U.S. BASED PRODUCTION

Honda was the first Japanese automaker to build engines (1985) and transmissions (1989) in the U.S. and the first to export U.S.-built cars to overseas markets (1987).

MANUFACTURING WORKFORCE

More than 25,000 Honda associates build products in the U.S., including cars, trucks, ATVs, side-by-sides, power equipment products and the HondaJet Elite S and more.

AVIATION IN NORTH CAROLINA

The HondaJet Elite S is manufactured at Honda Aircraft Company's worldwide headquarters in Greensboro. Honda Aero, in Burlington, makes the engines that power the aircraft.

Honda and Acura products are built using domestic and globally sourced parts.

Manufacturing Roster in America

Honda began manufacturing products in America in 1979, when it opened its first plant in Marysville, Ohio. Today, Honda builds products at 12 manufacturing plants across the country.

Honda Engineers Use Manufacturing Know-how to Produce Face Shields for Frontline Healthcare Workers

Our engineers in Ohio have developed new methods to produce critically needed face-shields using auto manufacturing technology such as plastic injection-molding. We're donating tens of thousands of face-shields to healthcare workers using our extensive network of automobile, power sports and power equipment dealers. That's the power of something greater.
