Marketing & Training Tools

Your VEMMA™ organization can be built a variety of ways. In person, over the telephone, over email, on the internet, instant messenger, or even through facebook.

Regardless of how you choose to build you need to develop a relationship with your brand partners and you will also need tools. There are a whole variety of different tools. I listed the ones I feel are critical to your success below.

According to Paul Zane Pilzer, world-renowned economist, ten million new millionaires will be created between 2006-2016, through what he calls "intellectual distribution"— teaching people about products or services that they didn't even know existed."

People really can't be duplicated, but systems can. Everybody wants a system they can plug into for success. The tools below are adaptable to any other system currently duplicating in your team.
