ACCLAIM™ AWNING WINDOW

★★★★★ 56,990 Ratings

Hinged at the top and opening from the bottom, Acclaim™ awning windows are kissing cousins to casements, and offer many of the same benefits—but with a few additional perks, especially in inclement weather. Like casements, they also pair well with large/inoperable windows. They are an excellent choice for above sinks, counters, or doors where opening requires reach.

WHY CHOOSE ACCLAIM™ AWNING WINDOWS?

- **SIMPLE OPERATION** - Elegant hardware offers smooth, easy operation and features a folding handle that nests neatly and doesn't interfere with curtains or blinds.
- **CONVENIENCE** - Awning windows are hinged at the top and open from the bottom, so you can let fresh air in and keep the windows open, even in the rain.
- **ELEGANCE** - Excellent for adding architectural interest. Mortise-and-tenon frame and sash construction provides a traditional hand-crafted look. Horizontal design offers dramatic design accents when combined with other windows.
- **COMFORT** - When fully open, awnings provide ventilation from the entire sash area. Easily accessible Slimline locks lock the window at multiple points for a weather tight seal and enhanced security.
- **VERSATILITY** - Awnings are an excellent choice for above sinks, counters, or doors where opening requires a reach. In addition, they pair well with other windows, especially large or non-operable picture windows.

Shortly after our order was submitted, I changed my mind about the bathroom window. I called Kurt and stated I would like the top 1/2 of the window to be clear, not frosted like the bottom. He checked status said it was in progress and too late for change. I said ok thanked him. Kurt called me a day or two later and said they had been able to make the requested change to top window pane. Needless to say I was very happy!! A big THANK YOU to Kurt . the crew that made that happen!

I find it hard to understand that when the windows are custom measured and go into production, that when the installation crew arrive to stat one of your windows is on back order. How does that happen when all submitted in the same production build run?

5 ★★★★★ **DAVID W** FROM SAINT PAUL, MN *April 11, 2025*

We are overjoyed with our new windows. The project from start to finish went very smoothly and the installation team (Chris, Matt and Brandon) were excellent to work with - professional, efficient and friendly. It was very apparent that they take pride in their work. We would highly recommend Renewal by Andersen for your window and/or door replacement needs.

ACCLAIM™ AWNING WINDOW

★★★★★ 56,990 Ratings

Hinged at the top and opening from the bottom, Acclaim™ awning windows are kissing cousins to casements, and offer many of the same benefits—but with a few additional perks, especially in inclement weather. Like casements, they also pair well with large/inoperable windows. They are an excellent choice for above sinks, counters, or doors where opening requires reach.
