2
3 **UNITED STATES DISTRICT COURT**
4 **NORTHERN DISTRICT OF CALIFORNIA**
5 **SAN JOSE DIVISION**

6 JUSTIN DARISSE,
7 Plaintiff,

8 v.

9 NEST LABS, INC.,
10 Defendant.

Case No. 5:14-cv-01363-BLF

**ORDER DENYING PLAINTIFF'S
MOTION FOR CLASS
CERTIFICATION**

[Re: ECF 89]

11
12 During the dog days of summer and the deep chills of winter, people turn to thermostats to
13 keep their homes at a livable temperature. To that end, Plaintiff Justin Darisse purchased a Nest
14 Learning Thermostat (“NLT”), hoping that it would save him energy and money in addition to
15 keeping him comfortable. He now sues Defendant Nest Labs, Inc. (“Nest”), alleging that the NLT
16 did not perform as advertised, and moves to certify a nationwide class of similarly disappointed
17 consumers. But because Darisse has not satisfied Rule 23(a)’s commonality, typicality, and
18 adequacy requirements, or Rule 23(b)(3)’s predominance requirement, his motion is DENIED.¹

19 **I. BACKGROUND**

20 The NLT is a Wi-Fi-enabled thermostat that logs user behavior and preferences, and uses
21 that data to control basic heating and cooling operations in the home. *See* Opp. at 1, ECF 111-11.
22 The first generation of NLTs hit the market in October 2011, and the second generation came out
23 in October 2012. *See* Oenning Decl. ¶ 6, ECF 116. NLTs are sold through several different retail
24 channels, and retailers use a wide variety of marketing claims to sell them. *Id.* ¶¶ 2-3, 18-19. As a
25 result, where you buy your NLT affects what promotional claims you see. *Id.* For example,
26 putative class members who bought NLTs from Nest.com might have seen some of these claims,

27
28 ¹ The Court does not consider whether Darisse is entitled to leave to amend, because he raises it only in a footnote in his reply brief. *See* Reply at 12 n.3, ECF 124-4.

1 which appeared on Nest’s website at various times during the class period:

- 2 • “The EPA says a properly programmed thermostat can cut 20% off your heating and
3 cooling bill.” Oenning Decl. Ex. G at 1, ECF 116-2.
- 4 • “Teach [the NLT] well and the Nest Thermostat can lower your heating and cooling
5 bills up to 20%.” Oenning Decl. Ex. I at 1, ECF 116-3.
- 6 • “12 [MONTHS IN USE] = \$173 [DOLLARS IN SAVINGS]” Oenning Decl. Ex. K at
7 4-5, ECF 116-4; Oenning Decl. Ex. O at 4, ECF 116-5. (This representation was
8 followed by a disclaimer stating that “results will vary depending on local climate,
9 energy rates, home size and your home’s insulation.” *Id.*)
- 10 • “If your thermostat isn’t programmed, you could be wasting around \$173 a year. . . . A
11 correctly programmed thermostat can save about 20% on your heating and cooling
12 bill.” Oenning Decl. Ex. N at 1, ECF 116-5.

13 Like the marketing claims on Nest’s website, the marketing claims on the NLT’s product
14 packaging also varied over time. The first generation NLT’s product packaging did not make any
15 claims about energy savings of up to 20% or \$173/year. *See* Oenning Decl. ¶¶ 6-7, ECF 116; *Id.*
16 at Ex. B, ECF 116-1; *id.* at Ex. C, ECF 116-1; *id.* at Ex. D, ECF 116-2. In contrast, some versions
17 of the second generation NLT’s product packaging—there were at least four—did make claims
18 about energy savings. *See id.* ¶ 8, ECF 116. The exact language varied over time, but at one
19 point, the packaging read, “Most thermostats waste 20% of your heating and cooling bill. Nest
20 stops the waste.” Oenning Decl. ¶ 8, ECF 116; Oenning Decl. Ex. F at 3, ECF 116-2.

21 Darisse bought a second generation NLT in fall 2013. *See* Amended Complaint ¶ 9, ECF
22 28; Darisse Decl. ¶ 4, ECF 88-17. He purchased his NLT from Amazon.com, using his spouse’s
23 Amazon Prime account. *See* Reply at 12, ECF 124-4. He states that he bought his NLT “based on
24 statements on the Nest website that ‘[A] correctly programmed thermostat can save about 20% on
25 your heating and cooling bill,’ that [he] could save \$173 a year on average on energy, and that
26 ‘Nest saves energy. Automatically.’” Darisse Decl. ¶ 4, ECF 88-17. He “reviewed the same
27 statements on Amazon.com” before buying the NLT. *Id.*

28 Darisse now argues that Nest’s cost and energy savings estimates are flawed and the NLT

United States District Court
Northern District of California

1 does not live up to its promises of saving up to 20% on heating and cooling bills, or \$173
 2 annually. *See* Mot. at 3-9, ECF 88-16. Darisse provided his energy bills for May to October
 3 2013, the five months before he bought his NLT, and the parties compared those bills with his
 4 energy bills for May to October 2014 and May to October 2015. The comparison showed that in
 5 2014, Darisse’s monthly energy savings post-NLT installation fluctuated between 4.7% and
 6 22.2%, but in 2015, his monthly energy savings topped out at 9.0%. *See* Blasnik Decl. ¶ 11, ECF
 7 111-14; Weir Reply Decl. ¶¶ 69-72, ECF 124-10.

Billing Cycle Ending	% Energy Savings 2014 v. 2013	% Energy savings 2015 v. 2013
June	16.2%	9.0%
July	4.7%	3.6%
August	22.2%	6.0%
September	20.2%	6.4%
October	21.7%	8.0%

8
 9
 10
 11
 12
 13 *See* Blasnik Decl. ¶11, ECF 111-14; Weir Reply Decl. ¶ 71, ECF 124-10. Darisse says that he
 14 would not have bought his NLT if he had known that Nest’s representations about a 20% or \$173
 15 savings were “inaccurate and misleading.” Darisse Decl. ¶ 5, ECF 88-17.

16 In March 2014, less than half a year after buying his NLT, Darisse sued Nest on behalf of
 17 himself and others similarly situated, raising claims for (1) violation of Cal. Civ. Code §§ 1750 et
 18 seq., California’s Consumer Legal Remedies Act (“CLRA”); (2) violation of Cal. Bus. & Prof.
 19 Code §§ 17200 et seq., California’s Unfair Competition Law (“UCL”); (3) violation of Cal. Bus.
 20 & Prof. Code §§ 17500 et seq., California’s False Advertising Law (“FAL”); (4) breach of express
 21 warranty; (5) breach of the implied warranty of merchantability; (6) breach of implied warranty of
 22 fitness for a particular purpose; and (7) common law fraud. *See* Consolidated Compl. ¶¶ 68-131.
 23 He seeks declaratory relief, injunctive relief, and damages. *See id.* at 39. He now moves under
 24 Rule 23(b)(3) and asks the Court to certify a nationwide class defined as

25 All persons who purchased a Nest First Generation or Second Generation
 26 Thermostat (“Nest”) from November 1, 2011 to February 1, 2015.

27 Mot. at 1, ECF 88-16. Nest opposes Darisse’s motion and argues that Darisse lacks standing, that
 28 differences in state laws prevent certifying a nationwide class under Rule 23(b)(3), and that

1 Darisse has not satisfied Rule 23(a)'s commonality, adequacy, and typicality requirements. The
2 Court finds that Darisse has standing, but DENIES Darisse's motion because he has not satisfied
3 Rule 23(a) and 23(b)(3).

4 II. STANDING

5 A. Legal Standard

6 Ordinarily, questions of standing are raised by way of a motion to dismiss for lack of
7 subject matter jurisdiction. *See, e.g., Perez v. Nidek Co.*, 711 F.3d 1109, 1113-14 (9th Cir. 2013);
8 *Quinn v. Anvil Corp.*, 620 F.3d 1005, 1014-15 (9th Cir. 2010); *see also Lujan v. Defenders of*
9 *Wildlife*, 504 U.S. 555, 561 (1992). Here, rather than filing any Rule 12 motion, Nest simply
10 answered. *See* Docket No. 33. But a court is always obligated to consider whether any plaintiff
11 has standing to pursue the relief sought. "Standing is a threshold matter central to our subject
12 matter jurisdiction. We must assure ourselves that the constitutional standing requirements are
13 satisfied before proceeding to the merits." *Bates v. United Parcel Serv., Inc.*, 511 F.3d 974, 985
14 (9th Cir. 2007) (citing *United States v. Hays*, 515 U.S. 737, 742 (1995)); *Casey v. Lewis*, 4 F.3d
15 1516, 1524 (9th Cir. 1993)). The Court thus must consider Darisse's standing to pursue his
16 proposed class-wide declaratory, injunctive, and damages relief before anything else. *See Ellis v.*
17 *Costco Wholesale Corp.*, 657 F.3d 970, 978 (9th Cir. 2011) ("In a class action, the plaintiff class
18 bears the burden of showing that Article III standing exists."); *In re Abbott Labs. Norvir Anti-*
19 *Trust Litig.*, Case No. 04-cv-1511-CW, 2007 WL 1689899, at *2 (N.D. Cal. June 11, 2007)
20 (quoting *Wooden v. Bd. of Regents of Univ. Sys. of Georgia*, 247 F.3d 1262, 1287-88 (11th Cir.
21 2001)) ("[P]rior to the certification of a class, and technically speaking before undertaking any
22 formal typicality or commonality review, the district court must determine that at least one named
23 class representative has Article III standing to raise each class subclaim.").

24 "In a class action, standing is satisfied if at least one named plaintiff meets the
25 requirements." *Bates*, 511 F.3d at 985. Article III standing requires a plaintiff show "(1) an
26 injury-in-fact that is concrete and particularized, as well as actual or imminent; (2) that the injury
27 is fairly traceable to the challenged action of the defendant; and (3) that the injury is redressable
28 by a favorable ruling." *Kane v. Chobani, Inc.*, 973 F. Supp. 2d 1120, 1128 (N.D. Cal.

1 2014) (citing *Monsanto Co. v. Geertson Seed Farms*, 130 S. Ct. 2743, 2752 (2010)). The plaintiff
 2 “bears the burden of showing that he has standing for each type of relief sought,” and so a plaintiff
 3 seeking equitable relief such as an injunction must further demonstrate a likelihood of future
 4 injury. *Summers v. Earth Island Inst.*, 555 U.S. 488, 493 (2009); *see also Wang v. OCZ Tech.*
 5 *Group, Inc.*, 276 F.R.D. 618, 626 (N.D. Cal. 2011) (citing *Hodgers-Durgin v. De La Vina*, 199
 6 F.3d 1037, 1039 (9th Cir. 1999); *see also Clark v. City of Lakewood*, 259 F.3d 996, 1006-07 (9th
 7 Cir. 2001), *as amended* (Aug. 15, 2001) (citing *Friends of the Earth Inc. v. Laidlaw Env. Servs.*
 8 *(TOC), Inc.*, 528 U.S. 167, 191-91 (2000); *City of Los Angeles v. Lyons*, 461 U.S. 95, 109 (1983)).
 9 This requires a showing that the plaintiff is “realistically threatened by a repetition of the
 10 violation.” *Gest v. Bradbury*, 443 F.3d 1177, 1181 (9th Cir. 2006) (quoting *Armstrong*, 275 F.3d
 11 at 860-61). Allegations that a defendant’s continuing conduct subjects unnamed class members to
 12 the alleged harm are insufficient if the named plaintiffs are themselves unable to demonstrate a
 13 likelihood of future injury. *See Hodgers-Durgin*, 199 F.3d at 1044-45; *see also Clapper v.*
 14 *Amnesty Int’l USA*, 133 S. Ct. 1138, 1114 (2013).

15 B. Discussion

16 Darisse has satisfied the injury requirement for each type of relief he seeks, except for
 17 injunctive relief.² At this stage, allegations alone are not enough. Because the elements of Article
 18 III standing “are not mere pleading requirements but rather an indispensable part of the plaintiff’s
 19 case, each element must be supported in the same way as any other matter on which the plaintiff
 20 bears the burden of proof, i.e., with the manner and degree of evidence required at the successive
 21 stages of the litigation.” *Lujan*, 504 U.S. at 561. On a motion for class certification, this means a
 22 plaintiff must show standing “through evidentiary proof,” which is the standard on a Rule 23(b)
 23 motion. *Comcast Corp. v. Behrend*, 133 S. Ct. 1426, 1432 (2013); *see also Evans v. Linden*
 24 *Research, Inc.*, Case No. 11-cv-1078-DMR, 2012 WL 5877579, at *6 (N. D. Cal. Nov. 20,

25 _____
 26 ² As a side note, Nest argues that Darisse lacks standing because he did not purchase his NLT. *See*
 27 *Opp.* at 12, ECF 124-4. During his deposition, however, Darisse testified that his wife purchased
 28 the NLT on her Amazon Prime account to get discounted shipping, but that he was “the one who
 asked her to buy it,” and the purchase was at “[his] suggestion and direction.” Darisse Reply Decl.
 ¶ 5, ECF 124-6; Darisse Reply Decl. Ex. D at 47:3-5, 76:2-3, ECF 124-6. This is sufficient for the
 Court to proceed with the *Lujan* analysis.

2012) (holding that at class certification, “Plaintiffs must demonstrate, not merely allege, that they have suffered an injury-in-fact to establish Article III standing to bring the claims asserted on behalf of the [class].”).

Darisse has provided evidentiary proof of injury with his energy bills for May-October 2013, before he installed his NLT, and his energy bills for May-October 2014 and May-October 2015, after he installed his NLT. These bills show that for at least seven of the ten months for which the parties have analyzed Darisse’s energy usage, Darisse did not save up to 20% in energy usage. *See* Blasnik Decl. ¶11, ECF 111-14; Weir Reply Decl. ¶ 71, ECF 124-10. During three of the ten billing cycles in May-October 2014, Darisse saved more than 20% in energy use: in the August 2014 billing cycle, he saved 22.2% over the previous year, in the September 2014 billing cycle he saved 20.2%, and in the October 2014 billing cycle, he saved 21.7%. *See* Blasnik Decl. ¶ 11, ECF 111-14. But in the other seven billing cycles, Darisse’s energy savings were nowhere near 20%, ranging from a paltry 3.6% (July 2015) to 16.2% (June 2014). *See* Blasnik Decl. ¶11, ECF 111-14; Weir Reply Decl. ¶ 71, ECF 124-10.

Darisse claims that he bought the NLT in reliance on its marketing claims that he would save up to 20% in energy or \$173 annually. The words “up to 20%,” plainly interpreted, are not a guarantee of saving 20% in every billing cycle. Rather, they mean that an NLT is capable of saving its user as much as 20% in energy, but it may not always do so. They do suggest, however, that the NLT is capable of approaching a 20% energy savings on a regular basis, and Darisse’s energy bills show that his NLT did not provide a consistent savings approaching 20%.³ This is an injury traceable to Nest’s marketing claims and establishes standing for Darisse’s claims for compensatory and punitive damages, restitution, equitable monetary relief, attorney’s fees, and

³ Darisse argues that he has standing because Nest’s internal studies found that the NLT saves an average of 10-12% on heating and 15% on cooling, not the 20% that Nest claimed in its marketing materials. *See* Reply at 12, ECF 124-4. According to Darisse, those studies are “representative evidence of injury” and are “sufficient to find that [he] has suffered an injury.” *Id.* Leaving aside the question of whether an *average* savings of 10-15% is proof that the NLT does not save *up to* 20%, Darisse’s argument is unsuccessful because standing in a class action requires Darisse himself, as the sole named plaintiff, to demonstrate injury. *Bates*, 511 F.3d at 985. Darisse has shown evidentiary proof of injury and so has standing—but it is not because Nest’s internal studies can be used to assume he personally suffered an injury.

1 damages.

2 Darisse does not have standing for injunctive relief, however, because he has not shown a
3 likelihood of future injury. First, Nest no longer uses the 20% savings figure. *See* Mot. at 8-9,
4 ECF 88-16. Second, Darisse testified at his deposition that after his experience with the NLT, he
5 no longer believes energy savings statements about thermostats and is “not going to trust what –
6 what a company says now.” Darisse Depo. at 97:67-17, 98:10-14, Wilson Decl. Ex. 217, ECF
7 113-4. Third, Darisse no longer uses his NLT, and replaced it with an Ecobee 3 because he was
8 annoyed at “seeing the [NLT] on the wall” and wanted a new thermostat that he could program
9 remotely. *Id.* at 97:2-11.

10 **III. RULE 23(a)**

11 Class certification requires satisfying both Rule 23(a)’s numerosity, commonality,
12 typicality, and adequacy requirements and at least one of the provisions of Rule 23(b). *See Mazza*
13 *v. Am. Honda Motor Co., Inc.*, 666 F. 3d 581, 588 (9th Cir. 2012). Darisse moves to certify his
14 class under Rule 23(b)(3). *See* Mot. at 1, ECF 88-16. The Court first considers whether Darisse
15 has satisfied Rule 23(a), and then turns to his arguments under Rule 23(b)(3).

16 Under Rule 23(a)’s threshold requirements, class certification is appropriate only if

- 17 (1) the class is so numerous that joinder of all members is impracticable;
- 18 (2) there are questions of law or fact common to the class;
- 19 (3) the claims or defenses of the representative parties are typical of the claims or
- 20 defenses of the class; and
- 21 (4) the representative parties will fairly and adequately protect the interests of the
- 22 class.

23 Fed. R. Civ. P. 23(a).

24 Numerosity is satisfied, but Nest argues that commonality, typicality, and adequacy are not. The
25 Court finds that commonality, typicality, and adequacy are not satisfied, making class certification
26 inappropriate.

27 **A. Commonality**

28 “[C]ommonality requires that the class members’ claims depend upon a common
contention such that determination of its truth or falsity will resolve an issue that is central to the

1 validity of each claim in one stroke.” *Jimenez v. Allstate Ins. Co.*, 765 F.3d 1161, 1165 (9th Cir.
2 2014) (citations and internal quotation marks omitted). In other words, “the key inquiry is not
3 whether the plaintiffs have raised common questions, ‘even in droves,’ but rather whether class
4 treatment will ‘generate common *answers* apt to drive the resolution of the litigation.” *Abdullah*
5 *v. U.S. Sec. Assocs., Inc.*, 731 F.3d 952, 957 (9th Cir. 2013) (quoting *Dukes*, 131 S. Ct. at 2551)
6 (emphasis in original). However, not every question of law or fact must be common to the class;
7 “all that Rule 23(a)(2) requires is a single *significant* question of law or fact.” *Id.* (internal citations
8 omitted) (emphasis in original).

9 There are two obstacles to finding that there is a significant question of law or fact
10 common to the class. First, a swathe of putative class members is excluded from this class action.
11 Nest’s Sales Terms govern the purchases of class members that bought their NLTs directly from
12 Nest.com, and one of those terms is an arbitration clause. *See* Sales Terms at 1, § 11(a), Oenning
13 Decl. Ex. A, ECF 116. Any “claim, dispute, action, cause of action, issue, or request for relief
14 arising out of or relating to” the Sales Terms or the purchaser’s use of the NLT is subject to
15 binding arbitration. *Id.* Another term is a class action waiver. *Id.* at § 11(d). There cannot be
16 common questions of law or fact with respect to potential class members who are bound by the
17 arbitration clause and class action waiver and are excluded from this lawsuit.

18 The second obstacle to commonality is reliance. Darisse is entitled to a classwide
19 inference of reliance only if he can show “(1) that uniform misrepresentations were made to the
20 class, and (2) that those misrepresentations were material.” *In re ConAgra Foods, Inc.*, 302
21 F.R.D. 537, 571 (C.D. Cal. 2014). “An inference of classwide reliance cannot be made where
22 there is no evidence that the allegedly false representations were uniformly made to all members
23 of the proposed class.” *Davis-Miller v. Auto. Club of S. California*, 201 Cal. App. 4th 106, 125
24 (2011), *as modified* (Nov. 22, 2011).

25 Darisse argues that Nest’s representation that the NLT saves 20% was ubiquitous, that
26 Nest used it “consistently . . . in some way, shape, or form,” and that class members thus were
27 exposed to the 20% representation at the point of sale, whether the point of sale was Nest.com,
28 third party e-commerce sites, or a brick and mortar store where the representation was visible on a

1 pull card or the NLT's packaging. *See* Reply at 1-2, ECF 124-4. His argument is unconvincing,
2 however. First of all, the packaging on the first generation NLT did not make any claims about
3 energy savings of up to 20% or \$173/year. *See* Oenning Decl. ¶¶ 6-7, ECF 116; *Id.* at Ex. B, ECF
4 116-1; *id.* at Ex. C, ECF 116-1; *id.* at Ex. D, ECF 116-2. Class members that bought the first
5 generation NLT in a brick and mortar store thus may not have been exposed to the 20% or \$173
6 savings claims. Second, Darisse attempts to extrapolate too much from Nest's statements during
7 discovery. It is true that during a deposition, Anton Oenning, Nest's head of brand strategy,
8 testified that Nest's website consistently used the 20% figure "in some way, shape or form."
9 Oenning Depo. at 113:23-25, Persinger Reply Decl. Ex. A, ECF 124-8. But the "way, shape or
10 form" of the use is crucial, because some of the representations on Nest.com did not refer to the
11 NLT at all:

- 12 • "The EPA says a properly programmed thermostat can cut 20% off your heating and
13 cooling bill." Oenning Decl. Ex. G at 1, ECF 116-2.
- 14 • "If your thermostat isn't programmed, you could be wasting around \$173 a year. . . . A
15 correctly programmed thermostat can save about 20% on your heating and cooling
16 bill." Oenning Decl. Ex. N at 1, ECF 116-5.

17 Both of those representations use the 20% figure, but neither refers to the NLT or promises that
18 the NLT can save 20%. Nor is either representation a misrepresentation: in July 2003, the EPA
19 published a paper stating that Energy Star programmable thermostats were estimated to have
20 energy savings of 20% over standard new products. *See* Wilson Ex. 208 at 5, ECF 111-7.

21 Another representation on Nest.com conditioned the potential savings on teaching the NLT
22 well:

- 23 • "Teach [the NLT] well and the Nest Thermostat can lower your heating and cooling
24 bills up to 20%." Oenning Decl. Ex. I at 1, ECF 116-3.

25 A fourth representation on Nest.com mentioned the \$173 savings figure, but had an
26 explicit disclaimer:

- 27 • "12 [MONTHS IN USE] = \$173 [DOLLARS IN SAVINGS]" Oenning Decl. Ex. K at
28 4-5, ECF 116-4; Oenning Decl. Ex. O at 4, ECF 116-5. (This representation was

1 followed by a disclaimer stating that “results will vary depending on local climate,
2 energy rates, home size and your home’s insulation.” *Id.*)

3 The 20% claims did not appear on any of Nest’s television or radio ads and were not used
4 in many of its print ads. *See* Oenning Decl. ¶¶ 17-18, ECF 116. Nest gave messaging documents
5 to third party retailers because Nest wanted to control its brand, but given that the representations
6 on Nest’s own website varied during the class period, it is likely that the representations on third
7 party retailers’ sites also varied over time. *See* Oenning Depo. at 93:12-94:21, Persinger Reply
8 Decl. Ex. A, ECF 124-8.

9 The savings representations that potential class members might have seen on Nest.com, the
10 second generation NLT’s product packaging, or on third party retailer sites during the class period
11 varied tremendously. Some said that the NLT could save up to 20%, if it was taught well; some
12 referred to programmable thermostats in general, and not specifically the NLT; and some did not
13 mention the 20% figure at all. The representations were not uniform, and not all of them were
14 misrepresentations. As a result, there can be no classwide inference of reliance. This is not
15 *Tobacco II*, where a “decades-long’ tobacco advertising campaign” created “little doubt that
16 almost every class member had been exposed to defendants’ misleading statements.” *Mazza*, 666
17 F.3d at 596 (quoting *In re Tobacco II Cases*, 46 Cal. 4th 298, 306 (2009)). Instead, it is closer to
18 *Mazza*, which held that a presumption of reliance did not arise from an advertising campaign that
19 included alleged misrepresentations in product brochures, a TV ad, magazines, in-store kiosks,
20 Honda’s website, periodicals, and the product owner’s manual. *Mazza*, 666 F.3d at 586-87, 595.

21 **B. Typicality**

22 To satisfy Rule 23(a)’s typicality requirement, Darisse’s claims must be typical of those
23 advanced by the class. Fed. R. Civ. P. 23(a)(3). Typicality is “directed to ensuring that plaintiffs
24 are proper parties to proceed with the suit.” *Reis v. Arizona Beverages USA*, 287 F.R.D. 523, 539
25 (N.D. Cal. 2012). “The test of typicality is whether other members have the same or similar
26 injury, whether the action is based on conduct which is not unique to the named plaintiffs, and
27 whether other class members have been injured by the same course of conduct.” *Wolin v. Jaguar*
28 *Land Rover N. Am., LLC*, 617 F.3d 1168, 1175 (9th Cir. 2010) (citation and internal quotation

1 marks omitted). The standard is permissive and asks only whether the claims of the class
2 representatives are “reasonably co-extensive with those of absent class members; they need not be
3 substantially identical.” *Hanlon v. Chrysler Corp.*, 150 F.3d 1011, 1020 (9th Cir. 1998).

4 Nest has unique defenses against Darisse that make him atypical. The first is that during at
5 least three months in 2014, he saved more than 20%. *See supra* at 3. The second is that there is so
6 little data regarding Darisse’s NLT use prior to this lawsuit. He purchased his NLT on October
7 31, 2013, and used it for only five months before filing this lawsuit on March 25, 2014. *See Fisher*
8 *Depo.* at Ex. 52 (DARISSE000019), Wilson Decl. Ex. 218, ECF 113-4; Compl., ECF 1. The
9 absence of data on how his NLT performed prior to this lawsuit raises questions about whether
10 Darisse may have manipulated his NLT’s settings or his use of it after he filed this case, to create
11 the impression that his NLT’s energy-saving capabilities were worse than they actually were.
12 Darisse provided only his May-October 2013 energy bills for the parties to analyze how his NLT
13 performed. The NLT’s savings in May-October 2015—a year into this lawsuit—are so much
14 lower than the NLT’s savings in May-October 2014—the period immediately after Darisse started
15 this case—that Nest could argue that Darisse unfairly altered his NLT usage. Indeed, Darisse
16 disabled Auto-Away, an energy-saving feature, in May 2014, “roughly 6 months after
17 installation”—and two months after he brought this lawsuit. *See Blasnik Decl.* ¶ 17, ECF 111-14.
18 This defense is one that is unique to Darisse.

19 The third reason that Darisse is atypical is that he did not use several of the NLT’s energy-
20 saving features. He disabled Auto-Away, which allows the NLT to detect when no one is home
21 and automatically adjust to a more efficient temperature. *See id.* He did not use Manual Away,
22 either, to set his NLT into the more energy-efficient Away mode when he was out of the house.
23 *See id.* This is unusual behavior—during May 2014 onward, “█ of the thermostats used Auto-
24 Away, █ used Manual-Away and just █ used neither. In other words, very few NLT users
25 are like Darisse and do not use any away mode at all.” *Id.* Darisse also set his NLT to a less
26 efficient cooling set point than █ of NLT users in his zip code. *See id.* ¶ 18. Although some of
27 Nest’s advertising conditioned the 20% savings figure on teaching the NLT well, Darisse did not
28 teach his NLT an efficient schedule. He did not “set back his temperature as much as most NLT

1 users in his zip code at any time of year,” even though setting back “when users are asleep or away
2 from the home is one of the most effective ways to reduce energy consumption in the home.” *Id.* ¶
3 19.

4 Darisse argues that he is typical because he used the NLT’s basic features and did not
5 disable any of the energy saving features. *See* Reply at 13, ECF 124-4; Darisse Reply Decl. ¶ 8,
6 ECF 124-6. But his statements are belied by Nest’s data. He also argues that ██████ of NLT users
7 disable Auto-Schedule, ██████ disable Auto-Away, and ██████ of the “longest-term customers”
8 disable Auto-Learning, but these numbers show that the vast majority of NLT users do not disable
9 any of those features, and he does not present evidence on how many NLT users disable *all* of
10 those features, as he did. *See* Reply at 13, ECF 124-4; Persinger Reply Decl. Ex. L, ECF 124-8.

11 C. Adequacy

12 Adequacy, meanwhile, requires Darisse to “fairly and adequately protect the interests of
13 the class.” Fed. R. Civ. P. 23(a)(4). The adequacy determination requires the Court to make two
14 determinations: (1) whether the named plaintiffs and their counsel have any conflicts of interest
15 with other class members and (2) whether the named plaintiffs and their counsel will “prosecute
16 the action vigorously on behalf of the class[.]” *Ellis v. Costco Wholesale Corp.*, 657 F.3d 970,
17 985 (9th Cir. 2011) (citation omitted). “Adequate representation depends on, among other factors,
18 an absence of antagonism between representatives and absentees, and a sharing of interest between
19 representatives and absentees.” *Id.* (citation omitted).

20 Whether Darisse can fairly and adequately protect the interests of the class when his claims
21 are not typical of those advanced by the class is doubtful. The weaknesses of his particular case
22 and the unique defenses that Nest can raise against him call into question whether he is capable of
23 prosecuting this action vigorously on behalf of the class. Nest argues that neither Darisse nor his
24 counsel is adequate for this case, because they are brothers-in-law. *See* Opp. at 22-24, ECF 111-
25 11. On its own, Nest’s argument would not be persuasive, but when it is added to the other
26 difficulties Darisse brings to the table, the Court must find that Darisse is not an adequate
27 representative.

28 IV. RULE 23(b)(3)

1 Apart from the commonality, typicality, and adequacy issues under Rule 23(a), Darisse’s
2 proposed class also fails to meet Rule 23(b)(3)’s predominance requirement. Rule 23(b)(3)
3 requires Darisse to establish that (1) “questions of law or fact common to class members
4 predominate over any questions affecting only individual members” and (2) a class action would
5 be “superior to other available methods for fairly and efficiently adjudicating the controversy.”
6 Fed. R. Civ. P. 23(b)(3). The predominance inquiry tests whether a proposed class is sufficiently
7 cohesive to warrant adjudication by representation. *Amchem Prod., Inc. v. Windsor*, 521 U.S. 591,
8 623 (1997). Darisse seeks to certify a nationwide class under California law, and so the key issue
9 in the predominance inquiry is whether California law will govern the entire class, or whether each
10 state’s laws will govern the claims of its own residents. Where the applicable law in a case
11 derives from the law of numerous states, as opposed to just one state, differences in state law will
12 “compound the disparities” among class members from different states. *Zinser v. Accufix*
13 *Research Inst., Inc.*, 253 F.3d 1180, 1189 (9th Cir.), *opinion amended on denial of reh’g*, 273 F.3d
14 1266 (9th Cir. 2001).

15 Darisse argues that California law should apply to the entire class. His first argument is
16 that a choice of law clause in Nest’s End User License Agreement (“EULA”) supersedes
17 California’s choice of law rules, and his second is that California’s choice of law test is satisfied.
18 *See Reply at 9-12, ECF 124-4.* Nest disagrees with both these arguments. *See Opp. at 6-15, ECF*
19 *111-11.* So does the Court.

20 **A. Nest’s EULA**

21 Nest’s EULA is a one-way, post-purchase software license from Nest to users. Section 13
22 of the EULA states that the “EULA, and any claim, dispute or controversy relating to this EULA,
23 will be governed by the laws of California.” EULA § 13, Pl.’s Ex. 113, ECF 88-28. The EULA
24 is limited in its scope, however, and does not cover all disputes about the NLT: the first paragraph
25 specifically states that the EULA does not cover “purchase of the Product (excluding the Product
26 Software),” which “is governed by the Nest Labs limited warranty.” *Id.* at preamble. Instead, the
27 EULA merely grants a “limited and nonexclusive license . . . to execute one (1) copy of the
28 Product Software,” which is the software embedded in the NLT. *Id.* at § 1. As a result, neither the

1 EULA nor its choice of law clause applies to this lawsuit, because Darisse’s claims arise out of his
2 purchase of his NLT. *See* Consolidated Compl. ¶¶ 5, 9, 75-76, 85-87, 97, 101, 105, 109, 114, 120,
3 123, 129, ECF 28 (alleging Darisse purchased the NLT in reliance on Nest’s representations and
4 would not have purchased the NLT otherwise). In his Consolidated Complaint, he makes no
5 allegations about the software in the NLT.

6 Darisse argues that the EULA applies to this case because the EULA covers the NLT’s
7 software, which affects users’ energy savings. *See* Reply at 10-11, ECF 124-4. He points to
8 Section 8(b) of the EULA, which mentions “ENERGY USE” and states that Nest does not
9 represent that “USE OF THE . . . PRODUCT SOFTWARE . . . WILL DECREASE THE
10 ENERGY CONSUMPTION OF YOUR HOME.” *Id.* (quoting EULA § 8(b), Pl.’s Ex. 113, ECF
11 88-28). Darisse’s arguments are unpersuasive: while the NLT’s software may affect users’ energy
12 savings, he makes no allegations or claims about the software. He does not allege, for example,
13 that his NLT’s software malfunctioned. His claims are that Nest’s advertising was false and
14 misleading and that he purchased the NLT as a result of that advertising, and so his claims arise
15 out of Nest’s advertising and his purchase, which is governed by the Nest Labs limited warranty
16 and not the EULA. Section 8(b) of the EULA does mention “ENERGY USE,” but Darisse takes
17 that phrase out of context: the sentence states, “THE SITE SERVICES PROVIDE YOU
18 INFORMATION . . . REGARDING YOUR ENERGY USE . . .” This has nothing to do with
19 Darisse’s claims. Neither does Section 8(b)’s statement that Nest does not warrant that use of the
20 NLT’s software will decrease energy consumption: merely mentioning “energy use” or “energy
21 consumption” does not override the EULA’s explicit disclaimer of disputes arising out of a user’s
22 purchase of the NLT. The EULA and its choice of law clause do not govern this case.

23 **B. California’s Choice of Law Test**

24 Because the EULA’s choice of law clause does not apply, the Court must use California’s
25 choice of law rules to determine whether California law can govern the entire, nationwide class, or
26 if each state’s laws must govern the claims of its own citizens.

27 To determine the applicable law, a “federal court sitting in diversity must look to the forum
28 state’s choice of law rules to determine the controlling substantive law.” *Zinser*, 253 F.3d at 1187.

1 “Under California’s choice of law rules, the class action proponent bears the initial burden to show
 2 that California has significant contact or significant aggregation of contacts to the claims of each
 3 class member.” *Wash. Mut. Bank v. Superior Court*, 24 Cal.4th 906, 921 (2001) (internal
 4 quotation marks omitted). If contacts are sufficient, the burden then shifts to the opposing party to
 5 demonstrate that foreign law, rather than California law, should apply to the class claims. *Id.*
 6 California law may only be used on a class-wide basis if “the interests of other states are not found
 7 to outweigh California’s interest in having its law applied.” *Id.* To determine whether those
 8 interests outweigh California’s interest, the Court must apply a three-step governmental interest
 9 test:

10 First, the court determines whether the relevant law of each of the potentially
 11 affected jurisdictions with regard to the particular issue in question is the same or
 12 different.

12 Second, if there is a difference, the court examines each jurisdiction’s interest in the
 13 application of its own law under the circumstances of the particular case to
 14 determine whether a true conflict exists.

14 Third, if the court finds that there is a true conflict, it carefully evaluates and
 15 compares the nature and strength of the interest of each jurisdiction in the
 16 application of its own law to determine which state’s interest would be more
 17 ultimately applies the law of the state whose interest would be more impaired if its
 18 law were not applied.

19 *Mazza*, 666 F.3d at 590 (quoting *McCann v. Foster Wheeler, LLC*, 48 Cal. 4th 68, 81-82 (2010)).

20 **1. Conflict of Laws**

21 Darisse has brought seven claims. *See* Amended Compl. ¶¶ 68-131. They can be broadly
 22 categorized as claims under California’s consumer protection statutes (the UCL, FAL, and CLRA
 23 claims), a claim for breach of express warranty, claims for breach of implied warranties (the
 24 implied warranties of merchantability and fitness for a particular purpose), and a claim for
 25 common law fraud. *See id.* Darisse seeks to certify a nationwide class and NLTs are sold in all 50
 26 states. *See* Pl.’s Ex. 5 at NEST-00089668.R (“50 Number of states in the U.S. where Nest is
 27 installed”). The Court thus must determine whether each of the 50 states’ consumer protection
 28 statutes, express warranty, implied warranty, and common law fraud laws differ. They do.

a. Consumer Protection Statutes

1 As recognized in *Mazza*, the other 49 states' consumer protection statutes differ
2 significantly from California's UCL, FAL, and CLRA. 666 F.3d at 591. For example, California
3 allows class actions. See Cal. Civ. Code § 1780; Cal. Bus. & Prof. Code §§ 17203, 17535.
4 Georgia, Louisiana, Mississippi, Montana, South Carolina, and Virginia do not. See Ga. Code
5 Ann. § 10-1-399(a); La. Rev. Stat. § 51:1409(A); Miss. Code § 75-24-15(4); Mont. Code Ann. §
6 30-14-133(1); S.C. Code § 39-5-140(a); Va. Code §§ 59.1-204(A-B). Alabama allows class
7 actions only if they are brought by the attorney general, and Iowa requires class actions to be pre-
8 approved by the attorney general. See Ala. Code § 8-19-10(f); Iowa Code § 714H.7. Kansas
9 allows class actions, but only for declaratory and injunctive relief, not damages. See Kan. Stat. §
10 50-634(c).

11 The 50 states' consumer protection statutes also differ with respect to the statutes of
12 limitations; reliance requirement; what constitutes actionable conduct; and the available remedies.
13 California has a three-year statute of limitations for CLRA claims and a four-year statute of
14 limitations for UCL claims. See Cal. Civ. Code § 1783; Cal. Bus. & Prof. Code § 17208. The
15 relevant statutes of limitations in other jurisdictions range from one year (Oregon, Alabama,
16 Arizona) to six years (New Jersey, Pennsylvania). See ORS 646.638(6); Ala. Code § 8-19-14 (one
17 year from discovery or four years from date of transaction); Ariz. Rev. Stat. § 12-541(5); N.J. Stat.
18 Ann. § 2A:14-1; *Lesoon v. Metropolitan Life Ins. Co.*, 898 A.2d 620, 627 (Pa. Super.), *allocatur*
19 *denied*, 912 A.2d 1293 (Pa. 2006); *Gabriel v. O'Hara*, 534 A.2d 488, 496 (Pa. Super. 1987).

20 In terms of reliance, CLRA, UCL and FAL claims require reliance. See Cal. Civ. Code §
21 1780(a); *In re Tobacco II Cases*, 46 Cal. 4th 298, 326 (2009) (class representatives must establish
22 reliance under the UCL and FAL to have standing); *Pfizer v. Superior Court*, 182 Cal. App. 4th.
23 622, 631-32 (2010) (under the UCL and FAL, members of a putative class are not entitled to
24 restitutionary relief where they were never exposed to the defendant's alleged misrepresentations).
25 Delaware, Florida, Iowa, Massachusetts, New York, and Connecticut do not. See *Stephenson v.*
26 *Capano Dev. Inc.*, 462 A.2d 1069, 1074 (Del. 1983); *Davis v. Powertel, Inc.*, 776 So. 2d 971, 973-
27 74 (Fla. Dist. Ct. App. 2000); Iowa Code § 714.16(7); *Sebago, Inc. v. Beazer E., Inc.*, 18 F. Supp.
28 2d 70, 103 (D. Mass. 1998); *Stutman v. Chem. Bank*, 731 N.E.2d 608, 611-12 (N.Y. 2000);

1 *Izzarelli v. R.J. Reynolds Tobacco Co.*, 117 F. Supp. 2d 167, 176 (D. Conn. 2000).

2 Regarding actionable conduct, California's CLRA makes unfair and deceptive practices
3 actionable. *See* Cal. Civ. Code § 1770. In Georgia, Kansas, and South Dakota, only deceptive
4 practices are actionable, while in Florida and South Carolina, unconscionable or unfair practices
5 are actionable. *See* Ga. Code Ann. § 10-1-372; Kan Stat. Ann. § 50- 626(a); S.D. Codified Laws §
6 37-24-6; Fla. Stat. Ann. § 501.204(1); S.C. Code Ann. § 39-5-20(a).

7 As for relief, the UCL and FAL allow restitution and injunctive relief, and CLRA provides
8 for damages, injunctive relief, punitive damages, and attorney's fees. *See* Cal. Bus. & Prof. Code
9 §§ 17203, 17535; Cal. Civ. Code § 1780(a)-(d). Arkansas restricts punitive damages to elderly
10 and disabled persons, while Maryland, New Hampshire, New Jersey, and Tennessee bar it
11 altogether. *See* Ark. Code §§ 4-88-113(a)(1) & (f), 4-88-204; Md. Com. Law Code § 13-408(a);
12 N.H. Rev. Stat. §§ 358-A:10a, 507:16; N.J. Stat. § 56:8-19(a); *Paty v. Herb Adcox Chevrolet Co.*,
13 756 S.W.2d 697, 699 (Tenn. Ct. App. 1988). Maryland also bars injunctive relief, and Illinois,
14 Indiana, and Louisiana restrict its availability so that it is unavailable in lawsuits brought by a
15 private individual, such as this one. *See* Md. Com. Law Code § 13-408(a); 815 Ill. Comp. Stat.
16 505/7; Ind. Code § 24-5-0.5-4(c); La. Rev. Stat. § 51:1407(A). Ten states (Colorado, Delaware,
17 North Carolina, Massachusetts, Michigan, Minnesota, North Dakota, Ohio, Arizona, and South
18 Dakota) prohibit, restrict, or do not provide for attorney's fees. *See* Colo. Rev. Stat. Ann. § 6-1-
19 113(2)(b); Del. Code Ann. tit. 6 § 2533(b); N.C. Gen. Stat. Ann. § 75- 16.1; Mass. Gen. Laws
20 Ann. ch. 93A, § 9(4); Mich. Comp. Laws § 445.911(2); Minn. Stat. Ann. § 325D.45; N.D. Cent.
21 Code § 51-15-09; Ohio Rev. Code Ann. § 4165.03(B); Ariz. Rev. Stat. Ann. § 44-1528; S.D.
22 Codified Laws § 37-24-31.

23 Darisse claims that Nest "fails to examine how many of the purported differences in state
24 law 'are material *in this litigation*,'" but the materiality of these differences is obvious: Darisse
25 seeks to bring a nationwide class action covering claims dating back to Nov. 1, 2011, and requests
26 compensatory and punitive damages, restitution, equitable monetary relief, attorney's fees, and
27
28

1 damages.⁴ Reply at 11, ECF 124-4 (quoting *Forcellati v. Hyland's, Inc.*, Case No. CV 12-1983-
 2 GHK MRWX, 2014 WL 1410264, at *2 (C.D. Cal. Apr. 9, 2014)); Mot. at i, ECF 88-16;
 3 Consolidated Compl. at Prayer for Relief, ECF 28. But if this nationwide class were certified
 4 under California law, that would allow class members in Alabama, Iowa, Georgia, Louisiana,
 5 Mississippi, Montana, South Carolina, and Virginia to participate in the class action even though
 6 the laws of their own states either prohibit class actions or bar them when not pre-approved or
 7 brought by the state's attorney general. Class members in Oregon, Alabama, and Arizona would
 8 be allowed to recover for claims that would be barred by the one-year statute of limitations in their
 9 home states. The relief Darisse seeks, such as punitive damages, is unavailable or restricted in
 10 Arkansas, New Hampshire, New Jersey, Tennessee, and his home state of Maryland. These
 11 differences in the states' laws plainly are material.

12 **b. Express Warranty**

13 Express warranty law also varies across the 50 states. For example, Arizona, Florida, West
 14 Virginia, Texas, and Oregon require privity, while Washington, Ohio, Illinois, and Texas do not.
 15 *See Flory v. Silvercrest Indus. Inc.*, 633 P.2d 383, 387 (Ariz. 1981); *T.W.M. v. Am. Med. Sys.*, 886
 16 F. Supp. 842, 844 (N.D. Fla. 1995); *McMahon v. Advance Stores Co., Inc.*, 705 S.E. 131, 141
 17 (W.Va. 2010); *Texas Processed Plastics, Inc. v. Gray Enters., Inc.*, 592 S.W.2d 412, 415 (Tex.
 18 App. 1979); *Colvin v. FMC Corp.*, 604 P.2d 157, 160 (1979); *Fortune View Condo. Ass'n v.*
 19 *Fortune Star Dev. Co.*, 151 Wn.2d 534, 541 (Wash. 2004); *Reichhold Chem., Inc. v. Haas, No.*
 20 *1983, 1989 WL 133417, at *7* (Nov. 3, 1989); *Collins Co., Ltd. v. Carboline Co.*, 532 N.E.2d 834,
 21 834 (Ill. 1988); *Basin Operating Co. v. Valley Steel Prods. Co.*, 620 S.W.2d 773, 777 (Tex. Civ.
 22 App. 1981).

23 The reliance element of a claim for breach of express warranty also differs across the
 24 states. In California, there is a presumption of reliance that can be overcome. *See* Cal. Com. Code
 25 § 2313; *Weinstat v. Dentsply Intern., Inc.*, 180 Cal. App. 4th 1213 (2010); *Keith v. Buchanan*, 173
 26 Cal. App. 3d 13, 21 (1985). Minnesota, Kentucky, Oklahoma, New Hampshire, Florida,
 27

28 ⁴ Darisse also seeks injunctive relief, but lacks standing for it. *See supra* at 7.

1 Mississippi, and Rhode Island law require a showing of actual reliance. *See Hendricks v.*
2 *Callahan*, 972 F.2d 190, 193 (8th Cir. 1992); *Overstreet v. Norden Labs., Inc.*, 669 F.2d 1286,
3 1289-91 (6th Cir. 1982); *Speed Fasteners, Inc. v. Newsom*, 382 F.2d 395, 397 (10th Cir. 1967);
4 *Hagenbuch v. Snap-On Tools Corp.*, 339 F. Supp. 676, 680 (D.N.H. 1972); *State Farm Ins. Co. v.*
5 *Nu Prime Roll-A-Way of Miami, Inc.*, 557 So. 2d 107, 108-09 (Fla. Dist. Ct. App. 1990); *Global*
6 *Truck & Equip. Co. v. Palmer Mach. Works, Inc.*, 628 F. Supp. 641, 651 (N.D. Miss. 1986)
7 (Mississippi law); *Thomas v. Amway Corp.*, 488 A.2d 716, 720 (R.I. 1985). Colorado and
8 Virginia do not require a showing of reliance, and New York and Washington do not require a
9 showing of reliance in certain circumstances. *See Lutz Farms v. Asgrow Seed Co.*, 948 F.2d 638,
10 644-45 (10th Cir. 1991) (Colorado law); *Daughtrey v. Ashe*, 413 S.E.2d 336, 338-39 (Va. 1992);
11 *CBS Inc. v. Ziff-Davis Pub. Co.*, 75 N.Y.2d 496, 503 (1990); *Baughn v. Honda Motor Co.*, 727
12 P.2d 655, 669 (Wash. 1986).

13 As for notice, in California, a plaintiff must provide pre-suit notice to the product
14 manufacturer within a reasonable time of discovering the breach of express warranty, except in
15 cases where the consumer did not purchase directly from the manufacturer. *See Cal. Com. Code §*
16 *2607(3)(A)*; *Minkler v. Apple, Inc.*, 65 F. Supp. 3d 810, 817-18 (N.D. Cal. 2014); *Stearns v. Select*
17 *Comfort Retail Corp.*, 763 F. Supp. 2d 1128, 1142-43 (N.D. Cal. 2010) (requiring notice to
18 manufacturer, except where consumer did not purchase product from manufacturer directly).
19 Arkansas, North Carolina, Texas, and Wyoming generally require notice to the manufacturer,
20 while North Carolina requires notice to the seller, and notice to the manufacturer may or may not
21 be required. *See Cotner v. Int'l Harvester Co.*, 545 S.W.2d 627, 630 (Ark. 1977); *Maybank v. S.S.*
22 *Kresge Co.*, 302 N.C. 129, 133 (1981); *Halprin v. Ford Motor Co.*, 107 N.C. App. 423 (1992);
23 *U.S. Tire-Tech, Inc. v. Boeran, B.V.*, 110 S.W.3d 194, 199 (Tex. App. 2003); *W. Equip. Co. v.*
24 *Sheridan Iron Works, Inc.*, 605 P.2d 806, 810-11 (Wyo. 1980); *Halprin v. Ford Motor Co.*, 420
25 S.E.2d 686, 688-89 (N.C. App. 1992). In New York, the sufficiency of notice is a jury question.
26 *See Hubbard v. General Motors*, 1996 WL 274018, at *4 (S.D.N.Y. 1996). In the District of
27 Columbia, Massachusetts, and Oregon, a plaintiff's delay in providing notice may bar suit, while
28 in Florida, North Carolina, and South Dakota, it does not. *See Mariner Water Renaturalizer, Inc.*

1 v. *Aqua Purification Sys., Inc.*, 665 F.2d 1066, 1069 (D.C. Cir. 1981); *P & F Constr. Corp. v.*
 2 *Friend Lumber Corp.*, 575 N.E.2d 61, 64 (Mass. App. Ct. 1991); *Wagner Tractor, Inc. v. Shields*,
 3 381 F.2d 441, 445 (9th Cir. 1967) (Oregon law); *Lafayette Stabilizer Repair, Inc. v. Mach.*
 4 *Wholesalers Corp.*, 750 F.2d 1290, 1294 (5th Cir. 1985) (Florida law); *Maybank v. S.S. Kresge*
 5 *Co.*, 273 S.E.2d 681, 685 (N.C. 1981); *Opp v. Nieuwsma*, 458 N.W.2d 352, 356-57 (S.D. 1990).

6 Like the differences in the states' consumer protection statutes, the differences in the
 7 states' express warranty law is material. To choose just one example, Nest would be allowed to
 8 use a delay in providing notice as a defense in the District of Columbia, Massachusetts, and
 9 Oregon, but not in Florida, North Carolina, and South Dakota. The differences in other aspects of
 10 express warranty law described above present similar clashes.

11 c. Implied Warranties

12 The fifty states' laws on the implied warranties of merchantability and fitness for a
 13 particular purpose have significant differences regarding privity, notice, the availability of class
 14 actions, and the definition of merchantability. Alaska, Colorado, Louisiana, Michigan, Nebraska,
 15 New Jersey, Pennsylvania, and Texas do not require privity, while Alabama, Arizona,
 16 Connecticut, Florida, Idaho, Illinois, Iowa, Kentucky, New York, North Carolina, Ohio, Oregon,
 17 Tennessee, Vermont, and Wisconsin do. *See Morrow v. New Moon Homes, Inc.*, 548 P.2d 279,
 18 289 (Alaska 1976); *Hansen v. Mercy Hospital, Denver*, 40 Colo. App. 17, 18 (1977); Colo. Rev.
 19 Stat. Ann. § 4-2-318; *Media Prod. Consultants, Inc. v. Mercedes-Benz of N.A., Inc.*, 262 La. 80
 20 (1972); *Cova v. Harley Davidson Motor Co.*, 26 Mich.App. 602 (1970); *Peterson v. North Am.*
 21 *Plant Breeders*, 218 Neb. 258 (1984); *Alloway v. Gen. Marine Indus., L.P.*, 695 A.2d 264 (N.J.
 22 1997); *Powers v. Lycoming Engines*, 272 F.R.D. 414, 420 (E.D. Pa. 2011); *Kassab v. Central*
 23 *Soya*, 432 Pa. 217 (1968); *Nobility Homes of Tex., Inc. v. Shivers*, 557 S.W.2d 77, 81 (Tex. 1977);
 24 *Wellcraft Marine, Inc. v. Zarzour*, 577 So.2d 414, 419 (Ala. 1990); *Flory v. Silvercrest Indust.*,
 25 *Inc.*, 129 Ariz. 574 (1981); *United Tech. Corp. v. Saren Engineering, Inc.*, No. X06CV-
 26 020173135S, 2002 WL 31319598 (Conn. Super. Ct. Sept. 25, 2002); *Mesa v. BMW of N. Am.*,
 27 *LLC*, 904 So.2d 450, 458 (Fla. Dist. Ct. App. 2005); *Am. W. Enters., Inc. v. CNH, LLC*, 155 Idaho
 28 746 (2013); *Salmon Rivers Sportsman Camps, Inc. v. Cessna Aircraft Co.*, 97 Idaho 348 (1975);

1 *Zaro v. Maserati N. Am., Inc.*, 2007 WL 4335431, at *2 (N.D. Ill. 2007); *Tomka v. Hoechst*
 2 *Celanese Corp.*, 528 N.W.2d 103 (Iowa 1995); *Kentucky Berger v. Standard Oil Co.*, 126 Ky.
 3 155 (1907); *Kolle v. Mainship Corp.*, 2006 WL 1085067, at *5 (E.D.N.Y. 2006); *Hole v. General*
 4 *Motors Corp.*, 83 A.D.2d 715 (1981); *Gregory v. Atrium Door & Window Co.*, 106 N.C. App. 142
 5 (1992); *Terry v. Double Cola Bottling Co.*, 263 N.C. 1 (1964); *McKinney v. Bayer Corp.*, 744 F.
 6 Supp. 2d 733, 758 (N.D. Ohio 2010); *Dravo Equip. Co. v. German*, 73 Or. App. 165 (1985);
 7 *Gregg v. Y.A. Co.*, 2007 WL 1447895, at *7 (E.D. Tenn. 2007); *Messer Griesheim Indust., Inc. v.*
 8 *Cryotech of Kingsport, Inc.*, 131 S.W.3d 457 (Tenn. Ct. App.2003); *Vermont Plastics, Inc. v.*
 9 *Brine, Inc.*, 824 F.Supp. 444 (D.Vt.1993); *Stoney v. Franklin*, 54 Va. Cir. 591 (2001); *State Farm*
 10 *Mut. Auto. Ins. Co. v. Ford Motor Co.*, 225 Wis.2d 305 (1999).

11 Notice requirements also vary: Arkansas, Maryland, and Texas require pre-suit notice,
 12 while Kansas does not require notice in cases such as this, where the buyer is a consumer. *See*
 13 *Adams v. Wacaster Oil Co., Inc.*, 98 S.W.3d 832, 835-36 (2003); *Lynx, Inc. v. Ordnance Prods.,*
 14 *Inc.*, 327 A.2d 502, 514 (Md. 1974); *U.S. Tire-Tech, Inc. v. Boeran*, 110 S.W.3d 194, 201 (Tex.
 15 App.-Houston 2003); *McKay v. Novartis Pharm. Corp.*, 934 F. Supp. 2d 898, 915 (W.D. Tex.
 16 2013); *Wichita v. U.S. Gypsum Co.*, 828 F.Supp. 851, 856-57 (D. Kan. 1993), *rev'd on other*
 17 *grounds*, 72 F.3d 1491 (10th Cir. 1996). In contrast, in Alaska, Arizona, Ohio, Pennsylvania, and
 18 Virginia, the filing of the complaint may suffice for notice. *See Shooshanian v. Wagner*, 672 P.2d
 19 455, 462-63 and n. 6 (Alaska 1983); *Davidson v. Wee*, 93 Ariz. 191 (1963); *Chemtrol Adhesives,*
 20 *Inc. v. Am. Mfrs. Mut. Ins. Co.*, 42 Ohio St. 3d 40, 54 (1989); *Precision Towers, Inc. v. Nat-Com,*
 21 *Inc.*, No. 2143, 2002 WL 31247992, at *5 (Phila. Ct. Com. Sept. 23, 2002); *In re Ford E-350Van*
 22 *Prods. Liab. Litig.*, No 03-cv-4558, 2010 WL 2813788, at *39-40 (D.N.J. July 9, 2010)
 23 (Pennsylvania law); *Aqualon Co. v. Mac Equip., Inc.*, 149 F.3d 262, 270 (4th Cir. 1998); *Bd. of*
 24 *Directors of Bay Point Condo. Ass'n, Inc. v. RML Corp.*, 57 Va. Cir. 295 (2002).

25 Different states also define merchantability differently, for the implied warranty of
 26 merchantability. In California, a breach of the implied warranty of merchantability means “the
 27 product did not possess even the most basic degree of fitness for ordinary use.” *Mocek v. Alfa*
 28 *Leisure, Inc.*, 114 Cal. App. 4th 402, 406 (2003) (citing Cal. Com. Code § 2314(2)). Delaware

1 asks whether “the design has created a risk of harm which is so probable that an ordinarily prudent
 2 person, acting as a manufacturer, would pursue a different available design which would
 3 substantially lessen the probability of harm.” *Nacci v. Volkswagen of Am., Inc.*, 325 A.2d 617,
 4 620 (Del. Super. 1974). In Vermont, the implied warranty of merchantability “is primarily
 5 directed at the operative essentials of a product.” *Tracy v. Vinton Motors, Inc.*, 130 Vt. 512, 516
 6 (1972).

7 These differences in the law are material. For example, NLT purchasers residing in states
 8 with strict privity requirements normally would have to show that they purchased their NLTs
 9 directly from Nest, rather than from a separate retailer, as Darisse did. Certifying a nationwide
 10 class under California law would allow Alabama Arizona, Connecticut, Florida, Idaho, Illinois,
 11 Iowa, Kentucky, New York, North Carolina, Ohio, Oregon, Tennessee, Vermont, and Wisconsin
 12 NLT purchasers who did not buy directly from Nest to recover, even though they could not
 13 recover if their own states’ laws were applied. The differences in state law regarding privity have
 14 led courts to deny class certification. *See Cole v. Gen. Motors Corp.*, 484 F.3d 717, 728 (5th Cir.
 15 2007) (citing *Chin v. Chrysler Corp.*, 182 F.R.D. 448, 460 (D.N.J. 1998); *Walsh v. Ford Motor*
 16 *Co.*, 130 F.R.D. 260, 272 (D.D.C. 1990)).

17 **d. Common Law Fraud**

18 Material variations also exist among the states’ laws regarding common law fraud. One
 19 difference is in the reliance requirement. California requires justifiable reliance but permits an
 20 inference of reliance in class actions if the same misrepresentations actually were made to each
 21 class member. *See SimTel Communications v. Nat’l Broadcasting Co., Inc.*, 71 Cal. App. 4th
 22 1066, 1081 (1999); *Kaldenbach v. Mutual of Omaha Life Ins. Co.*, 178 Cal. App. 4th 830 (2009).
 23 In contrast, Delaware and Florida do not allow reliance to be inferred in class actions because
 24 reliance requires individual proof. *See Gaffin v. Teledyne, Inc.*, 611 A.2d 467, 474 (Del. 1991);
 25 *Humana, Inc. v. Castillo*, 728 So.2d 261 (Fla. Dist. Ct. App. 1999). Meanwhile, Arizona, Iowa,
 26 Mississippi, Missouri, Montana, New York, Oklahoma, Virginia, and Wyoming require actual
 27 reliance. *See Taeger v. Catholic Family and Cmty. Servs.*, 995 P.2d 721, 730 (Ariz. Ct. App.
 28 1999); *Kunkle Water & Elec Inc., v. City of Prescott*, 347 N.W.2d 648, 653 (Iowa 1984); *Gen.*

1 *Motors Acceptance Corp. v. Baymon*, 732 So.2d 262, 269-70 (Miss. 1999); *Misischia v. St. John's*
 2 *Mercy Med. Ctr.*, 30 S.W.3d 848, 868 (Mo. App. 2000); *Wright v. Blevins*, 705 P.2d 113, 117
 3 (Mont. 1985); *Otto Roth & Co., Inc. v. Gourmet Pasta, Inc.*, 715 N.Y.S.2d 78, 80 (N.Y. App. Div.
 4 2000); *Whitson v. Oklahoma Farmers Union Mut. Ins. Co.*, 889 P.2d 285, 287 (Okla. 1995);
 5 *Spence v. Griffin*, 372 S.E.2d 595, 598 (Va. 1988); *Johnson v. Soulis*, 542 P.2d 867, 872 (Wyo.
 6 1975).

7 The burden of proof for fraud claims also differs: California's standard is a preponderance
 8 of the evidence, but most states demand clear and convincing evidence. *See, e.g., Lioudas v.*
 9 *Sahadi*, 19 Cal. 3d 278, 291(1977); *Mannington Wood Floors, Inc. v. Port Epes Transp., Inc.*, 669
 10 So.2d 817, 824 (Ala. 1995); *Enyart v. Transamerica Ins. Co.*, 985 P.2d 556, 562 (Ariz. Ct. App.
 11 1999); *Park v. Sandwich Chef, Inc.*, 651 A.2d 798, 802, n.3 (D.C. App. 1994); *Shoppe v. Gucci*
 12 *Am., Inc.*, 14 P.3d 1049, 1067 (Haw. 2000); *Sowards v. Rathbun*, 8 P.3d 1245, 1249 (Idaho 2000);
 13 *Euoplast, Ltd. v. Oak Switch Sys. Inc.*, 10 F.3d 1266, 1272 (7th Cir. 1993); *Alexander v. Everhart*,
 14 7 P.3d 1282, 1289 (Kan. Ct. App. 2000); *Alvey v. Union Inv., Inc.*, 697 S.W.2d 145, 147 (Ky. Ct.
 15 App. 1985); *Gross v. Sussex Inc.*, 630 A.2d 1156, 1161 (Md. 1993); *Singing River Mall Co. v.*
 16 *Mark Fields, Inc.*, 599 So. 2d 938, 945 (Miss. 1992); *Snow v. Am. Morgan Horse Ass'n, Inc.*, 686
 17 A.2d 1168, 1170 (N.H. 1996); *Eckhardt v. Charter Hosp. of Albuquerque, Inc.*, 953 P.2d 722, 735
 18 (N.M. Ct. App. 1997); *Daibo v. Kirsch*, 720 A.2d 994, 999 (N.J. Super. App. Div. 1998); *Otto*
 19 *Roth & Co., Inc. v. Gourmet Pasta, Inc.*, 715 N.Y.S.2d 78, 80 (N.Y. App. Div. 2000); *Kary v.*
 20 *Prudential Ins. Co. of Am.*, 541 N.W.2d 703, 705 (N.D. 1996); *Gallant v. Bd. of Med. Exam'rs*,
 21 974 P.2d 814, 818 (Or. Ct. App. 1999); *Andalex Res., Inc. v. Myers*, 871 P.2d 1041, 1046 (Utah
 22 App. 1994); *Hardwick-Morrison Co. v. Albertsson*, 605 A.2d 529, 531 (Vt. 1992); *Breault v.*
 23 *Berkshire Life Ins. Co.*, 821 F. Supp. 410, 417 (E.D. Va. 1993); *Wharf v. Burlington N.R.R. Co.*,
 24 60 F.3d 631, 637 (9th Cir. 1995); *Bender v. Phillips*, 8 P.3d 1074, 1078 (Wyo. 2000).

25 Finally, in California, the statute of limitations is three years, while it is one year in
 26 Louisiana and two in Alabama, Kansas, Montana, Oklahoma, Oregon, and Pennsylvania. *See Cal.*
 27 *Civ. Proc. Code § 338(d)*; *Winn Fuel Serv., Inc. v. Booth*, 34 So.3d 515, 519 (La. Ct. App. 2010);
 28 *Jarzen v. Wright*, 679 So.2d 1086, 1088 (Ala. Civ. App. 1996); *Ala. Code § 6-2-38*; *Richards v.*

1 *Bryan*, 879 P.2d 638, 646 (Kan. Ct. App. 1994); *Osterman v. Sears, Roebuck & Co.*, 80 P.3d 435,
2 440 (Mont. 2003); *Bennett v. McKibben*, 915 P.2d 400 (Okla. Civ. App. 1996); *Murray v. Lamb*,
3 148 P.2d 797, 801 (Or. 1944); 42 Pa. Cons. Stat. Ann. § 5524.

4 All of these differences are material. Darisse's proposed class would not be certified in
5 several states, because those states require individual class members to show reliance. Many
6 states also require a higher burden of proof than California does. Furthermore, applying California
7 law would allow class members in Louisiana, Alabama, Kansas, Montana, Oklahoma, Oregon,
8 and Pennsylvania to recover for claims that would be barred by the statute of limitations in their
9 home states.

10 **2. Interests of Foreign Jurisdictions**

11 There are material differences in the 50 states' laws on each of Darisse's causes of action,
12 and so the next step is to examine each state's interest in the application of its own law under the
13 circumstances of this case to determine whether there is a true conflict. *Mazza*, 666 F.3d at 590.
14 To some extent, the Court covered this issue above, when discussing how the differences in the
15 states' laws set up conflicts over what period of claims are recoverable, what proof is required,
16 what the elements of the claims are, and even whether these claims can be brought as a class
17 action at all in certain states. But beyond that, the consumer protection, warranty, and fraud laws
18 of every state are important. The law reflects each state's reasoned judgment as to what conduct is
19 permitted or prohibited in that state. *See Mazza*, 666 F.3d at 591; *see also State Farm Mut. Auto.*
20 *Ins. Co. v. Campbell*, 538 U.S. 408, 422 (2003). Each state carefully balances its duty to protect its
21 consumers from injuries caused by businesses doing business within the state with its duty to
22 shield those businesses from what the state may consider excessive regulation or litigation. *See*
23 *Mazza*, 666 F.3d at 591 ("Each state has an interest in setting the appropriate level of liability for
24 companies conducting business within its territory."). This case implicates each state's interest.
25 The proposed nationwide class consists of members from 50 states, and Darisse alleges that
26 consumers from each of those states were misled into buying and using the NLT in their state. *See*
27 Consolidated Compl. ¶¶ 12, 21, 61, 88, ECF 28. Nest denies that its advertising for the NLT was
28 misleading in any of those states. *See Opp.* at 2-4, ECF 111-11. Given the parties' positions, all

1 50 states have an interest in having their own laws applied to the consumer transactions that took
2 place within their borders, and those laws have significant conflicts.

3 **3. Which State's Interest is Most Impaired**

4 Because the Court has found that there is a true conflict among the states' laws applicable
5 to this case, the Court must evaluate the nature and strength of each state's interest in the
6 application of its own law to determine whether that interest would be more impaired if its policy
7 were subordinated to California's policy. *See Mazza*, 666 F.3d at 590. The Court must then apply
8 the law of the state or states whose interest would be more impaired if its laws were not applied.
9 *See id.* The Court is not permitted to weigh the conflicting state interests to determine which
10 conflicting state law manifests the "better" or "worthier" social policy. *Id.* at 593 (citing *McCann*,
11 48 Cal.4th at 97). Instead, the Court must recognize the importance of federalism and every
12 state's right to protect its consumers and promote those businesses within its borders. *See Mazza*
13 at 593.

14 California has a significant interest in applying its laws to the consumer transactions that
15 took place within its borders. Nest is headquartered in California and has its principal place of
16 business a mere half hour from this courthouse. *See Consolidated Compl.* ¶ 11, ECF 28. Nest's
17 marketing, sales, and engineering departments are located at the California headquarters. *See*
18 *Brinks Dep.* at 85:3-86:1, Pl.'s Ex. 102, ECF 88-27. Some members of the proposed class
19 presumably reside in California, since the NLT is sold nationwide.

20 But California's interest in applying its laws to residents of other states who purchased and
21 used the NLT in those other states is much more attenuated. *See Edgar v. MITE Corp.*, 457 U.S.
22 624, 644 (1982). Indeed, California law states that "with respect to regulating or affecting conduct
23 within its borders, the place of the wrong has the predominant interest." *Hernandez v. Burger*,
24 102 Cal. App. 3d 795, 802 (1980). California considers the geographic location of the omission or
25 where the misrepresentations were communicated to the consumer as the place of the wrong. *See*
26 *McCann*, 48 Cal.4th at 94 n. 12. For the out-of-state NLT buyers, the place of the wrong is not
27 California, but the state where each NLT buyer saw Nest's advertising, relied on it, and bought the
28 NLT. *See Mazza*, 666 F.3d at 593-94 (finding "the last events necessary for liability as to the

1 foreign class members—communication of the advertisements to the claimants and their reliance
2 thereon in purchasing vehicles—took place in the various foreign states, not in California”). And
3 those states have a compelling interest in protecting their consumers from in-state injuries caused
4 by an out-of-state company doing business within their borders, and in setting the scope of
5 recovery for consumers under their own laws. The Court thus concludes that every state would be
6 impaired in its ability to protect consumers within its borders if California law were applied to all
7 claims of the nationwide class. Each class member’s claims instead must be governed by the laws
8 of the state in which the transaction took place.

9 Because the laws of 50 states must be applied in this case, common questions of law do not
10 predominate over the questions affecting individual class members as required by Rule 23(b)(3).
11 The claims of class members in California raise significantly different legal issues from the claims
12 of members from other states, and those claims also are significantly different from state to state.
13 Certification of the entire nationwide class under California law thus is improper—predominance
14 requires common questions of law to predominate over questions affecting individual members,
15 and this case requires applying the laws of fifty states.

16 **V. ORDER**

17 Darisse has not satisfied Rule 23(a) or 23(b)(3). His motion for class certification is
18 DENIED.

19 **IT IS SO ORDERED.**
