## Welcome to VMASstories.com!

### Cholesterol

"My cholesterol had dropped 70 points. I did not exercise. I did not change my diet. I know it was the minerals and mangosteen. I'm really excited about it and I'll be taking it for the rest of my life!"

**Joan** - Florida

### Arthritis Sufferer:

"I have been taking the mangosteen and mineral product now for about 8 weeks. After 1 week, my rheumatoid arthritis was so much better in my knees, that I didn't need to take steps 1 step at a time."

**Lee Ann** - Missouri

### Pain Relief

My whole being is being healed, physically, emotionally, and spiritually. I love myself and life is a big adventure. I can't believe how easy the process was. Thank you minerals and mangosteen. I prayed for years for help. In 3 months you have changed my life!

## Acid Reflux

### Testimonials:

**Jennica:** "I have had so much success with the Mangosteen and Mineral product regarding my health. I've suffered from Acid Reflux disease my whole life.

I was on Prilosec forever, even though it's only supposed to be a 14 day treatment. I knew it was not good for my body, but I was addicted to it because it was the only thing that offered any hope. Without it, I would wake up choking in the middle of the night. I often found I was even coughing up blood. I was absolutely miserable.

After taking the Mangosteen and Minerals, I no longer have to take Prilosec or even Tums! I am repairing my esophagus and I am so happy I found something natural!"

*Jennica*

**Irene:** "In 2009 I was suffering from Acid Reflux, and Hiatus Hernia. The pain kept me up all night. A lot of time it seemed like I was having a hearth attack. I could not digest food without digestive remedies, and nothing really helped. Then in January 2010 I was introduced to the minerals and mangosteen product. I felt better. No more pain and no more indigestion. I feel good and I'm very thankful for the minerals and mangosteen product."

*Irene*

## A.D.D.

### Testimonials:

**Robert:** I have never been on any medication for my A.D.D. throughout my life because I didn't want to be put on any pills that would alter my behavior or the way I feel. Now entering my 20's I have been on the Mangosteen and Minerals product for 5 months now and noticed that I am able to stay focused on my objectives or just a simple conversation longer and I can take in the information better. This product is not only helping my work life, but also life at school when paying attention to lectures. I used to drink a cup of coffee, or two, every morning to keep me awake and try to stay focused. I found that the Mangosteen and Minerals product worked best for me.

-Robert C.

## Allergies

### Testimonials:

**Christina:** "I started using Mangosteen and Minerals in August of 2013 and noticed results within a week! I have terrible seasonal allergies and was able to completely drop my allergy meds! I've also struggled with digestive problems for about 6 years. I was taking 8+ different pills a day! I dropped the pills I was on, including prescription pain killers!!! These products are nothing short of amazing!!!"

### Testimonials:

**Melissa B:** “ In July of 2008 I crossed paths with a dog who was a stray on the Indian Reservation near Casa Grande, AZ. She was extremely malnourished, looked very ill, and had no use of her front right leg. On 12-18-08 I drove to Casa Grande to pick her up. I was in agreement with my veterinarian that we would amputate her front right leg, let her recover and find her a home.

When I pulled up, she was curled up on a little rug that was wet and muddy and embedded into the ground. She looked more emaciated than she did in July, you could see every bone in her body and her front right leg was half the size of her left. She was covered in ticks, had 3 open sores on her front right paw, and an open wound the size of a quarter on each hip.

When I got her to my vet, she took one look and said she would never survive anesthesia to have her leg amputated. We debated euthanasia as we thought that would be the most humane action due to the severity of her condition and the long, expensive journey to recovery it would be.

I asked if we could try treatment to see what happens and my vet agreed. We did blood work and x-rays and the results were devastating. She had valley fever at the highest level it could reach, tick fever, heartworm, and protein loss through her urine. X-rays showed 3 vertebrae in her spine that were completely eaten away from the valley fever, and the bones in her front right paw were also badly eaten away from the valley fever.

She would frequently experience nose bleeds and weighed in at only 27 pounds. Even after all of the heart breaking results, I was not about to give up hope. In March of 2009 I started giving her the Mangosteen and Minerals product with the approval of 5 vets.

By now this sweet little fighter stole my heart and scored herself a home with me. Her name is Princess and she is every single bit of that name and then some! One short year later her heartworm is gone, her bones are all significantly improved, her valley fever and tick fever are almost gone, she is no longer losing protein through her urine or having nose bleeds, she weighs 45 pounds and still has all four legs!

I truly believe in my heart that the Mangosteen and Minerals product is what saved Princess's life, without it she would not be where she is at today.”

-Melissa B

## Anxiety and Panic Attacks

### Testimonials:

**Lainey:** "About 2 years ago my sister died in her sleep after a long and stressful battle with alcoholism and pill addiction. I literally went into a downward spiral to the point where I truly thought I was dying. I developed both Panic Disorder and Anxiety Disorder.

Last year, in an effort to lose some of the stress weight I had put on through all of this, I joined the 12 week Mangosteen and Mineral Weight Loss Challenge. In the first week I dropped 10 pounds and have been consistently losing weight since then! I have noticed my hair and skin getting healthier and my nails are even growing like crazy! But that's not even the best part! I found that the Mangosteen and Mineral product really helped my anxiety and panic symptoms!

I encourage ANYBODY who suffers from Anxiety and/or Panic Attacks to use this product! It has really given me my life back! I have full control over my mind again and feel like I can achieve ANYTHING I PUT MY MIND TO!"

## Arthritis

### Testimonials:

**Denise:** "Earlier this year, I was having excruciating pain and needed a walker to help me get around. I had x-rays taken and I was diagnosed with severe arthritis in my back and hip. My doctor put me on Neurontin (gabapentin) but, the side effects were so terrible so I had to stop taking it.

Then my doctor prescribed Lyrica (pregabalin). The side effects from that medication were just as bad as the Neurontin so I had to stop taking that medication too.

My friend suggested I start taking 2 ounces of the Mangosteen and Minerals product with added Silica once a day. She told me that the silica would help with the production of collagen in my body. I started drinking this Mangosteen and Minerals with Silica product every day. In less than 2 weeks my pain went all the way down from a level 10 to a level 3 on scale of 1-10! The benefits I am experiencing from the Mangosteen and Minerals with Silica also includes no side effects from medications. I would hardly have believed that a completely all-natural product could have helped me so much with pain relief if I had not experienced it for myself."

*Denise*

**Joanne:** "A while ago I developed severe pain in my right knee and thigh. My doctor prescribed muscle relaxers, then Tramadol for pain. It was hard to walk, and sometimes my leg would almost give out. It became increasingly worse. I was unable to up the stairs normally, having to drag my right leg one step at a time. Even a curb became a painful obstacle. I was put on Vicodin for pain, which did nothing except make me drowsy. It was just awful. I had an ultrasound on my knee and an x-ray on my lower back and thigh. The results showed arthritis in my hip. I was sent to a pain management doctor since nothing was relieving my terrible pain. My doctor told me to get OTC Glucosamine Chondroitin, and to get a cortisone injection. After the initial Lanocaine wore off, the doctor said the cortisone shot would kick in, if it was going to work. It didn't. The pain came back and remained. I then started taking Ibuprofen, 800 mg. I still couldn't go up and down steps normally. I dealt with the horrible pain and inconvenience for a year. Then my daughter got me started on the Mangosteen and Minerals. After 2½ months, I discovered I could go upstairs in our house normally again ... and with NO pain! I stopped taking the Glucosamine pills. I cannot believe the tremendous difference the Mangosteen and Minerals has made in my life!"

*Joanne G. - Oceanside, CA*

**Lee Anne:** "I have been taking the mangosteen and mineral product now for about 8 weeks. After 1 week, my rheumatoid arthritis was so much better in my knees, that I didn't need to take steps 1 step at a time."

*Lee Ann - Missouri*

**Ken & Debbie:** "Hello, we are Ken and Debbie from a small town in north Alabama called Grant. Both of us have been on the minerals and mangosteen for about nine weeks now and have had unbelievable results for the health problems that we each have." ...Ken, also, has multiple health problems. Ken has rheumatoid arthritis, ankylosing spondylitis, osteoarthritis, and osteoporosis. These diseases put Ken in a wheelchair 4 years ago. Ken has had 37 surgeries because of these diseases. The ankylosing spondylitis totally fused his neck when he was 38 years old, forced him out of the work force, and put him on total disability. Ken's daily regimen included 11 different medications. One of those 11 medications included 180 oxycodone pain pills a month to help him to be able to walk around and deal with the horrible pain that he experienced on a daily basis. He was also on a dangerous cancer medication that is being used to help treat rheumatoid arthritis called methotrexate. The methotrexate was a required medication for him to be able to take another arthritis treatment called Remicade. This is an IV that Ken would receive every 6 weeks to help control the pain and stiffness from his arthritic diseases. Ken was also on a blood thinner called Coumadin which is nothing more than rat poison. He had to go every six weeks and have blood drawn because of the high risk of all of these drugs killing his liver and other body organs. Ken started the mineral and mangosteen program about nine weeks ago and after about two weeks on the program he became totally pain free and drug free!"

*Ken & Debbie - Alabama*

**Mary:** "I was taking the following medications: Fosamax for osteoporosis in my legs - 1 pill a week Methotrexate 5mg. - 4 pills at once, one time a week. Folic Acid - 1 pill every day for arthritis. None of this was helping me, until I started taking the minerals and mangosteen. I have quit all of the medicines, except for the Fosamax. I initially started taking Vemma in my orange juice once a day and in two weeks, I could see a lot of difference in the way I felt. All of my pain was just about gone. Every day I started feeling better and I now I am not in any pain at all. My hands were so bad I would close my hands and my fingers would close and lock, I would have to take each hand & pull my fingers open, and they had so much pain I wanted to cry. But now I have taken most of the 4 bottles of the minerals and mangosteen for two months and I am feeling great, no pain at all. Believe me, I know what pain is and I had enough of it, and I am so happy to be pain free so far. I will always take it."

*Mary - Indiana*

**Rita:** "Earlier this year I was suffering from extreme pain. When I could no longer take it, I went to my doctor, who ran several tests and took x-rays. I was diagnosed with arthritis. It manifested in my upper and lower back and my right hip. There were days that I could not even stand up when I got out of bed because my hip would lock up and I could not stand up straight. The doctor put me on 1800 mg of Neurotin and 200 mg of Celebrex a day but the pain persisted. A friend of mine from childhood had suggested that I try the mangosteen and minerals product. I was reluctant and kept putting him off. Finally after about 4 months, the pain was so bad, even though I was taking the medicine, I decided to try the mangosteen and minerals. I also have a very active lifestyle and was always tired and felt run down. After taking the mangosteen and minerals energy drink for one week, I stopped taking the Neurotin and Celebrex and the pain has been gone for almost 9 weeks and my energy level has increased! I am confident that the mangosteen and mineral energy drink was the cause. Now I recommend it to everyone I know!"

*Rita*

**Paulette:** "I just wanted to report that I think the mangosteen and minerals are really helping my arthritic knees. I've been taking about 6 oz per day (sometimes I miss a dose or 2) for around a month. Saturday we had to go to a wedding and my vanity set in. I really wanted to wear heels which normally I cannot at all without horrible pain and limping. I put them on and felt great the entire wedding and most of the reception dancing. I only took off the heels cause my feet hurt ... my knees were fine!

I haven't changed anything in my routine except adding the mangosteen and minerals. I had cortisone shots in both knees in July and my doc and I discussed knee replacement when I couldn't stand the pain any more. Hopefully this will continue and

that surgery can be held off for many years.”

*Paulette* - St. Charles, IL

## Asthma

### Testimonials:

**Paul:** "I have been fighting my asthma problem since I was in grade school. I have always tried natural remedies and had a little success with different herbs. After taking the mangosteen and minerals product for just five months I feel like my asthma is gone. I have never felt this good. I have a new outlook on life and for some reason my mind sees clear and I don't get as stressed out like I use to.."

## Autism

### Testimonials:

**5 year-old Braxton results:** "In November of 2010, my 5 year old son was diagnosed with autism. In June of 2011 we were introduced to the mangosteen and minerals product for children. Within TWO weeks, we saw tremendous positive results! I mean literally a 180. Now in October 2011, he is on no prescription meds. We have also introduced the children of THREE different friends that have autism. They also have seen positive results. Thank God for the mangosteen and minerals!"

## Blood Pressure

### Testimonials:

**Paul:** "I had stage 1 & 2 Hypertension for about 20 years! I am 47 years old and had real concerns about it. I have taken other products that promised to lower blood pressure, with no results. After taking the minerals and mangosteen with no change to my diet, I am finding that my blood pressure has remained at normal levels for over a year. "

*Paul*

**Mandee:** "I had a stroke on November 9, 2010. That resulted in a lot of major problems. It was caused by vertebral artery dissection (I tore the vertebral artery). I had major pain in my neck, vertigo, depression, anxiety, I couldn't sleep at night, and my blood pressure was extremely high, to the point where I was at risk for another stroke. Being 28 yrs old this scared me, so I went on the hunt for something that was natural and could help all of the issues I had.

I was introduced to the mangosteen and mineral product by a friend and was hesitant to try it, thinking it would be just like everything else. After one week of taking the mangosteen and mineral product, I noticed that I had increased energy. A few days later I noticed that I had actually gotten a really good night sleep.

Slowly, everything started to get better and all the issues the doctor said I would have to live with for the rest of my life were getting better. My blood pressure is back down to normal and I have lost 15 lbs so far being on it. It has only been 3 months, but I feel a million times better than I ever thought I would. The mangosteen and mineral product is absolutely amazing, and I would recommend everyone try it!"

*Mandee*

**Loren:** "I overheard a conversation about the minerals & mangosteen while having a cup of coffee at a restaurant in Bloomington, Illinois. It peaked my interest. Gary came over to our home and shared the minerals & mangosteen product with me. I love this product & I have the lowest blood pressure in years, feel great, and my PSA level dropped from 4.3 to 1.58. I am 74 years old and have numerous family and friends that could use a product like this!"

*Loren - Heyworth, Illinois*

**Gonz -** "I wanted to share my results with mangosteen and minerals product to all those that are as skeptical of the product as I was when my coach introduced it to me.

I was trying to find a replacement for the big and numerous pills I was taking as a supplement with vitamins. So my coach referred me to the liquid mangosteen and minerals product. At first I was skeptical but I decided to try it.

After I started taking the product, I was noticing that my nails were getting stronger and my hair was getting thicker. Then, after 4 months of taking it, I noticed that my

## Bursitis

### Testimonials:

**Melinda:** For the past two years I have lived in constant pain because I have bursitis in my shoulder, which has effected every part of my life. The doctors told me nothing much could be done other than Steroid injections and then an operation. So I started the injections, which were very painful. After the second injection I was told the bursitis was actually worse and I would need the full course of five injections.

My daughter suggested and brought home some of the Mangosteen and Minerals Product. I took two ounces a day and after 8 days I noticed a decrease in my pain level. After 2 weeks I had no pain and almost full range of movement. I couldn't believe it! After two years of living with pain unable to move my arm above shoulder level I was pain free. Now, 4 months later I am back to full strength.

-Melinda

## Cellulitis

### Testimonials:

**Dianne L:** My mom had diabetes for 20 years. For the past 6 years she had cellulitis in her legs. They were red, swollen and had oozing blisters. She could not stand for anything to touch them. Three weeks after she started taking the mangosteen and minerals product, her legs had totally cleared up! They were still slightly discolored but her skin was smooth, no inflammation and no pain. That was in March of 2009 and the cellulitis never returned. We will never be without our mangosteen and minerals.

-Dianne

## Cholesterol

### Testimonials:

**Doug:** "Ever since I was around 35, my cholesterol has run above 325. It is due to my family history. My triglycerides were also over 300. I started taking Mangosteen and Minerals in May of 2009. I just got my bloodwork back from my doctor 3 weeks ago, and my total cholesterol is down to 267 and triglycerides are 188. I have changed nothing, other than starting on the Mangosteen and Minerals. This really works!! "

*Doug*

**Joan:** "Hi, my name is Joan. I'm a registered nurse in Fort Myers, Fl. I want to tell you about something that happened to me since I've been taking minerals and mangosteen. I'm really excited about it. In mid April my Dr. had the news for me that my cholesterol was 296. It usually runs around 230-240. At this time he decided to give me a prescription. Something told me not to fill the prescription and I didn't. May 5th I started taking minerals and mangosteen and when he rechecked me in mid July, my cholesterol had dropped 70 points. I did not exercise. I did not change my diet. I know it was the minerals and mangosteen. I'm really excited about it and I'll be taking it for the rest of my life!"

*Joan - Florida*

**Bob:** "I went to my doctor for blood work on 5-12-05. My cholesterol was 242. LDL was 165. HDL was 51. My doctor wanted to give me 20mg of Lipitor. I refused and said I would take care of it myself. I doubled the dosage to 4 oz instead of 2 oz. I had blood work done again on 9-22-05. I had a follow up visit with my doctor to discuss the results. My cholesterol went down to 175. LDL went down to 112. HDL went down to 40. My doctor told me whatever I was doing to keep doing it."

*Bob - Pennsylvania*

**Lee Ann:** "The biggest improvement is my cholesterol reading. My tryglycerides dropped 84 points and my total cholesterol dropped 13 points in just the 4 weeks I have been on it when I got my blood tested."

*Lee Ann - Missouri*

**Jim:** "In early 1997 I had quadruple bypass surgery and have seen a cardiologist regularly since then. In March 2005 I had my regular blood work completed as indicated below. My cardiologist felt that several tests were necessary which led to a heart catheterization. Since I have some heart damage, my cardiologist has placed me on Coreg and Lisinopril to control blood pressure and Lipitor to control cholesterol.

I began using the mangosteen and mineral products June 6, 2005 and the results of my July 1, 2005 blood tests are shown below. Note the improvement in overall cholesterol, LDL, and Tryglycerides. My HDL remained the same. On July 8 I met with my cardiologist. He noted my improvement along with an 8 lb weight-loss, but was concerned that my blood pressure was slightly elevated (154/78). After providing him with some information about the mangosteen and mineral products, he suggested

raising the Coreg and Lisinopril and using the the mangosteen and mineral products instead of the 40mg of Lipitor...for three months. I thanked him for this plan and will follow up with new blood tests in early October. I feel like an on-going testimony. Blood Draw Dates:

March 8, 2005 & July 1, 2005

Began Using Mangosteen & Minerals June 6, 2005

Cholesterol 165 to 139LDL 110 to 91

Tryglycerides 110 to 74

PS: My cardiologist was skeptical, but interested in the mangosteen and mineral products. If I continue to improve without the Lipitor, I'll likely get his support. Perhaps he'll even start prescribing and using the product himself."

*Jim - Indiana*

**Don:** "Paul, I got your message asking if I'd share some specifics on my lab results since starting mangosteen and minerals. Feel free to take a look at the following information and share it with anyone who might like to take a look.

When you listen to the Dr. Edwards CD, it mentions that many of the health improvements from taking mangosteen and minerals can be documented by actually lab results. This has definitely been the case with me. I had a complete set of labs done at the National Institute of Health a week before I started taking Mangosteen & Minerals, a second set of labs 3 weeks after starting Mangosteen & Minerals and a third set of labs last Friday (7 weeks after starting Mangosteen & Minerals).

After looking my labs over last Friday two different physicians at NIH asked me, "What have you be doing differently the last six weeks?" Both of them were shocked at the improvement in my labs. Here's some of the changes since I started Mangosteen & Minerals:

The first thing I noticed ... and the change I'm most thrilled about ... is I've had a very noticeable increase in my energy level. Ever since I had pneumonia in 1995, I've suffer from AIDS related fatigue. I've felt like someone "unplugged" me about 2-3pm, and I've needed a nap almost daily. Within 10 days of starting Mangosteen & Minerals, I noticed I wasn't running out of steam mid-afternoon, and I haven't had a nap in 6 weeks.

Here's a few of the changes in my labs:

My triglycerides have gone from 292 down to 201 My HDL (good cholesterol) is up from 25 to 42 .... a Huge improvement My cholesterol is down from 234 to 217.

**Note:** Two weeks before starting Mangosteen & Minerals, my Lipid Physician took me off Crestor and Tricor because my liver was definitely suffering overkill from processing both those drugs in addition to all my HIV meds ... He left me on Omacor (prescription fish oil) and Zetia. He told me to expect an increase in my cholesterol and triglycerides since I was stopping Crestor and Tricor. However, instead of going up, both actually decreased after I started mangosteen and minerals.

My hemoglobin is up from 11.4 to 13.1My Creatine level is down from 827 to 257 Glucose down from 105 to 99 My Blood Pressure is down 10-15 points Alanine Aminotransferase down from 171 to 94 Bilirubin Total down from 1.5 to .9 Bilirubin Direct down from .3 to .2 Aspartate down from 157 to 66 Lactate Dehydrogenase down from 234 to 186.

I'm in two different studies at NIH and the newest one is a study at dealing with liver damage suffered by most people who have been on HIV meds for a number of years. My liver function tests have been significantly higher than normal for several years. Since starting mangosteen and minerals, there has been significant improvements in almost all my liver function labs ... most of my liver function tests went from being in the "High" into the "Normal" range.

These are only some of my lab results from NIH. Glancing at the complete list of results it's clear is there is distinct improvement in many areas and at least minor improvement in practically everything tested. All is can say is, "HAVE YOU HAD YOUR SHOT TODAY?" ..."

*Don*

## Chronic Dry Eye Syndrome

### Testimonials:

**Craig:** There is a condition called Chronic Dry Eye or keratoconjunctivitis sicca that requires the addition to the eyes of artificial tears. I'm 61 years old and can't remember exactly when I started using artificial tears but it's been a good while. Without using the tears, I found myself rubbing both eyes with my fists. I have been taking the mangosteen and minerals product for seven weeks. It was only the other day that I noticed that I hadn't been taking and using the artificial tears. The bottle is in a drawer of my desk at work and I haven't needed to reach for it in perhaps a week. The only thing that has changed over time has been my taking the mangosteen and minerals product.

-Craig R.

## Chronic Fatigue Syndrome

### Testimonials:

**LuAnn:** Next week it will be a year since starting the Mangosteen and Minerals. What an amazing year it has been! My health saw a 180 degree turnaround. Going from primarily bedridden to living a life of quality and joy has been amazing! I really liked the Minerals and Mangosteen from the very first dose. I had tried every pill under the sun for my Fibromyalgia, Chronic Fatigue Syndrome and migraine headaches. Some things helped a bit, but never for long. Most things didn't help at all. Even massage, chiropractic care and acupuncture treatments did little to ease my symptoms. I had a dramatic upswing after taking the Mangosteen and Minerals for even a short time! My chronic fatigue was gone! I am no longer sleeping my life away. Living on pain pills for migraines became a thing of the past. Having taken pills two or three times per day has changed to only two or three times per month now. My Fibromyalgia issues have been resolved by about 85%. Some days, one dose of the Mangosteen and Minerals is enough, but I listen to my body and will take another 2 ounces if I feel the need to do so. Another plus is that I have not picked up a cold or flu bug in the past year! The Mangosteen and Minerals really did change my life!

*Thanks, LuAnn*

## Chronic Kidney Infection

### Testimonials:

**Stacey:** "I had, had Chronic Kidney Infections for the last 10 years. Doctors put me on every kind of pain medication possible. They always treated the pain and never got rid of the infection. It got so bad that I would wake up every 2-3 days in terrible pain. I had all but given up. A friend of ours invited us to a mangosteen and minerals event in which I was introduced to mangosteen. That night I sampled the product and got to go home with about a weeks worth of samples. I am going on my second month now with no pain whatsoever. This product has changed my life. I am recommending it to everyone I know. So is my Fiance since he also gets to sleep through the night since I know longer wake up in pain. Thank you so much."

*Stacey H.*

## Crohn's Disease

### Testimonials:

**Dante:** "Four years ago I was diagnosed with Crohn's disease. I spent three years in search of a liquid vitamin that would give me all the vitamins and minerals I needed in my daily diet and found nothing. It wasn't until last November 2013 that my cousin Jason brought upon me the mangosteen and minerals product, which contains all vitamins A-Z, aloe, green tea, and one of the world's strongest anti-oxidant mangosteen. This product is nothing short of remarkable. Two ounces of the drink a day and I feel like a whole new man. I used to have stomach flare ups 3-4 times a day and I'm so proud to say that has reduced to once every few weeks."

-Dante

**Lori:** "I was diagnosed with Crohn's Disease in 2002. My doctors explained that this disease would never go away; I'd have to spend the rest of my life on immune suppressive drugs to slow down the progression of the disease, and that many Crohn's patients end up having chunks of the damaged intestine surgically removed."

Every day I'd feel nauseous and would have severe abdominal cramping. My body functions were unpredictable, and many times I'd have embarrassing accidents. I had no energy, and spent most days curled up on the couch in pain. I associated food with pain, so if I ate at all, it would be something soft like mashed potatoes or broth.

As a mother of five, I enjoyed volunteering in school, and eventually became a substitute education assistant. As my disease became worse, I eventually had to give up these things that I enjoyed so much because I was just too sick. I had to avoid my kids when they were sick because the medications I was taking depleted my immune system. My kids took care of me more often than I was able to care of them.

The medications I had to take all had horrible side effects. One gave me side aches; another landed me in the hospital for a week and made my hair fall out. After two years of trying one med after another, I made a personal decision to discontinue use of pharmaceutical medications because I felt that the side effects were worse than the disease itself.

In 2005 someone suggested I try Mangosteen & Minerals. A short time after drinking my first 2oz shot, I noticed the nausea and cramping began to subside. I continued to take the product, and each day I continued to feel better. Eventually my body functions became normal again. My energy level increased, my hair started growing back, and I was able to start eating real food again.

In 2008 I went back to my doctors to tell them what had happened for me since taking Mangosteen & Minerals. They immediately ran a CT scan on my abdomen and did some blood work. All of my tests showed that there was no sign of disease in my body.

I never really thought about nutrition or supplementation. Now that I've seen what's happened in my body, I realize how important it is!

I can't say how grateful I am to have discovered Mangosteen & Minerals! I've got the quality of my life back, I'm able to eat whatever I want, and my energy is through the roof! It's SO GOOD to feel good again!"

**Carolyn:** "In June 2005, I was diagnosed with Crohn's disease. For the next 2 1/2 years I was on three different (very expensive) medicines, but could not get complete control of the disease. Then I was introduced to the mangosteen and mineral product by a friend in January 2008. I started taking the mangosteen and minerals and within 6 weeks began to see great improvement. In about 3 months I went into remission and have been in remission ever since. My last colonoscopy in February 2009 showed approximately an 85% improvement since the last one I had in 2005. I really believe in the mangosteen and mineral product. I am taking it twice a day, just to be doubly insured! I really do believe the mangosteen and aloe, plus the other ingredients have had a tremendous healing effect on the inflammatory condition of my Crohn's."

## Diabetes

### Testimonials:

**Jason:** "Hi, my name is Jason. I am from Sarnia, Ontario Canada. I have been taking the mangosteen and mineral products, healthy energy drink, and the hydration formula for over a year and the new weight loss shake just recently. I am so grateful for this product. I have always had great control with my type 1 Diabetes and have been living with it for over 28 years. The mangosteen and mineral product has allowed me to give less of my insulin and still maintain good blood sugar levels and have even better control. This has put a lot of belief in the products and why I decided to become a brand partner and do this as a business by sharing something that is going to help other people and make a difference in their lives."

*Jason J.*

**Mike:** "I have two health issues, type 2 diabetic and Multiple Sclerosis. I began taking minerals and mangosteen Nov.2008. My A1C was 9.6 and I was taking the highest dose of medication possible and exercising 1 hr. per day. My blood sugar level was remaining in the higher level, but as of June 2009 (8 months) my A1C is 6.8. Most days my blood sugar level is in the 80-120s. I believe the minerals and mangosteen has made a difference in my blood sugar level because I have not been able to exercise as much because of the MS.

The most amazing benefit is how soon I noticed the effect it has had with the MS. I was diagnosed Oct. (2006) after having problems with my eyes and other problems associated with MS. The MS had spread from the brain down my spine. I started steroid treatments immediately and (Betaseron) shots every other day. I would have severe flare up for the next 2 yrs causing me to be hospitalized for several days at a time. The next treatment was in Feb.2009, I had 4 days of treatment at (treatment center) not the hospital. During the 2009 yr I would have flare ups that would last for less than 48 hrs (that means no treatments)! I have now gone one year between treatments (Feb.2010). As I stated above, I started taking the minerals and mangosteen on Nov. 2008 and take 4oz of minerals and mangosteen per day. It is hard to believe that 4oz of minerals and mangosteen could change my life but it has."

## Digestion

### Testimonials:

**Christina:** "I started using Mangosteen and Minerals in August of 2013 and noticed results within a week! I have terrible seasonal allergies and was able to completely drop my allergy meds! I've also struggled with digestive problems for about 6 years. I was taking 8+ different pills a day! I dropped the pills I was on, including prescription pain killers!!! These products are nothing short of amazing!!!"

*Christina*

**Joyce:** "I have been using the mangosteen and mineral products for the past six weeks and I cannot tell you all the positive changes it has done for my health. For years I have had a challenges with digestion. Since I started the minerals and mangosteen, I've noticed a difference and can eat whatever I want. As a bonus, I noticed my energy level and joint health has increased beyond what I could imagine! I will never be without this supplement."

*Joyce - Missouri*

**Sara:** My daughter Jasmyn has had bowel trouble since she was a baby. She is almost 7 now. She would cry everyday with terrible stomach pains. Some days we would get calls to come pick her up at school because it was so bad. We had taken her to several doctors, had abdomen x-rays done, and bought all kinds of medicine. We spent all this time and money and nothing really seemed to work. I didn't like giving her all the medicine either. It was so hard seeing her in pain. We talked with some friends and decided to try the minerals and mangosteen. The first time she drank her minerals and mangosteen she went to the bathroom about a half an hour later. We have been hooked ever since! I love it when she asks me for her tummy juice. Jasmyn feels great and goes to the bathroom daily now! I love that it is so healthy for her, not like all the medicine that tasted so gross. It was a fight to get her to take it. She loves the sweet orange taste. My 9 year old daughter loves to drink it too. We have all been blessed by the minerals and mangosteen! Thank you!

## Energy - Vitality

### Testimonials:

**Jennifer:** "I started taking the minerals & mangosteen a few months ago and it helped me tremendously with over all energy. I have 3 kids and run a business(salon) and also work as a stylist there. My 5 year old always had dark circles under her eyes so I thought I would give it a try with her especially since it was liquid and she could swallow it. She loved the taste and after a few weeks the circles went away. I also give it to my 22 month old and she loves it. She flaps her arms in the morning for it. They both go to the same daycare and lately the whole daycare has been sick, both the kids and the teachers. They have not gotten sick since they have been taking the minerals & mangosteen. My 13 year old also takes it and it helps her with energy as she plays on a fast-pitch softball team that travels. I think it's great for adults but also great for children because they can swallow it and it's actually nutritious. Children's vitamins these days are just glorified candy. So, that's my testimonial about the minerals & mangosteen, me and my children will keep taking it!!"

*Jennifer*

**Sally:** "Hi, this is Sally from La Mesa, Ca. Over the past five years, I've had five surgeries. The last one being when I broke my leg last summer. I had multiple fractures of the tibial plateau. I dislodged the ACL with the bone still attached. The surgery was very, very devastating. The recovery was very hard on me. It took a lot of energy. I was in a wheelchair for a very long time. I started using the mineral and mangosteen products and was able to get my energy back and my recovery sped up. In fact, my M.D. told me that I was recovering in half the time of anybody half my age. I was really excited about that. The recovery was going along quite nicely. Then, unfortunately, when I was on the road I picked up some e-coli poisoning. That just really nailed my energy. I lost fourteen lbs. in four days. I mean I was totally zapped. I started doubling up on the minerals and mangosteen and that got me back up on my feet. I was able to drive my motor home back home after suffering such a devastating challenge with the e-coli. After I got back home I got back in the pool and started doing physical therapy for my leg again. Because of the minerals and mangosteen, my physical therapy turned into workouts. I've just gotten so much energy back and I feel so great I was able to qualify for the Senior Olympics next month. I just thank the mineral and mangosteen products for giving me my health and my energy back. I just wouldn't know what to do with out it!"

*Sally - California*

**Sue:** "I'm Sue, from Las Vegas. I started taking the minerals and mangosteen about 6 months ago. I love the taste and take it everyday. My better half didn't start taking it until about 4 months ago. Well, let me tell you, he can't do without it. He works for McCarran Airport and gets up all hrs of the morning, 3, 4 or 5 am. The one thing he makes sure before leaving the house is that he's taken his minerals and mangosteen. He swears by it. He says that he has more energy, he's more alert and can concentrate much better. All the aches and sore joints are no longer there, plus he sleeps much better every evening. His daily diet of fruits & veggies wasn't there, but taking minerals and mangosteen has helped him get the Minerals & Vitamins that he's been missing. We both agreed now that we will tell all our family & friends about this

**Hollie:** "Another good day...I am in remission from bone cancer of Non-Hodgkins Lymphoma, with that I lost a hip and have a damaged right kidney, all that occurred in 2004. I am now in my early 50's. After months of exhaustive chemo therapy then multiple kidney operations I was worn out. Within the first month of taking the mangosteen and mineral products, my energy level increased. Like all worthwhile things, that increased vitality went to all around better living. I felt vibrant after a year of being battered by multiple illness. I stopped taking the minerals and mangosteen and within a month I felt a downward slide. It didn't take long before I received more the minerals and mangosteen and once again I felt vibrant. As chemo patients know we frequently cannot mix other vitamins, minerals or drugs while going through chemo. I recommend the minerals and mangosteen vitamins mixture to all cancer patients immediately after chemo has stopped or as soon as your doctor allows additional vitamins and minerals. When I think of these products I think of a vibrant life."

*Hollie*

**Andi:** "Four months ago, I was barely able to function physically in terms of everyday tasks, like house cleaning, grocery shopping, working my home business and singing on the praise and worship team at my church. This was due to a heart condition that can no longer be effectively treated with the traditional drug therapy or corrective surgery as it once had 6 years ago. My friend, Leanne, introduced me to the minerals & mangosteen, I had already tried every natural remedy imaginable and had seen dozens of physicians & many alternative health care practitioners. Thousands of out-of-pocket dollars had been spent and I felt it couldn't hurt to try "one more thing". After my first day taking it, I had 12- 14 hours of mental clarity. Plus my energy was remarkably improved. At first, I thought it might be a fluke and that it would not last. Thankfully I was wrong! Within that first week of my taking the minerals & mangosteen, my heartburn (Acid Reflux) and my fatigue was gone. My Husband tried Mangosteen & Minerals and said it tasted too good to be vitamins. His mental clarity, plus his energy level increased tremendously within his first few days on the product and he is very healthy overall. Now, neither of us will travel or leave home without it! I was so impressed, that I started telling people I knew who had struggled with chronic illness. At first, to help Leanne. But shortly, I realized I was helping myself with a great business opportunity and improving health!"

*Andi*

**Esther:** "I stumbled into mangosteen as I was browsing through the Internet. Mangosteen is known to me since childhood, and I haven't seen them anywhere in the US. It intrigued me. One thing led to another and I ordered the product. I noticed the energy it gave me, and yet I only took one "shot" a day. I can continue work without taking a break after lunch."

*Esther*

**Janet:** "My sister-in-law has had several mini-strokes over the past few years and has some paralysis. I introduced her to the minerals & mangosteen and we have had nothing but rave reviews from her. She also has diabetes and bone mass loss. Since taking the minerals & mangosteen, she has noticed an increase in her energy level, not as tired as she used to be. Her blood pressure and diabetes (blood sugar count) has been dropping monthly. She fell in church the week before Easter and broke her leg in two places. She had to have surgery and go into a rehab center for three weeks. She was totally worn out and needless to say feeling tired in the rehab center. When her doctor asked her what he could do to pickup her spirit, she told him she had not had her minerals & mangosteen in 7 days and she insisted it be put in her room in a cooler so she would not miss it another day. My brother fixed a cooler up and within a couple of days she was feeling great!"

*Janet -VA*

**John:** "My wife & I frequently have lunch at a local Coffee house in Howell, New Jersey and some time ago I had introduced this great waitress, Carleen to our Minerals and Mangosteen. A week after talking them she reported that she had become a DYNAMO of energy & where she normally would need a nap in the afternoon, she now found herself not taking naps. In fact, she found herself working relentlessly on home projects with renewed energy. She was ecstatic, smiling and "beaming" when she told me about the results! A few months later she did not re-order & when I came in for lunch she reported taking naps again. She walked over to me, with her credit card in hand, placed in on the table and said, "I need you to put me on automatic monthly auto-ship. Gotta have my Mangosteen!"

*John - New Jersey*

## Fibromyalgia

### Testimonials:

**LuAnn:** Next week it will be a year since starting the Mangosteen and Minerals. What an amazing year it has been! My health saw a 180 degree turnaround. Going from primarily bedridden to living a life of quality and joy has been amazing! I really liked the Minerals and Mangosteen from the very first dose. I had tried every pill under the sun for my Fibromyalgia, Chronic Fatigue Syndrome and migraine headaches. Some things helped a bit, but never for long. Most things didn't help at all. Even massage, chiropractic care and acupuncture treatments did little to ease my symptoms. I had a dramatic upswing after taking the Mangosteen and Minerals for even a short time! My chronic fatigue was gone! I am no longer sleeping my life away. Living on pain pills for migraines became a thing of the past. Having taken pills two or three times per day has changed to only two or three times per month now. My Fibromyalgia issues have been resolved by about 85%. Some days, one dose of the Mangosteen and Minerals is enough, but I listen to my body and will take another 2 ounces if I feel the need to do so. Another plus is that I have not picked up a cold or flu bug in the past year! The Mangosteen and Minerals really did change my life!

**LuAnn** - California

"For ten years up until nine months ago, I was barely able to function physically in terms of everyday tasks like house cleaning, grocery shopping, walking, sitting, and standing. I had to quit my good full time job. Mentally I was incapable of working due to poor memory, being in a deep fog, exhausted, and the pain was so bad I just wanted to die. I saw doctors, had many tests done, and my Neurologist told me I had Fibromyalgia and Polyneuropathy (many dead nerves). I had numbness in my left toes and the tips of my fingers on my left hand. He said there was no cure, and told me to go home and keep taking the medication I was prescribed. I was on two anti-depressants, plus pain medications Lyrica, Celebrex, Ralivia, Tramadol, and many more (all of which have many horrific side effects). Eleven months ago my son introduced me to the mangosteen and mineral product. I was willing to try anything because the way I was living, was not living at all. I starting to take 2 oz. per day, and after a week I had more energy. After a couple of weeks I decided to take 4 oz. a day. Within the first month I could feel that my pain was subsiding. I stopped taking Lyrica, and couple of weeks after that I stopped taking Celebrex and Tramadol because my pain was going away. Now my pain is gone, I feel my toes and fingers, no more numbness or tingling, and without the use of any pain medication! Today I am a whole new different person. I feel 100% better than I did one year ago. I was in the financial industry for 25 years, and the mangosteen and mineral product has given me the health and the financial freedom we all want. I'm back in action and telling everyone about this, "one of kind... amazing antioxidant"! I cannot say enough about this incredible vitamin, mineral and mangosteen supplement. It has literally saved my life."

**Lynette:** "I have had chronic fatigue since the age of 14. The symptoms of fibromyalgia have come and gone through the years, increasing dramatically the last

few years. The doctors could find nothing wrong, except to say I now had arthritis too. Taking mangosteen and minerals has been like a miracle in my life. As long as I have this product in my system, I am fine. I have never in my life felt this good."

*Lynette F - California*

**LuAnn:** "Hi, I'm LuAnn from Oceanside, Ca. For the last ten years I have suffered with several problems including fibromyalgia, chronic fatigue syndrome, and of course depression, because of dealing with the above. It really affected my family and how we were doing. I was in bed twenty-two hours a day, sleeping most of that time to try to deal with the pain. My family had to pick up the slack for the things I wasn't able to do. I was introduced to the minerals and mangosteen product and started taking it. Within five days, I started feeling better. I was actually starting to get up out of bed. Each day my symptoms began to subside at an increased rate. In a few weeks, I noticed that the pain I had suffered with for so long was beginning to go away. I just felt good. I took the product for a few months and realized that it made a big difference. Well, unfortunately, I let it run out and was off of it for awhile. The symptoms started to recur. I knew it was the minerals and mangosteen that had made the difference in my life. I so I got back on the program. It has made such a huge difference not only in my health but in the health of my family. I actually have my family back again. We are active. We are doing things together. I'll tell you I don't know what we would do without it. I'm going to be on it forever!"

*LuAnn - California*

**Ken & Debbie:** "Hello, we are Ken and Debbie from a small town in north Alabama called Grant. Both of us have been on the minerals and mangosteen for about nine weeks now and have had unbelievable results for the health problems that we each have. "... About nineteen years ago, Debbie was diagnosed with the debilitating disease, fibromyalgia. This is a disease that affects the muscles and the tissues that surround the joints. The disease causes the muscles and the tissues to stay inflamed constantly. You also suffer from chronic fatigue because of the inability to achieve restful sleep because of the disease. There are also many other side affects from the disease...constant pain, depression, and weight problems just to name a few. For this disease, there is no cure. All of this was multiplied by a car accident that Debbie was involved in on July 8, 2002 when a gentleman t-boned her in the driver's side of her car at a red light. The accident left her with three bulging discs in her neck and other discs bulging down in the center of her back, neuropathy in both feet and both legs! , and carpal tunnel in both hands. Needless to say, Debbie hurt day and night. After being on the minerals and mangosteen Total Nutrition product for six weeks, Debbie became totally pain free with energy that she had not experienced in years! Nineteen years to be exact. It has been a miracle for her."

*Ken & Debbie - Alabama*

**Patricia:** "I was diagnosed with Fibromyalgia in 1980. Actually, I have had aches and pains in legs for my whole life, as far back as I can remember. The Doctors just ended up giving me pain pills. Then I ended up in the emergency room, unconscious for 18 hours, as I had unintentionally took too many pain pills. Thank the Lord that I came out of it or I wouldn't be here to tell this story. I started taking the minerals & mangosteen just two weeks ago. I really didn't think it would do any good because nothing has for the past 25 years, I mean NOTHING!! couldn't believe it. For the first time, my legs stopped hurting. All along I just needed the Minerals, Vitamins and the Mangosteen. All I can tell you for sure is that my Fibromyalgia is gone!!! Thank you!"

*Patricia*

**Dolores:** "Hi my name is Dolores. I live in Oberlin Ohio. My story is quite complicated. I was diagnosed with high blood pressure in November of 2004. Soon after I became diabetic. I began to have chest pain. After seeing a cardiologist, I found that I had two blocked arteries on the left side of my heart 80% and 70% which were corrected by stints. Before the month was over, I was back in for the third stint. Because of were the blockage was, two months later I had open heart surgery. A year later I was back in having another stint and another stint to make a long story short. I now have nine stints. I have Asthma, Fibromyalgia, sleep apnea, migraine headaches, and I was

experiencing hair loss and very dry skin. Obviously because of all these conditions I suffered with much pain and depression. I was introduced to the mangosteen and minerals from a member of the church. After two weeks on the program I noticed a dramatic change in my life. I notice I was no longer laying in bed to control the pain of the fibromyalgia. My blood pressure was down, my cholesterol was down even though I was not taking the medication as prescribed because I wanted to see for myself if it would work. After my next check up, the cholesterol was down and so was my blood sugar. My hair is growing back and my skin is clearing up. I have more energy, not to mention I am sleeping more restful at night. I no longer have to take naps during the day and I am able to cook dinner on occasion. Thanks to this product my life is more normal. I thank you . "

*Dolores - Ohio*

## Food Allergies

### Testimonials:

**Chris:** "Wheat Gluten Free? No More! For the past several years I have been unable to eat any wheat or wheat gluten without suffering through hours of terrible digestive pains. Let me just say that this diet sucks when everyone around you is eating whatever they want, and you would never believe the amount of things that have wheat and/or wheat gluten in them!"

In the past weeks, I have started taking my minerals, mangosteen & aloe and found myself yet again, stuck choosing to either not eat or eat wheat. Hunger won that fight, but to my surprise, I had no symptoms like those of my past. I know that this is because of this supplement because only a few days prior to starting it, I had a similar situation occur and I paid for it for almost 32 hours.

Besides being able to eat again, I also can't believe the amount of energy that I have gained. I can even keep up with these kids up and down the stairs! I can't stop talking about how great this stuff is, and I will never stop using it!"

Sincerely, *Chris*

**Renee:** "My name is Renee and I joined this home-based business opportunity for the financial rewards. I've have always supplemented with nutritional products. Was I in for a surprise! About ten years ago, when I was age 31, I was diagnosed as having severe food allergies to most things that most people eat on a day-to-day basis. I had never been allergic to any foods in my life so I was shocked! They included wheat, milk, eggs, sugar, potatoes, tomatoes, onions and so on... I was so allergic that I went into anaphylactic shock just during my skin tests. I had been on allergy shots twice a week since 1995 with frequent skin tests to adjust my serum. After taking the product for about a month and a half I started noticing that I was forgetting to take my shots. I had always remembered to take them because the frequent facial pain and migraines served as a reminder. Lets face it, when you allergic to just about everything its hard not to eat the things you are allergic too. It dawned on me one day that the reason I was forgetting to take them was because I was not having the symptoms less and less. I have not had an injection in about a month and though I have an occasional flare-up (when I eat too much of the things I most allergic too) I do not have to take those dreaded shots which leaves my arm sore for about 2 days! If this business doesn't take off for me financially, I will continue taking the product!!! (But that's not going to happen... I have a big DREAM and no ones going to steal it!)."

Sincerely, *Renee*

## Hair and Nails

### Testimonials:

**Cathy:** "My name is Cathy. I was introduced to the minerals and mangosteen a few months ago by my children's daycare provider. When she showed me the information on it, I immediately recognized the mangosteen fruit. Having lived in India for a short time, I have had the privilege of eating the mangosteen fruit on many occasions. I quickly placed my order hoping the minerals and mangosteen could be my answer to taking my health to a higher level. When my order arrived I stopped taking the vitamins I had been using for years: E, C, Q10, B and others and started drinking two shots per day of the Nutrition Program. Besides caring for my boys, I am the president and CEO of multiple corporations and healthcare facilities. My day begins early and ends late. Needless to say I have much stress in my life. I have been a vegetarian for years and have always tried to live a healthy lifestyle. Besides a few challenges, I thought I was at optimum health for a woman of 40.

After a few short weeks on the minerals and mangosteen I could tell that my health was changing. I noticed that my hair looked and felt healthier and my finger nails are noticeably stronger. In my opinion everyone, young and old should be drinking the minerals and mangosteen."

*Cathy - Missouri*

**Stephen:** "I am definitely amazed by the mangosteen and minerals product. I have been using mangosteen and minerals from the time it landed in Kenya in May 2010.

When I started using it, I had a balding head, which made me look older than I actually am. After one month of using it, I was amazed when my barber noted that my hair was growing again. I did not believe it until my wife commented about it. It immediately struck me that I was using the mangosteen and minerals product which has everything my body needs; 12 vitamins, 65 minerals, antioxidants, and aloe vera to detoxify.

My prayer is that everyone should use the mangosteen and minerals product!"

*Stephen*

## Knee Pain

### Testimonials:

**Christopher:** "I'm a 61 year old home improvement contractor. I was planning on starting the Mangosteen product after the bottle of store brand vitamins was empty. But recently I finished a difficult renovation and was on to installing a hardwood floor, when my knees began to throb. The stabbing pain I had while climbing up and down stairs was excruciating. I thought to myself, this is a great time to see if the Mangosteen and Minerals Formula my wife and kids love is really any good. I had my doubts considering my level of pain. I was shocked to find my knees pain free in 3 days. It really is as good as people say. As I tell my customers about my work, "I'm not cheap, I'm just good." I'll be spending my money very well every month on this Mangosteen and Mineral Formula."

## Lactose Intolerance

### Testimonials:

**Jessica:** "My name is Jessica! I'm 18 years old and was lactose intolerant. I have always had to be cautious of what I eat and drink because of lactose intolerance to dairy products. After a little over a month of drinking the mangosteen and mineral product, I noticed I'm no longer having issues with lactose intolerance. It's amazing! I didn't expect to have such an awesome health benefit from this product!"

- Jessica

**Jane:** "Hi. I'm Jane from Danville, CA. My lactose intolerance completely disappeared after drinking the mangosteen and mineral formula for about 45 days. I never expected anything like this but I'm completely celebrating that I no longer need to avoid some of my favorite foods. Yeah!!!"

- Jane

## LIVER

### Testimonials:

**Jessica:** "I was introduced to the best nutritional drink in the world by one of my good friends. At first I was skeptical, and then I thought I would try it. I've been going to the doctor for some issues regarding the enzymes and fat in my liver. After a month of taking the Mangosteen & Minerals I went back to my doctor for some follow-up blood work and found out my liver function was completely normal and my enzyme levels had gone back down.

I also suffer from a disorder called PMDD which is pre-menstrual disorder. With this disorder, moods swings are ten times worse than the mood swings most women suffer during PMS. After taking the Mangosteen and Minerals for two weeks I realized I felt no mood swings at all!!! This stuff is amazing and I love it! I would recommend it to anyone. "

*Jessica K.*

## Lupus

### Testimonials:

**Amy:** "My story starts actually back in January 2011 when I started getting sick and no one could explain what was wrong. I was having pain and numbness in my legs and back and a strange pressure in my head. I was having a hard time focusing and was barely making it through my day.

My mom and my husband were helping me a lot with the kids in the evenings. It was rough. It's hard to explain how I felt, and the doctors could not explain it either. I was sent to a Neurologist. I had 3 MRIs. One of my head and brain and two on my back, both upper and lower. They all, thank goodness, came back fine, but still didn't help me to figure out what was going on.

Finally in May 2011, after having some lab work done, it was discovered that I have Lupus. It was very confusing and hard to understand for me. I was sent to see a rheumatologist who put me on several medications to help me sleep and for pain. It was very frustrating because the medication really didn't help. I was also sent to physical therapy, which proved to be very helpful in relieving some pain and helping to keep my legs from going numb. At night I was having trouble going to sleep, and it seemed symptoms were worse. I would be up in the middle of the night doing exercises that I learned in physical therapy.

August 11, 2011 is a date I will never forget! That is when I tried the minerals and mangosteen for the very first time. I never imagined the results that I was going to get. I had no expectations of any of it and never gave it a second thought. That night I went to sleep and slept all night for the very first time in months. The very next morning I could tell a difference in how I felt. I was not completely better, of course, from my very first dose of minerals and mangosteen, but I did have less pain and felt less tired. I said to my husband, "I slept all through the night; I don't think this is a coincidence."

Each day I took it, I could tell I was getting better and better. Less pain, more energy and better sleep. I can't explain what happened, but one thing I know is, I will not stop taking minerals and mangosteen. My whole family is now taking it, and each has had his/her own positive results. It has been a true blessing to us, and I'm happy to share!"

- Amy K.

## Memory Issues

### Testimonials:

**Memory regained:** "I had a Gran Mal seizure on June 13, 2013. Due to the severity of the seizure my memory was damaged severely. I could barely remember doing things, or not doing things for months. I stumbled over words almost constantly. My neurologist told me it would take at least a year for improvement. I started on the children's version of the mangosteen and mineral products on a regular basis the end of June within weeks there was a tremendous change, I could remember most things that I did, and most of the time know if I didn't do something. As of today, January 23, 2014 my memory is pretty much back to where it was before the seizure. The only other thing I changed was adding fish oil on the advice of a friend. But the mangosteen mineral product was what really did the trick."

## Migraine Headaches

### Testimonials:

**John:** "I have been on the Mangosteen and Mineral products for 5 weeks now, and I have not had a Migraine for about 4 weeks. I am also able to sleep thru the night without waking up 2 to 3 times a night."

*John*

**LuAnn:** "Next week it will be a year since starting the Mangosteen and Minerals. What an amazing year it has been! My health saw a 180 degree turnaround. Going from primarily bedridden to living a life of quality and joy has been amazing! I really liked the Minerals and Mangosteen from the very first dose. I had tried every pill under the sun for my Fibromyalgia, Chronic Fatigue Syndrome and migraine headaches. Some things helped a bit, but never for long. Most things didn't help at all. Even massage, chiropractic care and acupuncture treatments did little to ease my symptoms. I had a dramatic upswing after taking the Mangosteen and Minerals for even a short time! My chronic fatigue was gone! I am no longer sleeping my life away. Living on pain pills for migraines became a thing of the past. Having taken pills two or three times per day has changed to only two or three times per month now. My Fibromyalgia issues have been resolved by about 85%. Some days, one dose of the Mangosteen and Minerals is enough, but I listen to my body and will take another 2 ounces if I feel the need to do so. Another plus is that I have not picked up a cold or flu bug in the past year! The Mangosteen and Minerals really did change my life!"

*LuAnn*

**Nycole:** "I had heard of everyone's life changing experiences with the use of your mangosteen and mineral product, and honestly, some of them were kind of hard to comprehend. But, since I started taking the product daily, I have come to an amazing realization! My headaches and migraines are gone! My stress level has decreased greatly because I no longer deal with the migraines! I feel great! I have been battling chronic migraines for years, having to take Alieve or Advil on a regular basis. I am only 19 years old and shouldn't have to deal with this daily! I am so grateful for the mangosteen and minerals!"

*Nycole A.*

**Brett:** "I used to get three to four severe migraines a month. I've been getting these since I was around 10 years old. These were the full-blown aura and vomit inducing kind. Some would last for days. I've been to many doctors and nobody has a definite answer to it. The only answer that all of them had has been to prescribe some medication and that was that. I have grown up watching my mother suffer from these same migraines. She is frequently in the hospital emergency room or self-inducing Imitrex shots. I decided a long time ago that I would not take medications. They are not the solution. Two months ago I was introduced to mangosteen. Ever since then I have not had a single episode. I had my mother start taking it as well and she also has not had one since either."

**Dora:** "Although we are not permitted to claim that the minerals & mangosteen cures all migraine headaches, you can believe me, and I would shout it from the hilltops. I'll tell you that after many years of suffering with horrendous migraine pain, I have not had a migraine in nearly a month. I averaged one or more per month extreme migraines & several more per month of lesser intensity. Even my hair hurt, and my hair dresser even told me many times that it not only straightened the permanent wave out of my hair, my hair lost life for a period of time after a headache. I was part of a clinical study a local doctor presented to the Cleveland Clinic of Cleveland, Ohio (world renowned) to study the patterns & experimental treatments for migraines, for which he was awarded National recognition, but he never cured MY headaches. If you are among those of us who have spent days bedfast, unable to bear any lights or tolerate the sounds of daily life around us and in a state of total non-function because of the excruciating pain of a migraine headaches, then please take my advice and get some of the minerals & mangosteen as quickly as possible. I am humbly grateful for its results in my life. I want to shout it from the mountain top!

I have experienced other changes as well.....like a restful night's sleep, more energy, eyesight is clearer, more mental alertness and simply feeling better than I have in years. My allergies to pets, molds, dust, and fragrances are noticeably improving from week to week. I am looking forward to Spring & Summer this year. How terrific to be able to enter homes of friends and relatives, who own pets without an asthma attack to follow. I feel certain that my allergies will be disappearing given a little more time on the minerals & mangosteen."

Dora -Ohio

## Mitral Valve Regurgitation

### Testimonials:

**Tanya:** "My husband and I decided to try this new mangosteen and mineral program for 30 days. I was the first to use it for 15 days. Believe me, that is all it took to get me hooked. Last year I was battling fatigue and something strange going on with my heart. I went to a cardiologist and was diagnosed with mitral valve regurgitation, two of my heart valves were leaking. This was also causing my fatigue. My doctor immediately put me on Toprol XL to help combat my heart palpitations. I am 31 years old and not very happy about being on medication for the rest of my life. I went back to my doctor in September and told him that I would like to be taken off of the medicine, he could handle that, it would not put me in any danger. I went off my medicine and of course, my heart palpitations started back up. I started back up on the mangosteen and mineral program the first week of October. I noticed changes immediately. My anxiety at night was gone, and I was sleeping great. Here is the kicker, my heart palpitations, GONE!! Completely!! I was feeling great. My moods were more consistent. For me another big test was PMS symptoms, which had also vanished!! I highly recommend this product and will pass the word on to all those around me. I have ordered MY OWN cycle now and my husband is still on his 15 days. Can't wait to get back on this life-changing product. THANKS!!!"

## Moles, Tags, and Warts

### Testimonials:

**Ruth:** "I have been on the mangosteen and minerals product for three months and noticed a large number of moles and tags are gone. I didn't pay much notice when they either fell off or diminished on their own. I have the scars where they were. There are only three very small moles that are loosely attached. I also applied the mangosteen and minerals product on a Band-Aid and applied it on 3 plantar warts on the bottom of my foot. After softening during a regular bath, I then scuffed it with sand paper then repeated the mangosteen and minerals product on a Band-Aid 3 days in a row. I couldn't leave it alone. I picked at it often; as I had for 2 years. It took about 2 months for the skin to completely smooth over."

- Ruth

## MRSA

### Testimonials:

**B. Watson:** "I would like to share a truly LIFE CHANGING and LIFE SAVING story about the benefits of mangosteen and minerals. My Brother, who is 65 years old, was recently diagnosed with MRSA. As you know MRSA is the "SUPER BUG" that we have created by the ongoing use of antibiotics. The bug was and is so strong that it becomes resistant to Vancomycin and Daptomycin antibiotics. My brother has been on antibiotics since December 2010, following a surgery, where he contracted the MRSA. In February of 2011 I went to visit him in the hospital at which time he was completely lethargic. He did not recognize our mother, and sometimes confused me for a nurse.

He had lost 50 pounds in one month's time. He was not eating or drinking and slept most of the day. He had not walked or moved from his bed since February 2011. He also has blot clots from the bottom of his liver to the backs of his knees, which have turned to solid scar tissue. At the time of his surgery, they put in a IVC filter to stop the possibility of blood clots from traveling to his lungs or brain and killing him. However, the filter was the main source of infection.

In his weak condition removal of the filter would result in his death, so they tried another high powered antibiotic called Linezolid and Tigecycline to see if these would help. If those didn't, they told us that was the last resort that they knew of, and we would have to make some decisions. The problem was if he stayed on that for any length of time, it would also kill him because it depletes the platelets in your blood and causes brain damage.

They kept doing blood draws and testing him every four days to see if the medications they were giving him were working; every time they would come back positive for MRSA. So basically we were told to choose which method of death we wanted for our brother. My other brother and I decided to call a doctor named Dr. Edwards to ask him what to do. He promptly told us to put him on a large dose of minerals and mangosteen for the next few days and keep in touch with his progress.

Well, let me tell you, we gave him this product and the VERY NEXT day, he was awake all day, more alert than he had been in 2 months, his eyes were brighter, and we could carry on a conversation with him. Needless to say we were thrilled. When his physician returned in four days he was AMAZED with the turn around. Of course, he said he thought the drugs they were giving him had finally started to kick in, and family support also helped.

REALLY? After being on the drugs for 106 days with consistent positive test results, four days of minerals and mangosteen, and our very first NEGATIVE BLOOD result, we knew what it was. I am happy to report that as of April 2011, we have never received another positive test result. My brother is walking, eating like a horse, and is in a rehab with the prognosis, heading for home at the end of May.

How in the world you can ever give enough thanks for this product and all the SPECIAL people who helped us out, I will truly never know. This has truly been a blessing in ALL our lives. THANKS SO MUCH!!!"

## Multiple Sclerosis

### Testimonials:

**Charmaine:** "I was diagnosed with primary progressive MS on May 3rd 2013. I was told there is no treatment for primary progressive MS and was given Baclofen. With the labored walk, I also suffered with chronic pain in my jaw and chronic indigestion. I also suffered from an intense internal pain known as MS Hugs. Thanks to Mangosteen and Minerals I now have No pain at all. I have taken 8 seconds off my walk time and I can stand on my own much longer. I am so grateful to my nephew for introducing me to this amazing product."

*Charmaine*

**Judy:** "I was diagnosed with Chronic Progressive MS in Jan 2002. I was in a manual wheelchair for 2 years, then an electric wheelchair. I tried disease modifying drugs like Copaxone. I did that for over a year. The drug costs over \$1,300 per MONTH. I stopped that drug after 18 months because there wasn't any difference in my condition. I then did Novantrone a Chemo drug. I was also taking Baclofen, Tegratol, Zanaflex, Neurontin, Valium and Tramadol. Life with MS.... is.....Challenging!"

I was introduced to Mangosteen and Minerals and was amazed that this product really worked! For me it was a miracle! I also used their weight loss formula and lost 48 pounds! Since taking the products, I have had amazing results! I will never give up this amazing formula."

*Judy*

**Marilyn:** "Hi, this is Marilyn from Salem, Oregon. I was diagnosed at the Oregon Health Sciences University in Portland with Multiple Sclerosis in 1988. I'd had for many years before that with debilitating symptoms of fatigue, dizziness, eyes out of focus, vision migraines, challenges with numbness in my hands, arms and face. If that wasn't enough, I also had memory challenges, confusion, panic attacks, muscle spasms and several other symptoms. I've been using diet nutrition for the last nine years and my health has been very good. But still some symptoms, such as muscles spasms in my shoulder blades, dizzy spells or visual migraines, would surface occasionally. I'd usually have two or more symptoms a week. Since I never knew when the symptoms would occur it really did cause me stress. I started using the minerals and mangosteen product in December and found that after a week I began to have more sustained energy. Through the last few months, I've noticed that my mind is sharper and my joint pain has disappeared. It's easier to go up and down the steps now which makes a big difference for me. This is with only taking 1 oz. a day. Recently, I began to take 2 oz. a day to see if I could become symptom free. I really believe with this powerful healing mineral and mangosteen product that this will happen. I can't describe how happy I am that every morning I wake up knowing that I'm not going to have the stress from these M.S. symptoms."

WEIGHT LOSS

**Mike:** "I have two health issues, type 2 diabetic and Multiple Sclerosis. I began taking minerals and mangosteen Nov.2008. My A1C was 9.6 and I was taking the highest dose of medication possible and exercising 1 hr. per day. My blood sugar level was remaining in the higher level, but as of June 2009 (8 months) my A1C is 6.8. Most days my blood sugar level is in the 80-120s. I believe the minerals and mangosteen has made a difference in my blood sugar level because I have not been able to exercise as much because of the MS.

The most amazing benefit is how soon I noticed the effect it has had with the MS. I was diagnosed Oct. (2006) after having problems with my eyes and other problems associated with MS. The MS had spread from the brain down my spine. I started steroid treatments immediately and (Betaseron) shots every other day. I would have severe flare up for the next 2 yrs causing me to be hospitalized for several days at a time. The next treatment was in Feb.2009, I had 4 days of treatment at (treatment center) not the hospital. During the 2009 yr I would have flare ups that would last for less than 48 hrs (that means no treatments)! I have now gone one year between treatments (Feb.2010). As I stated above, I started taking the minerals and mangosteen on Nov. 2008 and take 4oz of minerals and mangosteen per day. It is hard to believe that 4oz of minerals and mangosteen could change my life but it has."

Mike

**Chuck:** "I started by looking for a good all around supplement to help me deal with the effects of Multiple Sclerosis. Most of the reading I did pointed to the need for anti-oxidants and supplements to help with the day to day effects of the disease. Prior to taking the minerals and mangosteen, I had no energy and had trouble keeping up with my 2 year old. I took an inter-muscular shot of Avonex for MS and it would leave me in really bad shape on the morning after my shot. About 2 1/2 weeks after starting to take the daily power shot I had more energy, I was able to actually get on the floor and play with my child. The side effects were reduced and the length that I felt bad the next day was cut in half. Overall my experience with the minerals and mangosteen has been excellent! I have never felt better and I often wonder if I was not suffering from MS and used the Nutrition System how much better my life would be."

Chuck

**Gary & Sandra:** "I'm Sandra, retired school teacher because of Multiple Sclerosis. I have been in a Geriatric chair for 26 years with double vision so bad that I have had a patch over one eye for 13 years. I got a call from Sharron who asked me to just try the minerals and mangosteen and see if it could help me with my vision or my health. When she told me I could send it back with a 100% empty bottle money back guarantee, I said "yes". I could not exercise, because I was just too weak, but after taking the minerals and mangosteen for one month I had to call Sharron and tell her I had been doing an exercise I could not do before. I rotated 200 times by myself on the peddles that the therapist would attach to my chair. So I reordered and double up on the product dosage on Mondays and Thursdays and by the next order I was able to do 500 rotations in 10 minutes & again I was wonderfully pleased. I'm now exercising my back doing 15 pull ups (something I thought I would never be able to do) I just keep feeling stronger as time goes on! My Husband does not miss taking the minerals and mangosteen & he still is teaching. We both love the taste & the cost, because I was spending a lot more on stuff that was not working. This product is a blessing!"

## Overall Great Health Results

### Testimonials:

**I have had some great health results!:** "I have found the mangosteen and mineral products to be very effective on my immune system. I recovered from severe flu symptoms in 1 day. My husband got it a few days later, and he was better by 1pm that day!

Also, I am allergic to cats. I was at my sister's home for 5 days and was worried about having severe symptoms, but I was FINE!

My stiff shoulder of 3 years is much more flexible and improving daily. I shoveled snow for hours and I wasn't sore at all the next day!

I am no longer taking other vitamins supplements. My digestion is regular again. No more avoiding wheat either. I am beyond grateful! My daughter shared this product with us and I recommend it to everyone! "

- Kate

## Pain - Depression

### Testimonials:

**Clyde:** "I "My uncle who has a leg problem, walks with a cane. Finally after a month of begging him, he has tried this amazing product. It's been three weeks. He said his leg pain has gone. Whom ever reads this... I want to let you know this really happened."

*Clyde*

**TW:** "My name is TW and I had been living in the great state of Montana for 30 years. I fished, hunted and lived, what I considered, a fairly healthy lifestyle. In 1994 my life was changed dramatically from a work related accident in which I broke my neck. Due to the nature of the injury there were misdiagnoses and treatments that made the situation worse. After 2 years of intense pain, I had deteriorated emotionally and physically to the point that I had a mental breakdown and had to be admitted to a psychiatric ward. A proper diagnosis was determined and surgery. By this time I had chronic pain in my neck, back, shoulder, migraine headaches, and severe depression. A series of medications was given and as I took these medications other symptoms arose. The list of medications started out with a few and grew into a list of about 16 different medications. There were 3 different anti depressants at one time, several morphine derivatives, more pain killers, and the list goes on. I was consuming pain killers like candy. Other symptoms appeared from the amount of drugs I was taking and by body was breaking down. I had intestinal problems, suppressed appetite, extreme inflammation, periodontal disease and severe sleep disorder. This went on for many years until my depression was so bad that I was suicidal. I was walking and living but I was numb to everyone. I was reclusive and distant to the people I loved. I knew I had to do something different or die. I began trying to build my body up with herbs, vitamins, enzymes, blood type diet, B12 shots, seeing natural doctors. I was able to wean myself off most of the medications so I was getting some results but my body was so depleted and toxic from these medications and not eating well. To top all this off, I have a near heart attack and find out that I had an almost complete blockage in the left ascending coronary artery. I had it repaired and was recovering but was so weak and my depression was taking over again. I felt like I was not going to make it in this world very much longer nor did I have the strength to fight any longer. Then one day a lady named Cassandra walked up my driveway, handed me a box of minerals and mangosteen and my life has changed forever. I would say that the first results were within 1 week. It was as if someone had turned the lights on. It has been a quick process of recovery. I have no depression, good energy and a joy for living that I hardly remembered existed. My worst symptoms are improving every day and my family says I have done a 360 degree turnaround. My whole being is being healed, physically, emotionally, and spiritually. I love myself and life is a big adventure. I can't believe how easy the process was. Thank you minerals and mangosteen. I prayed for years for help. In 3 months you have changed my life!"

## Peripheral Neuropathy

### Testimonials:

**Jackie:** "Hi, I'm Jackie. I have had peripheral neuropathy for 5 years. This problem had rendered me unable to leave the house after 2pm due to pain and muscle cramping, which would increase as my day continued. It caused such balance problems that I was using a cane. There have even been times I have had to use crutches or a wheelchair. I had to give up my business in the health care industry, which became too hard for me to continue, since it involved traveling and trainingskills.

After taking 2 oz of the Mangosteen and Minerals for 6 weeks I began experiencing a mental awakening. I became more balanced and completely pain free. The Mangosteen and Minerals product has honestly given me back my life!!!"

## PMS

### Testimonials:

**Jessica:** "I was introduced to the best nutritional drink in the world by one of my good friends. At first I was skeptical, and then I thought I would try it. I've been going to the doctor for some issues regarding the enzymes and fat in my liver. After a month of taking the Mangosteen & Minerals I went back to my doctor for some follow-up blood work and found out my liver function was completely normal and my enzyme levels had gone back down.

I also suffer from a disorder called PMDD which is pre-menstrual disorder. With this disorder, moods swings are ten times worse than the mood swings most women suffer during PMS. After taking the Mangosteen and Minerals for two weeks I realized I felt no mood swings at all!!! This stuff is amazing and I love it! I would recommend it to anyone. "

## Polycystic Kidney Disease

### Testimonials:

**Brian:** "I was diagnosed 15 years ago with Polycystic Kidney Disease after many tests to try and find out why my blood pressure was so high. I would pass out. When the doctor found out what was going on we started a process of elimination, trying to find a medication to control my blood pressure without so many side effects. We finally came up with 2 that somewhat helped but they had side effects. For the past 15 years my blood pressure has been about 155 over 100. That was really high but it was the best we could do. I was introduced to the mangosteen and minerals product and after 3 months on the product I made an appointment with my doctor to get a check-up. He and I were amazed at the drop in my blood pressure in just 3 months with just taking the product. My blood pressure now is averaging around 115 over 70 and I feel so much better."

-Brian, North Carolina

## Prostate Challenges

### Testimonials:

**Jeff:** "For 5 years I took an antihistamine and decongestant to battle severe allergies. At the time I was unaware of the study that a large percentage of men who have a prolonged use of the antihistamines will suffer prostate problems. Unfortunately, I became one of these men experiencing symptoms at the age of 38. After two surgeries and years of antibiotics, I still suffered from chronic prostatitis (swollen prostate) which in turn caused continuous bladder infections. Inflammation of the prostate was the underlying cause of these reoccurring symptoms. I took Vioxx and Celebrex until they were withdrawn from the market. I then used 1600 mg. of ibuprofen per day. This helped greatly but caused stomach irritation...I have now been on the product for 8 months and have been off all antibiotics and ibuprofen. In addition I no longer get up 5 to 6 times per night to urinate which allows me better rest. At 43, I am symptom free for the first time in 5 years. For me, the minerals and mangosteen have literally changed my life and health."

*Jeff - Illinois*

**Robert:** "The minerals & mangosteen have changed my life since May 16th, 2005. Not only have I seen a reduction in my blood sugars but I have noticeable improvement in a foot fungus I have fought for years. I am most excited about what the minerals & mangosteen has done for my chronic prostatitis. On May 15th my daughter and her husband had us meet to hear more about the minerals & mangosteen. They were very excited to share this amazing product with us. I was plagued with sleepless nights from frequent urination along with repeated bladder infections. Since January 2005, I have been on 4 different antibiotics to rid myself of the bladder infection only to face an immediate return of the infection. My last prescription was Leviquin which cost me \$81.97 (out of pocket expense) for a 7 day supply. Since using the minerals & mangosteen, I have not used an antibiotic nor am I bothered with frequent urination! All of these results with the minerals & mangosteen product costing me far less than my prescription medications."

*Robert - Decatur, Illinois*

## Psoriasis - Eczema

### Testimonials:

**Aristia:** "I have suffered from Psoriasis for over 15 years, tried topical medication, which did not work. The only medication that helped me was an oral drug called methotrexate, which destroys the liver. The only way I can take the drug was to have regular liver biopsies. I made the decision not to take the drug anymore. I would rather suffer with the itchiness and scaly condition. Then a friend of mine introduced my husband and me to the minerals and mangosteen product, I had tried another vitamin manufacturer who CLAIMED it would take care of it (at \$120.00 a month). It failed miserably. I was skeptical because of previous experience, but my husband said we should try it, and took a picture of my forehead for comparison. After drinking my shot in the morning I took the residue that was on the glass and put it on my forehead and eyebrows in three weeks you can see the difference. I am sold I know that it will take a while longer to help with my severe areas and they are starting to lighten also. Now my husband is marketing the product!."

**Aristia** - Connecticut

**Rachael:** "In August I was given a card from a dear family friend, Ann R. Ann had just started taking mangosteen and minerals, and shared some information with me because she noticed my 3 yr. old, Raymond's eczema. I believe that the timing of receiving Vickie's name in relation to the mangosteen and minerals could not have been more divine. My son, Raymond has severe eczema, and has a severe allergy to peanuts, and reactive airway disease, my mother and I have tried anything and everything, and even taking him to an allergist was not offering any solutions. I immediately ordered a one pack. I also was looking for something, because I myself have struggled with fatigue (working part time nights as a Mother Baby Care Nurse, so that my husband could be with our three boys at night, and I would care for them during the day, they are now 6, 3 and 1. I have worked nights since Aug. of 2000.) I have also struggle with anxiety, and depression but have tried many different products trying to avoid getting on an antidepressant. (I even quit my job as a nurse completely in 2006 when I was expecting my 3rd son, because I just felt like I couldn't be a mother and wife and a nurse, and deal with reality, but went back Jan. 2007) I was introduced to mangosteen and minerals in 2004 by a friend and ordered the product Xango, but I was still taking a multivitamin, sometimes Melaluca from my mom, and also Juice plus. (I ordered the gummies from juice plus for my kids, they would devour the fruit, but not touch the veggie, and I would be left to eat all of them.) I ran out of everything in Aug., just as Ann gave me some info. About mangosteen and minerals. Vickie spent countless conversations praying for me that this product would help me and my son, and she has been generous in mailing me pamphlets, etc.! I am so thankful for Vickie, and also for her having MJ contact me, who has also been a huge source of guidance.

I had sinus surgery in 2002 due to constantly having sinus infections, and a deviated septum, and constantly being on antibiotics. The surgery definitely has improved the quality of my life, but I still struggled with feeling sick, and having occasional infections. This last summer I was sick every month, June, July and August, and on antibiotics, every month. August I was at the end of my rope, and beginning mangosteen and minerals has been nothing short of a miracle. After a couple of weeks I noticed an amazing difference in my energy level, and a clarity, and a new

optimism, a hope and giddiness, an excitement about life that I only felt in fleeting moments...but this time it felt sustained. I have also noticed that I am so much calmer...I would worry and fret about going to work the day before, and dwell on the smallest of things (OCD). Mangosteen and minerals has saved me from getting on any medication for depression or for OCD, and anxiety. I also would wake up every day feeling achy and wanting to rush down to our chiropractors...but I don't<sup>1</sup> feel this need on a daily basis like I did for years. Mangosteen and minerals has changed my life. I feel like I am a happier mother, wife, nurse, individual. I have a testimony of the reality of a loving Heavenly Father and in His Son Jesus Christ and in the Holy Spirit that cares about us personally, and I thank you and Dr. Yibing Wong for the miracle of Mangosteen and minerals...and I now have a testimony. My son's eczema has also improved, although I do struggle with getting him to take it for me on a daily basis, so I am working on being creative. I pray that I will be able to take this product for the rest of my life, and share it with all that I know, in hopes that others will benefit in whatever ways they are searching, hoping and praying for. I just wanted to thank you for saving and changing my life.

With the utmost gratitude and appreciation”

## Rheumatoid Arthritis

### Testimonials:

**Nancy:** I have had Rheumatoid Arthritis for 10 years and though I have always tried to fight this disease naturally, after a bad flare up a couple years ago, which damaged both knees significantly and put me onto a cane. I was about to give in and go on the Methotrexate that my Dr. had been insistent on my taking.

About that time, a friend told me that her sister had relief from her RA pain by using the mangosteen and minerals product so I decided to try just one more thing before giving in. I began taking 2 oz of the mangosteen and minerals a day in April 2010. I noticed my hair and nails growing thicker, but it was not taking away the severe pain and inflammation in my knees and other joints. By this point I had purchased a lift chair as I could no longer get up off my couch and had gotten a prescription for a walker because my cane wasn't helping enough.

I was in so much pain and had no more quality of life. I was sleeping 10 hours or more every night, and during the day I either sat at my computer or on my lift chair. I could no longer cook or clean my house, and was eating cereal, sandwiches or ordering take out for my meals. I was about to give up on it when my friend told me to increase my dose to 4 oz a day, which I did in Jan 2011, and that is when I began to notice changes. After 3 weeks I began dreaming, which was exciting to me because I also suffered from sleep apnea which prevented me from getting into a deep REM sleep, keeping me in a constant tired state.

I was having nights that I did not wake until morning which hadn't happened in many years. I woke up refreshed after only 8 hours, started having a lot more energy, and stopped falling asleep everywhere like an old woman (I'm 50). It took a couple more weeks and I began experiencing a lot of relief of the pain and inflammation in my knees.

The pain level was about as low as I had previously experienced during the summer when I had a steroid shot injected into each knee. However, the relief from those shots only lasted about 4 weeks, but this relief has sustained now for about 2 months....plus I didn't have to endure a needle!! I just drink this great tasting liquid...2oz in the morning and 2oz later in the day. I have also had a decrease in pain in all of my joints and have been feeling wonderful!!

The mangosteen and minerals product has given me my life back and I am confident that as time goes on I will just continue to get better.

**Nancy** - Cedar Hill, TX

**Annette:** "I was diagnosed with RA in late 2008. Every joint painful and tender, I couldn't close my hands to make a fist, they cut my rings off! I'm a nurse and working became increasingly difficult, so I was looking at disability when a client introduced me to the vitamin, mineral and mangosteen product. I said yes because it was liquid, absorbable and not wasted. I didn't expect to see a change in the RA. But within 8 weeks my knuckles were smaller and I could make a fist and I was feeling so much better. I began weaning off those horrid medications. Off the methytrexate, plaquinil, Enbril, steroids and ibuprophen 800! I'll gladly be on this product the rest of my life!"

**Margaret:** "I was diagnosed in 2011 with RA, it became progressively worse. In early 2013 it was difficult to walk. I began taking numerous medications for relief including methotrexate, Flexeril, Vidodin/Norco, Motrin 800 mg, meloxicam, and Arava. In April 2013 my C Reactive Protein level (CRP which measures inflammation) was 60. On September 19, 2013 my CRP level was at 83. I began taking the Mangosteen and Minerals in September and on October 7, 2013 my CRP level was 15! On January 3, 2014 my CRP level was 6! I am no longer on ANY medication, prescription or over the counter, for the first time and I can walk without limping and go down stairs normally! My hair had been falling out from all the meds and it is now growing back! Inflammation is the common thread in all disease processes including heart disease. We need to share this with everyone we know!"

Update: "I have been taking the Mangosteen and Minerals for a while now. My last labs from February 2014 revealed my CRP levels to be 2.2 which is within the normal range of 0-3!!! My rheumatologist is speechless. She had been trying to get me to take Humira which I refused. I'm grateful and my passion is to share this great news with everyone I am so excited about my results!"

## Seasonal Allergies

### Testimonials:

**Alex:** "I have been drinking mangosteen and minerals for about 3 months now as a brand partner, and this time of year my allergies are absolutely horrible. I have not had one problem yet with allergies and this is definitely because of the mangosteen and mineral product!"

- Alex S.

## Sinus Issues

### Testimonials:

**Sammy** : "I had sinus problems for so long that I just learned to cope with them thinking there wasn't much hope of anything changing. The first week I began drinking the mangosteen and mineral product I experienced a lot of drainage. I realized that the drainage was from my sinuses clearing up. I no longer have sinus issues. I have also been able to knock out colds much quicker by doubling up on the mangosteen and mineral formula when sick."

## Sleeping Disorder

### Testimonials:

**David:** "Hi, my name is David and I live in Redding, Ca. I have a story about the minerals and mangosteen combination that is a flat out miracle for me. I was a hard core long term drug abuser for over 25 years. Thankfully, that part of my life is behind me. However, as a result of the prolonged drug use, I was only able to sleep for two and a half maybe three hours tops and that was only if I was 100% exhausted. In addition, I would always wake up and although I really had no trouble going back to sleep it left me feeling fatigued and tired. I thought it was a condition I would have for the rest of my life. I began using the minerals and mangosteen combination approximately one month ago and within two weeks I slept five hours one night. Now it may not be a miracle to you but it's a flat out miracle to me. I'm so grateful, it has given me my life back!"

*David* - California

**Scott:** "5 weeks of using the minerals & mangosteen and my AST and ALT liver enzyme levels have dropped for the first time in 3 years. My cholesterol went down 20 points and I lost 12 pounds from a change of eating habits due to reduced cravings. I am no longer using a CPAP machine for Sleep Apnea. I also have more energy."

*Scott* - Bloomington, Illinois

## Tennis Elbow

### Testimonials:

**Freddy:** "In 2012 I was suffering from a very serious tennis elbow pain in my left arm. It was so severe that I couldn't pick up anything. Being the only earning member in the family, I had to go to work every day in pain, and every day was like torture. I was in pain for around 6 months, 24/7. The only time I didn't feel any pain was when I was asleep. As soon as I used to wake up, I could feel my pain coming back.

The mangosteen and mineral product was introduced to me as a business opportunity and my wife and I started taking the mangosteen and mineral product on alternate days. Within a couple of months I was stunned to find that my pain had completely disappeared. I was searching for my pain, but I couldn't find it. I was getting upset and irritated like a child who had lost its toy. I was seriously searching for my pain. I punched my forearm, picked up an empty glass, picked up my motorbike helmet, even called my 12-year-old son and picked him up. NO PAIN. I was Stunned.

Gradually, it sank in that I was pain free. What happened?? The only think I was doing was taking the mangosteen and mineral product and nothing else. No pain killers which the doctors had prescribed because I don't want to be a tablet addict for life, popping pain killers.

This product has come as a God sent in my life and as hope not only for me, but for countless people who are suffering from pain.

Thank You. Words can't do justice to describe my feelings of thanks and appreciation."

*Freddy B. - Melbourne, Australia*

**John:** "My name is John and I'm from Chicago. For the last year or year and a half I've been suffering with some muscular problems in my arms, especially my right arm. The pain was diagnosed as tennis elbow. I had gotten to the point where I was getting cortisone shots and doing acupuncture. I got relief from it but it didn't last that long. It was constant pain. I couldn't lift suitcases. I was real cautious about using the muscles in the arm. I couldn't go bowling. I couldn't do a lot of things. I heard about a mineral and mangosteen product and I had to try it. I took an oz. of each product every morning and probably within three to five days I noticed an incredible difference. I've been taking it every single day since April and to this day I haven't had the problem. The pain in my arms, either right or left, is totally gone. I'm really excited about it because its been one of the only things that has helped. It has been consistent. I'll continue to use it as long as I can get my hands on the product."

*John - Chicago*

## Thyroiditis

### Testimonials:

**Nancy:** "Thank you for this awesome product. I have been in and out of doctors offices for multiple illnesses since being diagnosed with Thyroiditis. At the age of 52, I was looking at long term illnesses such as, c.o.p.d., Asthma, Chronic Bronchitis, Fibromyalgia, IBS, migraines and Rheumatoid Arthritis. Some of these treatments cost thousands of dollars. Needless to say, the medical costs were astronomical and my home looked like a medical supply store. I've had to have back surgery and neck surgery because of the Rheumatoid Arthritis. The treatments for r/a were Methotrexate injections and weekly ocrencia. We tried Remicade and Embrel, but the side effects were horrible. I had to supplement that treatment with Prednisone, Xanax, ambien, and morphine; 50 mg three times a day. My pain levels were always at a 10. A friend of mine suggested taking the mangosteen and minerals supplement in June of 2009.

Well, no longer am I taking r/a meds, sleeping aids, and breathing treatments. I even passed an echo cardio stress test last week without having an asthma attack. I am not taking morphine for pain on a daily basis. And, that awful pain you feel from fibromyalgia is gone! I know it is quite a bit to think about, but when you have been ill, more times than not you have other stuff going on. I am so relieved that the IBS is gone, and I can wake up every morning with no worries about an onset during the day. The symptoms of diverticulitis I had in July of last year are gone. When I get a migraine I double up on the dosage; sometimes triple it throughout the day.

It really doesn't matter what I had been coping with for all those years, the hope and joy of knowing that there is a product now that I can afford to take, that tastes great, and works comprehensively throughout my body is overwhelming! Thank you for this discovery!"

## TMJ

### Testimonials:

**KJ Jordan:** "I started taking the Mangosteen and Minerals product around the first of February 2011 because my wife wanted me to try it. She had already been on the product for about a month. I have always suffered from TMJ, which in turn always gives me migraine headaches. I would have to come home from work and lay down in a quiet, dark room for several hours. After a week on the Mangosteen and Mineral Product, not only did I feel great, but I noticed that I had not had a headache or any jaw pain from the TMJ. It has been about two months now, and still no migraines or TMJ issues. We now have our children on it too. My little girl has had terrible eczema for eight years. Since she has been on the Mangosteen and Minerals it has cleared up. I can't say enough great things about the Mangosteen and Minerals."

## Triglycerides

### Testimonials:

**Daniel L.:** "It all started 6 years ago when my wife and I got married. We were told by friends and family to take out life insurance. While going through that process, I thought maybe I would be denied because I had 2-3 kidney stones a year and IBS (irritable bowel syndrome).

Much to my surprise I was denied, but not because the above mentioned. My Triglycerides (related to unhealthy cholesterol) were too high. At the time I had about a 6-8 level of Triglycerides. A normal range; low risk is 1.7 and above normal 1.7-2.25, needless to say I was in the extreme risk area. Over the next 5 years I went through a battery of different meal planning and doctor prescribed medication. About a year ago, after being on all these meds for some time and even mixing in some physical activity, my count was now at 9. Talk about a surprise!

Finally my family doctor sent me to a specialist to get specialized/intensified drugs to force it down, again 3 months later, I was now at a level of 11. At this high level count I was at significant risk for pancreatitis. It was still very hard to believe my life was at such risk since I physically didn't see or feel anything. It was at this time that some good friends introduced me to the mangosteen and minerals product, which in short provided me with all my daily nutrients, vitamins, 65 major and minor trace minerals, antioxidants, and over 140 different natural healing components from the mangosteen superfruit.

I really wanted to put the mangosteen and minerals product to the test. For 3 months I took 2 ounces of the mangosteen and minerals product in the morning, afternoon and evening. During these 3 months I did not observe any strict meal planning, take any prescribe medications or even work out that much. When the 3 months was up, I got my blood tested again. I was now down from a level of 11 to 5. Not only was my level significantly lower, but I was also no longer suffering from IBS and kidney stones (neither of which doctors could figure out nor remedy).

Fast forward 6 months and not only am I still no longer suffering from the IBS and kidney stones, but my Triglycerides are now in a safe level and I just signed off on a 20 year 1 MILLION dollar life insurance plan. I will never stop taking the mangosteen and minerals product because of all the added health benefits it gives. Thank you and may anyone who reads this seriously consider taking it for issues they may be suffering from, or want to prevent them from happening. "

## Urinary Tract Infections

### Testimonials:

**Lori:** "Hi, my name is Lori from central Pennsylvania, I'm really happy to tell my story because so many women suffer from urinary tract infections. Once in a while I develop a UTI and if you have ever had one you know exactly what it is. It is a very painful sensation with extreme pressure. Using antibiotics for ten days is about the only way to get rid of it. Well, I'd been using minerals and mangosteen for a few months but one Sunday morning I woke up with the symptoms. I had been reading some research that showed that minerals and mangosteen was effective against many forms of bacteria so I decided to see if the mangosteen would help with my problem. I didn't know exactly how much to use so I started out with two oz. of the minerals and mangosteen followed by a large glass of water. Then I had breakfast and about one hour later I had another 2 oz. followed by water. Soon after that I realized I had no more pain whatever and the frequency was greatly reduced. At lunch time I had another oz., another oz. in mid afternoon and another oz. in the evening. I really saturated myself with the product. The symptoms were completely gone in the first sixty minutes. Just to make sure it didn't come back, I took three or four oz. the next day. However I really felt like it had done the trick in the first few hours. Now anytime something like that comes up I know what to do. I just use a whole lot of the minerals and mangosteen juice throughout the day. It works. This stuff is powerful!"

## Virus

### Testimonials:

**Clyde:** "...my 2 year old granddaughter, whom I was given the privilege to look after for nine months while her parents were deployed, awakened with a real bad cold and a fever. You could here it rattle on her chest as she breathed. My wife told me to give her some Tylenol and call her at work and let her know so she could take her to the doctor. Well I guess you know what I gave her. Her fever broke in about two hours. I dosed her again before bed time. The next day the rattling on her chest was gone. I myself have been truly blessed to witness first hand what the mangosteen and minerals can do.

## Weight Loss

### Testimonials:

**Bud:** "When I retired in 2009 I weighed 170 lbs. Later that year my mother had terrible stroke that left her unable to care for herself. Needless to say my life of fishing every weekend, coaching little league, and playing basketball came to an immediate halt. So, without the chance of exercising, I sat in front of the computer, hour after hour, day after day and got fat! When I reached 205 lbs, I found I was feeling drab and had no energy. My legs were hurting from the excess weight.

Then, a dear friend called me and asked me if I would try this Mangosteen and Mineral Healthy Weight Loss Product& Plan. On January 11th my product arrived. I decided to give it a try with a goal to lose 30 lbs in 4 months, I stepped on the scales at 205 lbs and on Feb.8 the scales read 169, I LOST 36 lbs in 28 DAYS."

*Bud*

**Lainey:** "About 2 years ago my sister died in her sleep after a long and stressful battle with alcoholism and pill addiction. I literally went into a downward spiral to the point where I truly thought I was dying. I developed both Panic Disorder and Anxiety Disorder.

Last year, in an effort to lose some of the stress weight I had put on through all of this, I joined the 12 week Mangosteen and Mineral Weight Loss Challenge. In the first week I dropped 10 pounds and have been consistently losing weight since then! I have noticed my hair and skin getting healthier and my nails are even growing like crazy! But that's not even the best part! I found that the Mangosteen and Mineral product really helped my anxiety and panic symptoms!

I encourage ANYBODY who suffers from Anxiety and/or Panic Attacks to use this product! It has really given me my life back! I have full control over my mind again and feel like I can achieve ANYTHING I PUT MY MIND TO!"
