New Enrollment Packs Make it Easier to Start Your Business, Your Way

July 3, 2020 Neora™

Maybe you've been daydreaming of following your passion, feeding your entrepreneurial spirit and starting your own business for some time now. But in the end, something always seems to get in the way. Maybe it was worrying about the unknown, stepping outside your comfort zone or lacking the confidence that you had all the know-how you needed. Maybe you've been looking for **a partnering business that shares your ideals**.

COVID-19 Has Opened the Door to New Business Opportunity

We're all experiencing the impact that COVID-19 has had on our lives socially, emotionally and financially, but many of us are also choosing to see the opportunities that it has pressed our way. While Americans are seeing a shift in their jobs, it's actually inspiring them to be resourceful and step outside their comfort zones. Our country hasn't experienced a pandemic of this level in 100 years, so it's fair to say we're *all* out of comfort zones. And that's why there's never been a better time to take a chance on yourself and your future and create a life you love. And now that chance is more within reach, with Neora's new Enrollment Packs.

Our team at Neora knew we had to take a look at how we could pivot to make starting a business even more accessible during this crisis. And we're proud of what we were able to do. We're happy to announce that you can join the Neora family, **start your business for only $20 *and*** gain access to a huge library of tools, training and assets ***and*** get 50% off products.

While we can't control what is happening in the world, we are able to do our part for those who are now looking for supplemental income, or who have suddenly found themselves led to finally take that leap of faith by current events. In these three easy steps, you're on your way to your business, your way.
