15	RANDY NUNEZ, On Behalf of Himself and All Others Similarly Situated,	Case No. <u>'13CV0626 WQHJMA</u>	
16		CLASS ACTION COMPLAINT FOR:	
17	vs.	1. VIOLATION OF THE UNFAIR COMPETITION LAW, Business and	
18	SUPERVALU, INC., a Minnesota	Professions Code \$17200 et seq.; 2. VIOLATION OF THE	
19	corporation and Does 1 through 20,	CONSUMERS LEGAL REMEDIES	
20	Defendants.	3. BREACH OF EXPRESS WARRANTY.	
21		DEMAND EOD HIDV TDIAI	
22		DEMAND FOR JURY TRIAL	
23	Plaintiff RANDY NUNEZ brings this	action on behalf of himself and all others	
24	similarly situated against Defendants SUPERVALU, INC., a Minnesota corporation and		
25	Does One through twenty, (collectively "Defendants") and states:		
26	NATURE OF ACTION		
27	1. Defendants distribute, market and sell "Equaline Glucosamine Chondroiting		
28	Complex" (hereafter, "Equaline"), a line of supplements which purportedly provide		
	Case No.		
	CLASS ACTION	COMPLAINT	

variety of health benefits centered around reducing joint pain and improving joint comfort¹. Defendants represent that the primary active ingredients in its Equaline products are "Glucosamine" and "Chondroitin". Through an extensive, nationwide, comprehensive and uniform advertising campaign, Defendants represent that Equaline supports "cartilage renewal and joint comfort," "helps protect cartilage," and "Help rebuild joints." Other representations claim that Equaline "is a synergistic combination of the latest in joint health ingredients, specifically designed for those individuals who are serious about protecting and maintaining their joint health".

- 2. The statements represented on the Equaline product packaging are "structure-function" claims which must be limited to a description of the role that a dietary ingredient is "intended to affect the structure or function in humans." 21 U.S.C. § 343 (r)(6). In order to make a structure-function claim, the dietary supplement manufacturer is required to have substantiation that such statements are truthful and not misleading. *Id*.
- 3. Defendants do not have any competent, reliable scientific evidence which substantiates their representations about the health benefits of consuming Equaline. In fact, all available scientific evidence demonstrates that the Equaline products have no efficacy at all and are ineffective in the treatment of joint pain and provide no joint comfort. Numerous scientifically valid studies have been conducted on the ingredients, including the core or primary ingredients in Equaline, "Glucosamine" and "Chondroitin," and they have universally demonstrated that Glucosamine and Glucosamine in combination with Chondroitin have absolutely no scientific value in the treatment of joint pain or discomfort.
- 4. Further, pursuant to 21 C.F.R. § 101.93, Defendants are prohibited from making "disease claims" about their product. Disease claims are generally described as statements which claim to diagnose, mitigate, treat, cure or prevent disease where the statements claim "explicitly or implicitly, that the product...Has an effect on the

¹ Equaline products include: "Glucosamine Chondroitin Complex; Triple Strength;" and "Glucosamine Chondroitin Complex Advanced with MSM & Vitamin D".

characteristic signs or symptoms of a specific disease or class of diseases, using scientific or lay terminology." *Id.* Defendants make representations on the product label for the Equaline products which directly relate to the treatment of Osteoarthritis. The Mayo Clinic defines symptoms of osteoarthritis as follows:

- *Pain.* Your joint may hurt during or after movement.
- Tenderness. Your joint may feel tender when you apply light pressure to it.
- *Stiffness*. Joint stiffness may be most noticeable when you wake up in the morning or after a period of inactivity.
- Loss of flexibility. You may not be able to move your joint through its full range of motion.
- *Grating sensation.* You may hear or feel a grating sensation when you use the joint.
- *Bone spurs.* These extra bits of bone, which feel like hard lumps, may form around the affected joint.

See http://www.mayoclinic.com/health/osteoarthritis/DS00019/DSECTION=symptoms (last viewed February 21, 2013).

5. Defendants' Equaline products define the characteristics of Osteoarthritis, representing: "Overexertion, the natural aging process and everyday wear and tear can take their toll." The products represent that they will provide relief for this wear and tear and the symptoms of Osteoarthritis, stating of the product ingredients, that they are "specifically designed for those individuals who are serious about protecting and maintaining their joint health." *See* product labels, attached as Exhibit "A". Further, the product label on the Equaline Glucosamine Chondroint Complex Advanced with MSM & Vitamin D represents that the product, is a "joint lubricating complex" which "supports joint comfort". The product packaging further warrants that Glucosamine and Chondroitin "help rebuild joints." These claims are made in addition to the other representations described herein. Taken together, these statements explicitly and implicitly represent that Equaline Glucosamine is intended to prevent, treat, or otherwise cure symptoms associated with Osteoarthritis.

- 6. Defendants did not obtain the requisite New Drug Application prior to marketing and selling its Equaline Glucosamine products. As such, making these statements and representations without a New Drug Application ("NDA") approval from the FDA constitute misbranding and false and misleading conduct pursuant to 21 C.F.R. § 101.93.
- 7. Despite the deceptive nature of Defendants' representations, Defendants convey their uniform, deceptive message to consumers through a variety of media including their website and online promotional materials, and, most important, at the point of purchase, on the front of the Products' packaging/labeling where it cannot be missed by consumers. The only reason a consumer would purchase Equaline is to obtain the advertised joint-health benefits, which the Equaline products do not provide.
- 8. As a result of Defendants' deceptive advertising and false claims regarding the efficacy of the Equaline product, Plaintiff and the proposed class have purchased a product which does not perform as represented and they have been harmed in the amount they paid for the product, which, in the case of Plaintiff Nunez is approximately \$20.00 per bottle for the Glucosamine Chondroitin Complex Advanced with MSM & Vitamin D and less than \$15.00 per bottle for Glucosamine Chondroitin Complex Triple Strength.
- 9. Plaintiff brings this action on behalf of himself and other similarly situated consumers who have purchased Defendants' Equaline products to halt the dissemination of this false, misleading and deceptive advertising message, correct the false and misleading perception it has created in the minds of consumers, and obtain redress for those who have purchased these Products. Based on violations of state unfair competition laws and Defendants' breach of express warranty, Plaintiff seeks injunctive and monetary relief for consumers who purchased the Equaline products.

JURISDICTION AND VENUE

10. This Court has original jurisdiction pursuant to 28 U.S.C. §1332(d)(2). The matter in controversy, exclusive of interest and costs, exceeds the sum or value of \$5,000,000 and is a class action in which there are in excess of 100 class members and

Case No.

27

28

many members of the Class are citizens of a state different from Defendants.

- 11. This Court has personal jurisdiction over Defendants because Defendants are authorized to conduct and do conduct business in California. Defendants have marketed, promoted, distributed, and sold the Equaline Glucosamine product in California and Defendants have sufficient minimum contacts with this State and/or sufficiently avail themselves of the markets in this State through their promotion, sales, distribution and marketing within this State to render the exercise of jurisdiction by this Court permissible.
- 12. Venue is proper in this Court pursuant to 28 U.S.C. §§1391(a) and (b) because a substantial part of the events or omissions giving rise to Plaintiff's claims occurred while she resided in this judicial district. Venue is also proper under 18 U.S.C. §1965(a) because Defendants transact substantial business in this District.

PARTIES

13. Plaintiff Randy Nunez resides in San Diego, California. In or around late December of 2012, Plaintiff was exposed to and saw Defendants' representations regarding the joint health benefits of Equaline by reading the Equaline Glucosamine product label in an Albertson's grocery store near his home in downtown San Diego. In reliance on the claim that Equaline "supports cartilage renewal and joint comfort" and the other representations made on the product packaging as described herein, purchased the Equaline Glucosamine, "Glucosamine Chondroitin Complex Triple Strength" formula (40 count) at an Albertson's grocery store located at 655 14th Street, San Diego, California 92101. He paid approximately \$15.00 for the product. Mr. Nunez also purchased an 80 count bottle of the "Equaline Glucosamine Chondrotin Complex Advanced with MSM & Vitamin D". At the time, Mr. Nunez was anticipating entering into a rigorous physical fitness program after a brief break from activity over the holidays. He purchased the products believing it would provide the advertised joint health benefits and improve his joint soreness and comfort. The Equaline products Plaintiff purchased did not provide the comfort it represented and did not provide any benefit at all. As a result, Plaintiff suffered injury in fact and lost money. Had Plaintiff known the truth about

Defendants' misrepresentations and omissions, he would not have purchased the Equaline products.

- 14. Defendant Supervalu, Inc. ("Supervalu") is a corporation organized and existing under the laws of the state of Minnesota. Supervalu's headquarters is at East View Innovation Center, 7075 Flying Cloud Drive, Eden Prairie, MN 55344. Supervalu, advertises markets, distributes, and/or sells the Equaline products to tens of thousands of consumers in California and throughout the United States. Supervalu is the parent company of the Albertson's grocery store where Plaintiff purchased the Equaline products.
- 15. Plaintiff is informed and believes, and thus alleges, that at all times herein mentioned, each of the Defendants was the agent, employee, representative, partner, joint venturer, and/or alter ego of the other Defendant and, in doing the things alleged herein, was acting within the course and scope of such agency, employment, representation, on behalf of such partnership or joint venture, and/or as such alter ego, with the authority, permission, consent, and/or ratification of the other Defendant.

FACTUAL ALLEGATIONS

The Equaline products

- 16. For the past several years, Defendants have distributed, marked and sold the Equaline products on a nation-wide basis throughout a variety of its subsidiary grocery chains, including "Albertson's" grocery stores. The Equaline products are available in a variety of sized bottles from 40 count all the way up to 80 count. The Equaline line of products includes: Glucosamine Chondroitin Complex; Triple Strength;" and "Glucosamine Chondroitin Complex Advanced with MSM & Vitamin D". (collectively, "Equaline" or "the Products"). The products are indistinguishable from an "efficacy" standpoint as Plaintiff alleges that the core ingredients in the products are virtually identical ("Glucosamine" and "Chondroitin") and that the products are each completely inefficacious.
 - 17. The primary active ingredients in the Equaline products are Glucosamine and

Case No.

Chondrotin. It is the inclusion or prevalence of these ingredients from which Defendant generates all of its joint-health related claims. Since the inception of the Equaline product line, Defendants have consistently advertised the Equaline Glucosamine products as, supporting joint comfort and cartilage renewal; helping to protect cartilage and rebuild joints. As more fully set forth herein, the scientific evidence regarding the use of glucosamine, taken alone or in combination with other ingredients, does not provide <u>any</u> of the joint health benefits represented by Defendants.

- 18. Since launching the Equaline products, Defendants have consistently conveyed the message to consumers throughout the United States, including California, that the Equaline Glucosamine and Chondroitin based products support joint comfort and cartilage renewal. They do not. Defendants' superior joint comfort claims are false, misleading and deceptive. They not provide the advertised benefit; and they provide no benefit at all.
- 19. In addition to glucosamine and chondroint, which Defendants prominently promotes as being the primary active ingredients which provide the purported joint health benefits, Defendants' Equaline products contain smaller amounts of other purported ingredients, including but not limited to: chondroitin sulfate; methylsulfonylmethane ("MSM"); and Boswellia Serrata². As more fully discussed below, these other minor ingredients are also not effective in providing the joint health benefits represented by Defendants, but in any event the focus of this action is on the uniform false and deceptive representations and omissions that Defendants makes about glucosamine and glucosamine in combination with chondroitin on the package labeling of each of the Equaline products.
- 20. Even though numerous clinical studies have found that the primary ingredient in Defendants' Equaline products, glucosamine, alone or in combination with chondroitin and other supplements, is ineffective, Defendants continue to make the false representations about the ability of the products to improve joint comfort and joint health.

² "Bosweillia Serrata" is present only in the Glucosamine Chondroitin Complex Triple Strength product.

- 21. Independent scientific studies confirm that the representations made on the Equaline product label, relied upon by Plaintiff in making his purchase, are false and misleading. Despite knowledge of these studies, Defendant continued to make the described representations, misleading Plaintiff and members of the class into believing the Equaline products had actual efficacy and would provide the benefits described in its advertising.
- 22. Defendants knew or should have known that glucosamine alone and taken in combination with the other ingredients present in the Equaline products have no actual medicinal value and do not provide any of the warranted benefits as represented by Defendant's Equaline products' labels. In fact, there is no scientific study demonstrating that any glucosamine product can regenerate cartilage. To the contrary, as numerous studies have confirmed, neither glucosamine, chondroitin, or any other supplements or ingredients actually regenerate or protect cartilage or provide joint comfort or relief from pain:
- 23. In February 2004, a Supplement to the American Journal of Orthopedics published an article entitled "Restoring Articular Cartilage in the Knee." The authors concluded that adult cartilage cannot be regenerated because it is not vascularized, meaning that blood does not flow to damaged cartilage which prevents <u>any</u> mechanism for regeneration.
- 24. In February 2006, the New England Journal of Medicine published a report on a double blind study addressing in part the efficacy of ingesting glucosamine hydrochloride 1500mg. *Clegg, et al.* Glucosamine Chondroitin Sulfate, and the Two in Combination for Painful Knee Osteoarthritis. New Eng. J. Med. 354:795-808 (Feb. 2006). The study concluded that there was no showing that the supplement was effective in treating osteoarthritis.
- 25. In February 2008, the Annals of Internal Medicine published a study entitled, "Effect of Glucosamine Sulfate on Hip Osteoarthritis: a Randomized Trial." Annals of Internal Medicine 2008 Feb 19;148(4): 268-277. The article published the results of a

study which examined whether glucosamine sulfate has an effect on the symptoms and structural progression of hip osteoarthritis during two years of treatment; the conclusion reached from the study was that glucosamine sulfate was no better than placebo in reducing symptoms and progression of hip osteoarthritis.

- 26. In October 2008, the American College of Rheumatology's Journal, Arthritis & Rheumatism published a report on a double blind study conducted at multiple centers in the United States examining joint space width loss with radiograph films in patients who were treated with glucosamine hydrochloride. The authors concluded that after two years of treatment with this supplement, the treatment did not demonstrate a clinically important difference in joint space width loss. Sawitzke et al., Glucosamine for Pain in Osteoarthritis: Why do Trial Results Differ?, Arthritis Rheum., 58:3183-3191 (2008).
- 27. In March 2009, Harvard Medical School published a study conclusively proving that the ingestion of glucosamine could not affect the growth of cartilage. The study took note of the foregoing 2006 and 2008 studies, which "cast considerable doubt" upon the value of glucosamine. The authors went on to conduct an independent study of subjects ingesting 1500 mg of glucosamine, and proved that only trace amounts of glucosamine entered the human serum, *far below any amount that could possibly affect cartilage* (emphasis added). Moreover, even those trace amounts were present only for a few hours after ingestion. The authors noted that a 1986 study had found no glucosamine in human plasma after ingestion of four times the usual 1500 mg of glucosamine chloride or sulphate. Silbert, Dietary Glucosamine Under Question, Glycobiology 19(6):564-567 (2009).
- 28. In April 2009, the Journal of Orthopedic Surgery published an article entitled, "Review Article: Glucosamine." The article's authors concluded that, based on their literature review, there was "little or no evidence" to suggest that glucosamine was superior to a placebo even in slowing down cartilage deterioration, much less regenerating it. Kirkham, et al., Review Article: Glucosamine, Journal of Orthopedic Surgery, 17(1): 72-6 (2009).

- 29. In October 2008, the journal Arthritis and Rheumatism published an article entitled, "The Effect of Glucosamine and/or Chondroitin Sulfate on the Progression of Knee Osteoarthritis." The authors reported on the results of a 24-month, double-blind, placebo-controlled study, which demonstrated that there were no statistically significant differences in progressive loss of joint space width for subjects taking glucosamine and chondroitin versus placebos. Sawitzke, et al., The Effect of Glucosamine and/or Chondroitin Sulfate on the Progression of Knee Osteoarthritis, Arthritis and Rheumatism, 58(10): 3183-3191 (2008).
- 30. In June 2011, the Journal of Pharmacy & Pharmaceutical Sciences published an article entitled, "The Glucosamine Controversy; A Pharmacokinetic Issue." The authors concluded that regardless of the formulation used, no or marginal beneficial effects were observed as a result of low glucosamine bioavailability. Aghazadeh-Habashi and Jamali, The Glucosamine Controversy; A Pharmacokinetic Issue, Journal of Pharmacy & Pharmaceutical Sciences, 14(2): 264-273 (2011).
- 31. To date, there are only two studies, both of which are more than a decade old, purporting to claim that the ingestion of glucosamine can affect the growth or deterioration of cartilage, both sponsored by a glucosamine supplement manufacturer: Pavelka et. aI. Glucosamine Sulfate Use and Delay of Progression of Knee Osteoarthritis, Arch. Intern. Med., 162: 2113-2123 (2002); Reginster et. aI. Long-term Effects of Glucosamine Sulphate On Osteoarthritis Progress: A Randomised, Placebo-Controlled Clinical Trial, Lancet, 357: 251-6 (2001). As noted in the April 2009 Journal of Orthopedic Surgery article, the methodologies in those studies had "inherently poor reproducibility," and even minor changes in posture by the subjects during scans could cause false apparent changes in cartilage. The authors of the Journal of Orthopedic Surgery article explained the manufacturer-sponsored studies' findings by noting that "industry-sponsored trials report positive effects more often than do non-sponsored trials and more find pro-industry results." No reliable scientific medical study has shown that glucosamine and chondroitin, alone or in combination, have a structure modifying effect

that will regenerate cartilage that has broken down or worn away.

- As a result, Plaintiff and the Class members have been damaged by their 32. purchases of the Equaline products and have been deceived into purchasing Products that they believed, based on Defendants' representations, provided joint health benefits and overall joint comfort when, in fact, they do not.
- 33. Defendants have reaped enormous profits from their false marketing and sale of the Equaline Glucosamine products.

CLASS DEFINITION AND ALLEGATIONS

34. Plaintiff brings this action on behalf of herself and all other similarly situated Class members pursuant to Rule 23(a), (b)(2) and (b)(3) of the Federal Rules of Civil Procedure and seeks certification of the following Class against Defendants for violations of California state laws and/or similar laws in other states:

Multi-State Class Action

All consumers who purchased an Equaline product, within the applicable statute of limitations, in the United States for personal use until the date notice is disseminated.

Excluded from this Class are Defendants and their officers, directors and employees, and those who purchased an Equaline product for the purpose of resale.

35. In the alternative, Plaintiff brings this action on behalf of himself and all other similarly situated California consumers pursuant to Rule 23(a), (b)(2) and (b)(3) of the Federal Rules of Civil Procedure and seeks certification of the following Class:

27

28

California-Only Class Action

All California consumers who purchased an Equaline product, within the applicable statute of limitations, for personal use until the date notice is disseminated.

Excluded from this Class are Defendants and their officers, directors and employees, and those who purchased an Equaline product for the purpose of resale.

36. *Numerosity*. The members of the Class are so numerous that joinder of all members of the Class is impracticable. Plaintiff is informed and believes that the

10 Case No.

proposed Class contains thousands of purchasers of the Equaline products who have been damaged by Defendants' conduct as alleged herein. The precise number of Class members is unknown to Plaintiff.

- 37. Existence and Predominance of Common Questions of Law and Fact. This action involves common questions of law and fact, which predominate over any questions affecting individual Class members. These common legal and factual questions include, but are not limited to, the following:
- (a) whether the claims discussed above are true, or are misleading, or objectively reasonably likely to deceive;
 - (b) whether Defendants' alleged conduct violates public policy;
- (c) whether the alleged conduct constitutes violations of the laws asserted;
 - (d) whether Defendants engaged in false or misleading advertising;
- (e) whether Plaintiff and Class members have sustained monetary loss and the proper measure of that loss; and
- (f) whether Plaintiff and Class members are entitled to other appropriate remedies, including corrective advertising and injunctive relief.
- 38. *Typicality*. Plaintiff's claims are typical of the claims of the members of the Class because, *inter alia*, all Class members were injured through the uniform misconduct described above and were subject to Defendants' deceptive joint health benefit claims that accompanied each and every Equaline product Defendant sold. Plaintiff is advancing the same claims and legal theories on behalf of himself and all members of the Class.
- 39. Adequacy of Representation. Plaintiff will fairly and adequately protect the interests of the members of the Class. Plaintiff has retained counsel experienced in complex consumer class action litigation, and Plaintiff intends to prosecute this action vigorously. Plaintiff has no adverse or antagonistic interests to those of the Class.
- 40. *Superiority*. A class action is superior to all other available means for the fair and efficient adjudication of this controversy. The damages or other financial

detriment suffered by individual Class members is relatively small compared to the burden and expense that would be entailed by individual litigation of their claims against Defendants. It would thus be virtually impossible for Plaintiff and Class members, on an individual basis, to obtain effective redress for the wrongs done to them. Furthermore, even if Class members could afford such individualized litigation, the court system could not. Individualized litigation would create the danger of inconsistent or contradictory judgments arising from the same set of facts. Individualized litigation would also increase the delay and expense to all parties and the court system from the issues raised by this action. By contrast, the class action device provides the benefits of adjudication of these issues in a single proceeding, economies of scale, and comprehensive supervision by a single court, and presents no unusual management difficulties under the circumstances here.

- 41. The Class also may be certified because Defendants have acted or refused to act on grounds generally applicable to the Class thereby making appropriate final declaratory and/or injunctive relief with respect to the members of the Class as a whole.
- 42. Plaintiff seeks preliminary and permanent injunctive and equitable relief on behalf of the entire Class, on grounds generally applicable to the entire Class, to enjoin and prevent Defendants from engaging in the acts described, and requiring Defendants to provide full restitution to Plaintiff and Class members.
- 43. Unless a Class is certified, Defendants will retain monies received as a result of their conduct that were taken from Plaintiff and Class members. Unless a Class-wide injunction is issued, Defendants will continue to commit the violations alleged, and the members of the Class and the general public will continue to be misled.

COUNT I Violation of Business & Professions Code §17200, et seq.

- 44. Plaintiff repeats and re-alleges the allegations contained in the paragraphs above, as if fully set forth herein.
 - 45. Plaintiff brings this claim individually and on behalf of the Class.

- 46. As alleged herein, Plaintiff has suffered injury in fact and lost money or property as a result of Defendants' conduct because he purchased Equaline products in reliance on Defendants' joint-health benefit claims, including *inter alia*, that the Equaline Glucosamine products:
 - "Supports Cartilage Renewal;"
 - "Supports Joint Comfort;"
 - "Helps Protect Cartilage;"
 - "Helps maintain the cellular components within joints;"
 - is a "Joint Lubricating Complex;"
 - "Help rebuild joints"

but did not receive a Product that provided any joint comfort, cartilage renewal or protection at all.

- 47. The Unfair Competition Law, Business & Professions Code §17200, et seq. ("UCL"), and similar laws in other states, prohibit any "unlawful," "fraudulent" or "unfair" business act or practice and any false or misleading advertising. In the course of conducting business, Defendants committed unlawful business practices by, *inter alia*, making the above referenced claims in paragraph 49 and as alleged throughout herein (which also constitutes advertising within the meaning of §17200) and omissions of material facts related to the numerous scientific studies which demonstrate no joint-health benefits derived from the consumption of the ingredients present in Equaline, and violating Civil Code §§1572, 1573, 1709, 1711, 1770 and Business & Professions Code §§17200, et seq., 17500, et seq., and the common law.
- 48. Plaintiff and the Class reserve the right to allege other violations of law, which constitute other unlawful business acts or practices. Such conduct is ongoing and continues to this date.
- 49. Defendants' actions also constitute "unfair" business acts or practices because, as alleged above, *inter alia*, Defendants engaged in false advertising, misrepresented and omitted material facts regarding the Equaline product, and thereby

offended an established public policy, and engaged in immoral, unethical, oppressive, and unscrupulous activities that are substantially injurious to consumers.

- 50. As stated in this Complaint, Plaintiff alleges violations of consumer protection, unfair competition and truth in advertising laws in California and other states, resulting in harm to consumers. Defendants' acts and omissions also violate and offend the public policy against engaging in false and misleading advertising, unfair competition and deceptive conduct towards consumers. This conduct constitutes violations of the unfair prong of Business & Professions Code §17200, et seq.
- 51. There were reasonably available alternatives to further Defendants' legitimate business interests, other than the conduct described herein.
- 52. Business & Professions Code §17200, et seq. also prohibits any "fraudulent business act or practice."
- 53. Defendants' actions, claims, nondisclosures and misleading statements, as more fully set forth above, were also false, misleading and/or likely to deceive the consuming public within the meaning of Business & Professions Code §17200, et seq.
- 54. Plaintiff and other members of the Class have in fact been deceived as a result of their reliance on Defendants' material representations and omissions, which are described above. This reliance has caused harm to Plaintiff and other members of the Class who each purchased an Equaline product. Plaintiff and the other Class members have suffered injury in fact and lost money as a result of these unlawful, unfair, and fraudulent practices.
- 55. As a result of their deception, Defendants have been able to reap unjust revenue and profit.
- 56. Unless restrained and enjoined, Defendants will continue to engage in the above-described conduct. Accordingly, injunctive relief is appropriate.
- 57. Plaintiff, on behalf of himself, all others similarly situated, and the general public, seeks restitution and disgorgement of all money obtained from Plaintiff and the members of the Class collected as a result of unfair competition, an injunction prohibiting

Defendants from continuing such practices, corrective advertising and all other relief this Court deems appropriate, consistent with Business & Professions Code §17203.

COUNT II Violations of the Consumers Legal Remedies Act – Civil Code §1750 et seq.

- 58. Plaintiff repeats and re-alleges the allegations contained in the paragraphs above, as if fully set forth herein.
 - 59. Plaintiff brings this claim individually and on behalf of the Class.
- 60. This cause of action is brought pursuant to the Consumers Legal Remedies Act, California Civil Code §1750, et seq. (the "Act") and similar laws in other states. Plaintiff is a "consumer" as defined by California Civil Code §1761(d). The Products in the Equaline line of glucosamine chondroitin products are "goods" within the meaning of the Act.
- 61. Defendants violated and continue to violate the Act by engaging in the following practices proscribed by California Civil Code §1770(a) in transactions with Plaintiff and the Class which were intended to result in, and did result in, the sale of the Equaline products:
 - (5) Representing that [the Products] have . . . approval, characteristics, . . . uses [and] benefits . . . which [they do] not have

* * *

(7) Representing that [the Products] are of a particular standard, quality or grade . . . if [they are] of another.

* * *

(9) Advertising goods . . . with intent not to sell them as advertised.

* * *

(16) Representing that [the Products have] been supplied in accordance with a previous representation when [they have] not.

Case No. 15

- 62. Defendants violated the Act by representing and failing to disclose material facts on the Equaline labeling and packaging and associated advertising, as described above, when they knew, or should have known, that the representations were false and misleading and that the omissions were of material facts they were obligated to disclose.
- 63. Pursuant to §1782(d) of the Act, Plaintiff and the Class seek a court order enjoining the above-described wrongful acts and practices of Defendants and for restitution and disgorgement.
- 64. Pursuant to §1782 of the Act, Plaintiff notified Defendants in writing by certified mail of the particular violations of §1770 of the Act and demanded that Defendants rectify the problems associated with the actions detailed above and give notice to all affected consumers of Defendants' intent to so act. Copies of the letters are attached hereto as Exhibit B.
- 65. If Defendants fail to rectify or agree to rectify the problems associated with the actions detailed above and give notice to all affected consumers within 30 days of the date of written notice pursuant to §1782 of the Act, Plaintiff will amend this complaint to add claims for actual, punitive and statutory damages, as appropriate.
 - 66. Defendants' conduct is fraudulent, wanton and malicious.
- 67. Pursuant to §1780(d) of the Act, attached hereto as Exhibit C is the affidavit showing that this action has been commenced in the proper forum.

COUNT III Breach of Express Warranty

- 68. Plaintiff repeats and re-alleges the allegations contained in the paragraphs above, as if fully set forth herein.
 - 69. Plaintiff brings this claim individually and on behalf of the Class.
- 70. The Uniform Commercial Code section 2-313 provides that an affirmation of fact or promise, including a description of the goods, becomes part of the basis of the bargain and creates an express warranty that the goods shall conform to the promise and to the description.

- 71. At all times, California and other states have codified and adopted the provisions in the Uniform Commercial Code governing the express warranty of merchantability.
- 72. As discussed above, Defendants expressly warranted on each and every Product label of the Equaline Glucosamine products that the product lived up to the represented joint-health benefits described herein and listed on the product labels. The joint-health benefit claims made by Defendants are affirmations of fact that became part of the basis of the bargain and created an express warranty that the goods would conform to the stated promise. Plaintiff placed importance on Defendants' representations.
- All conditions precedent to Defendants' liability under this contract have been performed by Plaintiff and the Class.
- Defendants were provided notice of these issues by, inter alia, the instant 74. Complaint.
- 75. Defendants breached the terms of this contract, including the express warranties, with Plaintiff and the Class by not providing a Product that provided joint comfort as represented.
- 76. As a result of Defendants' breach of their contract, Plaintiff and the Class have been damaged in the amount of the price of the Products they purchased.

PRAYER FOR RELIEF

Wherefore, Plaintiff prays for a judgment:

- A. Certifying the Class as requested herein;
- B. Awarding Plaintiff and the proposed Class members damages;
- Awarding restitution and disgorgement of Defendants' revenues to Plaintiff C. and the proposed Class members;
- D. Awarding declaratory and injunctive relief as permitted by law or equity, including: enjoining Defendants from continuing the unlawful practices as set forth herein, and directing Defendants to identify, with Court supervision, victims of their

1 conduct and pay them all money they are required to pay; 2 E. Ordering Defendants to engage in a corrective advertising campaign; 3 F. Awarding attorneys' fees and costs; 4 G. Providing such further relief as may be just and proper. 5 **DEMAND FOR JURY TRIAL** 6 7 Plaintiff hereby demands a trial of her claims by jury to the extent authorized by 8 law. 9 Dated: March 15, 2013 **CARPENTER LAW GROUP** 10 11 By: /s/ Todd D. JS 44 Reverse (Rev. 12/07)

INSTRUCTIONS FOR ATTORNEYS COMPLETING CIVIL COVER SHEET FORM JS 44

Authority For Civil Cover Sheet

The JS 44 civil cover sheet and the information contained herein neither replaces nor supplements the filings and service of pleading or other papers as required by law, except as provided by local rules of court. This form, approved by the Judicial Conference of the United States in September 1974, is required for the use of the Clerk of Court for the purpose of initiating the civil docket sheet. Consequently, a civil cover sheet is submitted to the Clerk of Court for each civil complaint filed. The attorney filing a case should complete the form as follows:

- I. (a) Plaintiffs-Defendants. Enter names (last, first, middle initial) of plaintiff and defendant. If the plaintiff or defendant is a government agency, use only the full name or standard abbreviations. If the plaintiff or defendant is an official within a government agency, identify first the agency and then the official, giving both name and title.
- (b) County of Residence. For each civil case filed, except U.S. plaintiff cases, enter the name of the county where the first listed plaintiff resides at the time of filing. In U.S. plaintiff cases, enter the name of the county in which the first listed defendant resides at the time of filing. (NOTE: In land condemnation cases, the county of residence of the "defendant" is the location of the tract of land involved.)
- (c) Attorneys. Enter the firm name, address, telephone number, and attorney of record. If there are several attorneys, list them on an attachment, noting in this section "(see attachment)".
- **II. Jurisdiction.** The basis of jurisdiction is set forth under Rule 8(a), F.R.C.P., which requires that jurisdictions be shown in pleadings. Place an "X" in one of the boxes. If there is more than one basis of jurisdiction, precedence is given in the order shown below.

United States plaintiff. (1) Jurisdiction based on 28 U.S.C. 1345 and 1348. Suits by agencies and officers of the United States are included here.

United States defendant. (2) When the plaintiff is suing the United States, its officers or agencies, place an "X" in this box.

Federal question. (3) This refers to suits under 28 U.S.C. 1331, where jurisdiction arises under the Constitution of the United States, an amendment to the Constitution, an act of Congress or a treaty of the United States. In cases where the U.S. is a party, the U.S. plaintiff or defendant code takes precedence, and box 1 or 2 should be marked.

Diversity of citizenship. (4) This refers to suits under 28 U.S.C. 1332, where parties are citizens of different states. When Box 4 is checked, the citizenship of the different parties must be checked. (See Section III below; federal question actions take precedence over diversity cases.)

- **III. Residence** (citizenship) of Principal Parties. This section of the JS 44 is to be completed if diversity of citizenship was indicated above. Mark this section for each principal party.
- **IV. Nature of Suit.** Place an "X" in the appropriate box. If the nature of suit cannot be determined, be sure the cause of action, in Section VI below, is sufficient to enable the deputy clerk or the statistical clerks in the Administrative Office to determine the nature of suit. If the cause fits more than one nature of suit, select the most definitive.
- **V. Origin.** Place an "X" in one of the seven boxes.

Original Proceedings. (1) Cases which originate in the United States district courts.

Removed from State Court. (2) Proceedings initiated in state courts may be removed to the district courts under Title 28 U.S.C., Section 1441. When the petition for removal is granted, check this box.

Remanded from Appellate Court. (3) Check this box for cases remanded to the district court for further action. Use the date of remand as the filing date.

Reinstated or Reopened. (4) Check this box for cases reinstated or reopened in the district court. Use the reopening date as the filing date.

Transferred from Another District. (5) For cases transferred under Title 28 U.S.C. Section 1404(a). Do not use this for within district transfers or multidistrict litigation transfers.

Multidistrict Litigation. (6) Check this box when a multidistrict case is transferred into the district under authority of Title 28 U.S.C. Section 1407. When this box is checked, do not check (5) above.

Appeal to District Judge from Magistrate Judgment. (7) Check this box for an appeal from a magistrate judge's decision.

VI. Cause of Action. Report the civil statute directly related to the cause of action and give a brief description of the cause. **Do not cite jurisdictional statutes unless diversity.**Example:

U.S. Civil Statute: 47 USC 553

Brief Description: Unauthorized reception of cable service

VII. Requested in Complaint. Class Action. Place an "X" in this box if you are filing a class action under Rule 23, F.R.Cv.P.

Demand. In this space enter the dollar amount (in thousands of dollars) being demanded or indicate other demand such as a preliminary injunction.

Jury Demand. Check the appropriate box to indicate whether or not a jury is being demanded.

VIII. Related Cases. This section of the JS 44 is used to reference related pending cases if any. If there are related pending cases, insert the docket numbers and the corresponding judge names for such cases.

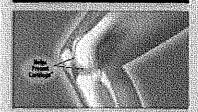

Date and Attorney Signature. Date and sign the civil cover sheet.

CERTIFIED MAIL/RETURN RECEIPT REQUESTED

Sam Duncan Chief Executive Officer Supervalu, Inc. 7075 Flying Cloud Drive Eden Prairie, MN 55344

Re: Nunez v. Supvervalu, Inc., et al

Dear Mr. Duncan:

Our law firm and Carpenter Law Group represent Randy Nunez and all other similarly situated California Residents in an action against Supervalu, Inc. ("Supervalu"), arising out of, *inter alia*, misrepresentations, either express or implied, to consumers that its Equaline Glucosamine Chondroitin Complex line of joint dietary supplements:

- "Supports Cartilage Renewal;"
- "Supports Joint Comfort;"
- "Helps Protect Cartilage;"
- "Helps maintain the cellular components within joints;"
- is a "Joint Lubricating Complex;"
- "Help rebuild joints"

Mr. Nunez and others similarly situated purchased the Equaline Glucosamine Chondroitin Complex products unaware that Supervalu's representations found on the products' labels and packages are false. Several clinical studies have found no causative link between the ingredients in the Equaline Glucosamine Chondroitin Complex products and joint renewal, mobility and comfort. The full claims, including the facts and circumstances surrounding these claims, are detailed in the Class Action Complaint, a copy of which is enclosed and incorporated by this reference.

March 15, 2013 Page Two

Supervalu's representations are false and misleading and constitute unfair methods of competition and unlawful, unfair, and fraudulent acts or practices, undertaken by Supervalu, Inc.' with the intent to result in the sale of the Equaline Glucosamine Chondroitin Complex products to the consuming public. The joint renewal, mobility and rejuvenation representations do not assist consumers; they simply mislead them.

This practice constitutes a violation of California Civil Code §1770(a) under, *inter alia*, the following subdivisions:

- (5) Representing that [Equaline Glucosamine Chondroitin Complex has] . . . characteristics, . . . uses [or] benefits. . . which [it does] not have.
- (7) Representing that [Equaline Glucosamine Chondroitin Complex is] of a particular standard, quality or grade, . . . if [it is] of another.
 - (9) Advertising goods . . . with the intent not to sell them as advertised.
 - (16) Representing that [Equaline Glucosamine Chondroitin Complex has] been supplied in accordance with a previous representation when [it has] not.

California Civil Code §1770(a)(5)-(16).

* * *

* * *

* * *

Supervalu, Inc.' representations also constitute violations of California Business and Professions Code §17200, *et seq.*, and a breach of express warranties.

While the Complaint constitutes sufficient notice of the claims asserted, pursuant to California Civil Code §1782, we hereby demand on behalf of our client and all other similarly situated California Residents that Supervalu, Inc. immediately correct and rectify this violation of California Civil Code §1770 by ceasing the misleading marketing campaign and ceasing dissemination of false and misleading information as described in the enclosed Complaint. In addition, Supervalu, Inc. should offer to refund the purchase price to all consumer purchasers of these Products, plus reimbursement for interest, costs, and fees.

Plaintiff will, after 30 days from the date of this letter, amend the Complaint without leave of Court, as permitted by California Civil Code §1782, to include claims for actual and punitive damages (as may be appropriate) if a full and adequate response to this letter is not

March 15, 2013 Page Three

received. These damage claims also would include claims under already asserted theories of unlawful business acts, as well as the claims under the Consumers Legal Remedies Act. Thus, to avoid further litigation, it is in the interest of all parties concerned that Supervalu, Inc. address this problem immediately.

Supervalu, Inc. must undertake all of the following actions to satisfy the requirements of California Civil Code §1782(c):

- 1. Identify or make a reasonable attempt to identify purchasers of the subject Products who reside in California;
- 2. Notify all such purchasers so identified that upon their request, BOTANCIAL LABS will offer an appropriate correction, replacement, or other remedy for its wrongful conduct, which can include a full refund of the purchase price paid for such products, plus interest, costs and fees;
- 3. Undertake (or promise to undertake within a reasonable time if it cannot be done immediately) the actions described above for all Equaline Glucosamine Chondroitin Complex purchasers who so request; and
- 4. Cease from expressly or impliedly representing to consumers that these products are effective at improving joint mobility, rebuilding cartilage or improving joint function when there is no reasonable basis for so claiming, as more fully described in the attached Complaint.

We await your response.

In Pett

Sincerely,

PATTERSON LAW GROUP

James R. Patterson
