WARNING: Americans are DYING from Over-the-Counter Pain Pills

Natural Pain-Easing Spray
Is the Fast Acting, Safe Solution You Need

Genius Doctor reveals it's already replacing pain meds in his emergency room.
Scientifically verified to help relieve joint and muscle pain on contact. [Below]

Hello. My name is Dr. Richard Gerhauser, MD.

And if you're suffering from arthritis, back, or muscle pain…

…and are using **ANY** over-the-counter pain medications...

I have a serious warning for you today.

Over-the-counter pain pills are killing Americans.

Almost no one is talking about this, but…

The Arthritis, Rheumatism, and Aging Medical Information System reports these over-the-counter drugs cause up to **16,500 deaths every year.**

To put that in perspective, that's more annual deaths from over-the-counter drugs than from AIDS or cervical cancer.

Harvard Health researchers confirmed that over-the-counter pain meds have caused thousands of heart attacks and strokes.

It's a **silent epidemic.**

And even though the scientific evidence is piling up that these pills are deadly…

These kinds of medications are still in almost every single household in America.

You may even have taken one today…

They are handed out like candy to innocent Americans on a daily basis.

Which is why today I'm sounding the alarm.

In the next 2 minutes, I'll tell you **exactly** which medications I'm talking about…

And how…

German doctors have now discovered a natural alternative

That's been shown to help provide blessed relief on contact…

With no negative side effects.

Trust me, this is not something you want to miss out on.

I've chosen a select group of Americans to gain exclusive access to this solution…

And through this presentation today, you have the unique opportunity to gain access to this fast-acting pain solution before anyone else…

Plus, I'll tell you exactly how you can get up to **3 free bottles**.

But first, let me fill you in on exactly which medications you need to check your medicine cabinet for right now.

Friend, not only are these drugs not safe for you to be taking…

But they shouldn't be in reach of your pets, children, or grandchildren either.

They're known as nonsteroidal anti-inflammatory drugs, or NSAIDS.

You probably know them as Ibuprofen, Advil, or Motrin.

And while they're used by over 30 million people daily, they are proven to cause gastrointestinal bleeding, heart attacks, and strokes.

So if they're so dangerous, why is their use so widespread?

Well friend, like most big businesses…

The pharmaceutical industry is all about money

The pharmaceutical industry is all about money

And when they realized how profitable these drugs could be…

…they were rushed to the market before they could be thoroughly tested for safety.

But in July of 2015, the science caught up with them, and researchers found NSAIDs were causing an alarming number of heart attacks and strokes.

But they weren't pulled from the market.

Instead, the FDA quietly released a warning that side effects of these drugs could be deadly.

Just a quiet press release that you'd have to go searching for on the FDA's website to find.

You see, the NSAID industry is projected to be worth **$24.35 billion** by 2027.

And there's no way the FDA is going to shut down this money pot anytime soon.

So they'll continue filling every American household with these deadly drugs…

Now, I'm not telling you this to scare you…

In fact, I actually have great news for anyone suffering from persistent pain right now

Thanks to brilliant German researchers…

There is a natural spray that could finally be "**the complete pain solution Americans desperately need**."

In fact, German doctors are already using it in emergency rooms as we speak…

In place of the strong pain killers we've become accustomed to…

And it's only a matter of time before it makes its way to America.

Harvard researchers have shown exactly how it works…

And why it's all you need to **get your joint, back, or muscle pain under control…**

So you can clean out your medicine cabinet of any dangerous drugs…

Knowing that you're no longer gambling with your life just to get **relief** from the nagging, sharp daggers of joint and muscle pain.

In the next few minutes, I'll fill you in on this **pain solution** that has health experts buzzing with excitement…

And could help relieve your pain on contact…

Without taking a single pill.

It's already being used to treat pain in German emergency rooms

And although your doctor has almost certainly never heard about it…

In a moment I'll show you how you can get this **natural, safe solution in your own home.**

But first, let me tell you how I found out about it myself...

Like I said, my name is **Dr. Richard Gerhauser** and I run a medical practice in Tucson, Arizona.

I've had hundreds of patients come to my office complaining of pain so bad that it was interfering with their day to day life…

Things that used to seem simple - like loading a case of sodas into the cart at the grocery store or picking up a grandchild – were now a serious struggle.

And it always frustrated me knowing that I didn't have something effective *and* safe I could offer them.

After all, when you're in pain you want relief… and you want it fast. As you should.

But all the usual solutions just didn't cut it. Until that is…

…I was reading a well-respected medical journal and saw something **exciting…**

It turns out scientists in Germany have discovered…

A natural solution that can relieve your pain on contact

With no scary side effects.

I'm not talking about a pill, injection, or cream...

But a **simple spray** that you can spritz on any of your problem areas...

And you can experience complete relief for hours on end…

With no negative side effects.

Whether it's arthritis pain in your hands, feet, or knees…

Or lower back pain you've been struggling with for years…

This spray can help provide true relief starting the very first time you try it.

Now, you may be thinking: *There's no way a spray will work for **my pain**.*

And with all the snake oils out there, you're right to be skeptical.

But I promise you… this is not for minor aches or twinges.

In fact, the formula is so effective, German doctors have started using it in emergency rooms ***instead*** of strong pain medications.

(more on that in a moment)

But you don't need to make a trip to the emergency room to relieve your pain…

Friend…

You can now use this spray in the comfort of your own home

In the next few minutes, I'll fill you in on this natural solution that can help **relieve your pain on contact.**

Exactly how it works…

And how you can get up to **3 free bottles** delivered directly to your doorstep…

Without ever stepping foot in a doctor's office.

Whatever you do… **don't miss out on this.**

You've already seen how dangerous the pain pills currently for sale can be…

And I've been practicing medicine for more than 30 years…

…and I can honestly say I have never seen something this powerful for relieving pain…

Almost instantly.

It's already completely changing how some doctors deal with pain in emergency rooms…

And I predict it will soon be in every household in place of ibuprofen and other NSAIDS…

...as a safer and **BETTER** alternative.

Imagine waking up in the morning…

Using this simple spray…

And hopping out of bed with ease and agility.

No aches or pains holding you back from what you want to do

It's as easy as putting non-stick cooking spray on a pan…

Just spray this natural formula on the part of your body where the pain is…

Your hands, knees, hips, shoulders, or back… wherever it hurts most…

A squirt or two will do it…

And go on with your day with less pain.

Whether it's your hands, feet, knees, or back…

This spray could **help relieve your pain** faster than you could open a bottle of ibuprofen.

But you don't have to take my word for it.

Harvard researchers have **confirmed** how it works.

And they've announced something incredible…

The active ingredient in this spray actually helps shut off your pain receptors

Meaning, **your body could no longer feel the pain**.

(I'll tell you exactly how it shuts off your pain in just a moment…)

But while it hasn't made a name for itself in America just yet…

It's becoming well-known throughout Germany…

…thanks to the bold action of one brilliant doctor.

In fact, I wouldn't be surprised if you've heard of him before.

His name is **Dr. Andreas Frydrych, M.D.,** and he's the head doctor of neural surgery in a busy German hospital.

And while his colleagues were pumping their patients full of dangerous pain medications…

...Dr. Frydrych saw the danger. So he decided to do something different.

After his patients went through painful surgery, he applied a small amount of a brilliant new formula directly to the spot that was hurting…

In fact, it worked so well that many times…

These patients didn't require any additional pain medications

But that's not all…

Another German doctor named Dr. Rudolph Reithmair, working in the Emergency Room, tried this pain relief powerhouse on patients suffering from fractures and other injuries…

And after applying just a few drops to the injury, nearly all patients reported instant pain relief!

Dr. Reithmair also tried this breakthrough with a group of professional ice skaters who suffered injuries and were told they needed to take a break from skating…

But giving up their passion, life's work, and livelihood just wasn't an option.

So they tried this same formula used on people with fractures and post-opt patients and…

…the time they had to take off from skating nearly vanished.

In fact, some of them were able to resume training the very next day.

Because they weren't in pain anymore…

Friend, you can see how this formula is already bettering lives across the globe.

And thanks to the repeated success of this formula…

It's now been used by over a thousand patients…

Instead of pills, needles, creams, or dangerous prescriptions…

Just a natural, topical mist. **And your pain is relieved.**

So what exactly **is** this amazing pain solution?

It starts with something called Trimethylbicyclo or camphor…

But we call it **karpoora.**

...and it's a special extract from a rare evergreen tree found in China.

As I mentioned earlier…

Science shows it works by actually helping to **shut off your body's pain receptors.**

Now, don't get me wrong…

It doesn't just distract you from the pain like Icy-Hot and other run of the mill pain relievers…

But, instead…

It actually stops your body from recognizing the pain in the first place

The genius scientists behind this formula found that…

…with just 2 quick sprays…

People could enjoy up to **6 hours completely pain-free.**

I promise you…

This is not like anything you have ever tried before.

Thanks to breakthrough research from Harvard University…

We now know exactly how karpoora works to shut off your pain.

You see, we all have something in our cells called **TRP channels**.

When something hurts your body... like inflammation, arthritis, injury… whatever it is…

…the TRP channels' job is to send your brain the message that you should be feeling pain.

Think of them like a highway in your body… pain signals travel along that highway until they get to your brain.

And when your brain gets them… **OUCH**. *You feel pain…*

But that's where **karpoora** – the Chinese evergreen extract – comes in.

It works by essentially turning off these pain messages

If TRPs are your body's "pain highway" – *think of karpoora as a natural **roadblock***.

The pain signals are stopped… so they never get to your brain.

And if they don't reach your brain, well, **there's NO PAIN**.

Meaning you get true relief from those aches, twinges, or joint pains that are currently interrupting your life daily.

It's that simple.

And if you're like any of my patients who've come to me complaining of pain…

…you've probably had to give some things up because of those uncomfortable aches, right?

Whether it's switching to only playing 9 holes of golf instead of 18 because your knees just can't take it…

Or not being able to knit your granddaughter her first baby blanket because your fingers ache too much.

Trust me, I get it.

In fact, I've used karpoora myself to treat my own pain.

And I can tell you, it works.

When I sprayed karpoora on the source of my pain, I noticed relief in just 26 short seconds.

No dangerous pills or sticky creams.

I'm here to tell you…

You can have your life back with karpoora

Because it's natural with **zero negative side effects.**

So you can **spray it directly on the source of the pain**, *whenever you need to…*

Without any worry that you're overusing it, or your body is becoming reliant on it.

It's completely safe.

But believe it or not, karpoora actually does more than just stopping those pain signals from reaching your brain…

But actually *targets the source* of that pain in the first place.

Let me ask you something…

When you wake up in the morning – do you suffer from stiff, painful joints?

And dread those first few movements of each day?

I've seen these exact symptoms dozens of times in my own clinic.

It's one of the major complaints of anyone suffering from joint pain…

And it's no way to start your day.

Luckily, in addition to shutting off your pain receptors…

Karpoora can ease this stiffness too

You see, your joints are like door hinges.

Once they've been overused, they rust up, get a little squeaky, and can't move with the ease that they once had.

But karpoora works like WD-40 for your joints.

Starting to work with the first spray to help get rid of that stiffness and allow you to move freely, without any pain.

Take a look at this…

An observational study from the Asahikawa Medical University in Japan found…

Karpoora caused muscle blood flow to increase 3X…

…and skin blood flow to increase 40%.

Meaning more oxygen and nutrients can be delivered to the source of your pain…

Ridding you of that stiffness…

Without any negative side effects.

And with the massive amount of dangerous pain medications out there…

Karpoora is the pain solution Americans need now more than ever

Starting with just one spray you can help relieve your pain…

Reduce stiffness…

And go on enjoying the little things in life again.

Like being able to button up a sweater with ease…

Or tidy up your house in just 1 hour instead of 4.

With karpoora… these simple pleasures can be yours again.

I've shown you how Harvard researchers confirmed **karpoora shuts off your TRP pain channels…**

...so those pain messages are never delivered to your brain…

And your pain could vanish for hours.

And how it works to help **increase your blood flow…**

…targeting the source of your pain and getting rid of any joint stiffness.

So you can wake up in the morning…

Simply spray karpoora on your joints…

…wait a short while…

…and forget about suffering through those first few joint movements…

…when you're "warming up" your joints, so they don't hurt…

Instead…

Your joints can be limber, smooth, and without pain in…

Are you ready?

Because I’m going to show you exactly where you can get your hands on this revolutionary pain treatment now.

So you can finally clean out your medicine cabinet of those dangerous, worthless medications…

And get your life back.

Maybe you suffer from lower back pain, and simply standing for long periods of time becomes unbearable.

But with karpoora, all you need to do is **spray it on the source of your pain…**

Just a squirt or 2 will do it…

And you can go on with your day.

No more unnecessary breaks…

...or having to announce to your friends that you “need to sit down for a minute.”

Instead, starting with one spray you’ll be back to living your life without any limitations.

Which is why today…

I’m making this solution available without a prescription, or even a visit to your doctor’s office

You see, once I realized the true dangers of over-the-counter pain meds…

And how they’re taking thousands of innocent lives every year…

I knew I needed to do everything I could to make this natural, safe solution as easily accessible as possible.

EASY JOINT™
Pain Relief Spray
Spray Bottle

Which is why when my team and I at Solaire Nutraceuticals saw the research on karpoora and other natural ingredients…

We knew we could create one of the **most effective, natural pain solutions the world has ever seen.**

That's when we created **Easy Joint™ spray.**

It's a small, long-lasting bottle that you can keep in your purse or pocket for easy access whenever you can feel your pain coming on.

Simply spray **Easy Joint** directly on the source of your pain…

And feel it disappear fast.

In just a moment, I'll tell you exactly how to get access to **Easy Joint**, and how I'm offering **3 free bottles** through this presentation today.

But first, there are 2 other ingredients I've included in **Easy Joint**, that I want to tell you about.

Because while **karpoora** works wonders to help shut off your TRP channels and decrease joint stiffness…

I wanted to make sure **Easy Joint** wasn't just the best pain solution on the market…

But that nothing else even came close.

Which is why when my team and I found 2 other natural ingredients that work alongside karpoora…

Helping it to absorb quickly into the skin…

We knew we had to include them in **Easy Joint**.

So all you need is just one simple spray, and that nearly instant pain relief you feel could last for hours

The first one comes from a well-known plant...

That you're probably familiar with from using it in the kitchen…

Or growing it in your herb garden.

It's rosemary.

And while it's a delicious seasoning for steak or potatoes…

Rosemary oil has been used in ancient medicine for centuries.

And when combined with…

Karpoora's fast-acting pain relieving abilities…

And an increase in blood flow to your joints…

You can remain **pain free for hours**, all by simply using this easy spray.

And if some of your pain returns after 6 hours, just give it another quick squirt of **Easy Joint.**

…wait 26 seconds…

And your pain can disappear again…

Friend, **Easy Joint** is so powerful…

I would be shocked if it hasn't taken over the pain relief market in the next 15 years.

And…

Its ingredients are 100% safe, so you don't have to have an ounce of worry that you're using it too frequently…

You've seen how German doctors are already using this same formula in place of powerful pain meds in emergency rooms…

And once more Americans hear the dark truth about the over-the-counter drugs they take daily…

I'm convinced **Easy Joint** will be in every household in place of those deadly pills.

But today, you have a chance to be on the cutting edge of this solution…

And for a limited time, I want to give you up to **3 bottles for free.**

Because once you see how effective it is…

You're going to want to share it with your friends and family…

And you're always going to want to have a bottle on hand…

In your purse, desk drawer, and your bedside table.

So you never find yourself suffering from that frustrating pain…

…without the fast acting effects of **Easy Joint**.

You've seen how **karpoora helps shut off the pain messages in your body…**

And has been shown in studies to **decrease joint stiffness by boosting blood flow 3X…**

Allowing people to remain pain free for up to 6 hours.

But friend, there's one more thing.

You see, I know that when you're suffering from pain…

You not only want pain relief to last… But you need relief fast

And thanks to my dedicated team of researchers, we've included one final ingredient in **Easy Joint**, helping it get to work as fast as possible.

So you're never left aching in pain, staring at your watch, wondering when those pills will finally kick in…

It's **Aloe Leaf Juice.**

But this aloe is slightly different than what you might keep in the refrigerator in the hot summer months.

You see, there are actually 250 different species of aloe grown around the world.

But this specific form of aloe…

Alongside rosemary…

Could help karpoora to absorb into your skin as fast as possible.

So starting with just one spray…

Karpoora has worked to shut off your pain signals and boost blood flow…

…ridding you of stiffness.

Easy Joint contains the perfect ingredients to help karpoora absorb into your skin…

Making sure **Easy Joint provides fast, complete pain relief…**

Without any negative side effects.

Plus, it's **natural,** so you don't have to worry about becoming another statistic in one of those hidden press releases…

With Easy Joint, you can finally enjoy your life again

Take a moment and think of the things you would do if your pain wasn't standing in the way.

Maybe go out dancing...

Or pick up a new sport.

Or maybe something even simpler...

Like not having to worry about being late to church and there only being standing room left…

Or being able to play with your grandkids for hours on end, without quickly feeling like your back needs a rest.

Friend, no one should have to live with these worries.

And with **Easy Joint** *you* don't have to.

With just 1 or 2 sprays each day, your pain is relieved for hours.

But I have another offer for you today.

You see, once I saw the headlines revealing the dangers of other pain medications…

I knew I had to get **Easy Joint** into as many hands as possible.

Thousands of lives could be spared just by getting these dangerous drugs out of American homes.

Which is why, for a limited time…

I'm offering to mail 3 FREE bottles directly to your doorstep

Friend, that's how confident I am that **Easy Joint** will work for you.

Because I know you'll be so pleased with the results, that you won't need to try anything else.

You've seen how dangerous mainstream pain meds can be…

And how karpoora is the obvious choice to use instead…

Because it works to shut off your TRP channels – **stopping your body's pain signals from reaching your brain, so you never experience it in the first place…**

And how it boosts blood flow to get rid of that uncomfortable joint stiffness…

Whether you're suffering from arthritis pain, muscle pain, aches, or twinges - ***Easy Joint* can help.**

But friend, **please don't hesitate** to order your own personal supply.

You see, we use only the highest quality ingredients…

And are committed to maintaining affordable prices…

But, I'm afraid…

Our supplies are limited

In fact, since this presentation began, the number of bottles we have available has already decreased.

But if you act now, you still have a chance to reserve your supply.

It's my mission to rid American households of dangerous pain relievers that have already taken too many lives…

Please allow me to help you make your house safer today.

These over-the-counter pain medications are not the kinds of drugs you want to be taking…

Let alone have in reach of your pets, children, or grandchildren.

By replacing them with **safe and incredibly powerful *Easy Joint*** you can help relieve your pain on contact…

With the peace of mind that you're not putting anything dangerous in your body.

Now, I'm extremely dedicated to replacing OTC pain meds with **Easy Joint**…

So I want to make sure you don't have any hesitations about ordering.

That's why…

I've included my 100% money back guarantee on every single order

Yup, you heard that right.

100% money back.

So you can order with absolutely no risk to you today.

If you receive **Easy Joint** and decide it isn't right for you…

I'll give you **a full refund free of charge.**

Every. Single. Cent.

You have my word.

But friend, I highly doubt you're going to want a refund.

I've already received dozens of letters from happy people who wrote to tell me how excited they were about finding **Easy Joint**.

Like this one from Harriet H. from Madison, Wisconsin who was thrilled to finally stop taking pain pills and said…

> *"100% improvement! I have tried so many meds and over-the-counter pills for my problems, but **Easy Joint** worked the first time I used it and I can do almost everything I could at age 20!"*

Or this one from Dave D. from Atlanta, Georgia who said…

> *"This stuff really works well! Other topical pain relievers run out of steam after about 6 hours - but **Easy Joint** gives me relief for 24 hours or more.*"*
>
> **Results may vary.*

Or Sally D. from Minneapolis, Minnesota who said…

> *"**Easy Joint** stops my pain quickly. I use it so I can sleep without discomfort in my neck keeping me up. Thank you for this great product!"*

And I love this one from Janet R. from Reno, Nevada…

> *"I sprayed it on my husband's hands and fingers and he felt relief right away… he thought it was a miracle! (And he's usually a skeptic)…"*

Friend, this is the reason I became a doctor in the first place.

To bring to light these effective solutions that billionaire pharmaceutical executives don't want you to know about…

I won't stand for it anymore.

And I sincerely hope you'll join me in putting a stop to these dangerous medications…

And try something that works **FASTER…**

Without asking you to put your life on the line just to get some relief.

To me, it's a no brainer.

Just give **Easy Joint** a try today.

It can help RELIEVE your pain on contact…

Imagine what your medicine cabinet would look like if you could finally throw away all those useless products you've tried with no success.
