

# Get 2 and change your life!

Work from home part time and earn a full time income.

## Vemma

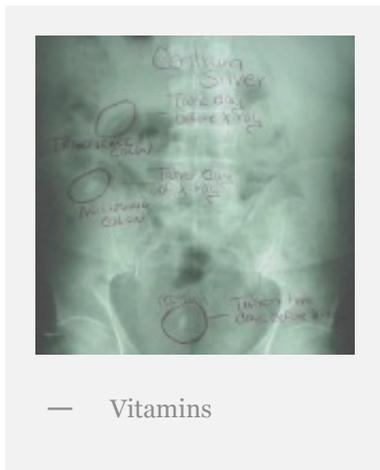

Vemma is an acronym for Vitamins, Essential Minerals, Mangosteen and Aloe. The company started in November 2004 by a man named Bk Boreyko. Both of BK's parents died way too early due to heart failure and cancer. This event caused him to find a way to change peoples lives and hopefully prevent them from experiencing the same fate he did and the result was [Vemma](#), the worlds most powerful liquid antioxidant. Since then they have developed [Verve!](#), the world's first Insanely Healthy Energy Drink which featured on the show of America's most famous doctor, [Doc-E](#), the weight loss product Chris and Heidi Powell use on ABC's extreme makeover weight loss edition. We have a product for children ages 2 to 12 called [Next](#) and finally we have [Thirst](#) for those that endure extreme workouts. We have something for everyone. Take a moment to see what Vemma has done for so many others. [vmastories.com](http://vmastories.com)

Instead of marketing his products the traditional way BK instead decided to help people change not only their health but their wealth. Instead of paying expensive advertising agencies millions of dollars in hopes that someone would buy the product he chose to pay people who would share it with others. Think about it, you or someone you know has seen a movie and told another about it, then that person goes to see it based on the recommendation of a friend. If you have a Facebook page, it's because someone told you about it. Facebook has millions of users and not one ad has ever been ran. We all do it for free don't we? Vemma has chosen this type of marketing and instead of the owner hoarding the wealth he pays people on their efforts and the efforts of those they introduce. Vemma has made many millionaires and you too can become one with this amazing company.

What are the chances of you making a 6 or even 7 figure income a year in your current profession? My guess is very little. The majority of you work for someone else who decides what you are worth, when you work, when you go home and when you can take a break. No matter how hard you work, how many hours, your income is still fixed. You trade hours for dollars. Imagine instead, sharing an amazing healthy product with people part time and it generating more income then your full time job ever could. That is the reality of this business and there are thousands doing it. You however must be willing to break away from the employee mindset.

For decades now doctors have known that 85% of all sickness and disease in the world was related to poor nutrition. Our nutrition comes from the foods we eat but in today's fast paced society we all find it difficult to eat the proper foods

and settle for what is easier or more convenient. On top of that many foods today are overly processed or genetically modified or even full of hormones and toxins and no longer provide that nutrition our body requires. The only way today to get the proper nutrition required is to either grow all your own foods or to supplement. Many take vitamins to supplement and while this is good, those supplements are usually in pill and capsule form. These pills are broken down by only 5% to 18% and the rest is wasted. Below is an x-ray taken by a doctor friend of mine. It shows Centrum Silver vitamins in the digestive tract all the way to the colon about to be excreted still looking like the one he took the day of the x-ray.

If you are taking pill vitamins then you are literally wasting your money but I have good news for you. You can get your vitamins in a liquid form that is proven to be absorbed up to 98% into the body. Does it make a difference? Absolutely! If you have not already done so please read these testimonies [here](#). If you are concerned about your health then you should make changes today! Order [here](#) now.
