My husband had gout, asthma for 30 years before drinking Vemma. He also took medications for high blood pressure, high cholesterol and diabetes for 5 years before drinking the mangosteen juice. After 4 to 5 weeks of drinking the juice, all of his numbers went down. It has been almost 6 years now and he is in a better condition now than ever before. The reason we wanted to try something natural was because both his mother and my father suffered greatly from the side effects of the medications they took for years for high blood pressure and diabetes. My mother in law died of heart attack and my father died of kidney failure.

Once I discovered the power of the Xanthones, the most powerful anti-oxidant that can be found in the rind, pericarp or skin of the mangosteen fruit, we decided to give it to 10 family members who had insomnia, depression, sinusitis, back pain, asthma, diverticulitis, high blood pressure, high cholesterol & diabetes. When they all improved we left our insurance business and decided to tell our Vemma Story full time.

The business is real. Our income increased as we developed a bigger organization of people willing to try the product. As a matter of fact Vemma sold over 1 Billion Dollars of this Juice in over 5 years. Could that many people be wrong about this product? Millions of people continue to drink every day because of the benefits that they derived from it.

We shared our Vemma Story to whoever was willing to listen and in 2 1/2 years, we earned a cumulative 1 million dollars.

Investigate our Direct Selling industry, this is the solution to most of the problems of lack of money and lack of time that most people have nowadays. Learn more about our products and compensation plan. It is the best kept secret in American business today.
