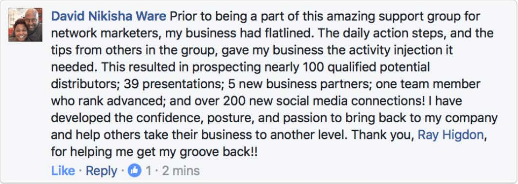
"...5 new business partners; one team member who rank advanced..."



David Nikisha Ware Prior to being a part of this amazing support group for network marketers, my business had flatlined. The daily action steps, and the tips from others in the group, gave my business the activity injection it needed. This resulted in prospecting nearly 100 qualified potential distributors; 39 presentations; 5 new business partners; one team member who rank advanced; and over 200 new social media connections! I have developed the confidence, posture, and passion to bring back to my company and help others take their business to another level. Thank you, Ray Higdon, for helping me get my groove back!!

I almost have no words right now. I just reached out to 5 women who I barely know and used the scripts I learned in here. 3 out of the 5 want more information. I'm blown away. I have spent $1000's on trainings and personal development over the years and I've been in here for 2 weeks and have gained more customers and now interest than I've ever experienced before. I want to cry because of how grateful I am for the teaching in here and this community who inspires me to step out of my comfort zone and really push to reach my goals. Thank you all!!!!

I finally signed my first consultant last night!! After a year in the business! 🎉🎉. Last week I was at the point of quitting and I knew that if I just keep going, and I press on and push through, that greatness is on the other side. Thank you Ray Higdon for your trainings on discouragement and not giving up!!

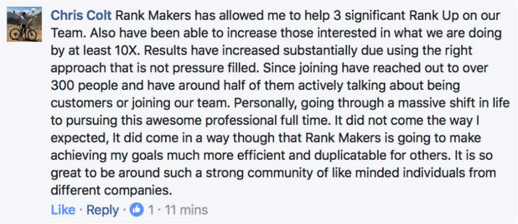
"...allowed me to help 3 significant Rank Ups on our Team..."



Chris Colt Rank Makers has allowed me to help 3 significant Rank Up on our Team. Also have been able to increase those interested in what we are doing by at least 10X. Results have increased substantially due using the right approach that is not pressure filled. Since joining have reached out to over 300 people and have around half of them actively talking about being customers or joining our team. Personally, going through a massive shift in life to pursuing this awesome professional full time. It did not come the way I expected, It did come in a way though that Rank Makers is going to make achieving my goals much more efficient and duplicatable for others. It is so great to be around such a strong community of like minded individuals from different companies.

Angela Campbell Rank Makers has been a blessing to me and my consistency. I've struggled lately with having that system and accountability in place to help keep me working daily and encouraged to make my own daily/weekly goals and reach them, and if I don't reach them to still be excited and celebrate the win!! This group has put my mind in such a better place with confidence and learning from you Ray Higdon and all of the marketers in here with their encouragement is priceless. Im reaching my goal of a minimum 20 prospects per week and usually getting more than that, whereas before i may skip a few days here and there with no real accountability even from my upline. Thank YOU!!

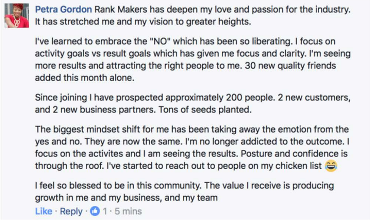
"2 new customers, and 2 new business partners..."



Petra Gordon Rank Makers has deepen my love and passion for the industry. It has stretched me and my vision to greater heights.

I've learned to embrace the "NO" which has been so liberating. I focus on activity goals vs result goals which has given me focus and clarity. I'm seeing more results and attracting the right people to me. 30 new quality friends added this month alone.

Since joining I have prospected approximately 200 people. 2 new customers, and 2 new business partners. Tons of seeds planted.

The biggest mindset shift for me has been taking away the emotion from the yes and no. They are now the same. I'm no longer addicted to the outcome. I focus on the activites and I am seeing the results. Posture and confidence is through the roof. I've started to reach out to people on my chicken list 😂

I feel so blessed to be in this community. The value I receive is producing growth in me and my business, and my team

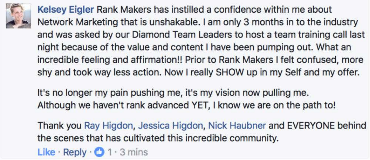
"...has instilled confidence with me about Network Marketing..."



Kelsey Eigler Rank Makers has instilled a confidence within me about Network Marketing that is unshakable. I am only 3 months in to the industry and was asked by our Diamond Team Leaders to host a team training call last night because of the value and content I have been pumping out. What an incredible feeling and affirmation!! Prior to Rank Makers I felt confused, more shy and took way less action. Now I really SHOW up in my Self and my offer.

It's no longer my pain pushing me, it's my vision now pulling me.
Although we haven't rank advanced YET, I know we are on the path to!

Thank you Ray Higdon, Jessica Higdon, Nick Haubner and EVERYONE behind the scenes that has cultivated this incredible community.

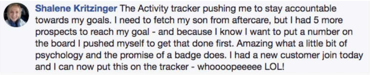
"The Activity Tracker pushing me to stay accountable..."



Shalene Kritzinger The Activity tracker pushing me to stay accountable towards my goals. I need to fetch my son from aftercare, but I had 5 more prospects to reach my goal - and because I know I want to put a number on the board I pushed myself to get that done first. Amazing what a little bit of psychology and the promise of a badge does. I had a new customer join today and I can now put this on the tracker - whoooopeeeee LOL!

For just **$27/mo** (just 90 cents a day), you'll get instant access to Rank Makers University (and Rank Makers) plus all 8 bonus gifts listed above.

Now, if I offered to give you **$3,456 worth of training** that could take your business to the next level, *would you give me $27 to access it?*

Of course, you would. Every rational person I've ever asked this question says yes without hesitation.

So why would I do this?

Simple.

Our goal, with Rank Makers, was never to make a whole bunch of money from a small group of "Elitists."

Our mission, as we've said again and again, was to help EVERYONE, from the total newbie to the 6-and-7 figure team builder.

So, we made Rank Makers accessible to ALL by reducing the price to such a small fee that anyone would be able to join.

Anyone can come up with $27 in one month to access Rank Makers.

But, even better, if for any reason you decide Rank Makers isn't worth the small investment you're making, I want you to keep the bonus gifts as a "thank you!" from me for giving Rank Makers a fair try.

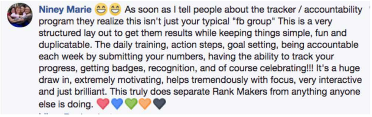
"It's a huge draw in, extremely motivating...and just brilliant."



Niney Marie 😁😁 As soon as I tell people about the tracker / accountability program they realize this isn't just your typical "fb group" This is a very structured lay out to get them results while keeping things simple, fun and duplicatable. The daily training, action steps, goal setting, being accountable each week by submitting your numbers, having the ability to track your progress, getting badges, recognition, and of course celebrating!!! It's a huge draw in, extremely motivating, helps tremendously with focus, very interactive and just brilliant. This truly does separate Rank Makers from anything anyone else is doing. ❤️💙💚🧡🖤

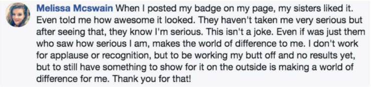
"They haven't taken me very serious but after seeing that..."



Melissa Mcswain When I posted my badge on my page, my sisters liked it. Even told me how awesome it looked. They haven't taken me very serious but after seeing that, they know I'm serious. This isn't a joke. Even if was just them who saw how serious I am, makes the world of difference to me. I don't work for applause or recognition, but to be working my butt off and no results yet, but to still have something to show for it on the outside is making a world of difference for me. Thank you for that!

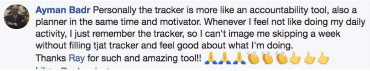
"I love that there is recognition for both activity and results..."

Sara Gindlesperger Morrison I love that there is recognition for both activity (number prospected) as well as results (number customers, reps, etc.) Because even if you don't get results right away, which is ok, you still feel included and just as important as the big dawgs 🙂

"Definitely makes me step up my game because I like to win!"

Joanie Day Grissom I love it!! Definitely makes me step up my game because I like to win! 💪💪

"The Activity Tracker pushing me to stay accountable..."



Ayman Badr Personally the tracker is more like an accountability tool, also a planner in the same time and motivator. Whenever I feel not like doing my daily activity, I just remember the tracker, so I can't image me skipping a week without filling tjat tracker and feel good about what I'm doing.
Thanks Ray for such and amazing tool!! 🙏🙏🙏👏👏👏👍👍👍

"The Activity Tracker pushing me to stay accountable..."

Leslie Hebert It's like having your own accountability partner. Who doesn't want the validation of earning a Rankmaker Badge of honor? It's pushing me and pulling me at the same time. Best way to get unstuck and get on the Rankmaker train to success.
