Product Description

YOUR NEW FAVORITE THERMO

We turned up the heat (literally) with GHOST® BURN V2. A full 3G L-Carnitine (1.5G Carnipure® L-Carnitine Tartrate + 1.5G Acetyl-L-Carnitine HCl), KSM-66® Ashwagandha, CaloriBurn GP® Grains of Paradise and a SOLID dose of stims in every scoop...GHOST® BURN is back! Some EPIC flavors from V1 with the addition of GHOST® BURN "PASSIONFRUIT", a favorite of the legends.

- NeuroFactor™
- CaloriBurn GP® Grains of Paradise Seed Extract
- Vegan Friendly

Formulated with:

BioPerine · Carnipure · NeuroFactor · KSM-66 Ashwagandha · CaloriBurn

Product Details

GHOST® Full Disclosure Label

All GHOST® products feature a 100% transparent label that fully discloses the dose of each active ingredient. Zero proprietary blends means you know what you're getting in each and every scoop.

GHOST® Carnitine
3G

We upgraded from a generic Carnitine to Carnipure®, a high-quality form of L-Carnitine. Carried over from GHOST® Energy, Carnipure® L-Carnitine aids in converting fatty acids to energy.* Carnitine has been widely researched in several doses (1-3 Grams) and forms but in our opinion, the best clinical data regarding fatty acid oxidation, reducing catabolism and free radical formation has been on Carnipure® L-Carnitine Tartrate, with Acetyl-L-Carnitine having additional or more clear cognitive benefits. While the combination of the two hasn't been specifically studied, we think it's a no-brainer and wanted to deliver the best of both worlds in GHOST® BURN.

KSM-66 Ashwagandha
600MG

KSM-66® Ashwagandha is a full-spectrum extract with the highest concentration of all major root-only extracts available on the market today. It works as an adaptogen and has been shown to reduce stress, anxiety and cortisol levels, plus it has 14 years of R&D and 22 clinical trials behind it... yeah, it's pretty awesome.

Caffeine Anhydrous
300MG

Caffeine junkies rejoice...GHOST® BURN is loaded with 300MG of Caffeine per 2-scoop serving (150MG per scoop).

NeuroFactor™

NeuroFactor™ is an all-natural, patented extract of the whole fruit (including the bean) of the coffee plant that has been clinically studied to boost brain and cognitive function in ways your morning cup of coffee can only dream of.

CaloriBurn GP® Grains of Paradise

CaloriBurn GP® is a premium version of Grains of Paradise, providing optimum benefit from the ingredient (aka more bang for your buck). Grains of Paradise is a spice with a similar makeup as Ginger that has been shown to increase overall energy expenditure and mobilize brown adipose (fat) tissue. In other words, it's a pretty epic (non-stimulant) fat burning ingredient and a must-add when constructing GHOST® BURN.
