DEFEND YOURSELF NOW!!!! Ebola-C®

Because there is no cure for Ebola it is up to all Americans to defend themselves now! The only defense is to build our immune system to protect them from viruses that attack them. The team at Ebola-c® is dedicated to giving you most powerful all natural whole food vitamin c available today.

SPECIALLY FORMULATED FOR Ebola-C®:

Ascorbic acid is not the same as Vitamin C found in food. Are you shocked? We were. Most of the vitamin C supplements on the market are made with isolated ascorbic acid made synthetically in a laboratory. This form of vitamin C is NOT the same as vitamin C from food. Our Ebola-C® is a chewable wafer containing high potency vitamin C from Acerola cherry in a blend of black currant fruit, orange fruit, grapefruit juice and citrus bioflavanoids - a natural vitamin C with phytonutrients. Ebola-C® offers 554% RDI vitamin C per serving.
