WHY #5?

100% of our K-Cup® pods are made from recyclable* polypropylene plastic, otherwise known as #5 plastic. #5 plastic is now widely accepted in curbside recycling systems across North America, although many systems that accept polypropylene do not necessarily accept K-Cup® pods.

Inside the **Recyclable*** **K-Cup*** **Pod**

Freshly ground coffee **from leading coffee brands** fills our recyclable K-Cup® pods

Hot water saturates the freshly ground beans and **flows through the paper filter**

Gentle pressure extracts every ounce of **rich, full-flavored coffee**
