04 *Metabolism*

05 *Nutrition*

Impact

Key nutrients from the diet help build hair fibers and texture while supporting hair follicle health. Without proper nutrient absorption, hair follicles don't get the nourishment they need.

How we target

We use Horsetail, which provides silica to promote hair strength, and 10 supportive vitamins and minerals like Biotin, Vitamin D, Iodine, Zinc, and Selenium.

# *Life happens*—and it takes a toll on your hair.
