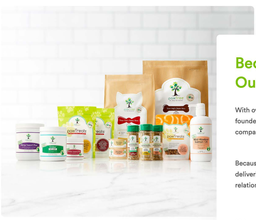
Position yourself as an entrepreneur in a $99 billion dollar and growing industry to be more, do more and have more.



Because Compromise Is Out of The Question!

With over fifteen years of experience as a CEO in the pet industry, our founder, Roger Morgan, experienced first hand the negative impact of companies compromising product quality, putting profits before pets.

Because of that, he founded pawTree to serve pets and people first by delivering high-quality, uncompromising products through relationships based on trust, rather than big box stores.

We exceed industry standards by simply living up to our own.

See How You Get Paid

The Power of Residual Income.

With pawTree you can stop trading time for money and instead create an income that will serve you long after the initial work is done. Because our products keep pets happy and healthy, 85% of our sales come from recurring orders meaning your customers will order again and again.

So, with pawTree you can continue to earn up to 35% commissions well after the initial sale. That means you get paid whether you're working, on vacation, or doing what you love most.

Now you don't have to let making a living stop you from making a life.

The best thing ever is the residual income and the fact that I am changing pets and people's lives. I never thought I could promote to where I am or that I could make the income I'm making in such a fulfilling way.

In March of 2020, when the travel and tourism industry was crippled, I lost my job. After 37 years in the industry, suddenly the main source of income for my family was gone. Thank goodness I had a Plan B in pawTree! Over the past 3 months my business has grown by 57% and provides more than just a paycheck.

Before pawTree I was overworked, underpaid, and longed for freedom. With pawTree, I found my people. I'm praised and rewarded for my efforts. I get to work with my hubby every day. We get to travel to amazing places, and now I'm able to work on the fly helping pets, following my passion.
