Sleep Your Way to HEALTHIER Knees, Knuckles, and Hips

Thanks to exciting research on regenerative sleep science, you could:

1. **Enjoy deep sleep, every night…**
2. **Wake up to "feel-like-new" joints, every morning…**
3. **And infuse your life with energy, zest, and joy…**

See all the proof below…

In the next three minutes, I'm going to reveal exciting research on regenerative sleep science…

And how it could hold the key to you waking up with healthier, more comfortable joints.

So do yourself a big favor, and consider the research I'm about to show you…

As you'll see, this is absolutely real, and it's changing lives in a profound way.

In short, the science on **regenerative sleep** shows two powerful benefits:

I'm talking about deep, restful sleep, every night…

And feel-like-new joints, virtually ache-free, every morning.

As a result, people just like you are enjoying renewed energy, more joy, and the ability to get out and do more of the things they love…

In fact, this breakthrough has folks in their 50s, 60s, 70s, and beyond reporting it works well… and it works fast!

Already, over 18,683 people have experienced ***this solution***, and the reviews are pouring in.

Just listen to what Theo K. has to say:

"I could feel the difference immediately*!"

**Results may vary*

"My knee pain is gone!"

"I can walk 5 miles with no pain!"

"I would put it up there as a natural miracle!!!"

And Walt C. says:

"I'm a true believer!"

Marla S. says:

"I have no pain whatsoever!"

"Amazing!"

You heard that right:

"*Amazing!*"

And it could change your life too.

If you've ever felt your knees ache, hips hurt, or shoulders feel stiff after a long day of physical work… then this solution could be the healing breakthrough you've been longing for.

Listen: I've been an M.D. – *licensed medical doctor* – for over 30 years.

And I've NEVER heard this kind of pure, unadulterated gratitude for any type of joint relief on the planet. No shot. No cream. No balm. Nothing.

Like I said, over 18,000 folks have experienced this breakthrough, and many have written to tell us their own story…

But what about you?

Could this really change YOUR LIFE as well?

Well, given the evidence, I'm confident it could. But let me ask you three quick questions to find out for sure:

> **First: Were you born BEFORE 1966?**
>
> **Second: Do you ever have trouble sleeping?**
>
> **Third: Do you ever wake in the morning after a long day doing physical work, with stiff joints that ache throughout the day?**

If you answered YES to these three questions, then there's just no doubt:

This joint healing solution was made with YOU in mind…

Imagine…

Putting your head on the pillow each night, and slipping peacefully into a deep, restful sleep…

Imagine…

No waking up. No tossing and turning. Just blissful rest…

Imagine after a long day working in the garden or chasing your grandkids around the yard, you lay down in bed with stiff, aching joints, ready to finally get some sleep.

The next day you wake in the morning, and much to your surprise, you're virtually discomfort-free…

No aching knees…

No painful shoulders…

No uncomfortable hips that take 'til noon to warm up…

Yes. That's right…

A deep restful sleep, every night…

Loose, limber, strong joints, every morning…

Imagine how that could impact your day…

Easily bounding out of bed…

Charging up the stairs… working in the garden… sauntering around the block… walking your dog to the park… playing with your grandchildren in the yard!

All without giving your joints a second thought!

Come dinner time, you'll have that "good and tired" feeling… the "ready to relax" sensation you get from a life lived to the fullest…

Best of all: Come bed time, you'll put your head on the pillow, sink into the mattress and drift off into deep, peaceful sleep…

Night… after night… after night…

Sounds like a dream-come-true, doesn't it?

But it's not…

It all comes down the exciting science on how your body repairs itself during sleep…

As you'll see in just a minute, how this could mean your joints could feel virtually discomfort-free when you wake up in the morning.

You won't even know it's happening…

And yet…

If you are longing for deep sleep every night…

If you are desperate for feel-like-new joints every morning…

If you are wanting more energy and zest…

The next few minutes will give you cause for joyous celebration.

Hey, if you're like most folks, you're going to want to share this news with your friends and loved ones.

By all means, please do. They'll most certainly be grateful…

I'll give you the details in a moment. Plus, I'll show you how to try out this joint breakthrough for yourself, risk-free.

But first, allow me introduce myself…

My name is Dr. Allan Spreen, M.D.

I'm Chief Medical Advisor for NorthStar Nutritionals…

I've been an MD for almost 40 years.

Before that, I'm proud to say, I was a competitive diver and even won a few medals.

And although I never competed in the Olympics, I did coach the U.S. Diving Team in the Olympic Games…

I don't mention this to brag. But rather, so you will understand:

Robust physical activity is important to me…

It impacts my energy level… my mood… my happiness… everything.

With that in mind, I'd like to share some striking observations…

Now, if you're in your 30s or 40s, this may not sound familiar. But if you're over 50, I think you can relate...

You see, I'm in my 70s. And in my early 50s, I noticed three things that happened, all at once—and they really hit me hard. I saw this in patients, friends, acquaintances and neighbors:

It seemed like most folks my age were experiencing the same three things.

A "trifecta of aging", if you will…

First: they had trouble sleeping.

Not just trouble getting to sleep, but tossing and turning, looking at the clock, all night long.

Second: so many were waking up with stiff joints that ached all day long.

Ever have that?

If so, you know what comes next: That's right. You're exhausted! Lack of sleep, plus discomfort, takes the life out of you...

Your energy is zapped. Your mood is low. Getting through the day becomes work rather than the joy it should be.

Look. I'm 72 on my next birthday. I'm not ready to throw in the towel and I know full well that nobody else wants to, either.

That's why I decided to do something about it…

I consulted with my team at NorthStar Nutritionals to research the science on how joints can repair themselves…

What we found was truly amazing.

And I believe it holds the power to help change

lives in a profound and lasting way…

Quite frankly, it solves the two of the most pressing issues folks over 50 occasionally experience:

1. Lack of deep sleep that can leave you exhausted
2. Stiff, aching joints that can last all day

And here's the thing: By addressing these two issues, this breakthrough could impact nearly every area of your life: energy, mood, optimism… EVERYTHING.

Imagine putting your head on the pillow tonight, getting a solid eight hours of deep slumber, and waking up in the morning with more comfortable joints…

Well rested. Free of pain. Loose and limber. Ready to take on the day with the vim and vigor you had as a young buck just starting out…

YES. I realize it sounds like a dream come true. It may be a bit hard to believe.

That's why we've made arrangements for you to try this phenomenon out for yourself, firsthand, risk-free.

I'll give you details in a moment. But first, let me show you how it works.

And let's start at the beginning, with what I consider…

The fuel of life!

That's right. I'm talking about sleep…

I think you'll agree: Sleep is vital. Just ask someone who's not getting enough.

Unfortunately, 60 million Americans are sleep deprived!

And as we age, it gets worse…

Some folks resort to sleeping aides.

Completely understandable.

I wouldn't try them myself since I've learned that folks who use various sleep aides have a higher risk of problems.

No thanks. And there's something else…

You see, sleep alone isn't enough…

You need a *special kind of deep sleep* called ***Slow-Wave***…

Slow-Wave sleep occurs deep in the sleep cycle. After dreaming. When your entire body is totally still.

You can't get it by drifting off for an hour or two…

But it's critical that you get Slow-Wave because, when you do, something incredible happens…

You see, during Slow-Wave sleep, your body releases a powerful substance that your body uses for cell growth and repair…

And that includes the bone and collagen that makes up your joints.

That means it can help repair "old joints"

Point is, not only do you wake up rested and ready to take on the day… but you wake up with feel-like-new joints…

I'm talking about more comfortable knees, knuckles, hips, and shoulders!

Sounds impossible, I know…

But before you dismiss it, let's travel back in time to October 14th, 1977…

That's the day biochemist Dr. Roger Guillemin received the ***Nobel Prize in Medicine*** for discovering the peptide production of the brain…

And this is where things start to get incredible…

Further investigation of the brain shows that during sleep, the anterior pituitary gland in your brain releases a polypeptide called ***Somatotropin***…

Somatotropin is a special hormone that helps control tissue growth and repair…

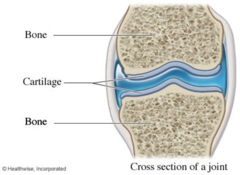
Including the continuous replacement of bone and collagen that make up your joints.

In fact, a small study found that when young men were injected with somatotropin, it helped stimulate the growth of *new cartilage…*

As you may know, cartilage is what cushions and lubricates our joints.

It actually serves as a BUFFER where our bones connect, absorbing the shock of daily activity.

As we get older, our cartilage wears thin, reducing protection from friction in the joint…



Cross section of a joint

That's the occasional pain you feel in your knees, hips, and knuckles…

In short, your joints take a beating every day! Kind of like old, worn-out shock-absorbers…

But remember, *somatotropin* may stimulate the growth of new cartilage…

In fact, the moment somatotropin reaches your overworked joints… it could begin to help repair your old, tired, worn-out joints with fresh, new cartilage!

Yes, that's right. It's like getting new shock-absorbers.

On the flip side, if you don't get enough quality sleep, your body's ability to produce somatotropin can decrease, which could leave your joints without the ability to help repair the normal wear and tear that comes with aging.

And here's the thing…

Your brain can release a very high amount of somatotropin when you are in the deep, spell-like sleep called **Slow-Wave**…

Remember: Slow-Wave sleep only occurs deep in the sleep cycle.

In fact, it's called Slow-Wave because even your brain's electrical frequency slowed to less than 1 hertz…

It's during this spell-like state that your brain releases somatotropin…

Now, you can't get Slow-Wave with an afternoon nap.

And you can't get it if you're tossing and turning all night, looking at the clock every hour or so…

You need long stretches of deep, uninterrupted sleep…

So how do you get to that spell-like Slow-Wave state so your brain can release somatotropin?

I spent over 7 years digging into this question…

I must say, it's a perplexing problem…

The folks at Harvard didn't have the answer we were looking for.

Johns Hopkins didn't either. And neither did the Mayo Clinic.

Sure, they all had an assortment of natural sleep aides everyone has tried...

Nothing quite met our standards…

Until we came across the transcript of an interview given by sleep expert Clete Kushida, M.D., back in the 1990s…

Now, Dr. Kushida was the Medical Director of the world-renowned Stanford Center for Sleep Sciences. He's an absolute expert on sleep and sleep patterns…

What he said in the interview offered up the missing link I'd been seeking. And after some additional research, we came away with a mind-blowing solution…

It is, without question, your first-class ticket into a spell-like Slow-Wave slumber…

This unique substance is called Valerenic Acid (VENA)…

I realize that's a scary-sounding name, but this miracle substance should not be ignored...

You see, VENA is completely natural…

In fact, it's derived from a beautiful, white flower-blossom, found in Europe and parts of Asia.

It actually looks like a magnificent cloud…

Or a giant, fluffy pillow…

Yes, so big and soft that you could just let go…

And sink down into it for a deep, restful sleep, every night…

The great part is, VENA is so gentle, butterflies use it to nourish their young!

Now, VENA has a unique molecular make-up containing 15 carbon atoms, 22 hydrogen atoms, as well as two oxygen atoms.

This one-of-a-kind molecular composition is unlike anything else in the entire universe, and allows VENA to do something absolutely remarkable…

This may sound a bit scientific, so bear with me…

VENA is thought to be a positive allosteric modulator of your brain's **GABA** receptors…

In other words, VENA could activate your **GABA** receptors…

As you may know, **GABA** is a substance produced by your brain. And it's actually a neurotransmitter that can block brain chemicals that keep you awake.

In other words, GABA "switches" off your brain so you can relax and go to sleep.

This is a natural process we are born with.

It's the essence of deep, restful sleep.

You've heard the term "sleep like a baby". Well, it's true. Babies are born with the natural GABA sleep system in place.

Problem is, as we age, GABA levels can deplete.

In fact, a study shows that people with who do not get enough sleep have GABA levels 30% below normal. And it explains why sleep gets harder as we get older.

When GABA levels get too low, it can make it harder to get Slow-Wave sleep…

And less Slow-Wave sleep could mean less somatotropin released to help repair your joints…

But remember, VENA may help activate your GABA receptors…

I repeat: VENA may help activate your GABA receptors!

And when you take VENA in the exact right potency, at just the right dose, it's linked to increased time in Slow-Wave sleep!

That means you could maximize your somatotropin production… the very thing you need to help nourish tired, worn out joints…

Imagine the impact this could have on every area of your life…

Deep restful sleep every night.

I'm talking about deep Slow-Wave slumber that helps rejuvenate your mind and body…

…And helps increase your levels of joint-supporting somatotropin.

Imagine every morning, you could wake-up to "feel-like-new" joints…

Feeling loose, limber, and virtually ache-free!

You know what that means. You can take on the day, every day, with an abundance of energy, joy, and zest for life…

NORTH STAR
LunaFlex PM
A Dietary Supplement
60 CAPSULES

Now, to make it convenient for you, we've put the ideal dose of VENA – 1.8 mg – in a powerful formula called ***LunaFlex PM***$^{\textbf{\textit{TM}}}$…

Already, over 18,683 people have tried **LunaFlex PM**, and hundreds of rave reviews are flooding our offices…

For example, Theo K. was so thrilled after trying **LunaFlex PM**, he sent us a long letter bursting with enthusiasm. This is what he told us:

> "**LunaFlex** is far superior to other joint products that I've tried, I would put it up there as a natural miracle! My knee feels almost back to normal, no pain waking up. I could feel the difference immediately, I thought "this can't be happening!" I've been keeping records of my exercise and progress has been amazing."

Theo's pretty happy! But he's not done yet:

> "You can use me as living proof, my knee feels back to normal, I can walk 5 miles with no pain, play golf and am feeling great! I am afraid to quit using the product, I would not like to go back to the way it was. Thank you."

Thank you, Theo, for your faith and trust.

Of course, Theo's not alone. Not by a long shot. Over 18,600 folks have given **LunaFlex PM** a try. Folks from all over the country…

Just listen to what Walt C. wrote to tell us:

> ***"Thank you for this product. It's great. I'm a true believer! I'm much more limber and feel like I in fact have new joints. I feel like I sleep more soundly, also…"***

Again, over 18,683 people have already tried **LunaFlex PM**.

Marla S. was so delighted, she contacted us immediately to say:

> ***"Amazing! I noticed a difference the very next day. The big difference for me is getting up in the morning. I have no pain whatsoever!"***

Did she say she has no pain whatsoever?

YES! That's exactly what she said…

And I don't blame her for bragging...

Make no mistake: **LunaFlex PM** is changing lives.

And it can change your life as well…

Here are some of the words two folks are using to describe **LunaFlex PM**:

> **"Miraculous!"**
>
> **"Ego-boosting!"**
>
> **"Quick!"**
>
> **"Fast!"**
>
> **"Relief!"**

All it takes is a try. And it doesn't matter if you're 50… or 60… 70, or even over 80 years old.

Regardless of age, God has granted us each with the same promise:

Just one day. From morning 'til nightfall…

Doesn't it make sense to make each day the best it can be?

Rested. Pain free. Full of joy and energy.

Again, don't take my word for it. Try it out and see for yourself.

Yes, that's the prudent thing to do, don't you think?

With that in mind, I've set aside some fresh bottles of **LunaFlex PM**. Seal-wrapped and ready for you to try risk-free.

Please understand: This is your bottle to try at your leisure, risk-free…

I'll tell you how to send for yours in just a moment.

But first, there's something else I want you to know about **LunaFlex PM**…

Something very important…

You see, VENA is not the end of the **LunaFlex PM** miracle.

It's the beginning…

In fact, VENA is only the first of 3 potent ingredients in **LunaFlex PM**…

Alone, each of these substances is remarkable

And that is why we mixed them together, in just the right way, so they can work simultaneously to deliver life-changing joint support…

Literally while you sleep

Literally while you sleep…

Like the studies mentioned above, VENA starts things off by gently lulling the brain into a deep Slow-Wave sleep.

The brain then releases somatotropin, which quickly makes its way to the joints where it begins helping the joint repair process.

Now here’s the great part…

When the somatotropin arrives at the joints – SURPRISE! – it’s going to find two powerful allies, already busy supporting your tired, worn-out joints…

The second substance in **LunaFlex PM** is called ***UC-II Undenatured Collagen***…

This is very important because collagen is the most abundant protein in the whole body. It’s basically the “glue” that holds everything together.

And it so happens that your joint cartilage is made of collagen…

Point is, if you want feel like-new joints, you need prime, grade-A collagen.

Be careful, because not any collagen will do.

In fact, when it comes to **LunaFlex PM**, I insist we use exactly 40mg of UC-II Undenatured Collagen…

That’s because this unique form of collagen provides the building blocks of healthy cartilage.

Amazing…

Think of a construction site. You want to put up a brand-new building, you gotta have the right materials, right?

Otherwise you can’t build anything.

UC-II Collagen is different from other joint remedies.

It contains the amino acids the body needs to help build and repair joint cartilage.

And the results speak for themselves…

In 3 different human studies, UC-II Undenatured Collagen was shown to help improve joint comfort, flexibility, and mobility…

Now, some doctors will tell you that the best way to optimum joint health is to use a combination of glucosamine and chondroitin.

You may have tried this duo yourself…

Good choice!

It works. It works very well, in fact.

But UC-Collagen operates on a whole different level. Remember, you have to provide your body the building blocks for healthy cartilage, if you want optimum results.

And there’s no disputing the evidence…

In fact, in a head-to-head trial, UC-II offered 240% more relief than glucosamine and chondroitin.

UC-II reduced volunteers’ pain scores by 20%... compare that to glucosamine and chondroitin, which only reduced pain by a measly 6%...

That’s 240% more relief!

So if you’ve tried glucosamine and chondroitin in the past with no results, no wonder.

In that same double-blind study comparing UC-II against glucosamine and chondroitin, all patients taking UC-II Undenatured Collagen blew the G+C group out of the water, scoring 3 TIMES higher than the G+C group in improvement of movement, flexibility, less pain and increased ability to perform daily activities.

Look: I don’t know how else to translate those results other than to say:

NO MORE THINKING ABOUT JOINT PAIN OR STIFFNESS!

And with somatotropin being generated while you sleep, combining UC-II Collagen will give you that one-two punch that frees you up to rule the day, from morning ‘til night.

As a medical doctor with over 30 years’ experience, let me make a suggestion:

When you receive your bottle in the mail, I want you to make note of the changes BEYOND the relief of pain and stiffness.

I want you to notice if you have increased energy…

I want you to notice if your mood is lifted…

I want you to notice if your physical confidence skyrockets…

These are the little things that make big differences in life, so pay attention.

And please: I want you to take your time… this is entirely on your schedule.

There’s absolutely no pressure to move at anyone else’s pace. This is your life and you’re the one in charge…

Now, there’s one more substance in **LunaFlex PM**.

And this one is truly a game-changer…

It might surprise you… because it has to do with INFLAMMATION…

As you may know, inflammation can be annoying. It’s just a natural immune response that is designed to help protect your body, but left unchecked it could do more harm than good.

Like, RUST in your gears, grinding everything to a painful halt…

Remember the Wizard of Oz?

Remember when Dorothy and the Scarecrow found the old Tin Man?

Rusted. Stiff. Creaking. Wincing.

The poor guy could barely move!

That’s how our joints could start to get once we hit 50 or so, especially when we overwork them going for a long walk, or doing chores around the house…

Ever had your knees creak when your feet hit the floor in the morning?

Ever feel uncomfortable when you reach for your morning coffee because your shoulder and elbows ache?

That’s inflammation at work—stiffening you up like the old Tin Man.

Point is, you’ve got to balance inflammation if you want to enjoy life

And I do mean ENJOY LIFE…

Remember when Dorothy and the Scarecrow broke out the oil can and got the Tin Man lubricated?

That’s right!

He was immediately transformed from a clunky box of rusty bolts… into Fred Astaire!

Dancing up a storm…

Laughing and smiling…

Skipping down the Yellow Brick Road like a spry teen on his way to the prom!

Loving life all the way…

Remember: With **LunaFlex PM**, you could have a good night’s sleep helping to stimulate somatotropin combined with UC-II Undenatured Collagen providing the building blocks for healthy joints…

But what good are new joints if INFLAMMATION is just gonna muck up the gears?

That why I've included a third substance in **LunaFlex PM**…

It's called ***Humulus lupulus***…

Never heard of it?

That's no surprise.

You see, Humulus lupulus is a plant cultivated in Poland, Albania, and a handful of other locations around the globe.

And it's actually a flower, pretty ordinary in and of itself…

But here's the thing: Humulus lupulus contains a special kind of component…

In fact, I call it ***Alpha Oil***…

Now, don't worry. This is a different kind of oil than the Tin Man used. And when it comes to getting you rocking and rolling, it's even better!

First of all, Alpha Oil has been found to be safe in animals when taken at high doses daily for 4 weeks. And it's so darn good for you when it comes to inflammation…

You see, Alpha Oil was shown in animal and in vitro research to help regulate the COX-2 enzyme production helping curb runaway inflammation.

At the same time, it could help inhibit the GSK pathway and reduce inflammatory markers associated with bone and cartilage.

In plain English: Alpha Oil could help inflammation in a profound and significant way…

Now, if you wake up feeling sore and stiff, you know that even a small improvement could make a difference.

I think you'll agree: Even 5% would help take the edge off.

And a 10% improvement would feel like nirvana… total bliss.

But imagine if YOU could feel like that…

That's what's so incredible about Alpha Oil.

In one study conducted by the creators of a special Alpha Oil, 36 participants with arthritis were given either 1 or 2 grams of Alpha Oil, or a placebo for 14 days...

And by the second day of the study, the folks who got the Alpha Oil reported having less pain and more comfortable joints!

Quite frankly, by taking **LunaFlex PM**, it could be as if you've taken an oil can to tired knuckles, knees, hips, and shoulders!

Plus, as it works while you sleep, you can wake up loose, limber, and raring to go…

Just like the old Tin Man bounding down the Yellow Brick Road, full of joy, glee, and reckless abandon!

Now, let me summarize everything you get in **LunaFlex PM**…

First, you've got VENA, helping lull you into a deep, spell-like Slow-Wave sleep.

Of course, this could give you the "fuel of life"… blissful slumber all night long…

Plus, while in Slow-Wave sleep, the brain is better able to release somatotropin, which has been found to repair your old, tired, worn-out joints.

In addition, you've got UC-II Undenatured Collagen, providing the building blocks for new cartilage like a master craftsman.

And to top it off, you've got Alpha Oil, balancing inflammation, leaving your joints feeling comfortable so you can go strong all day long!

Add it all up, and you could get a deep, restful sleep every night… and wake up to "feel-like-new" joints every morning…

In my opinion, **LunaFlex PM** is a must for anyone over 50 who wants to live life to the fullest deep into their golden years.

And I'm not alone in my thinking…

Already, 18,683 people have **LunaFlex PM**. And the reviews are pouring in. Let me remind you what some folks are saying… Remember Theo?

"I could see the difference immediately!"

"A natural Miracle!!!"

"I can walk 5 miles with no pain, play golf and am feeling great!"

And Walt says:

"Feel like I have new joints!"

"I'm a true believer!"

Marla says:

"It works! I feel amazing!"

"I noticed a difference the very next day."

"The big difference for me is getting up in the morning. I have no pain whatsoever!"

Let me say it again: "**I have NO pain whatsoever!**"

Over 18,683 folks have given it a try, and it can change YOUR LIFE, too.

All you need to do is give it a try…

As I mentioned, I've set aside a few fresh bottles. And I'd like to send on to you, completely risk-free.

That way, you can experience the **LunaFlex PM** magic for yourself.

Just let me know your best mailing address, and keep your eyes peeled!

When you get your bottle, give it a try at your leisure.

NORTH STAR
LunaFlex PM
A Dietary Supplement
60 CAPSULES

Remember, you're the one in charge, and this is entirely on your pace with no pressure or obligation whatsoever…

Give yourself some time to evaluate it properly. After you've had a chance to get a feel for how it works, you can decide later if it's right for you…

I think that makes the most sense, don't you?

I urge you to order your bottle immediately…

Over 100,000 people are seeing this message…

And we only have a limited number of bottles in stock.

First come-first served. And I'd hate to see you miss out…

Let's do it this way…

Go ahead and hit ORDER NOW at the bottom of the page…

The moment you do, we'll send your bottle of **LunaFlex PM**…

When it arrives, I suggest you inspect the bottle to ensure it is properly sealed and fresh.

If all is well, give it a try at your leisure…

You're in for a treat. You might even want to more than one bottle to have your spouse try it at the same time.

Now, what you want to do is take **LunaFlex PM** about one hour before bedtime…

Just one dose before bed each night. That's all it will take…

Now, just lie back and relax…

What you're going to experience is subtle…

It's not going to knock you out instantly like something you might have tried in the past…

You may feel a sense of contentment as you drift-off naturally… headed for deep, Slow-Wave sleep…

Each morning, I want you to pay close attention to how you feel…

Ask yourself these questions:

Did you sleep all night?

Did you wake up feeling fully refreshed?

How do your joints feel?

Are they loose? Limber? Ache-free?

Do you feel as if you've been somehow transported into a new body?

As you go throughout each day, take notice of what you're experiencing…

Is your energy level high? Do you feel like you could go all day?

Be careful not to overdo it because your muscles may not be used to the kind of energy you're ready to unleash…

Is your mood elevated? Do you feel a sense of optimism that's been missing lately?

And finally, how do you feel at the end of the day each day?

Do you have that "good, old-fashioned tired" feeling? The normal kind of "ready for bed" satisfaction you'd expect from a day well-lived?

Go ahead and give it a full month risk-free…

Just take note of your personal experience. At the end of 30 days, I'm absolutely confident you'll be able to say:

> ***"I'm getting a deep, restful sleep every night. And I'm waking up to feel like new joints every morning."***

In fact, I flat-out guarantee your satisfaction…

Remember, over 18,683 folks have already given **LunaFlex PM** a try with incredible results.

Orders are flooding in so fast, we've run out of supply numerous times just trying to keep up with demand.

But if it doesn't work for you, that's ok.

Like I said, this is a risk-free offer.

Just send your **LunaFlex PM** bottle back – even if it's empty – and I'll promptly send you a full refund of your most recent order.

No questions asked. No hassles. Just a big "thank you!" for giving **LunaFlex PM** a try…

Now, you're probably wondering how much **LunaFlex PM** costs…

That's the best part…

Seriously. You're going to be tempted to order a full year's supply for yourself and all of your friends.

And that'd be an excellent idea because, as you'll see on the order form, the more bottles you order, the more you save!

But regardless of how many bottles you decide to send for, know this: You are always protected under my 100% Money Back Guarantee…

LunaFlex PM
A Dietary Supplement
60 SOFTGELS
SATISFACTION
100%
GUARANTEED

That means that if at any time, you are not fully thrilled with **LunaFlex PM** for any reason, simply return your empty bottle and get a full refund of most recent order.

No questions asked.

And get this: I'm so certain that you'll get a good sleep every night, and wake with feel-like-new joints every morning… I'm offering a **NO LIMIT GUARANTEE**…

That means, if in 30 days… or 30 months… or 30 years… you decide **LunaFlex PM** is not for you – for any reason – go ahead and send back your most recent order.

You'll get a prompt and cheerful refund. No questions asked…

I think you'll agree: That's as fair as it gets…

Please click the Order Now button at the bottom of the page.

You'll be taken immediately to our SECURE ORDER PAGE where you can let us know exactly where you want your fresh trial bottles sent…

If you act now, you'll also get a free membership in our auto-delivery service.

That means, not only will you get **FREE SHIPPING**, but our system will automatically alert us when your bottle is about to run out.

That way, with your permission, we can recharge the card you use today, and ship you a new bottle right on time…

Again, you'll get **FREE SHIPPING**.

And of course, it's completely **RISK-FREE**. You can pause or cancel the delivery service at any time. It won't cost you a dime!

One last thing…

As I mentioned, this **LunaFlex PM** Trial Invitation is being seen by over 100,000 people.

Most of these folks are over 50…

And most of them will likely want to try **LunaFlex PM** immediately…

That means I can only make this offer available while trial bottles last…

So PLEASE, do yourself a favor, and order your bottle now.

That way, you can experience **LunaFlex PM** for yourself…

You can see firsthand if you get a deep, restful sleep, every night…

You can evaluate, for yourself, if you wake up with "feel-like-new" joints every morning…

You can gauge your energy levels, and see if they bound off the charts…

You can notice if your mood lifts, leaving you with a sense of optimism…

Keep in mind, this is for YOU. You decide if **LunaFlex PM** is right for you on your own terms. And you are protected by our 100% risk-free, LIFETIME guarantee.

Point is, you can always send your bottle back for a prompt refund.

Give **LunaFlex PM** a try now.

You'll be so glad you did. And that's a promise…

Thanks for listening, I'm Dr. Allan Spreen…

Yes, Dr. Spreen! I want to try LunaFlex PM today RISK-FREE
