Good morning Laura,

I am following up with you this morning to update on the 118 MPNs identified by TINA.org as misrepresented as Made in USA on GSA Advantage!®.

GSA contracting officials, working with the contractors, have reviewed all of the identified MPNs and at this time, all have been updated or removed, as appropriate. Contracting officials continue to monitor the product offerings.

Please feel free to reach out to me at [REDACTED] or [REDACTED] with any questions.

Thank you,
Judith
