Q: Hey Willa, How is Willa made? What's in it? Do you have a nail polish? Sorry to say, I don't have a nightly routine. I don't have really bad acne, but using chemical products is not something my Mom will allow. She may not agree to Willa either, so I'd like to know exactly how it's made. THANKS!! JORDAN

A: Hi Jordan! We work in the best labs with the best dermatologists to create willa skincare. willa is **all-natural** and we don't use chemical ingredients that aren't safe for your skin. You can see the ingredient list on our website [willa.com](http://willa.com) for all of our products! and we do not have a nail polish out yet (we are focusing on skincare for now) Thank you for your great questions! xowilla

**Q:** Ahhhhhh!!!!!! Willa!! Why why why do you have to put dyes like red 40 in your lip products???! I love all of your other products but seriously, guys. All natural? Get rid of all your dyes then we'll be convinced..... -a greatly disappointed sort-of fan

**A:** Hi, We are always looking for ways to improve our products and yes are looking into different formulations for our lip products that deliver the great colors without using dye.xo

**Q:** I have really sensitive skin and I currently use Cetaphil. Every thing else makes me break out. Will Willa make my face break out?

**A:** Hi! willa skincare should not make your skin break out! Our face wash is super gentle and ideal for sensitive skin. We worked with the best labs and dermatologists to create our all-natural products. There are not harsh chemicals in them that will harm your skin! Please let me know what you think of willa once you've tried it! xo.

**Q: Is it safe for 12 year old girls like me to use any of your face and body products? :)**

**A:** Hi~ yes! All of our products are **all natural** and super gentle so they can be used on even the most sensitive of skin. We're confident you'll love them as much as we do xoxo
