My Vemma Story:	For two years I suffered from severe lung pain. As we searched for the reason for the pain, we discovered that our water was highly contaminated with toxins. The toxins that were being dumped in our water were toxins that cause lung irritation. We put in a water filter system and our water was cleared up. I decided to try Vemma as a way to regain my health after all the damage that had been done to my body from the toxins. Since drinking Verve, I have my energy back and as a bonus, I don't get sick as much anymore.
