We were happy with the installation of our windows and the two men who installed them. Just wish we didnt have to wait two weeks to get the staining done so we could put up our blinds and curtains.

Project took much longer than expected because some of the materials were measured incorrectly and we were set back a few weeks to receive the corrected material.

I love the windows, they're installed and that's nice, but the process of getting them in took way longer than I was expecting, and was a little frustrating along the way. The price is steep for things like that to happen.

Everything about this process was great. The sales staff and concierge were kind and seemed to genuinely care about us and our home. They weren't trying to upsell every little thing possible for no reason. They were honest and very helpful. The measuring and project management was very smooth and easy in this process and they were helpful in communicating our project timeline. The install crew was fantastic, honestly cant say enough good about them. Mike and his crew showed up on time (early actually, for a 7 am start time) and they put salt on our driveway since it was very slick and slippery. They didnt need to do that, but the extra safety measure was great. They were very professional throughout the day, always courteous and letting us know when they would be moving into a different area of the home to work. They were the best, and very helpful once they were completed with the project. They showed us where each window serial number was, how to pop out the windows for cleaning, and general maintenance tips to help. Honestly, Mike and his crew were awesome to have at our home. I cant recommend Renewal by Andersen enough.

Overall a great experience. We've had a lot of work done on our home this year and I can confidently say this was the best customer service and installation experience of them all.
