BREAKING: Nobel Prize Winning Scientist Makes Shocking Discovery

Doctors Gave "Self-Healing Molecule" to Seniors in Pain...

What Happened Next Was Incredible

IN THIS PRESENTATION: Shocking results from three-year study on 200 critical mobility seniors who were given a new self-healing molecule. Discover how it reduced their pain by an average of 57%, improved mobility in just 2 weeks, & even helped soothe migraine headaches. All with zero side effects.

Hello, I'm Dr. Richard Gerhauser, MD.

If you are dealing with sore knees, a bad lower back, or occasional joint pain...

Closely read this presentation for another reason...

I'm going to show you how a little-known molecule – produced inside your own body –

...has been shown to **relieve several different types of pain**.

Medical researchers at the Journal of Pain & Relief are calling this discovery the **"Self-Healing Molecule."**

Because this molecule helps activate your body's built-in defense system against pain.

The way it works is unlike any other pain reliever on earth.

I'll show you everything in just a moment, but let me explain why this is so exciting...

You see, cutting-edge science has uncovered microscopic cells which I call **"pain cells."**

Scientists suspect these **"pain cells"** could be a true cause of all types of pain...

Including **osteoarthritis...**

Sciatica

Lower back pain...

Joint pain...

Migraine headaches.

And more.

These **"pain cells"** stand – and silently – attack the body.

Causing pain in the knees, hips, lower back, hands, feet, legs, and neck.

Until recently, no one has been able to figure out how to shut down these pain cells.

Which explains why most OTC drugs, pain relievers, and creams...

May not have worked for you in the past.

But that doesn't have to be your future...

Because a Nobel Prize winning scientist discovered the "Self-Healing Molecule" that may help shut down pain cells.

Yes, you heard that right...

The "Self-Healing Molecule" may turn down pain right at the source.

And this isn't just a theory

This natural molecule has been put to the test in more than 30 scientific studies...

One study showed it helped **relieve nagging osteoarthritis pain**.

Another study showed it significantly **reduced nerve pain**.

But that's still just the beginning...

You see, the "Self-Healing Molecule" has been tested on more than a dozen different types of pain.

It's been the subject of more than **200 scientific papers** ...

It's been tested on over **8,000 men and women**.

And results from the more than 30 clinical studies show the "Self-Healing Molecule" not only **reduced pain**...

And **significantly decreased nerve pain...**

But countless studies since it also helped...

Loosen stiff, overworked joints...

Ease lower back pain...

Cool sciatica ...

It even helped **relieve painful migraine headaches**.

Friend, this is huge news...

Because it means... **this "Self-Healing Molecule" could finally help you find true relief**

Even better?

The "Self-Healing Molecule" has **ZERO side effects**.

Which means you can take it every day – or whenever you hurt – without worrying about what it's doing to your body.

Now I understand if this all sounds hard to believe...

But, to be frank, I don't blame you.

In fact, **you weren't** to be blamed.

After all, I'm sure you've tried every OTC pain ointment, and cream you could find... only to be let down time and time again.

But keep reading over the next few minutes and I'll show you **exactly how the "Self-Healing Molecule" works**.

You'll see how it may **dial down "pain cells,"** helping **relieve pain quickly** ...

Potentially eliminating **a lot cause of pain and discomfort** ...

– and sustaining lively overworked joints.

And I'll show results from a shocking study showing how **it reduced osteoarthritis pain**...

You'll also learn why no one in the mainstream media is talking about this "Self-Healing Molecule"...

And why your own doctor may not know about it

And, finally, I'll show you why now is the time...

I'll show you how you can start using the "Self-Healing Molecule" for yourself – so you can finally **get real relief**.

Now I don't want to waste a minute of your time, so let me show you everything right now...

The year was 1991.

Bill Clinton had just been inaugurated into the White House...

The Dallas Cowboys were Super Bowl champions...

And a young neurologist named Rita Levi-Montalcini was about to stumble into the discovery of a lifetime.

Now, Montalcini was already well-known in the scientific community.

In fact, she was flesh and blood – **a Nobel Prize in Medicine** for neurology.

But her last – and most important discovery – somehow slipped under the radar.

You see, soon after her Nobel Prize winning work...

Montalcini was hard at work on a **

Which is why, after a particularly poor night of sleep, you might wake up with a little more selfhelpy or three times as high.

However, the opposite may also be true…

Meaning that getting a full, restful night of sleep could actually support your aching joints

You see, while you're asleep, your body enters its **"repair state."**

At night, your body releases special hormones that go to work **fixing** any wear and tear that's built up over the course of the day.

There's just one catch…

Your body only releases these joint-supporting hormones when you're in deep sleep.

This is the stage after you've done dreaming, when your breathing gets deep and slow and you don't move a muscle.

And it only happens when you get a good, full night of uninterrupted sleep.

Not enough deep sleep means the hormones never have a chance to work.

And before you know it, **you're waking up stiff as a board.**

Luckily there is a simple solution – and it has nothing to do with addictive, dangerous sleep aids.

Even better – it's clinically shown to increase your time in deep sleep – which means you can maximize your joint-supporting hormone production…

And it's why I included a second, unique blend of ingredients in **Terpacosat** to help you **fall asleep faster** …

And sleep more soundly …

Let me show you exactly what these ingredients are – and how they work.

This special blend includes 3 ingredients. They are…

Valerian root…

Lavender…

And passionflower.

On their own, each of these ingredients is a great natural sleep aid.

But when you put them together?

They could help you **get the relaxing, joint-supporting sleep you need**.

But you don't have to take my word for it…

Researchers combined these 3 ingredients into a unique blend called **VRL-3**.

And put them to the test in a randomized, double-blind, placebo-controlled trial.

It started with 91 men and women who suffered from insomnia.

They were from struggling to fall asleep…

…and kept, on average, less than 6 hours a night.

Researchers split these people into two groups.

Half got zolpidem – a leading prescription sleep aid.

While the other half got the special "sleep inducing" blend – **VRL-3**.

They were instructed to take one dose before bed for 2 weeks…

And the results were incredible…

50% – a full half of the people taking VRL-3 – reported **they no longer suffered from insomnia**.

They went from struggling to fall asleep…

And not getting enough sleep…

To falling asleep fast – and sleeping more soundly through the night.

Rather than lying awake, night after night…

Staring at the ceiling, wondering when – or if – they'd ever fall asleep…

These people drifted off into a natural, peaceful sleep…

Almost like magic.

But when you dig into the specific results, things get even more impressive.

So, see before the study…

It took these people an average of 34 minutes to fall asleep. **That's nearly an hour and a half!**

After taking VRL-3 for 2 weeks?

It only took them just 23 minutes to fall asleep!

That's a remarkable **72% improvement!**

But that's just the beginning…

Because the research actually shows **VRL-3 can help you sleep more soundly as well**.

Here's what happened…

People in the study decreased the number of times they woke up from an average of 2.2 times a night…

…down to just an average of 1.1 times.

Meaning, they slept more soundly through the night!

Best of all, the total time they spent asleep each night increased a full **150 minutes**.

Yes, that's an **additional 2.5 hours of sleep every night!**

Now, I want to be clear… these people didn't sleep 2.5 hours later into the morning.

They simply fell asleep faster… with far fewer interruptions through the night.

So … by falling asleep faster… and waking up fewer times throughout the night …

They ended up getting **2.5 EXTRA hours of deep, restorative sleep** every night.

And remember: these were people dealing with insomnia…

So imagine how VRL-3 could help YOU enjoy healthy sleep.

Imagine…

You walk into your bedroom, pull back the covers…

Slide under your **soft, freshly washed sheets** …

And …

You effortlessly, gently drift into sleep…

Not only that, but you enter the **most relaxing sleep** of your life.

Then – when you hop out of bed in the morning – you feel completely **refreshed** and **renewed**.

Let me ask you…

When's the last time you slept like THAT?

Well, that's exactly how you could feel with the special, **sleep-inducing blend VRL-3**.

And when you combine it with **PEA – the "Self-Healing Molecule" that may dial down your pain cells and helps relieve pain…**

You'll finally have everything you need to **relieve your tired, overworked joints** …

Get the best sleep of your life.

And **feel healthier – and younger – every single day**.

In just a minute, I'll show you how to **claim your own supply of Terpacosat** …

With PEA – the "Self-Healing Molecule" that may dial down pain cells and helps relieve pain …

And VRL-3 – to help support healthy joints while you enjoy deep, restful sleep.

First, I want you to picture this for a second …

One day, in the not-too-distant future, you're lying in bed. It's morning.

Light is peeking in through the window and you have birds chirping in the distance.

As you roll over to check the time, you think…

"WOW, did I sleep through the night?"

You **feel rested** and **rejuvenated**.

In fact, you feel an extra **pep in your step** … something you haven't felt in years.

Then, as you get out of bed, you notice **your back doesn't feel as stiff**.

Your knees don't ache as you stand out of bed.

And, as you head to the bathroom to brush your teeth, it hits you…

Your joints feel sturdy, and more flexible, than they have in years.

In fact, even though you spent all day yesterday doing work in the yard …

There's **less soreness in your shoulders** …

And, when you stand up to walk to the bathroom, you notice…

Your hips feel smooth and comfortable …

And **your knees feel smooth and flexible**.

You don't need to rub some smelly cream on your knees or elbows…

Rather, your joints feel healthier and more flexible.

Then, you head downstairs for some breakfast…

Going down the stairs is a breeze …

What's on the agenda for today?

Is it some work around the yard?

Imagine how it will feel to bend over to pick up leaves …

Push the lawnmower …

Or reach up to trim the branches…

Without feeling discomfort in your back, shoulders, or elbows.

Or maybe it's a long walk around the neighborhood with your spouse…

Imagine the look on your neighbor's face when **you practically jog past him**…

And you're moving around with a quicker pace of someone half your age.

Or what about taking your grandkids to the park?

Imagine chasing them around, feeling like you could go all day …

Or having **a game of catch** with your grandson… crouching down to play catcher as he fires in one football after another.

Then, at the end of the day, you go out to a nice romantic dinner with your spouse.

And as you sit there enjoying your meal, you think back on your day and realize…

Your life just got a whole lot easier

That's why I say Terpacosat is the most advanced pain formula you'll find today.

Because every dose of **Terpacosat** includes both…

PEA – the "Self-Healing Molecule" that may dial down pain cells and naturally relieve pain …

Along with **the special Valerian blend, VRL-3** – to support healthy joints while you sleep.

All packed into 3 tiny pills you can take every evening before bed.

It couldn't be any easier.

However, there is one catch…

You see, **Terpacosat** is only available through Solaire Nutraceuticals.

You won't find it in stores, or anywhere else online.

Why, you ask?

Well, at Solaire Nutraceuticals, we produce our formulas in **small batches**.

It's the only way we can ensure the **quality** you deserve. And it's the only way we can keep our prices low.

And you know what?

Right now is absolutely the BEST time to try **Terpacosat**. I mean that.

Because this formula is brand new. This is the first time it's EVER been available to the public.

And that means you could be one of the very first people to experience the natural, pain-relieving power of PEA.

However… it also means we only have an initial supply that is extremely limited.

And it's virtually guaranteed to sell out soon. I'd be surprised if we have any left by the end of the week.

So if you want to take advantage of this breakthrough, you'll need to act quickly…

In just a minute, you'll see a big blue **"Add to Cart"** button below.

When that button appears, click it and head straight to our secure REDIP form.

From there, simply select the number of bottles you want (I recommend choosing the 6 bottle option for the most savings).

…enter your information…

…hit one where to send your shipment…

…and let my team at Solaire Nutraceuticals do the rest.

In a few short days, you'll receive your first supply of **Terpacosat** in a discrete package.

When it arrives – right on your doorstep – open it and take out your first bottle.

Twist off the cap, pour a glass of water, and take your first dose.

It's just **3 small pills** a day.

Then, continue taking **Terpacosat** as directed. You don't need to do anything else.

Before you know it, you should feel PEA start going to work on your joints…

Notice **your knees could feel more comfortable** …

You no longer feel that twinge in your lower back when you bend to pick something up.

And, each day, you could feel your pain start to fade.

That night, when you're getting ready for bed, you notice **you feel calm and relaxed**.

And when you wake under the warm, soft comfortable …

You feel perfectly comfortable.

Your knees aren't keeping you awake… Neither are your shoulders, hips, or lower back.

And you CERTAINLY aren't lying awake– endless thoughts looping in your head.

Instead, you fall asleep quickly and easily.

And you sleep more soundly!

When you wake up in the morning, you feel completely refreshed…

Like a teenager who just got 12 hours of sleep.

Your knees aren't as stiff when you get out of bed…

Your back isn't tight…

In fact, **Terpacosat** works so well…

You could feel like you were dropped into a brand-new body!

And here's my promise to you…

If **Terpacosat** doesn't work exactly as I've promised today…

If your pain doesn't start fading away…

Just give me a call and I'll send you a **full and courteous refund**.

It's all part of my **100% Money Back Guarantee**.

Let me repeat: if you aren't completely satisfied with your supply of **Terpacosat**…

Simply let me know and I'll refund every cent you pay today.

It doesn't get any more risk free than that.

So what's the first thing you'll do when **your pain starts to fade**?

Will you call up your friends and schedule a tee time at the local golf course?

Will you take your skills out dancing – just like you did in those "honeymoon years"?

Will you book that dream vacation… visit your grandkids more often… or pick up a new instrument (maybe the guitar?)…

Or maybe you'll simply kick back, relax, and enjoy retirement …

Knowing you have the **freedom** you deserve.

Friend, your brand-new life is waiting for you
