Genius Doctor's Radical

# CARM Cellular Rejuvenation Process Helps Give American Seniors a Second Chance at Youth

**Scientific details below...**

Hello, I'm **Dr. Richard Gerbarder, M.D.**, with an urgent health alert for you and your spouse.

I'm a medical doctor who specializes in helping to help improve your health and feel younger again. This could be the most important message you'll ever see.

In a few seconds from now, I'm going to reveal scientific research on the components of a "cellular rejuvenation" process that could make you look, feel — supporting and **rejuvenating the cells** of your organs, tissues, and muscles.

**To improve the health of virtually your entire body as YOU feel younger.**

**I am 100% serious**. Today, I'm exposing a revolutionary breakthrough in the science of human aging.

## The scientific name I give this anti-aging process is the Cellular Rejuvenation Modus, or CARM

And here's what you can expect when you **experience CARM for yourself**:

The most significant change you'll see or increase in **youthful energy**...

the kind of **energy** you likely haven't felt in years.

It's like a **vibrant current of electricity** that you feel the moment you open your eyes in the morning.

— as you could call **through** of your daily chores and appointments...

And you **will have plenty of energy** to enjoy evening events with friends and family...

You could notice that **you're doing so much more again** in every blessed day.

Expect to **rediscover hobbies** you thought were better you...

Maybe you'll feel like dusting off your old **bicycle**, planning a **tropical** cruise, or planting a beautiful **garden**.

When you experience this **enhanced energy production**, nothing could feel out of reach any more.

But that's not just the very 1st stage of the **CARM process**

You could realize you **feel mentally sharper**... your mind somehow seems "clearer".

You're thinking quicker... and find your **memory has improved**

And you could feel your body and brain returning to a **'youthful state'** on the inside.

**You could be astonished by the physical transformation you'll SEE...**

Maybe you'll catch a glimpse of yourself in a mirror and realize **your skin has grown smoother**... your wrinkles getting smaller and less deep.

Your skin could seem to **glow with health and life again**...

Your doctor will likely be shocked by your new numbers — I'm sure he will say, "Whatever you're doing, **keep it up!**"

Then, incredibly, you could notice your **vision** is getting stronger...

— including your eyes **focusing quicker on the TV and when you're reading**.

Your hearing could have clearly sharpened over recent years or a **greater distinction**...

And think even bigger **Much bigger**.

Because, incredibly, I'm going to show you science that **suggests** that the cellular rejuvenation process could help decrease mortality rate, and help people live longer!

Honestly, **I've never seen anything else like it** for helping improving a senior's health.

And all of this is available to **YOU**, right now, in the comfort of your home.

I have the science right here in front of you, and **I'm going to share it all with you today**.

In fact, I believe this cellular rejuvenation could be **the** or **second chance** for you.

Just imagine...

Opening your eyes in the morning and as you step out of bed...

— you're surprised at how energetic... how full of **new life you feel**.

You practically skip down the stairs to get your morning started.

## While that new, blessed energy might sound just... powering you through your entire day

You don't feel tired. You don't feel weak. No, you feel... **fantastic**.

**You feel YOUNGER**.

Sound impossible? I don't blame you for being skeptical.

I would be too... but I've personally seen **the CARM process in action**... time after time.

The **CARM process** is the **key** to **medical science**.

And if you give me just another minute, I'll show you exactly the science.

***But that's not all.***

*It also drives you here to the simple, 4-stage process* to experience this change for yourself.

**You can do it in your own home**. You don't need a doctor's visit.

And CARM involves **no** drugs, hormones, injections, or surgery.

This is simple, natural process you can do on your own to help **support and re-energize nearly every single system of your body**.

**Your heart**... pumping blood around your body...

**Your energy and mind**... sharper...

**Your eyes**... focusing better so you could see more clearly at a distance...

**And your skin**... wrinkles smoothing out...

## The revolutionary CARM process is all about improving your health on a cellular level – naturally

So your cells, organs, and virtually every system of your body work **better**.

And this could happen to **you**... getting faster than you may think.

But maybe you're wondering why **your doctor** wasn't told you about CARM or solution?

The truth is, he doesn't know a thing about it. Almost no one does.

**In fact, this breakthrough almost never got to you at all.**

You see, science in my career is spent more time in a decade as a private physician at the **Institute for Cancer Research** in Philadelphia, Pennsylvania.

— where celebrities and the super wealthy came to experience its world-renowned **health restoring and anti-aging secrets**.

And I'm sure you've heard the media reports where I first learned a protocol that helped **seniors improve their youthful health**... if then followed a similar but specific process.

I'm sure you've seen Hollywood stars who look, act, and gorgeous **with less than 70s, 60s, and even beyond**.

Well, I think it's **damn** great that staying young and healthy has been **reserved** for just the very rich and famous.

So, I've been using **these same secrets** to help the senior patients who come to my clinic.

I've seen their incredible results firsthand... as they begin to feel **stronger**, more **energetic**, **healthier**, and **YOUNGER**.

But I wanted to share this breakthrough with more American seniors... people exactly like **you and your spouse**.

So today, **I'm revealing the full CARM process to you...**

And you won't have to spend tens of thousands of dollars at an exclusive "health resort".

Heck, you won't even need a doctor's permission.

All you need to do is read this brief presentation... that's it.

So let's get started right now **Here's everything you need to know...**

At the heart of the CARM system is a revolutionary **4-stage formula**.

## This formula is made of 4 special ingredients working together to support nearly every system of your body...

Here's how it works.

**Stage 1.** The first stage in the CARM process uses an incredible, natural nutrient to help "re-energize" your cells.

So you could experience **enhanced energy production**... *like you did when you were younger*.

**Stage 2**. Next, a second super-nutrient helps support your heart and cardiovascular system.

Plus, the combination of nutrients 1 and 2 have been shown in a small study to (incredible) **lower** 19 times you the **potency** in a moment.)

Then, in **Stage 3**, a third nutrient goes to work helping improve the health of your skin and eyes at the cellular level...

So your wrinkles are smoothed out and **your vision improves**.

Finally, in Stage 4 the final anti-aging wonder nutrient **protects your brain from age-related decline**.

So **your memory stays sharp**... *you think fast and clear*...

You just need to take this special CARM Formula – the 4 nutrients in two capsules just once a day, before breakfast.

Ok, let me now tell you **exactly** what they are.

## The first ingredient is something called Ubiquinone

Ubiquinone is a **natural substance** similar to a vitamin.

It's actually found in **every single cell** of your body. And even through they never teach us about Ubiquinone in school...

— it's probably **the most important thing in your entire body**.

You see, your body uses Ubiquinone to **make energy**.

All of it — **every ounce of energy** you need to move, to think, to make your heart beat... heck, to just get up!

— **thanks to Ubiquinone**.

And science has now learned that when you add **Ubiquinone** back into your body...

You can actually help **improve your youthful energy**.

That's what Ubiquinone – **stage one in the CARM formula** – can do for you. Let me explain how it works.

Many science researchers never talked about Ubiquinone, you might remember something called "**mitochondria**".

They look a lot like tiny beans inside of your cells. But they do something incredibly **important**.

Basically, mitochondria are the little **energy power plants inside your cells**.

Simply put, they create just about **ALL** the energy that keeps your body alive.

— and, are a stack, all your mitochondria worked great... and, are a stack, you had **incredibly energy**.

But, researchers now also know that a 5-year old child has **ten(x)** mitochondria – but by the time someone reaches old age their mitochondria **are old and worn down**.

And the difference in **energy** between a rambunctious child and a person in their 60s is pretty clear, right?

Ok, but **HOW** do your mitochondria create **all** the energy for your body?

**They use Ubiquinone**.

Ubiquinone is the **FUEL** that powers your mitochondrial power plants.

## In fact, you cannot make energy without Ubiquinone – your body NEEDS it

And, when you have enough Ubiquinone, your little "power plants" work great.

They create tons of energy. So your body works great. And you **FEEL** great too.

*Remember that? When you could work all day and have energy left* over friends at night, too?

And then **do it all again** the next day? You barely stopped for breath back then...

That's because your cellular mitochondria were getting plenty of Ubiquinone.

— so they were **fully** fueled power plants creating endless energy.

But here's the problem.

After about age 20, your Ubiquinone levels start to decline.

In fact, **your stay about 20% more every decade** from then on out.

So by the time you hit your 50s, you have a lot less.

Your cellar mitochondria are creating less energy and you really start to feel it.

By the time you're in your 60s and 70s, **you don't have NEARLY enough Ubiquinone to make optimal amounts of energy**.

And the effects are drastic. **You have less energy**... and you feel it.

One busy morning and you're exhausted all day.

It gets even worse. **Prescription drugs cause your Ubiquinone levels to plummet**.

Did you know that there are at least 50 different drugs that **deplete** your vital Ubiquinone levels?

Beta-blockers, hormone replacement, antidepressants, and even antibiotics all **waste** your Ubiquinone levels.

But if you're taking a statin drug for cholesterol, **then you're in real trouble**.

**Statins dissolving destroy your body's Ubiquinone levels**. (You can look the pharmaceutical industry doesn't talk much about that fact.)

But any one, one's whether it's from the natural decline or **all** expensive as we get older — or if it's accelerated by modern pharmaceuticals...

**...chances are good you could be very low on Ubiquinone right now**...

And you NEED Ubiquinone to make **youthful energy**.

Remember, your body **cannot** function without the **right amount of Ubiquinone**.

— **your energy levels**. The way Ubiquinone helps your body make strong, youthful energy... **has been proven by top scientists**.

A groundbreaking study has now confirmed how 500 mg of Ubiquinone can help improve energy levels in the body.

## When people who were suffering from fatigue took Ubiquinone, they reported that it reduced overall tiredness and significantly increased their energy

It even helped improve their **mood**.

I've read the full study and **the science is clear as day**...

When your body gets Ubiquinone, **you could experience a surge of youthful energy and vitality**.

*...as you could feel like a younger version of yourself.*

But that's still just the step.

The CARM cellular rejuvenation protocol is built around **4 special nutrients**... and Ubiquinone, also known as CoQ10, is just the first one.

Considering **4 supports enhanced energy production in your body...**

— and **supports every single cell** in your body. (Cut a single capsule open to start!

Now, some leading doctors are finally starting to catch on to how Ubiquinone can help seniors **feel younger**.

*But almost no one knows what I'm about to tell you next...*

You see, Ubiquinone is an **astonishingly powerful solution**.

As I said earlier, your body literally **cannot make youthful energy without it**.

But **the CARM rejuvenation process** includes something even stronger...

**A second nutrient that could COMBINE with Ubiquinone** make your body...

To create a powerful combination that helps support your heart...

## And could actually *PROMOTE A LONG LIFE...*

It's called **Selenium**.

It's **Stage 2** in the CARM process.

And almost nobody knows this, but when you combine Ubiquinone with the right kind of Selenium...

— they form a powerful combo that has been shown in a study to help reduce mortality rate and help people live longer.

Im not exaggerating.

Based on an incredibly in-depth scientific study followed 60 thousand people for **10 full years**...

These people had an average age of **62** at the beginning of the study...

And when the study was completed after 10 years, it showed some astonishing results.

Now, this 10-year study was meant to show how Ubiquinone and Selenium together could help **improve cardiovascular health**.

And it did just that... **reducing the rate of cardiovascular mortality (that means death) by things the heart attack or heart disease) by 50%** compared with the seniors who got a placebo instead.

But it did something else amazing...

The nutrient combination also **lowered the rate of death by all causes by 40%**.

## That means the overall rate of longevity for the Ubiquinone-Selenium combo was significantly increased

They were living longer than the people who got the placebo. In this 10-year study.

Yes, that means it doubles it's been shown that this combination could **support a long life**.

So this is **the supporting every system of your body**.

That's what's so incredible about the **nutrient combo** that is at the heart of the CARM process.

Not only does it support the health of virtually every system in your body...

It actually promotes a long **life!**

And you can live healthier... **happier**... with more energy – thanks to Ubiquinone and Selenium.

Could this be a true **second chance at your youth?**

How is **we** now talking about this?

That's why I had to rush you this presentation today...

— to pull back the curtain on a cellular rejuvenation **process** that has been helping seniors in the know look and feel younger.

Now, this revolutionary **all their secrets** today...

— so you and your spouse can enjoy a **healthier, happier future together**.

I want you to **know** many more blessed years together... more cherished time with your family and close friends...

— and, most importantly **healthier, and more energetic**.

And then, when your children are getting older, you can **share the CARM process with them** as well...

— so they also can enjoy the cellular rejuvenation benefits. *And they'll pass it on from them*

But, to make this happen for you and your family, you need to know **exactly** how to take Astaxanthin for your specific need.

So, we've put together **5 Sections** for a minimum, the 2nd of the **5 Chapters** in the formula at the heart of the CARM product.

Well, just like Lycopene, Astaxanthin is a natural substance that helps **protect your cells**.

It helps **stop damaging free radicals** from oxidizing the cells in your heart, organs, brain, eyes, and skin.

## Selenium is incredibly important to protecting your cells

The Ubiquinone Selenium combo is **an incredible shield around your body...**

*Helping enhance your energy and protecting your cells from free radical damage.*

With better brain and heart function...

**But could also promote a long life.**

That's how powerful the 4-step CARM process is...

And that's exactly why I'm sharing this message with you and your loved ones today.

And please pass it on to those in need.

So, back to Selenium: **Much better.**

Because, he was introduced you to the first 2 pieces of the **4-nutrient CARM protocol**:

Ubiquinone that helps support energy production in every cell in your body...

And Selenium that combines with Ubiquinone to help support your heart...

**And could even promote a longer life.**

But there's a **3rd nutrient that is even more powerful.**

That not only helps **support** every cell in your entire body...

Especially supporting your **inner** Selenium helper... helping you lead a leaner...

And helping improve your distance vision, as you can recognize friends and read street signs from far away.

And it does something else **amazing**...

It also helps improve the appearance of your skin... making it more elastic and moist, and reducing fine lines and wrinkles.

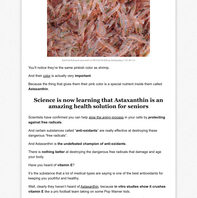
**And it's almost completely unknown to most doctors.**

I guess that's no surprise, because it comes from one of the **most remote and dangerous places on the planet...**

**The treacherous Southern Ocean** off Antarctica. It's freezing ocean... with gale-force winds and giant waves that regularly sink ships...

... from a very long journey. They're **rather tough.**

And look kind of the miniature shrimp. Here's a picture.



You'll notice they're the same pinkish color as shrimp.

And their color is actually very **important**.

Because the thing that gives them their pink color is a special nutrient inside them called **Astaxanthin**.

## Science is now learning that Astaxanthin is an amazing health solution for seniors

Scientists have confirmed you can help slow the aging process in your cells by **protecting against free radicals**.

And certain substances called "**anti-oxidants**" are really effective at destroying these dangerous "free radicals".

And Astaxanthin is **the undisputed champion of anti-oxidants**.

There's **nothing better** at destroying the dangerous free radicals that damage and age your body.

Here you have of vitamin E?

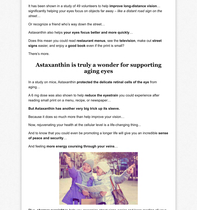
It's the substance that a lot of medical types are saying is one of the best antioxidants for keeping your youthful and healthy.

Well, clearly they haven't heard of Astaxanthin, because **in vitro studies show it crushes vitamin E** like a pro football team lining up against some Pop Warner kids.

**Astaxanthin** is **100 times more powerful** as an antioxidant than vitamin E.

And everyone knows how good Vitamin C is, right? And it is important, yes.

But Astaxanthin is an unbelievable **6,000 TIMES more powerful** than Vitamin C.



There's **nothing else like it** in your body!

And there is no more powerful way to **support every single cell** in your entire body than by taking the best amount of Astaxanthin.

And this isn't just my own medical experience.

Scientific studies have now shown that Astaxanthin also has a **remarkable anti-aging effects...**

It has been shown in a study of 40 volunteers to help **improve long-distance vision**, **improve** the ability keeping your eyes focus on objects far away... like a distant road sign or the other driver.

Or recognize a friend and's way down the street...

Astaxanthin also helps **your eyes focus from close quickly.**

Does this mean you could read **restaurant menus**, see the **television**, make out **street signs** sooner and enjoy a **good book** even if the print is small?

There's more.

## Astaxanthin is truly a wonder for supporting healthy eyes

In a study on mice, Astaxanthin **protected the delicate retinal cells of the eye** from aging.

A big dose was also shown to help **reduce the** spasmodic you could experience after reading small print on a menu, recipe or newspaper.

**But Astaxanthin has another very big trick up its sleeve.**

Because it does so much more than help improve your vision.

Now, rejuvenating your health at the cellular level is the changing thing...

And it's know that you could even be experiencing a longer life with give you an incredible **sense of peace and security**...

And feeling **more energy covering through your veins.**

Plus, **sharper eyesight** to help you recognize street signs sooner and keep reading all your favorite books...

Now, who wouldn't want all of that?

But let's be honest here.

No, you want to feel happier, **healthier**, and more energetic. Of course.

## But, between us, you wouldn't mind LOOKING younger too, would you?

You know, back when you got a whole lot of **attention** from the opposite sex?

Well, you're going to **love** the next thing I'm about to share.

Because Astaxanthin is so powerful... it even helps your skin look younger.

Scientific studies have shown that in just 4 weeks, Astaxanthin reduced facial line and wrinkles by an astounding 50%.

Let me repeat that... that's a **FULL 50% REDUCTION in wrinkles**... in just 4 weeks.

Look in the mirror tonight... and then picture your face with **fewer lines and wrinkles** just a few weeks from now.

Not only that. Astaxanthin helps improve the **elasticity** of your skin... so it looks and feel younger by the month.

Maybe like it did when you were first dating your spouse?

And thanks to Astaxanthin, your skin could look more moisture... so it could look fuller and smoother. Younger.

You might even see that **youthful radiance** return to your skin... the "young glow" you brought into long ago.

Imagine how you'll want to rub the mirror every single morning **to see it working**...

... as your notice some of your fine lines and wrinkles seem to be smoothed out...

Heck, some of your friends might even ask you what your secret is.

Just **smile** and accept their compliments... **say** nothing.

And feel free to let them **wonder** what you've been doing.

When you think of what it does for your **eyes and every cell in your body**...

... the **complete 4-nutrient formula** you need to start experiencing a whole recuperation for yourself.

But maybe you've noticed that I've only told you about **2** of the **4-nutrient** combinations so far... **Ubiquinone, Selenium** and **Astaxanthin**.

You don't miss a trick. Because to experience the complete cellular recuperation process **you need all 4 nutrients.**

So here's the **4th** and **final nutrient**... and it's just as important as the 3 2.

## It's called Alpha Lipoic Acid... or ALA for short

And what ALA does is put back in the **final piece in the puzzle**.

You see, **ALA works on your brain and memory**... helping keep them sharp and strong for your future.

Now, breakthrough scientific studies are **showing** it...

Time and again, **people** with below memories **improve** their look ALA and omega oils **performed better on memory tests than the people who got a placebo**.

Yes, even though they were experiencing age-related memory decline, **ALA was able to help slow the decline.**

Imagine how they felt when they realized **their memories were staying strong.**

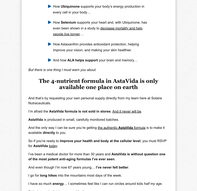
## Taking ALA could be like getting a "tune up" on your brain...

... as you stay sharp, quick and **with a strong memory**.

Will you continue to recall names and addresses in an instant?

And now through the Sunday crossword like it's child's play...

**... impress your kids and grandkids** by answering all the quiz questions first...



But I've found a family **right here in the United States** that has figured out how to farm Astaxanthin from natural micro-algae like the big plants...

And they use strict quality control procedures to produce a higher astaxanthin content, while removing harmful pollutants.

And you don't have to book a trip to Antarctica to get it!

In fact, I've worked with this cutting-edge farmer facility... the one making **the most powerful Astaxanthin** concentrations on earth...

**To secure a supply for you and your spouse.**

So, here's the **4th and final nutrient**... **ALA** and it's **Astaxanthin** combo.

Ubiquinone for **supporting powerful energy** in every cell in your body...

Selenium to combine with Ubiquinone to create **an antioxidant "shield"** that helps support your heart and promote longevity...

Plus Astaxanthin for improved vision... and a better brain... **memory**...

And combined **my recommended doses of each nutrient**... in the highest quality forms...

... in a clinical-dose formula called **AstaFixin™**.

Before this, the only way you could come close to getting the **CARM formula** was by making an appointment at Dr. Gates' clinic.

Or spending thousands to travel to elite anti-aging "resorts" with the rich and famous.

Now, **all you have to do is** and take a supply of **AstaFixin**...

... the **complete 4-nutrient formula** you need to start experiencing a whole recuperation for yourself.

But maybe you've noticed that I've only told you about **2** of the **4-nutrient** combinations so far... **Ubiquinone, Selenium** and **Astaxanthin**.

You don't miss a trick. Because to experience the complete cellular recuperation process **you need all 4 nutrients.**

So here's the **4th** and **final nutrient**... and it's just as important as the 3 2.

## It's called Alpha Lipoic Acid... or ALA for short

And what ALA does is put back in the **final piece in the puzzle**.

And now through the Sunday crossword like it's child's play...

**... impress your kids and grandkids** by answering all the quiz questions first...

And you'll feel sassy, sassy in the knowledge you're helping to **support your memory for the future as well!**

There's so much more.

That's still just the start of how taking **ALA** can help improve your health...

It could also help your blood flow better... and ERE may has been shown in one study to help **improve blood pressure**...

And it could improve your body's natural **inflammation response**.

So you can see why I included **ALA** in my **AstaFixin** formula.

**AstaFixin** contains the 4 key nutrients you need to experience full cellular recuperation.

**Are you ready?**

Ready to **feel sassy off your body** look back into high gear?

Ready to **face the future with confidence and security?**

## That's the power of AstaVida

You take no risk at all. **Your satisfaction is ALWAYS 100% guaranteed.**

So if you want to live younger-looking skin, improved vision, a sharp mind, stronger heart, and perhaps **more years to enjoy it all**...

**Go ahead and click the button below.**

It will take you to our **secure reservation page**, where you can select your own supply of **AstaVida**.

You'll also find a way you can *save a bunch of money*… **and still get FREE shipping**.

You'll see you can try just 1 bottle today – **a 30-day supply**. Now, that's the right choice for a lot of people.

It's a great way to get started and "test the waters" as they say.

But to really experience the life-changing results of AstaVida, **I suggest trying it for at least 3 months**.

Yes, **AstaVida's** ingredients are very powerful, but it does take a few months **to really get the best results…**

So I recommend selecting at least 3 bottles today (a 90-day supply) – and you'll see **you save a bunch of money** that way too.

Remember, *no matter how many bottles you select today*, **you take ZERO risk**.

You're always covered by our any time, 100% guarantee.

And if you want to **save the *most* money**, request a 6 bottle, 6-month supply.

**That's the smartest option**… because once you start on **AstaVida** and feel the cellular rejuvenation kicking in, you're not ever going to want to stop.

And choosing **6 bottles** gives you the biggest savings, too.

But no matter whether you try 1, 3, or 6 bottles today, **I guarantee you're going to be thrilled by your results**.

And if you're not 100% satisfied, **you know you're always covered**.

Ok, it's time. **Time to make an important choice**.

You can continue the way things are going now… feeling the **non-stop decline of old age**… *and wondering what tomorrow brings*…

Or make the decision to **"rewind" your age on a cellular level**…

…support your **heart, brain, and eyes**… *smooth out the wrinkles in your skin*…

And enjoy more youthful energy with **the power of the 4-nutrient combo in AstaVida**.
