Four scientists have unlocked the "weight loss" secret
U.S. Patented Breakthrough Shown on a Study to help Men and Women

Lose up to 22 Pounds in 60 Days

Science-backed secret helps lose 5 full inches of the waist.
INCREDIBLE weight loss.
Don't try to lose weight without this.

Hello, I'm Dr. Alan Spencer, MD.
Imagine a world where you could consumed enjoy drinking a delicious, refreshing soda.
And your body doesn't absorb all of the sugar.
Or where you could indulge in a much relishing slice of deep dish pizza from time to time...
And your body doesn't absorb all of the fat.
Would that be wonderful?
For years, it's been considered the "holy Grail" of weight loss.
Because most people want to have their cake & eat it too. **Most DIETS are failing to do just that.**
And while it may never be possible to fully block all of the sugar and fat you eat...
Thanks to a breakthrough, it has caught the attention of the FDA.
Who's to now chose to making that escape unseen, that is.
Because, **recently**, a group of the scientists who reported a weight loss breakthrough that is also **Patent-Pending**.
Yes, **three other human clinical studies have backed this up.**

Could help stop your body from absorbing some of the SUGAR and FAT in the foods you eat

And, **three other human clinical studies have backed this up.**
Yes, **Clinical Studies have shown people who used it lost 22 pounds in just 60 days**
Let you imagine what a weight loss breakthrough would do for your life and your health?
Where you don't have to worry yourself about your health anymore.
And will reset your weight loss goals.
Friend, it was the weight loss news of the CENTURY.
But you've probably **never heard about it.**
(It's **safe** also, **it's a** natural **** **** ****

Are you glad we did that?

Cissus-Q, the star ingredient in *SelTrim*, helped participants *lose* weight *MUCH faster than the placebo group.*

After only TWO weeks, the Cissus-Q group lost about 5 pounds…

After four weeks, they lost an average of 9.5 pounds…

And at only 8 weeks, they lost an average of 16 pounds!

Meanwhile, at the end of 8 weeks, the placebo group lost only 1 measly pound!

That means in the time it took for the placebo group to lose one pound, the Cissus-Q group had already lost 16 pounds! That's 16X faster weight loss!

Now, you might be thinking, "Is something that works that well actually safe?"

You're smart for thinking that way…

There are so many other so-called "fat burners" out there that just crank up your heart rate and can be dangerous.

That's why I've carefully reviewed all of the research on both ingredients and am happy to say that both natural compounds in ***SelTrim*** are **safe AND effective.**

They don't contain caffeine or other stimulants…

And all of the studies showed there were **no side effects associated with their use**.

Which is why the choice is clear.

After seeing the rock-solid science, I think anyone who tries to lose weight without this… is just plain nuts.

Because **the faster weight loss** compared to the placebo group was shown in a study on the patented Cissus-Q extract alone after 90 days…

And,

Our *SelTrim* formula also includes catechins, so you could improve your metabolism, too

*It's hard to even **predict** the weight you could lose…*

Or how many compliments you'll receive.

But there's only one way to find out…

…and the best way to get your hands on some is right here, *right now*.

Now is your chance to experience the power of ***SelTrim*** and join the other seniors across America who have been delighted by their results…

Like Janet C. from Newark, DE who wanted me to know:

"***SelTrim*** *worked! I noticed weight loss after two weeks of use. It couldn't have been better. I feel like I am getting smaller every day. I am 63 years old and soon will be looking like a 40-year-old.*"

Or Pamela H. from Nashville, TN who said:

"*I am 75 years old and I have been amazed with* ***SelTrim****! I was on it for over a month and I couldn't believe how much I lost in my stomach, my middle, and legs. Thank you!*"

Just imagine…

How would you feel after results like those?

But please understand, this combination formula doesn't exist anywhere else.

No other formula combines the compounds you need to help you lose weight, by…

Partially blocking the enzymes that the body uses to absorb sugar and fat…

And speeding up your metabolism so you burn more calories for energy.

Are you ready to get started?

Before my team and I created this formula, you could come close to getting it ***only* if you were part of my trusted inner circle**.

Today, however, you can get ***SelTrim*** delivered straight to your door.

Taking ***SelTrim*** couldn't be easier: It's just 2 small capsules a day.

So, when your own supply arrives in about a week,

I highly recommend you begin taking *SelTrim* immediately

And after just a few weeks… you could lose some weight while maintaining a healthy, sensible diet and still occasionally enjoying the foods you love.

Your energy could increase…

Your joints might even feel better, now that they're free of the extra weight…

…*and your spouse* won't be able to stop admiring you. Or *touching* you.

Maybe it's time to plan that second honeymoon.

Plus, you've got *catechins* to help increase your metabolism.

In this presentation, you've learned how much easier weight loss could be, when you help partially block the enzymes that cause the body to absorb fat and sugar.

You've learned how **Cissus-Q can speed up weight loss faster**…

You've learned how this extract helped improve study participants' cholesterol, triglycerides, blood pressure, and even **mood**…

…and how a study showed Cissus-Q helped folks experience **up to a 23 pound weight loss in 60 days without adding any exercise or going on a crazy diet**…

You've discovered how **you can help increase metabolism and how study participants lost more weight with catechins**…

You've learned how these catechin compounds helped study participants **lose 30 full pounds in just 90 days**…

…and you've learned how, today, BOTH of these compounds have been *combined for the first time* in history.

So, now you must decide if you want all that fat to stay glued to ***your belly, hips, and thighs***…

…*and your metabolism* to stay sluggish…

…*or do you want* to finally lose the weight, increase your metabolism, and burn more calories for energy?

This leads to 2 very different paths.

The first path leads to where the scale won't budge, no matter how much you torture yourself with treadmill marathons, celery, and baby carrots…

However, the second path can amplify your weight loss efforts so you can finally lose the weight…

And you can still enjoy the food you love.

You won't need to add a bunch of extra exercise to your routine…

You'll feel good…

Your cholesterol, triglycerides, blood pressure, and mood could start to improve simultaneously…

You could drop ***weight***…

…***and you could lose inches*** *from your waist*…

…*and remember, one study showed some of these results started to happen within* ***60 short days!***

Your spouse might ask you what big change you made, after giving you a very long, up-and-down, once over, admiring your trimmer body.

And you can mention *you're getting healthier* as well.

Your blood sugar is staying healthy. So is your blood pressure.

You can rest easy at night. Grab your partner's hand, smile, and remind them how your "numbers" are healthy.

Even your doctor might wonder what your big secret is!

Imagine the next time you go to a party hosted by some relatives or friends.

Get ready for them to start crowding around you and asking…

"What on earth happened… you look amazing!"

SelTrim *is the reason why… **if** you get your hands on some today.*

Or when you're breezing through your day because of all your extra energy… *because your metabolism is burning through calories instead of storing them as fat*…

Or perhaps when you drive to the shopping mall to try on a new pair of pants…

All because of a simple change to your enzymes and metabolism.
