Can a new Social Marketer earn both the Achiever's Bonus and an XM Experience?

YES!

When can I earn this bonus?

The qualification for the Achiever's Bonus will run from January 1 – February 28, 2023.

Does the volume of an enrollment under a Social Marketer that I personally enrolled count as new volume?

No, only the MP (Marketer Points) of your personal enrollments within the calendar month counts as your new volume for the month.

If I enroll as a new customer or Social Marketer in January, will they count as new volume in February?

TRUTH IN ADVERTISING.ORG

No, the bonus resets each commissionable month. New volume is only considered new if the enrollment date is in the current commissionable month. This way, the bonus can be earned twice, once in January and once in February. It is not a combined total.

If I enroll someone and they order again that same month, is that still considered new volume?

Yes, all volume from new customers in your customer pod and personally enrolled Social Marketers with an enrollment date in the current commissionable month, count towards the bonus.

If a customer in my customer pod enrolls a new customer, does that volume count?

Yes, all new customer volume, whether they were enrolled by you or one of your customers, in your customer pod in the commissionable period counts towards the bonus.

If I enrolled a new customer in December and that customer refers a new customer in January, does that new customer referral count?

Yes!

When will I get my free box of Project 23?

Product will ship beginning January 25.

I have a new Social Marketer that enrolled January 2nd, will they get access to the Project 23 product?

They will receive a text message by January 11 with the option to choose either the Menopausal or Menstrual product. The enrollment order will ship immediately, and Project 23 will ship the last week in January.
