Migraine Headaches

Testimonials:

John: "I have been on the Mangosteen and Mineral products for 5 weeks now, and I have not had a Migraine for about 4 weeks. I am also able to sleep thru the night without waking up 2 to 3 times a night."

John

LuAnn: "Next week it will be a year since starting the Mangosteen and Minerals. What an amazing year it has been! My health saw a 180 degree turnaround. Going from primarily bedridden to living a life of quality and joy has been amazing! I really liked the Minerals and Mangosteen from the very first dose. I had tried every pill under the sun for my Fibromyalgia, Chronic Fatigue Syndrome and migraine headaches. Some things helped a bit, but never for long. Most things didn't help at all. Even massage, chiropractic care and acupuncture treatments did little to ease my symptoms. I had a dramatic upswing after taking the Mangosteen and Minerals for even a short time! My chronic fatigue was gone! I am no longer sleeping my life away. Living on pain pills for migraines became a thing of the past. Having taken pills two or three times per day has changed to only two or three times per month now. My Fibromyalgia issues have been resolved by about 85%. Some days, one dose of the Mangosteen and Minerals is enough, but I listen to my body and will take another 2 ounces if I feel the need to do so. Another plus is that I have not picked up a cold or flu bug in the past year! The Mangosteen and Minerals really did change my life!"

LuAnn

Nycole: "I had heard of everyone's life changing experiences with the use of your mangosteen and mineral product, and honestly, some of them were kind of hard to comprehend. But, since I started taking the product daily, I have come to an amazing realization! My headaches and migraines are gone! My stress level has decreased greatly because I no longer deal with the migraines! I feel great! I have been battling chronic migraines for years, having to take Alieve or Advil on a regular basis. I am only 19 years old and shouldn't have to deal with this daily! I am so grateful for the mangosteen and minerals!"

Nycole A.

Brett: "I used to get three to four severe migraines a month. I've been getting these since I was around 10 years old. These were the full-blown aura and vomit inducing kind. Some would last for days. I've been to many doctors and nobody has a definite answer to it. The only answer that all of them had has been to prescribe some medication and that was that. I have grown up watching my mother suffer from these same migraines. She is frequently in the hospital emergency room or self-inducing Imitrex shots. I decided a long time ago that I would not take medications. They are not the solution. Two months ago I was introduced to mangosteen. Ever since then I have not had a single episode. I had my mother start taking it as well and she also has not had one since either."

Dora: "Although we are not permitted to claim that the minerals & mangosteen cures all migraine headaches, you can believe me, and I would shout it from the hilltops. I'll tell you that after many years of suffering with horrendous migraine pain, I have not had a migraine in nearly a month. I averaged one or more per month extreme migraines & several more per month of lesser intensity. Even my hair hurt, and my hair dresser even told me many times that it not only straightened the permanent wave out of my hair, my hair lost life for a period of time after a headache. I was part of a clinical study a local doctor presented to the Cleveland Clinic of Cleveland, Ohio (world renowned) to study the patterns & experimental treatments for migraines, for which he was awarded National recognition, but he never cured MY headaches. If you are among those of us who have spent days bedfast, unable to bear any lights or tolerate the sounds of daily life around us and in a state of total non-function because of the excruciating pain of a migraine headaches, then please take my advice and get some of the minerals & mangosteen as quickly as possible. I am humbly grateful for its results in my life. I want to shout it from the mountain top!

I have experienced other changes as well.....like a restful night's sleep, more energy, eyesight is clearer, more mental alertness and simply feeling better than I have in years. My allergies to pets, molds, dust, and fragrances are noticeably improving from week to week. I am looking forward to Spring & Summer this year. How terrific to be able to enter homes of friends and relatives, who own pets without an asthma attack to follow. I feel certain that my allergies will be disappearing given a little more time on the minerals & mangosteen."
