## Mitral Valve Regurgitation

### Testimonials:

**Tanya:** "My husband and I decided to try this new mangosteen and mineral program for 30 days. I was the first to use it for 15 days. Believe me, that is all it took to get me hooked. Last year I was battling fatigue and something strange going on with my heart. I went to a cardiologist and was diagnosed with mitral valve regurgitation, two of my heart valves were leaking. This was also causing my fatigue. My doctor immediately put me on Toprol XL to help combat my heart palpitations. I am 31 years old and not very happy about being on medication for the rest of my life. I went back to my doctor in September and told him that I would like to be taken off of the medicine, he could handle that, it would not put me in any danger. I went off my medicine and of course, my heart palpitations started back up. I started back up on the mangosteen and mineral program the first week of October. I noticed changes immediately. My anxiety at night was gone, and I was sleeping great. Here is the kicker, my heart palpitations, GONE!! Completely!! I was feeling great. My moods were more consistent. For me another big test was PMS symptoms, which had also vanished!! I highly recommend this product and will pass the word on to all those around me. I have ordered MY OWN cycle now and my husband is still on his 15 days. Can't wait to get back on this life-changing product. THANKS!!!"
