Product Description

See You In The Gulag.

Let's be honest, we've all pancaked dropping with the squad at least once, but that was then, this is now. Introducing GHOST® GAMER, the perfect combo of brain-boosting nootropics and natural energy delivered in true GHOST® form*...SICK design, EPIC flavors and a STACKED, fully transparent formula. Regardless if you're dropping in for a round of BR with the squad, driving the lane in 2k or squaring up a PK in FIFA, GHOST® GAMER delivers.

- GHOST® Full Disclosure Label

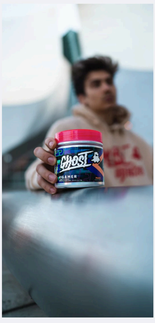
- 500MG Cognizin® Citicoline (per two scoops)
- 150MG Natural Caffeine (per two scoops)
- AstraGin®

Formulated with: nooLVL Cognizin AstraGin TRAACS



Product Details

GHOST® Full Disclosure Label

All GHOST® products feature a 100% transparent label that fully discloses the dose of each active ingredient. Zero proprietary blends means you know what you're getting in each and every scoop.

nooLVL®

nooLVL® is a patented ingredient, found exclusively in GHOST® GAMER, that boosts cognitive performance and energy in gamers. nooLVL® is the first dietary ingredient of its kind to be clinically studied in eSports athletes to significantly improve visual attention, accuracy and reaction time. n00b or not, at a full 1600MG (per two scoops), nooLVL® will help you level up in and out of the game.*

L-Tyrosine

L-Tyrosine is a free-form amino acid which rapidly crosses the blood-brain barrier. With regards to performance, tyrosine's main benefit is its ability to increase the synthesis of multiple neurotransmitters and enhance dopamine, epinephrine and norepinephrine levels. Studies have found that tyrosine supplementation can improve mood and enhance focus. At a full 1000MG (per two scoops) in GHOST® GAMER, we're pretty confident you'll be dialed in for every session*

Cognizin® Citicoline

Cognizin® is the third member of our #braingains trifecta and is a patented brain health ingredient that supports attention, focus and brain energy at a single-scoop serving (250MG per scoop). Cognizin® has also been shown to reduce errors while on task...in other words, the aforementioned pancake dropping into Verdansk should be few and far between (the buildings come out of nowhere, we get it).*

Natural Caffeine

GHOST® GAMER contains 150MG of Natural Caffeine (per two scoops) for just the right amount of energy and no crash.*

AstraGin®

AstraGin® works to help improve your body's ability to absorb key amino acids, proteins and glucose...in other words, AstraGin® ensures you're getting maximum benefit from everything we've packed into GHOST® GAMER.*
