HOW DO I BECOME A XYNGULAR DISTRIBUTOR?

If you like helping people become the best version of themselves, then becoming a distributor won't feel like work! All you need to do is reach out to your Xyngular Distributor and they can help you sign up. Or feel free to contact Xyngular directly to get going on your own independent career.

How much does it cost?

Become a Xyngular Distributor and start your own business for a starter fee of $49.95 plus a starter and transformation kit.

What resources do I have access to?

We offer support through virtual classes and an engaging online social media Xyngular community that will teach you the best sales techniques and how to share your story! We also offer marketing material and ongoing support through your distribution team!.

How long does it take?

Becoming a distributor is a quick process that will have you making money within your first month. If you are already using Xyngular products, moving from a customer to a Xyngular Distributor will feel like a natural step. You already know the great benefits of Xyngular products and simply need to share your wellness story!*

Along with your own personal experiences, we have a website and social media pages full of testimonials, recipes, tips, FAQs, and more to help your customers understand why Xyngular products are an important supplement to their weight loss journey.

3 MYTHS ABOUT BECOMING A DISTRIBUTOR

Myth 1: Xyngular is a pyramid scheme.

Xyngular is absolutely not a pyramid scheme. Our Xyngular products are not only award-winning but are the core of your business! We don't expect someone to pay for an empty promise. Your customers are purchasing physical products that have proven results. As a Xyngular Distributor, you will be building a team that will reach a wider-range of clients, all of which will be purchasing physical products.

Myth 2: You have to purchase Xyngular products to sell them.

As a Xyngular Distributor, you have 2 easy ways to sell Xyngular products. You can purchase products upfront at a wholesale price and resale them at retail to your clients. However, you can choose to send customers to your Distributor webpage and have them order directly from Xyngular. Your commissions will be paid out according to the Xyngular compensation plan.*

Myth 3: You can't make money being a Xyngular Distributor.

Making money as a Xyngular Distributor is all about you. Your Xyngular business will grow according to your dedication! When customers see the naturally sourced ingredients and experience working with a Xyngular Coach, sales and team members will not be difficult to find. Our Xyngular Distributor compensation plan is an easy way to see your distributor potential. You even have the opportunity to earn travel rewards and bonus awards! How much you earn is entirely up to you!*

Become a Xyngular Distributor today! Reach out to your personal Xyngular Distributor to sign up, or visit our website to get started!
