WHY CHOOSE ACCLAIM™ PICTURE WINDOWS?

- **CONVENIENCE** - Ideal for letting in light in hard-to-reach spaces. Low-maintenance design makes it the ideal window to simply relax and enjoy the view.
- **COMFORT** - Strong, full-perimeter seal between glass and frame makes for outstanding energy efficiency all even the largest sizes.
- **ELEGANCE** - Fibrex® material easily supports the weight of the heavy glass commonly needed for large picture windows. It also allows for thinner frames, which means maximal glass space for incredible views and lots of light.
- **VERSATILITY** - Beautifully combines with other windows. Using an operable window adds functional element to the aesthetic one. Pair a casement window on either side to increase ventilation, combine different sized picture windows for a dramatic look, or surround your patio door with long picture windows to create a wall of glass.

Eunice, Connor, and everyone else live dealt with have been great. The first Install crew in my December job was better than my second Install crew from a personality and friendliness factor, but the second Install crew from the current job got more friendly throughout the day.

I find it hard to understand that when the windows are custom measured and go into production, that when the installation crew arrive to stat one of your windows is on back order. How does that happen when all submitted in the same production build run?
