| My Vemma Story: | Back in June, my tennis elbow was getting so bad again that I was getting ready to call my orthopedic doctor. He had given me cortisone shots about a year ago and they really helped me then. By chance, I happened to meet Tom Bergey and he gave me a week supply of Vemma and Verve to try. Within a few days, my tennis elbow was gone. I didn't need to call my doctor. I avoided more cortisone. And, since I drink Verve every morning, I am no longer dependent on coffee. No more expensive bags of Starbucks! I have cut out my daily routine of drinking Tropicana Pure Premium OJ and I have reduced my vitamin supplements! Incredible products! |
