WHY CHOOSE ACCLAIM™ SLIDING WINDOWS?

- **SIMPLE OPERATION** - The all-new gliding roller system features self-lubricating rollers and stainless-steel axles making it easy to operate, regardless of size.
- **CONVENIENCE** - Engineered for superior performance. Smooth, easy-to-maintain dual-monorail tracks and rounded sill corners provide lift-out access for easy glass cleaning from the inside of your home.
- **COMFORT** - Our patented water-management technology features a sill design that directs water away from the window quickly and efficiently and the exclusive sliding weather-stripping system provides superior weather tightness, guarding against drafts and water infiltration.
- **BEAUTY** - Mortise-and-tenon construction combined with Fibrex® composite framing material provides a traditional, hand-crafted look in an ultra-strong package—making for some of the largest sliders in the industry.
- **VERSATILITY** - Gliders can be made small to large and everything in between. They are an excellent choice for rooms facing walkways, porches, decks, patios, or landscaping, as they do not protrude into the space, and are also well-suited for egress windows. Perfect for maximizing the view and the ventilation.
