"It's going to put a bunch of money in a lot of people's pockets..."

-- David Rice, 67, White County, AR

Just listen to the story of a man named David Rice and you'll see exactly what I mean.

Born and raised in Judsonia, Arkansas, about 30 minutes west of Little Rock, Rice is your average, hard-working American. He drove a delivery truck for most of his life... well into his 60s. Near the end of his career he was making \$11 an hour. But then an illness forced him to give up work and retire on disability. It wasn't much to live on. "I've never made big money," Rice said. "Me and my wife just pinched pennies." But that all changed in 2005 when Rice stumbled upon a new way to generate large amounts of income... In short, Rice uncovered a little-known business secret anyone can take advantage of in more than a dozen industries... everything from music, electronics, art, computers, restaurants, fashion, energy, and publishing, just to name a few.

In short, through a unique investment most people have never even heard about Rice earned the right to collect more than \$5,000 per month... a number that will actually increase over time, according to the Arkansas Times.

As Rice says, "It's going to put a bunch of money in a lot of people's pockets that didn't have any money. It's like a gold rush."

For example, one woman I've shared this with, Brenda E. in Chicago, says:

"I'm a 45-year-old stay-at-home mother with young children ages nine and four. Prior to October of this year, I had very little experience aside from managing my IRA portfolio and selecting a few mutual funds once in awhile.

This is the BEST approach I have ever encountered. I'm up nearly \$9,000 in a little over 5 ½ weeks."

One subscriber, Joe M., tells me he collected close to \$50,000 in a year.

Source:

<http://pro.stansberryresearch.com/1207RTRBUC99/6RTRP100/?h=true>

For example, one of my subscribers says, "I have quite a bit of experience trading options. In 2005 I authored a book on options." He collected \$5,000 in lost cash, by using my approach.

Then there's notes like this, from Jeremiah W. in Atlanta:

"I had never traded options until you introduced me to this. As a result, I made approximately \$6,000 in 2 months."

Just consider the story of one subscriber, Thomas O., who began following me in August 2010. He recently told me:

"Though a bit scary at first, your approach has been pretty easy and painless. So far this year I have made \$7,500.00. This more than paid for the subscription. I have to say that it opened my eyes to new possibilities in conservative trading that has added some nice income to my account. Going forward, I can see that the strategies I've learned will be even more profitable. Thanks for opening the world of options for me."

Source:

<http://pro.stansberryresearch.com/1207RTRBUC99/6RTRP100/?h=true>

That's why one full year of Retirement Trader costs \$4,000.

And believe me, it's a bargain at that price. For example, Bruce S. in Ohio tells me he's made \$14,667 on just one stock alone with the Online "Bucket" System and \$14,305 on another.

That's \$28,972 in gains. Over 7 times the subscription price!
