Little-Known Blood Flow Enhancer Effortlessly Helps Give Seniors...

Blood Pressure Like a “25-Year-Old”

Science from Switzerland reveals a true key to improving heart health and blood pressure. Improves triglycerides 13% and supports healthy cholesterol. Another study showed it improved blood flow.

Hello, my name is Christine O'Brien…

… and I have incredible news for men and women over the age of 55 who want to maintain and possibly even improve their healthy blood pressure and cholesterol.

Exciting new research from Switzerland on a unique group of participants has revealed a **natural, turnkey solution** to help…

Keep your blood pressure HEALTHY– a *real* 120/80 that will *stun* your doctor…

Improve your “bad” cholesterol numbers…

…and completely support ***your overall heart health***.

I’m talking much better readings at your next check-up, *but also*…

…actually enjoying **stronger, healthier blood flow** throughout your body.

It gets better. According to the stunning results of an exciting clinical trial…

Study participants achieved an average blood pressure equal to that of a 25-29-year-old, in just 6 weeks. *Even if they were in their Golden Years…*

What I’m about to show you is so powerful ***it’s like getting a second chance at healthier heart health****…*

And you *won’t* have to wait long for all these wonderful results...

You *won’t* have to lie in bed night after night, wondering if your heart will stay strong as you get older…

You *won’t* have to dread a doctor’s visit for weeks and weeks, or think about your “numbers”…

…and you won’t have to bother with solutions that take forever to start working, while you wait and wonder if they are working.

Instead, another study on healthy younger men taking this new solution showed it can start improving blood flow in just **2 hours,** with sustained results after 12 weeks.

Not 2 months or 2 weeks or even 2 days.

Just 2 hours.

That’s right. In the time it takes to watch your favorite movie…

…you could keep **healthy blood pressure** *and* start to *send your “bad” cholesterol levels plummeting downward…*

This has nothing to do with changing your healthy diet

This solution is easy and simple because it’s based on the science of your body’s **blood flow balancing system** – which I’ll explain in a moment.

First, let me fully introduce myself.

Then I’ll quickly cover this urgent research and what you absolutely need to do to **support your heart health**.

As I said before, my name is **Christine O'Brien.** I have the honor of working with Dr. Glenn Rothfeld, M.D.

For over 39 years, he's devoted his life to helping seniors just like you solve their biggest health challenges **and live like they were young again**.

He was honored to be named a fellow at **Harvard University’s** prestigious Channing Laboratory.

More recently, he developed one of America’s first courses on innovative alternative health, for the world-class **Tufts University School of Medicine.**

Today, he practices at his Integrative Medical Center in Massachusetts.

And he's constantly researching the latest breakthroughs for **improving health and longevity.**

That’s how he came across this groundbreaking research from Switzerland.

It reveals how seniors improved their blood pressure **to that of a 25-year-old, on average**…

…while enjoying **HEALTHY** blood flow.

…simply by addressing one special chemical in the body.

And, when you *adjust* this one chemical in a simple way, your blood flow can go from sluggish to a **powerful, life-giving river**.

What's more…

It can begin improving your blood flow in just 2 HOURS

Of course, to get these results, you need to do it the right way…

But don't worry. I'm going to show you exactly how you can use this new science to help **support a healthy heart** faster than it takes to mow the lawn...

Imagine this…

You get home from your latest check-up.

As soon as you close your garage door behind you, your spouse calls out, "How'd it go?"

You don't answer immediately…

…because you'd rather *deliver the news face-to-face*.

So, you find your spouse waiting on the couch. You sit down so you can look each other in the eye.

Then, as you're holding hands, you say…

"Well, you know how I've been feeling so much more energy lately? It wasn't in my head…

"I got my test results…

"My cholesterol's much better.

"My LDL cholesterol improved...

"…and my oxidized cholesterol improved."

As your spouse squeezes your hand and smiles, you continue…

"My blood pressure…well…funny thing…

"***My blood pressure is better***.

"In fact, my doctor said something amazing...

"He said I now have ***the same healthy blood pressure as an average 25-year-old****."*

After breathing a sigh of relief, your spouse looks surprised. "Really? Is that even possible?"

It's a very good question.

Because, up until very recently, the answer for millions of American seniors was **NO**.

But now all that's changed…

Thanks to new, advanced research from Switzerland.

In fact, this breakthrough came from a little-known scientist in Switzerland named Dr. Lüscher…

Thanks to Dr. Lüscher, doctors like Dr. Rothfeld now understand **they've been looking at heart health completely wrong**.

Specifically, they didn't dive deep enough into the **real problem**.

Yes, they know we run into blood pressure concerns as we get older.

Our blood flow becomes sluggish.

The doctor warns us about inflammation.

We get tired…

…but why?

Is it just a fact of aging?

In most cases, yes…but it turns out, **there's now a way to do something about it.**

You see, your body has something called a **blood flow balancing system**.

You need this system to make sure your blood flow is strong enough so all your organs and tissues are nourished…but not **too** strong, because that wouldn't support healthy blood pressure.

This blood flow balancing system is made up of certain natural chemicals that keep your entire cardiovascular system balanced and running smoothly.

You need all of these chemicals to be in balance, to keep your blood vessels open and your blood pressure healthy.

This is the **key** to everything. Because it turns out…

It's *not* salt…

It's *not* fatty foods…

Your age-related blood pressure concerns and your sluggish blood flow could **all come down to this single chemical in your body…*a "blood pressure bogie" that's part of your blood flow balancing system…***

It's called **Endothelin-1**.

We now know about this chemical – and how **it's the key to everlasting heart health** – thanks to Dr. Lüscher's brilliant research.

It turns out, when **Endothelin-1** is released into your bloodstream, it narrows your veins and arteries.

If they narrow too much, you won't have **healthy blood pressure**.

Normally, you always have at least *some* Endothelin-1, which keeps your blood pressure balanced.

But things like stress cause it to slightly rise.

So does aging.

Naturally, if you want better blood pressure and blood flow, **you must keep your Endothelin-1 levels balanced**.

When that happens, your blood pressure…blood flow…and inflammation stay healthy.

When you go to your next doctor's appointment, your numbers could come back better **because your heart health has improved.**

So, how do you do that? *How do you keepEndothelin-1 balanced?*

I'm not about to give you some impossible chore like, "Get rid of all your stress!"

We both know that's just not going to happen.

And, now, you don't need to…

Research from a completely different part of the planet has revealed a "hack" for your body…

Scientists in Eastern Europe discovered a solution that helps **naturally balance "blood pressure bogie" Endothelin-1**…*on the cellular level*.

Not only that…

It literally *reprograms your DNA* to clean up cholesterol

That's right – not only does this solution help **balance Endothelin-1 for healthy blood pressure**…

…but **it can help improve your cholesterol too.**

And it can start improving blood flow in just 2 hours…

The secret is a little-known super-nutrient.

But more scientists are finally starting to take notice…

All the way in London, researchers created a concentrated version of this super-nutrient and gave it to healthy young men as part of a placebo-controlled, double-blind study.

They wanted to see if this nutrient could benefit someone's heart.

Before the study began, the scientists told the volunteers to *avoid* eating foods high in this super-nutrient like fruits and vegetables, nuts, and olive oil for a full 24 hours.

They wanted to make absolutely sure this concentrated form of the super-nutrient was making a difference on its own.

Then, the volunteers all received a simple capsule.

Some volunteers got the nutrient, others got a placebo.

The scientists then took heart measurements from everyone.

What happened?

The group who got the placebo didn’t change much at all. Their heart health was the same as before.

The group who got the real deal, on the other hand, got some dramatic changes.

For starters, it significantly improved their blood flow…

…so their life-giving blood could flow effortlessly through their arteries, easily reaching every organ and their brains…

But…that’s not the most exciting part.

Normally, even a potent health-enhancing nutrient takes a few weeks to start changing your body.

But **this** heart nutrient didn’t take a few weeks or even a few days…

Instead, the scientists recorded some results starting in ***just 2 hours***.

Now, as amazing as that sounds, it’s just the beginning of how this nutrient transforms your heart.

Scientists decided to find out just how *much* this nutrient can improve heart health.

So they gave it to volunteers for two months, as part of a clinical study.

Now, these weren’t just any volunteers…

Some were healthy, and some were men and women who had previously tried to diet and exercise…but didn’t get any heart-health benefits.

So, what happened?

When these overweight volunteers, who didn’t get results from dieting or exercising, took a tiny dose of this nutrient instead…*did their hearts get healthier?*

Well…

Those who got the super-nutrient saw some *very interesting* results.

And anyone concerned about their heart health needs to sit up and take notice at this point…

After two months, their triglycerides dropped a full 13%

Which is amazing news because keeping your triglycerides healthy is EXTREMELY important for your heart…

Then, the volunteers achieved a healthier 131/82 **blood pressure**.

Finally, it **improved their cholesterol**.

If you’re over the age of 55, I’m sure you’ve heard your doctor warn you about keeping an eye on your cholesterol as you get older…

…and I’m guessing you also might be *confused* about which kinds are good and which are bad.

There are only 2 kinds of cholesterol you need to think about.

The 1st is called LDL-C. That’s your **bad** cholesterol.

The 2nd is something that’s hardly ever addressed by doctors. It’s called *oxidized cholesterol*.

Oxidized cholesterol simply means it is cholesterol that’s been aged by free radicals.

You may have heard of free radicals before. They’re formed in the body by things you’d never think of, like pollution and a poor diet, even in healthy people.

And that’s a problem. Because hardly any heart-health solutions address oxidized cholesterol.

Which is a shame because, in Dr. Rothfeld's medical opinion, it is the absolute WORST cholesterol in existence.

It simply doesn’t belong in your body.

Now, here’s the amazing news…

Scientists discovered that participants taking 255 mg daily of this **super-nutrient** improved their LDL-C cholesterol by 11% compared to the placebo group.

That’s not the only part of your body that will benefit…

Another preliminary study found that when taken in a liquid form and combined with something called glucomannan, this nutrient may help *women lose belly fat.*

Now, how could a single nutrient work such magic on your heart, blood vessels, and even other parts of your body?

Earlier, you learned about exciting research from Switzerland.

It showed a chemical called Endothelin-1 that narrows your blood vessels.

You learned how you must keep your Endothelin-1 *balanced* if you want a truly healthy heart.

Turns out, that’s exactly what this **super-nutrient** does.

It lowers Endothelin-1 a full 28% in just 60 days

This causes your blood vessels to *widen*…your blood flow to strengthen…

…and your heart to function **like a much younger heart**.

The science shows blood flow can improve starting in just **2 hours**.

But that's not all it does…

Scientists took a closer look at why it works so well.

In an in-vitro study, they discovered that, in addition to helping to balanceEndothelin-1, this super-nutrient…

Supports a healthier heart at the cellular level.

Specifically, it helps cells at the microscopic level to *reduce "bad" cholesterol…*

Which is how this super-nutrient **improves** your LDL-C "bad" cholesterol by 11%.

That's why this nutrient works so well – and why it succeeds where other solutions for your heart fail.

Okay, as promised, I'll reveal exactly what this **heart-boosting super-nutrient** is right now.

Like I said before, it was created by the researchers in London and it's called **Aronia extract**.

Aronia extract is a super-concentrated version of the *Aronia berry fruit*.

Very few people have heard of this Aronia berry…

…but scientists worldwide sat up and took notice when this berry was tested for its antioxidant power.

As you may know, antioxidants protect your body from the ravages of aging.

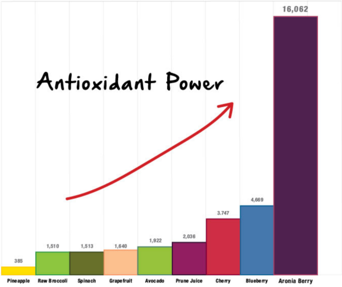
All kinds of fruits and vegetables have antioxidant power.

But some are more powerful than others.

And when scientists tested 143 different plants for their antioxidant power…the Aronia berry was #1.

Yes, #1.

Even compared to superfoods like blueberries, avocados, grapefruits, and more…



It was the *undisputed champion*.

Which explains why **Aronia extract is so powerful at improving blood pressure and heart health.**

Now, before you run out the door to try to find some, let me warn you…

You can't just pick up Aronia extract at the corner store.

Even if you did find some somewhere, you'd likely be spending your hard-earned money on a low-quality version…

But that's not going to help your heart.

You need the **ONE kind of Aronia extract** tested and verified to help support healthy blood pressure.

If you don't get that **exact kind**, *you're not getting the clinically-studied stuff.*

This premium-quality Aronia extract has been verified in 3 double-blind, placebo-controlled human clinical trials.

In one of them, a tiny dose of just 500 mg **improved blood flow in just 2 hours**.

Could you imagine getting REAL results that FAST?

In the trial of 255mg daily I mentioned a minute ago, volunteers on average achieved near PERFECT blood pressure, improved their triglycerides 11%, and improved their cholesterol.

This stuff is just incredible.

Aronia extract is a life-changer for anyone concerned about their blood pressure, cholesterol, or overall heart health.

Yes, this premium Aronia extract could help support **healthy blood pressure and a healthy heart just 60 days from now…**

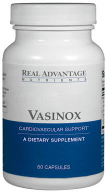
…with some results possibly starting in just 2 hours.

But **you must use this exact kind** – or you won't be getting the right stuff.

That's why Dr. Rothfeld worked with the company that creates this **premium quality "2 hours" Aronia extract**…

…**the same kind** Dr. Rothfeld has been using in his Massachusetts clinic to help my patients support healthy hearts and PERFECT blood pressure…

And he's making it **available directly to American seniors** who read this presentation today.



Make no mistake, this is the exact premium Aronia extract that was shown in one study to **deliver stronger blood flow in just 2 hours**…

Which is why Dr. Rothfeld has chosen Aronia extract as the superstar ingredient in his new heart formula called **Vasinox™**.

Vasinox is the best high-quality solution Dr. Rothfeld has ever seen for any senior who wants a healthier heart.

And it's only available directly through him and his team at Real Advantage Nutrients.

Beware of imposters selling unauthorized or inferior quality Aronia extract.

But when you get the real deal, you're in for some amazing results…

Imagine taking a simple pill…and then moseying over to your microwave to cook some popcorn.

By the time it's done…

…and you press the "Play" button for your favorite movie…

You enjoy yourself, and your blood flow can start improving…*without you even thinking about your heart.*

By the time the credits roll, your blood flow could be **stronger** and your heart could be **healthier**.

In just a moment, I'll show how this can come true for you…

…and how you don't have to spend your Golden Years concerned about your heart.

*First, there's something you need to know about **Vasinox**…*

Dr. Rothfeld wanted to make extra-sure it was the BEST solution for supporting a healthier heart.

That's why he's including another solution.

It's another powerful, natural extract he's been using…

And, even though it comes from a common place, it was discovered in an **uncommon** way…

Here's the strange, true story:

Some time ago, a senior man decided to eat a full quarter pound of celery *every single day* for a week.

Seems strange, right?

He did it because he was concerned about his blood pressure. His doctor told him to eat less salt…

…but the man ignored his doctor and turned to this ancient folk remedy instead.

He measured his blood pressure after his 1-week experiment…

…and discovered it had improved from 158/96 to an impressive 118/92.

After just 7 days.

His blood pressure dramatically improved

Now, even though celery is a common food…eating a full quarter pound every single day doesn't seem like much fun.

But there's a twist to this story…

You see, it turns out this man's own son was a nutritional scientist.

So, he led an experiment and discovered the prime ingredient *inside* celery that makes it so heart-healthy.

Now, we're able to concentrate this celery extract into a capsule. The extract is called **3nB**.

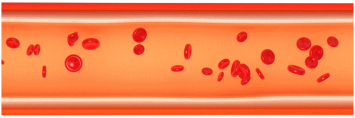
Earlier, you learned how your body has a complete blood flow balancing system.

The Aronia extract works by balancing the "blood pressure bogie" Endothelin-1.

But 3nB works in a different way…

Here's how:

Over time, your arteries can become **narrower**.



It's all because of a chemical signal involving calcium in your blood.

More calcium means more narrow arteries.

It happens to many of us as we age.

But 3nB helps keep this balanced.

It hits the brakes on this chemical signal that narrows your arteries.

As a result, it keeps your arteries wide and healthy so your life-giving blood keeps flowing in a healthy way.

Because it works in a different way than Aronia extract, the 2 natural extracts complement each other.

Science now shows a combination approach generally works best for blood pressure.

And since we've isolated the healthy 3nB ingredient, we've discovered more about it…

Turns out, animal research shows this extract could help ***protect the brain and also enhance energy production***.

An animal study has shown it may even INCREASE LIFESPAN.

It's simply the healthiest natural ingredient *I have ever seen*

With results like these, Dr. Rothfeld knew he had to combine this special 3nB celery extract with Aronia extract in his new clinical **Vasinox heart formula**.

With the special Aronia extract balancing your "blood pressure bogie" Endothelin-1…

…and the 3nB extract expanding your arteries for effortless blood flow…

…you'll have the power of 2 breakthrough solutions working simultaneously to support your blood pressure.

*And your **brain** could benefit as well.*

Then, with your joints starting to feel younger too…

You could be able to dance, work on your garden, your car…go for a fun hike, fishing or canoe trip *without* your body holding you back.

Plus…if the animal results can be replicated in humans…*you could even live longer!*

Now, everything I've told you is going to improve your health and your life in very real ways...

But Dr. Rothfeld still wasn't ready to declare **Vasinox** a *total* heart solution.

It needed something else…

…and at this point, I need to give you an important warning:

Once you widen your arteries and get your blood moving like when you were young, *your arteries are still vulnerable to something else*.

As you get older, **they can become stiff**.

Here's why you need to know about this:

Think of the difference between a brand-new rubber band and an older one.

You can stretch and bend the new band.

The old one is harder and less pliable and fragile.

Your blood vessels are the same way.

It's all because **calcium** – the mineral that makes bones strong – can make your arteries *stiff*.

The more calcium that gets in your arteries, the stiffer they get.

And the older you are, the more this happens…

Here's why you need to know about this:

Researchers at the Cedars-Sinai Medical Center measured the level of calcium in the arteries of 10,377 people.

And the younger volunteers with higher levels of calcium in their arteries *had an increase in their biological age up to 30 years*.

But here's the challenge: You can't just get rid of calcium because you need it for strong bones.

Fortunately, there's a pair of vitamins that, when combined, **help reduce the calcium from your arteries.**

As a bonus, they then move this calcium **into your bones where it belongs** *–to help make them stronger.*

This was shown in a study out of the prestigious Keio University School of Medicine in Japan.

Almost one hundred women between the ages of 55 and 81 took part.

And just by taking this pair of vitamins, ***their bones got stronger***.

It was all that calcium getting into their bones.

The vitamins are**K2 and D3**.

Almost **nobody in the United States** has enough of them.

That's because it's almost **impossible** to get enough through your regular diet.

The Japanese, on the other hand, have a unique diet with plenty of K2.

They have the longest lived women in the world. And only *20% of the heart concerns we do*.

Dr. Rothfeld is certain this vitamin combo is a big reason why.

After verifying the science, he *knew* he had to include the special Japanese secret to heart health in his new formula.

That's why he made sure to include 180 mcg of Vitamin K2 and 2,000 IU of Vitamin D3 in **Vasinox**.

You'll have the triple-action of **Aronia extract** balancing your Endothelin-1…

And the **3nB extract** to help maintain wide, open arteries…

So you can enjoy improved blood pressure, better triglycerides, and better oxidized cholesterol

Plus vitamins K2 and D3 keeping calcium from your arteries and putting it into your bones where it belongs, *strengthening them.*

Now, with ALL these ingredients working for your heart, you might also start improving your blood flow starting ***in just 2 hours…***

Imagine the thrill of your doctor telling you just 60 days from now, "Your cholesterol and triglyceride levels are SO healthy."

"**And your blood pressure's looking better!** Whatever you're doing, keep it up."

And you get the **reassurance** of knowing your arteries will stay *springy* and *flexible* like when you were young.

Finally, because these ingredients all address the *root concerns* of your heart, **you'll truly get to experience better heart health.**

Once Dr. Rothfeld brought all these ingredients together, he knew **Vasinox** was *almost* ready…

He knew it was **already** light years beyond typical treatments for heart health.

And there's NOTHING else like it available…*anywhere*.

But there was one FINAL thing it needed…

Think about when you've tried other solutions for your heart…

How many times did you **actually feel a *real* difference?**

I'm guessing NEVER.

In fact, sometimes I bet you've felt like they *drained energy from your body like someone stuck a needle in you and sucked your life out of you*.

There's a reason for that…

When you were young, you *always* had energy because of something in your body called **ATP**.

Think of it like the electricity of your body.

ATP is vital for your brain and it powers your muscles to move – including your heart to beat.

The way your body creates ATP is complicated, but I'll show you just what you need to know.

A vital part of the process involves an enzyme called **CoQ10**.

Once you're older than 21, your CoQ10 levels ***plummet down***…

…and your ability to create energy decreases.

This can even impact your body and your heart.

Remember, it must pump blood 24 hours per day, 7 days per week – even while you sleep.

It needs **constant** energy to keep up with demand.

The answer is to help restore your CoQ10 levels **so your body has the nutrients it needs to create energy like when you were young.**

Multiple clinical studies show that, when you do, *your energy can boost back up* and your heart can feel strong as ever.

That's why Dr. Rothfeld completed the **Vasinox** formula with a full 50 mg of CoQ10.

With the help of Vasinox, EVERY piece of your heart health will be supported.

When Dr. Rothfeld completed this breakthrough formula…

He knew **Vasinox** was the **complete solution.**

The science is undeniable…

With Aronia extract balancing your Endothelin-1 for **healthier blood pressure**…

The 3nB extract expanding your arteries for **improved blood flow**…

Vitamins K2 and D3 **moving calcium from your arteries** and putting it into your bones where it belongs…

…and CoQ10 providing nutrients to ***energize* your heart** – ***and your entire body***…

…all carefully selected because of the results **verified** by breakthrough science…

You'll have absolutely everything you need to support your heart health…and *feel youthful*… for decades to come

Imagine enjoying a retirement that lasts more years than you can believe.

But instead of years slipping by, you fill them with every **exciting adventure** you've been meaning to experience...

And doctor's appointments and trips to the pharmacy? They're the *last* thing on your mind.

This can be your future, as long as you have *all the vital nutrients* your heart's starving for.

Here's the complete breakdown of the **groundbreaking 2-hour solution in Vasinox**:

You get 500 mg of **Aronia extract** to help balance your Endothelin-1, which can unleash better blood flow in *2 hours*…and support healthier blood pressure…

300 mg of celery extract**3nB** to help improve your blood pressure…

180 mcg of **Vitamin K2** and 25 mcg of **Vitamin D3** to help keep calcium levels healthy in your artery walls…

And 50 mg of our **premium-quality CoQ10** for *a strong heart and the building blocks of energy.*

Dr. Rothfeld worked with our team at Real Advantage Nutrients to combine this complete 5-ingredient heart formula into a single, convenient formula– **Vasinox**.

Now, with **Vasinox's unrivaled heart-health formula**…

You could enjoy a healthier heart for decades to come…possibly starting in just 2 hours.

But there is one thing…

The only way to get Dr. Rothfeld's exclusive formula is **right here, through Real Advantage Nutrients**.

Please understand, this unique combination of heart-health superstars **doesn't exist anywhere else.**

Before he created this formula, you could come close to getting it only **if you were a patient at his clinic outside Boston**.

Today, however, **for the first time**…you can get it delivered straight to your door.

That's because **Vasinox** contains premium ingredients that have been researched and formulated by some of the most brilliant scientists and researchers on the planet.

It’s not just safe – it’s one of the HEALTHIEST things you could ever do for your heart, when combined with a healthy diet and normal exercise routine

Vasinox addresses the worst challenges facing your heart health today...**and helps protect you from them all**.

One study shows you could start to improve blood flow possibly in as little as**2 hours**.

And your **blessed heart health** can get *better and better* as the weeks and months go by…

With everything **Vasinox** provides to support your heart health…

Get ready to **never think about your heart health again**.

Plus, be ready for all the extra energy you’ll feel.

That’s how Dr. Rothfeld's **breakthrough 5-combination formula** works.

And it can work for **you**.

Yes, **even if you’ve tried other remedies in the past** that failed to improve your “numbers.”

Like all our Real Advantage Nutrients formulas, **Vasinox** is created in a certified facility right here in the United States. And it’s also made with premium, non-GMO ingredients sourced from around the world.

Vasinox is absolutely top-notch, with the scientifically-backed ingredients to ensure you see fast, lasting results…

Taking **Vasinox** couldn’t be easier – just 2 tiny capsules per day.

When you take it, you’ll be helping protect your heart health with **EVERY** vital nutrient you’ve learned about in this presentation.

This is the exact formula your heart is begging for…so you can stop worrying and enjoy your life.

Ok, it’s time for **you** to make a choice...

You can continue along the same path you’re on now *and leave your fate to chance*.

Dr. Rothfeld has seen these kinds of cases hundreds of times. **You do not want to take this path**.

Or you can make the decision to try out **Vasinox**.

For less than the cost of a cup of coffee per day, this powerful breakthrough gives you everything you need to stay heart healthy…

With **Vasinox**, you won’t have to think about your heart health…

You won’t have to “take things easy” or stop doing the fun things you love…

…and you won’t have to feel old, stressed, or tired!

Once you start using the specific combination of nutrients in **Vasinox**, they will **race** to your heart and arteries…

…and deliver exactly what you need for **better cholesterol, improved blood pressure, more energy, and a healthy heart**.

And very soon, you can get what I like to call “**the best doctor’s visit in your life**.”

It’s when you visit your doctor and get all your numbers measured…

…and you can’t decide what’s better…

Either hearing that your cholesterol, blood pressure, and triglycerides are the best they’ve been in YEARS…

…or getting to drive home and tell your **spouse** the same good news.

Especially when you get to *celebrate* that night.

Because your heart health is supported.

And you get to take advantage of the latest in science.

As a physician, nothing makes Dr. Rothfeld happier than helping you get there…

Helping you go back to enjoying your life to the fullest again, like you've always been meaning to…

Without thinking about your heart health.

Feeling enough energy to go hiking, fishing, or work in your garden…

Go on that vacation you've been putting off, or even work on a project around the house…

Dr. Rothfeld LOVES it when his patients tell him all the fun things they've been up to over the last year.

And he makes sure his local patients need to see him ONLY once a year.

Because their hearts finally have **everything they need to stay healthy.**

That's why Dr. Rothfeld is so proud to finally offer **Vasinox** to you.

Because he knows it's going to do everything you heard about today, and more.

But you don't have to take my word for it.

Dr. Rothfeld is so confident this formula is going to transform all your important numbers, he wants you to **try Vasinox with ZERO risk**.

That's right…you have an **unlimited guarantee** when you try **Vasinox** today.

Here's how it works…

Reserve **your own supply** of **Vasinox** today.

Then, when it arrives in a week or so, open it immediately.

Follow the easy instructions and start taking **Vasinox daily**. It's just two tiny capsules you can take with water or some juice.

Then…**do absolutely nothing else**. *That's right…*

Just take **Vasinox every day**.

Your blood flow could start to improve in just 2 hours.

After **just 60 days** of regular use, make an appointment to get your blood pressure, cholesterol, and triglycerides checked.

Then, if for any reason, you aren't 100% satisfied…

…simply give us a call or send us an email and we'll give you back *every penny*, **no questions asked**.

DOCTOR ROTHFELD'S
ANYTIME
UNLIMITED GUARANTEE
100% SATISFACTION
NO QUESTIONS ASKED
UNLIMITED GUARANTEE

Let me repeat that…for any reason at all, simply request a refund and we'll be happy to oblige.

And **your guarantee NEVER expires**.

You can request a refund any time in the future — it could be 6 months from now…a year… ***there is no limit or expiration***.

This way, there's no pressure…**and no risk**…when you try **Vasinox** today.

In a few moments, you'll have the opportunity to reserve your own supply.

When the button appears below, click on it and fill out your shipping information on the next page.

Once you do, we'll begin packing your shipment of **Vasinox** *and we'll rush it your way.*

Just a few short days from now, you'll receive a plain box from USPS.

Carefully packed inside will be your initial supply of **Vasinox**.

I recommend you immediately bring your **Vasinox** supply into your kitchen, open it up…

…and take your first dose with the beverage of your choice.

Starting in just 2 hours — **your heart and arteries could be on their way to feeling younger and stronger**.

You might even feel your energy rise.

And when you see the official results of how your numbers have improved, you'll wonder "*What would they be like now if I didn't have **Vasinox**?*"

And that's an important question…so I want to make sure your heart is never without **the total protection of Vasinox**.

Because if you stop taking **Vasinox**, there's **a very real chance** all the heart-health benefits I've told you about today could disappear.

I don't want that – I want your heart to stay *picture-perfect*. **PERIOD**.

So, today, through this special presentation, I'm giving you **free** access to our auto-ship program.

That means, **whenever you're about to run out of Vasinox**, we'll ship you out a fresh supply and bill the credit card you use today.

And today, we'll even pick up **ALL the shipping cost**.

That's right…you get **FREE** shipping on today's order and ALL future auto-shipments of **Vasinox**.

Of course, you can cancel or change this convenient program **at any time** just by calling our friendly, English-speaking team.

No hassle and complete convenience. That's how we do business.

You take no risk at all. Your satisfaction is **ALWAYS guaranteed**.

So if you're ready for better blood flow **starting in 2 hours**…

…**healthy and flexible arteries, more energy, and better cholesterol and the blood pressure** *of a robust 25-year-old…*

…then go ahead and **click the button below now**.

It will take you to our secure reservation page, where you can select **your** initial supply of **Vasinox**.

You'll also find a way you can save a bunch of money…**and get FREE shipping today**.

But do **click the button** now. *I'll see you on the other side*…

For **Vasinox, Dr. Glenn Rothfeld,** and Real Advantage Nutrients, I'm Christine O'Brien.

Click the "Add to Cart" button below to get your risk-free supply of **Vasinox** now.

YES! Send my supply of Vasinox now RISK-FREE
