Product Description

Let The GLOW UP Begin.

Your skin is a direct representation of your body's ability to combat stress, manage your diet (we all love a good physique destroyer), balance hormones and tolerate the environment, so it's about time you showed it some love... Introducing GHOST® GLOW, the badass skin-boosting, detoxifying powerhouse formulated to keep you feeling 100 inside and out.* Let the GLOW UP begin!

- GHOST® Full Disclosure Label
- 250MG Astrion™
- 250MG Setria® L-Glutathione
- 4000MG Inositol

Product Details

GHOST® Full Disclosure Label

All GHOST® products feature a 100% transparent label that fully discloses the dose of each active ingredient. Zero proprietary blends means you know what you're getting in each and every scoop.

Astrion™

Astrion™ is a plant-based compound that delivers nutrients deep in the skin to provide both nourishment and hydration. Astrion™ has shown in studies to increase Type 1 Collagen production in both outer and middle layers of skin, as well as decrease collagen breakdown due to UV light.*

Setria® L-Glutathione

Glutathione is the body's "master antioxidant" and the primary defense against free radical damage and toxins, such as: alcohol, the sun, and pollution in the air. This ingredient helps fortify Glutathione levels in the body, supporting its ability to eliminate toxins, chemicals, and potential carcinogens.*

Inositol

Inositol is an essential part of a healthy nervous system and has been shown to promote hormone balance and healthy blood sugar levels in women with PCOS. For these women, this can result in healthier skin.*

Verbasnol™

This botanical derived from Rehmannia glutinosa helps boost the skin's natural ability to fight free radical damage and nourish the skin with antioxidants. The antioxidants within Verbasnol™ replenish the skin and sweep away the adverse effects of sunlight, oxidative stress, and dryness while maintaining skin hydration and elasticity.*

L-Theanine

Theanine is an amino acid that may enhance mood, overall well-being and help mitigate stress when used at the clinically studied dose of 200mg.*

DIM

Naturally found in cruciferous vegetables like broccoli and cauliflower, DIM has been widely studied for its ability to promote a healthy hormone balance in both men and women.*
