## Our Product

Angels' Glow is recognized by 50 countries worldwide as the only product that permanently eliminates unsightly tears and saliva stains.

**ORDER NOW!**

Angels' Glow contains a dilution of Tylosin, a macrolide antibiotic, used to fight infections in dogs and cats. Tylosin is used in the treatment of disease in food producing animals, including beef cattle, swine, poultry, pigs, and all human feed. Since 1961, this treatment is approved by the FDA.

Introduce Angels' Glow with a pinch. During the first week, increase gradually until reaching the recommended dosage according to your pet's weight.

All Breeds of Dogs & Cats

### DAILY DOSAGE for DOGS and CATS

According to your pet's WEIGHT	Dosage in Teaspoon	Each 30 gr bottle yields	Each 120 gr bottle yields	Each 240 gr bag yields	Amount for BEST RESULTS
6 to 12 weeks old	1/8	96	384	768	1/30 gr bottle
2 to 4.9 lbs	1/4	48	192	384	2/30 gr bottles
5 to 7.9 lbs	1/2	24	96	192	1/120 gr bottle
8 to 10.9 lbs	3/4	16	64	128	1/120 gr + 2/30 gr bottles
11 to 13.9 lbs	1	12	48	96	1/240 gr bag
14 to 16.9 lbs	1 1/2	8	32	64	1/240 gr bag + 1/120 gr bottle
17 to 19.9 lbs	2	X	24	48	2/240 gr bags
20 to 24.9 lbs	2 1/2	X	20	40	2/240 gr bags + 1/120 gr bottle
25 to 30 lbs	3	X	16	32	3/240 gr bags

Keep trimming the stained areas until the tearing turns to clear. For dogs with short coat, products like Bausch & Lomb Collyrium for Fresh Eyes Eye Wash or Flents Eye Wash are excellent temporary cleansers.

After two months of full dosage, cut daily dosage in half. Two weeks after initial cut in dosage, if no signs of retuning stains, reduce the half dosage to three times a week. After another two weeks with no stains, reduce further. Attention and gradual are the keys to cutback.

Since each animal reacts differently, you need to observe and use your best judgment to decide how often to decrease the dosage. If during this period the stains return, the dosage was not aggressive enough to completely eliminate all bacteria. You should re-start immediately and for one month give double the daily dosage.

Dosage in Teaspoon	Half	Dosage in Teaspoon	Double
1/8	1/16	1/8	1/4
1/4	1/8	1/4	1/2
1/2	1/4	1/2	1
3/4	3/8	3/4	1 1/2
1	1/2	1	2
1 1/2	3/4	1 1/2	3
2	1	2	4
2 1/2	1 1/4	2 1/2	5
3	1 1/2	3	6

Neglecting to follow the instructions most likely will cause the stains to return.

For use only with dogs and cats.
