The breakthrough men signed 50+ lower back warrantys for:

Science Confirms Strange *Kra-Chai-Dom* Powder Helped Men Achieve Longer… and Thicker… Erections?

One small study from Thailand showed this powder helped thicker men's penises ▶ Get 1-Jack

Hello, My name's Christine.

Please make sure no one else is reading this private conversation we're about to have…

…because I'm about to say some pretty nasty things to you.

I hope you can stay with me. Because if you do, you're going to get a very big reward.

You see, I've found something that could really give you a bigger, more powerful erection…

This breakthrough is based on an exciting study. After making it simple change for just 30 days, men began "springing to life" at just 6 minutes…

That's right. Just 6 minutes.

It doesn't matter how long it's been since you last "sprung."

With what I'm about to show you, you could be sporting the biggest erection of your life.

Now, if this is too much for you, I understand…

Not every man can handle the power of achieving **bigger, longer erections**.

Perhaps your wife wouldn't be able to handle it either. If you could get as hard as a diamond…

And you might not want a reputation for being "big" down there…

So I understand if you're not ready for something like that to come true… and you'd rather stick to the page and keep your sex life exactly the way it is now.

Because…

Achieving a rock-hard erection and getting *thicker* is no longer wishful thinking – it's now scientifically possible

At because of a strange powder that comes from Bangkok, one of the most *sex crazed* cities on the entire planet.

This powder is called *Kra-Chai-Dom*. And you're going to be surprised by how it works.

It's mixed every sleep cycle of a woman.

Like I said before, not every man will be able to handle this. But if you're a confident, mature, masculine man… this brief woman could be the prize you've been hoping for.

Remember when you used to make love to your wife…

…and she gasped as if she couldn't handle it?

And she shared it you with gleaming eyes the size of dinner plates… moaning…

That experience… that sex…

For women…

That can be one of the most exciting, pleasurable moments of a long, romantic night…

It's the moment we know we're going to be **completely satisfied** by our mate.

…but when that doesn't happen, it can also be the most **disappointing** moment.

I don't think I have to tell you that when a man isn't **rock-hard**…

Or simply isn't **thick** enough…

It honestly makes us want to roll over and fall asleep instead…

and some women might even start to think about leaving.

This is especially true for a beautiful woman.

Of course, the **opposite** is true, as well…

When a beautiful woman feels a man's confidence…

Then it doesn't matter how old the man is…

…she'll still be attracted to you.

So, if you're like millions of other men over the age of 50…

Satisfying your woman… might be a distant memory for you. Something you long for.

Well…

I'm here today with good news

You see, I'm not just a young, red-blooded American woman…

but I'm also someone who can make this fantasy a reality for you.

As I said before, my name is Christine Cook. And I'm not just a woman who loves it when men – especially an older man – can get hard in the bedroom…

I'm also the Research Director for Sexton Nutraceuticals, a leading nutraceutical development firm.

Now, that's an exciting opportunity for both of us…

Because I work with one of America's greatest sex experts, Dr. Richard Gerhauser. M.D.

He's been practicing medicine for over three decades. But he's no ordinary doctor…

He's the kind of guy who hands out at the Colorado wilderness and carries his 200-pound wife up the mountain for fun.

He's the kind of guy who's a teenager. That's right – the kind of guy who just keep on with his sex life.

And as a Medical Doctor for more than 30 years, he has a unique practice here in the U.S.

You see, his clinic specializes in **helping American men regain their youthful health**.

Especially in the bedroom.

He's also a Fellow of the American College of Preventative Medicine.

Which means he's researched and developed solutions for…

Keeping your body feeling younger!

Here's why I'm telling you all this. As a woman, it makes me very **excited**…

Recently, Dr. Gerhauser has made an amazing breakthrough. Something **controversial**…

You see, he's found something that, until now, many people thought doesn't exist…

It's a natural solution that could help…

Trigger stronger erections in older men.

In a small study, men made 1 simple change for just 30 days… and began enjoying rock-hard erections in just 6 minutes.

But it didn't just allow them to become hard in 6 minutes…

It even helped strengthen the erections and thicken their erections a full half-inch.

If that sounds hard to believe, I don't blame you…

After all, many people wouldn't believe it's possible to strengthen a man's erections. Let alone increase the size of your erection.

But all that's changed…

It's all because of this special Kra-Chai-Dom powder. And the unique way it works.

Dr. Gerhauser has confirmed the evidence that extraordinary power is **real**. It's backed by the gold standard of science.

And now you have the chance to harness the power of this breakthrough.

Imagine grabbing your wife by her hips… looking her in your bedroom…

Dripping off her clothes.

…and before she can say a single word, you pull her hands to your bed tops.

She pouces, raising an eyebrow. She remembers the disappointing times when you couldn't satisfy her…

…but she's about to realize that's all in the past…

…right on the bedroom…

You're sporting a bigger, thicker, harder erection

She eagerly unbuckles your full manhood… and then you show her the right of her life…

Giving her some after sexes of pleasure.

Staying **strong and hard** the entire time, never worrying you're going to disappoint her.

Sounds like an amazing time, right? Maybe a little too good to be true?

Well, if you live in the United States, this actually used to be too good to be true…

But science has unlocked the secret. And the last, measurable results here are astonishing… has shown it's true.

So, what exactly is this Kra-Chai-Dom powder breakthrough?

As you learned before, it comes from tens of thousands of miles away, on the other side of the planet.

It's the epidemiology from country of Thailand.

Thailand is home to the city of Bangkok… possibly the most exotic, **sexually-charged** place on the planet.

And it's place where scientists made a surprising discovery. One that could change the sex life of every man here in America.

It's *Kra-Chai-Dom*

If you've never heard of it, I don't blame you.

Because most people here never heard about the study results showing it **made erections bigger and more hard** and it **lasted minutes after using it for 30 days**.

Kra-Chai-Dom is the **secret** men in Thailand have used to become insatiable sex machines… without **a shred of mal-science to back them up**.

The good news …

You can get your hands on some… if… you know where to look.

Keep reading this presentation to discover the secret.

You don't have to make excuses to your wife and don't with shame when **you know** she's desperate for some satisfaction but you can't give it to her.

You don't have to get nervous when things don't hard up in the bedroom, and wonder if it's time for a little "boost" from your doctor.

…and you don't have to snoop around online, researching all kinds of wacky solutions, praying to find something that works.

Because science has the answer.

Now, let's address the big, big question in the room:

"Is this for real?"

What is the actual science showing it works for men? Even if they have trouble getting rock-hard in the bedroom right now?

These are great questions. They're the exact ones our research team worked day and night to answer.

*After all, there are all kinds of scams out there, promising to transform men into overnight sex machines… **without a shred of real science to back them up**.*

No wonder they don't work!

But Dr. Gerhauser is just like you…

He's skeptical. He demands evidence… and results.

And when it comes to making a man…

Longer… thicker… and ready to perform

Kra-Chai-Dom is more exciting than anything our research team has come across.

Here's how this secret works…

For thousands of years, men in Thailand headed through the country's dense, sweltering jungles. Many of them were **hunting for food**.

… one of the most prized prizes in the entire jungle.

When they found a small amount the prized prize, men would drink this potent elixir mixed with gold coins.

And now, men all over the world have been using this strangle little plant to help boost their libido and improve their performance in the bedroom.

Just let your mind wander about how you feel if this going to be. If women started **begging you for sex**.

It wouldn't matter how many times you've been rejected or ignored in the past…

Not only could it improve your sex life, it could also improve your life and your relationships.

Imagine the pride you'll feel when you walk down your wife's side.

Knowing that you're sporting that stiffness and leaving her unsatisfied.

None of that would matter anymore. With Kra-Chai-Dom, your life will feel **great**.

But those crazy stories are just legends…

…right?

Well, for many years, that's what we thought…

Until, finally, scientists decided to find out… and see if Kra-Chai-Dom actually lives up to the stories.

Now, these scientists wanted to be absolutely sure it worked.

So, they didn't just give men some samples and wait for a review. It'd be too easy for the placebo effect to take over.

Instead, the scientists designed an experiment that would challenge any man's ability to get rock-hard. You'll see the details in a second.

Believe me, you might not believe your eyes when you hear it…

First, the scientists recruited men who were average age 55.

These were not young guys. Instead, they were the millions of older men in America.

But then again, and to be scientific, we'd also need a control group.

The scientists gave some of the men this special Kra-Chai-Dom. Other men got a placebo.

This study was double-blind as well as placebo-controlled. The statistic **gold standard** in medical research. **Nobody knew** if they were getting the real treatment.

Then, the scientists showed the volunteers some sexy footage on a television screen, to turn the men on.

Here's where things get a little crazy…

While watching this footage, the volunteers had to wear special measuring devices on their private parts.

Yes, you read that right.

Seriously.

Can you imagine going through an experiment like this? With that kind of **embarrassment** and **pressure to perform**… It'd be nearly impossible to feel turned on at all.

So, what happened?

As you can probably guess, the men who got the placebo treatment didn't feel any different. They didn't "get it up" any better and they measured the same size "down there." Sorry guys.

But the men who got the Kra-Chai-Dom?

After 30 days, they had a completely different experience.

Something shocking. For these older men, something **magical*.**

First… the men who got the real Kra-Chai-Dom achieved full erections **in just 6 minutes**, compared to 11 minutes at the beginning of the 30 days.

Yes, even while excited by scientists… with a monitoring device strapped to their genitals. Still, they **sprang to life like horny teenagers!**

Not only that, but…

Their erections were bigger… yes, *bigger* than ever before

Not just longer, but a full half-inch **thicker**.

The devices had a precise measuring capability, just to make sure.

And it confirmed that the men were bigger.

What if the same thing happened for you? Your **big** *of a difference will this make for your love life?*

…as because you got your hands on a little Kra-Chai-Dom.

Now, here's an important point…

How do you find it? How do you know it's the real deal?

Fortunately, you don't need to book a plane ticket to the other side of the world. Because the Kra-Chai-Dom is available in the United States.

Yes – the exact kind that could help make your erection bigger and thicker

We have no idea how long it's going to be available for. But you still have a chance. I'll show you the best source in a moment. But first… how does it work?

Of course, scientists were curious about the answer. There's what they found out.

Research from Vanderbilt University's School of Medicine shows your erection is controlled by a special enzyme called PDE5.

PDE5's job is simple. When you're going about your normal day, the PDE5 enzyme is **on**.

When it's on, it stops your penis from filling with blood. That's why PDE5 is on when you drive down the street, shop at the grocery store, or read a book.

Anytime you're not having sex, it's on.

If PDE5 were not on… you'd walk around all day sporting a massive, unmistakable erection.

This is an important point. While a certain famous, … certain type of exercise… or a certain experience might turn you on.

…the actual, chemical reason you get an erection is because PDE5 switches **off*.***

Usually, the two sounds go hand in hand. Your romantic evening takes you to the bedroom, and you start feeling those sorts of passion… and your PDE5 switches **off*.***

Then, blood begins to flow… and you know the rest.

Unfortunately, as you get older, **it doesn't always happen the way you want**.

As you probably know, age can cause problems with your circulation. And getting an erection is all about circulation.

What stands in the way? PDE5.

You can be getting cozy in bed with your wife… kissing… touching… and feeling her get excited…

…but you get **more and more nervous** as you realize you aren't responding like you used to.

You know how the rest goes. It's **painful** to see your wife's disappointment, especially when you know it's your fault.

It's not fair to your family!

It's not because you don't want it.

And it's not your fault.

Your PDE5 could simply be to blame. It's Cupid's Dilemma. Like a stuck finger that badly needs some WD-40.

But the solution is clear: When your gorgeous, naked wife is grabbing your hand and leading you to the bedroom…

…you want every PDE5, allowing blood to flow exactly where you want it.

And that's exactly what Kra-Chai-Dom does.

Scientifically, it's been shown in vitro to slow down PDE5 in mouse cells.

Which is a fancy way of saying it flips the PDE5 switch.

With Kra-Chai-Dom… you can stay fully erect as you can **please your woman like no other man has**.

Your erection could actually get bigger… it could get longer and thicker

No more embarrassing nights.

With Kra-Chai-Dom, you could have that "young again" feeling. The man that women like to whisper about. You could get to enjoy the best sexual years of your life, again.

But there was another thing Dr. Gerhauser and our team wanted to confirm.

Because, to empty hours and hours of pleasure, you're going to need more than bigger erections…

…you'll need more **energy** too.

Illustrious were Kra-Chai-Dom has been used to help with energy and vitality. Scientists investigated to see if this were true.

They gave young men a dose of Kra-Chai-Dom and measured their **metabolism**. This is because your metabolism controls how much energy your body makes and uses.

Even better, your metabolism makes this energy from your body fat. So, if you can support your metabolism for more energy, you could lose weight. Sounds good, right?

Of course, the opposite is true. If your metabolism stops sluggish, your energy stacks fat and you could be overweight.

So, what happened when scientists gave young men a tiny bit of Kra-Chai-Dom?

It improved their metabolism.

The men got more energy… more stamina… all powered by their new metabolism

Now, when Dr. Gerhauser reviewed all the evidence…

…and saw how these benefits were shown in **peer-reviewed** medical research…

He realized this is different from everything else available.

It could have the same effect on older men as it did for young study subjects…

This could be the breakthrough older men have been waiting for.

Kra-Chai-Dom has been revolutionizing how we have sex in America. Jump on this before everyone else. Don't get left behind…

Because it doesn't matter how much you're yearned for better sex…

Dr. Gerhauser has shown that Kra-Chai-Dom could help give you rock-hard erections… and make you **bigger, longer and thicker**.

That's why we secured a **premium quality** Kra-Chai-Dom…

the some kind Dr. Gerhauser recommends…

And we're making it **available directly to American** men who need this presentation today.

So you can have the same ingredient that was shown in one small study to help deliver…

Rock-hard erections in as little as 5 minutes

and could help make you **bigger, longer, and thicker**.

And one little daily dose of mature Kra-Chai-Dom.

Which is why we've chosen it as the superior ingredient in Dr. Gerhauser's formula called **Pro Advantage™**.

It's the best solution we've ever seen for older men who want to get bigger and perform better in the bedroom.

And it's available directly through this organization. **Dozens of impostors** selling unauthorized or inferior quality Kra-Chai-Dom.

It's the best solution we've seen for older men who want to get bigger and perform better in the bedroom.

Pro Advantage™

Yes, 100% of your purchase price is tax-deductible.

…AND because it helps achieve erections better between you and a **big, powerful erection**… to ensure a night with your wife that you'll never forget.

Yes, even Dr. Gerhauser's 30+ year experience helping men, he knows getting bigger, harder erections… is not just a matter of starting down the PDE5 enzyme.

Yes, it's true that dialing down PDE5 could improve blood flow to your penis.

But sometimes, another part of your anatomy can make it more difficult to get hard as a rock.

... and some doctors miss this too.

However, scientists in Italy uncovered a **little-known reason that could be why** you're frustrated with your erections. And, unless you take care of this ...

You could be curing yourself to **never** again enjoy wild sex ... and never know why.

Let me explain. You've probably heard of something called your body's natural **inflammation** response.

If you've ever felt sore or stiff after exercising ... then you've felt inflammation in action.

The same thing happens inside your body constantly. You've probably heard how you must keep your inflammation levels optimal to stay healthy.

You may not be able to feel the inflammation itself ...

... but you could have noticed how **your erections aren't like they used to be.**

And the **reason** you're frustrated with your erections ... could have to do with inflammation and your **prostate**. And ...

Your prostate is connected with your ability to get 100% rock-hard in bed

You see, you need a healthy prostate for strong, hard erections.

Surprised? I don't blame you. Most men know keeping your prostate healthy is important for normal urination.

Unless you have an issue using the bathroom, you just don't think about your prostate. But you should.

If you're over the age of 51, grab a coin and flip it. Because 1 in 2 men will have issues.

When you 80 or over, it's an 8-out-of-10 chance ...

... and it might be affecting your erections.

So if you're a man over 51, it's especially important to maintain healthy inflammation as you age ... to help keep your prostate healthy and your erections strong.

Fortunately, Dr. Gerhauser has been researching this for years. Both as a leading physician ... and a man who's well past his 50s.

Which is why he **made sure** to include another ingredient in **Pro Advantage**. One that could help keep your prostate and sex life healthy.

Imagine...

The confidence of getting a rock-hard erection

... being longer and thicker ... and enjoying the look of breathless shock and joy on your partner's face.

... giving her the night of her life...

... and relaxing in bed afterwards with your gorgeous woman in your arms. Feeling like you were younger ... but still your older, wiser self.

How wonderful would that be?

For patients of Dr. Gerhauser, it's 100% real. And it can be for you too, with this upgraded **Pro Advantage** formula.

That's because we included a special combination of two different kinds of flower pollen.

Don't let the genito-technical terms put you off. This is powerful stuff. The combination helps keep your inflammation optimal ... and ... *specifically supports your prostate so you can achieve the erection of your dreams.*

After reviewing the results, Dr. Gerhauser realized **every man over 50** needs to know about this...

German scientists tested this combination in a study, with men up to **91 years old**.

In the study, some men got this special flower pollen combination, and others got a placebo.

At the end of the study, the otherwise healthy men who got the real treatment...

... felt, on average, a 75% relief of their age-related prostate symptoms.

... achieved a 42% more powerful flow of urine...

... and 7 out of 10 men were COMPLETELY free of age-related prostate symptoms.

In other words, the flower pollen combination improved their prostate health.

This incredible combo works by naturally *helping keep your prostate in a healthy size.* By supporting healthy inflammation.

Researchers in Italy reviewed all the evidence, and found flower pollen combinations are so effective ...

It worked for up to 96% of men who tried it in one small study

And that's important, because as you discovered, your prostate could be the underlying reason you're not satisfied with your erections.

Simply put, this is the most effective ingredient Dr. Gerhauser has ever seen to help support healthy inflammation levels, your prostate, and ensure you can achieve the powerful erection you want.

But that's not all. This pollen combo even increased urine flow nearly 50% in one small study.

If that weren't amazing enough, a small Medical Academy study put on by the creator of this combo found it also improved triglycerides a stunning 49%.

Now, for best results... the combo must be standardized to a specific level of things called "phytosterols."

Now, don't worry – you don't need to scientists to write that down. Or memorize the exact amount you need.

We've done all the hard work for you.

We've included the exact dose of the flower pollen shown in studies to help **improve urine flow, and let 7 out of 10 men feel 100% relief...**

... and keep your prostate a healthy size.

With no drugs... no special diets... just one little dose of this powerful solution.

Finally... we know **Pro Advantage** was ready.

With Pro Advantage, you could feel like a young man again

And if you're a bachelor ... watch out. Beautiful women can pick up on a guy who truly delivers the goods in bed. Heck, women can practically smell it.

Don't be surprised if they start glancing your way or making excuses to **start fun conversations with you**.

Just ask the men in Bangkok, who use Kos-Chai-Dom. Book your flight and join the fun, if you dare ...

This can be true again, as long as you have **Pro Advantage**.

This formula also includes 378 mg of standardized **Flower Pollen Extract**...
