 2.3 times higher in just 3 hours…

And Sensoril and FiiT-ns to **help keep cortisol and inflammation healthy**…

UltiCardio 24 is truly **the most amazing heart health formula ever created**.

I'm almost ready to show how you can test out **UltiCardio 24** for yourself.

But there's more…

If you want your newfound cardiovascular health to be truly complete…

You also need to keep your arteries flexible

Think of them like a **rubber band**.

Flexibility is *crucial* for the health of your arteries…

The most shocking part?

It could come down to a *single* mineral imbalance…

That's because this mineral can end up in your arteries.

And **your doctor might not know**.

And that's a shame… because **the solution is so simple**…

First, it might surprise you to know this mineral is ***calcium***.

Now, before you throw away your calcium pills, or rummage through your fridge and toss out every container of yogurt and vow to never drink milk again… that's not the solution.

Because calcium is actually very important for your health… **as long as it ends up in your bones after you ingest it**.

But this doesn't always happen. You see, as you get **older**…

Small bits of calcium can get **sent in your arteries instead**.

And to stop this, your body needs help…

But what's the solution?

Specifically…

Your body needs Vitamin K2 and Vitamin D3

This nutrient combo helps keep your arteries healthy.

A decade-long study showed volunteers who reported consuming more K2 had better heart health.

Anyone concerned about *long-term, youthful heart health* **needs both Vitamin K2 and D3**.

Are you getting enough every day? You don't need to worry because I added the full dose – **and the highest quality forms of both** – into **UltiCardio 24**.

With nitrates for **better blood pressure**…

With premium grape seed extract, which a small study showed delivered **123/77 blood pressure in just 28 days**…

S7 which was shown in a small study to raise nitric oxide levels 2.3 times higher in just 3 hours…

Sensoril and FiiT-ns to **keep cortisol and inflammation healthy**…

And Vitamins K2 and D3 for **more flexible arteries**…

UltiCardio 24 is truly **the most powerful heart health formula ever created**.

Now, I understand everything we've covered today is a lot to take in. As I'm sure you know, keeping your heart healthy is not simple. Fortunately, you don't need to memorize any of this.

You see, I've done everything in my power to make this the best heart formula you'll ever see – *and the only one you'll ever need*.

But there's one more thing I did to make this formula extra special…

Most of the people I know who want to improve their heart health, also want to keep their blood sugar perfect. Plus, they want to lose 10-15 pounds.

With that in mind…

I included a final, special ingredient which specifically targets your blood sugar and could support your ability to lose weight

It's called Chromax®.

One clinical study showed it improved insulin sensitivity in just 6 weeks. And after 12 weeks? It improved blood sugar 48%. This was shown in a small study.

But it gets better…

An additional scientific study showed participants in fitness clubs dropped an average of 17 pounds. They took a daily dose of Chromax and recorded their diet and exercise…

Look, it's no secret that your heart health is intimately tied to your weight. That's why I made sure to include a full dose of Chromax in my **UltiCardio 24** formula.

If you're interested in losing *any* amount of extra weight, you'd be crazy not to take advantage of this.

And remember, the FiiT-ns in **UltiCardio 24** also triggered over 14 pounds of weight loss.

Just imagine what both these ingredients will do for you when you take them at the same time.

With nitrates for **better blood pressure**…

With premium grape seed extract, which a small study showed delivered **123/77 blood pressure in just 28 days**…

S7 which was shown in a small study to raise nitric oxide levels 2.3 times higher in just 3 hours…

Sensoril and FiiT-ns to help **keep cortisol and inflammation healthy**…

Vitamins K2 and D3 for **more flexible arteries**…

The essential vitamins B12 and folate…

And Chromax to help support weight loss…

UltiCardio 24 is your secret to a **whole new lease on life**.

Take a look at the nearest calendar and flip just a couple pages over.

That amount of time will disappear in the blink of an eye. And you have a choice.

1. You can simply get a few weeks older. You can keep thinking about your heart health...
2. **Or you can try out my UltiCardio 24 formula. And the same amount of time will go by… but your body could be different.**

You won't need to think about your heart health anymore. You'll be too busy bragging to your spouse about your latest results from your doctor's check-up.

And laughing about how you need to buy some slimmer pants…

This could be your future, as long as you *raise your nitric oxide levels back up*

Fortunately, thanks to Nobel Prize-winning science on nitric oxide, it's finally possible.

Here's the complete breakdown of this **amazing nitric oxide solution**:

You get 917 mg of the **special nitric oxide blend**. This includes the nitrates, the special grape seed extract, Sensoril, and S7.

With this powerful blend, *your body could make more nitric oxide*… Imagine being like the lucky study participants who achieved *123/77 blood pressure.*

You could also enjoy a better memory, more energy, and even better sleep.

900 mg of **FiiT-ns** for keeping inflammation healthy.

45 mcg of **Vitamin K2** and 1000 IU of **Vitamin D3**…

680 mcg of **folate** and 500 mcg of **Vitamin B12**…

And 400 mcg of **Chromax** for blood sugar health and weight loss.

Not to mention, here's more great news…

I worked with my team at NorthStar Nutritionals to combine this complete formula **into a single, convenient pill**.

And when you count up all the individual ingredients in each formula combination…

UltiCardio 24 delivers an astounding 24-ingredient combination, all carefully prepared to keep your heart, mind, and body in perfect health.

But there is one thing…

The only way to get my exclusive formula is right here, right now

Please understand, this powerhouse combination **doesn't exist anywhere else.**

Today, however, **for the first time**… you can get it delivered straight to your door.

UltiCardio 24 addresses every single thing you need for perfect heart health today...

Even the little-known ones…

It delivered 123/77 blood pressure in just **28 days**.

Get ready to **never *think* about your heart health again**.

Your spouse will **stop** thinking about it too…

That's how my **breakthrough formula** works.

And it will work for **you**.

Yes, **even if you've tried other solutions in the past** that disappointed you.

Like all my NorthStar Nutritionals formulas, **UltiCardio 24** is created in a certified facility right here in the United States. And it's also non-GMO.

Taking **UltiCardio 24** couldn't be easier.

When you take it, you'll be giving your heart **EVERY** vital nutrient you've learned about in this presentation. All 24 will be working in your body to keep you healthy.

It's the exact formula you need… so you can stop dwelling and enjoy your life.

Ok, it's time for **you** to make that choice...

You can simply let the next few weeks slip by, just like the last few weeks have. *You can leave your fate to chance*.

I've seen these kinds of cases hundreds of times. You do not want to take this path.

Or you can make the decision to try out **UltiCardio 24**.

For less than the cost of a cup of coffee per day, this powerful breakthrough helps keep your heart healthy…

Like the lucky study participants who got better blood pressure.

How would it feel to have the same health and confidence you enjoyed in your **30s**?

With **UltiCardio 24**, you won't have to think about your heart health…

Once you start using the specific nutrients in **UltiCardio 24**, they will **race** to your heart and arteries…

And deliver exactly what you need for **more nitric oxide and more energy**.

Very soon, you can get what I like to call "the best doctor's visit of your life"

It's when you go in for a check-up, and as your doctor applies the blood pressure cuff to your arm…

You wonder if **UltiCardio 24** has been making a difference.

Sure, you've been FEELING more energy. Your pants are getting looser around your waist. Even your sleep and memory have been better…

But you still wonder what your doctor's going to say when you feel the cuff deflate and hear the hissing.

Will it be some good news?

There's a pause… and…

"Wow! Whatever you're doing, keep it up! These are the best numbers I've seen from you… **I'm not going to see you again for another year**."

You stride out of the office, letting it sink in that ***you don't need to think about your heart health***.

You have the energy for golfing, bowling, working in your garden…

Booking a surprise cruise for you and your spouse…

Don't be surprised if your friends start having trouble keeping up with you!

They may not know why you've got so much more energy, confidence, and even such a sharp memory… but **you** will.

You could keep getting more and more fun reminders that…

Your heart has **everything it needs to stay feeling young and healthy.**

With nitrates for **better blood pressure**…

With premium grape seed extract, which a small study showed delivered **123/77 blood pressure in just 28 days**…

S7 which was shown in a small study to raise nitric oxide levels 2.3 times higher in just 3 hours…

Sensoril and FiiT-ns to help **keep your cortisol and inflammation healthy**…

Vitamins K2 and D3…

Vitamins B12 and folate…

And Chromax to help support weight loss…

UltiCardio 24 has everything your heart needs.

But you don't have to take my word for it.

I'm so confident this formula can improve all your important numbers, I want you to

try UltiCardio 24 with ZERO risk.

That’s right… you have an **unlimited guarantee** when you try **UltiCardio 24** today.

Here’s how it works…

Reserve your own supply of UltiCardio 24 today

Then, when it arrives in a week or so, open it immediately.

Follow the instructions and start taking **UltiCardio 24 daily**.

Then, make an appointment to get your blood pressure checked.

UltiCardio 24
Cardiovascular Support
A Dietary Supplement
SATISFACTION
100%
GUARANTEED

Then, if for any reason, you aren’t 100% satisfied with your results, simply give us a call or send us an email and we’ll give you back *every penny*, **no questions asked**.

Let me repeat that… for any reason at all, simply request a refund and we’ll be happy to oblige.

And **your guarantee NEVER expires**.

You can request a refund any time in the future — it could be 6 months from now… a year… ***there is no limit or expiration***.

This way, there’s no pressure… **and no risk**… when you try **UltiCardio 24** today.

In a few moments, you’ll have the opportunity to reserve your supply.

When the button appears below, click on it and fill out your shipping information on the next page.

Once you do, we’ll begin packing your shipment of **UltiCardio 24** and **we’ll rush it your way.**

Just a few short days from now, you’ll receive a plain package from USPS.

Carefully packed inside will be your initial supply of **UltiCardio 24**.

I recommend you immediately bring your **UltiCardio 24** supply into your kitchen, open it up…

And take your first dose with water or the beverage of your choice.

As time goes by — **your heart, veins, and arteries could get healthier**.

You could even feel the difference in your energy, sleep, and memory.

And when you see the official results of how your numbers have improved, you’ll wonder, “*What would they be like now if I didn’t have **UltiCardio 24***?”

And that’s an important question… so I want to make sure your heart health is never without **the total support of UltiCardio 24**.

I want your heart health to stay *picture-perfect*. **PERIOD**.

So, today, through this special presentation, I’m giving you **free** access to our Auto-Delivery Service program.

That means, **whenever you’re about to run out of UltiCardio 24**, we’ll ship you out a fresh supply and bill the credit card you use today.

In addition, you lock in today’s special low price.

And today, we’ll even pick up **ALL the shipping cost**.

That’s right… you get **FREE** shipping on today’s order and all future Auto-Delivery

Service shipments of **UltiCardio 24**.

Of course, you can cancel or change this program **at any time** just by calling our friendly, English-speaking team.

No hassle and complete convenience. That’s how we do business.

You take no risk at all. Your satisfaction is **ALWAYS guaranteed**.

So if you’re ready for **better blood pressure**…

And a healthier heart, mind, and body…

Then go ahead and **click the button below now**.

It will take you to our secure reservation page, where you can select **your** initial supply of **UltiCardio 24**.

But do **click the button** now. *I’ll see you on the other side*…

For **UltiCardio 24** and NorthStar Nutritionals, I’m Dr. Allan Spreen, M.D.

Click the “Add to Cart” button below to get your risk-free supply of **UltiCardio 24** now.
