OUR STORY

Protect Your Energetic Wellness

Magnetude Jewelry is not only fashionable, interchangeable and beautiful, it is designed with your health in mind! Our special bio-magnets are the strongest on the planet (4000 gauss), they attach our tudes to our bases. These rare earth bio-magnets have the ability to increase your cellular energy to help counteract the harmful effects of EMFs (electromagnetic fields). We are constantly exposed to a sea of EMFs from cell phones, cell towers, wifi, satellites and more.

Magnetude Jewelry not only has these healthy bio-magnets to help, we have also embedded Infrared, Negative ion and Germanium energy frequencies into the backs of all our bases. All these elements help to increase blood flow, increase cellular strength, decrease pain, decrease inflammation, increase vitality, and improve quality of sleep.

What Our Customers Say

"I had polio as a child, which left my knees in bad shape and they are always swollen. I wore a Magnetude Jewelry necklace for a week and my swelling in my knees went away. I took the necklace off for a week to see what would happen, the swelling came back. I then put it back on and a week later my swelling was gone again. Stumped my doctor! I will never take it off! Thank you Magnetude."
