Multiple Sclerosis

Testimonials:

Charmaine: "I was diagnosed with primary progressive MS on May 3rd 2013. I was told there is no treatment for primary progressive MS and was given Baclofen. With the labored walk, I also suffered with chronic pain in my jaw and chronic indigestion. I also suffered from an intense internal pain known as MS Hugs. Thanks to Mangosteen and Minerals I now have No pain at all. I have taken 8 seconds off my walk time and I can stand on my own much longer. I am so grateful to my nephew for introducing me to this amazing product."

Charmaine

Judy: "I was diagnosed with Chronic Progressive MS in Jan 2002. I was in a manual wheelchair for 2 years, then an electric wheelchair. I tried disease modifying drugs like Copaxone. I did that for over a year. The drug costs over \$1,300 per MONTH. I stopped that drug after 18 months because there wasn't any difference in my condition. I then did Novantrone a Chemo drug. I was also taking Baclofen, Tegratol, Zanaflex, Neurontin, Valium and Tramadol. Life with MS.... is.....Challenging!"

I was introduced to Mangosteen and Minerals and was amazed that this product really worked! For me it was a miracle! I also used their weight loss formula and lost 48 pounds! Since taking the products, I have had amazing results! I will never give up this amazing formula."

Judy

Marilyn: "Hi, this is Marilyn from Salem, Oregon. I was diagnosed at the Oregon Health Sciences University in Portland with Multiple Sclerosis in 1988. I'd had for many years before that with debilitating symptoms of fatigue, dizziness, eyes out of focus, vision migraines, challenges with numbness in my hands, arms and face. If that wasn't enough, I also had memory challenges, confusion, panic attacks, muscle spasms and several other symptoms. I've been using diet nutrition for the last nine years and my health has been very good. But still some symptoms, such as muscles spasms in my shoulder blades, dizzy spells or visual migraines, would surface occasionally. I'd usually have two or more symptoms a week. Since I never knew when the symptoms would occur it really did cause me stress. I started using the minerals and mangosteen product in December and found that after a week I began to have more sustained energy. Through the last few months, I've noticed that my mind is sharper and my joint pain has disappeared. It's easier to go up and down the steps now which makes a big difference for me. This is with only taking 1 oz. a day. Recently, I began to take 2 oz. a day to see if I could become symptom free. I really believe with this powerful healing mineral and mangosteen product that this will happen. I can't describe how happy I am that every morning I wake up knowing that I'm not going to have the stress from these M.S. symptoms."

Mike: "I have two health issues, type 2 diabetic and Multiple Sclerosis. I began taking minerals and mangosteen Nov.2008. My A1C was 9.6 and I was taking the highest dose of medication possible and exercising 1 hr. per day. My blood sugar level was remaining in the higher level, but as of June 2009 (8 months) my A1C is 6.8. Most days my blood sugar level is in the 80-120s. I believe the minerals and mangosteen has made a difference in my blood sugar level because I have not been able to exercise as much because of the MS.

The most amazing benefit is how soon I noticed the effect it has had with the MS. I was diagnosed Oct. (2006) after having problems with my eyes and other problems associated with MS. The MS had spread from the brain down my spine. I started steroid treatments immediately and (Betaseron) shots every other day. I would have severe flare up for the next 2 yrs causing me to be hospitalized for several days at a time. The next treatment was in Feb.2009, I had 4 days of treatment at (treatment center) not the hospital. During the 2009 yr I would have flare ups that would last for less than 48 hrs (that means no treatments)! I have now gone one year between treatments (Feb.2010). As I stated above, I started taking the minerals and mangosteen on Nov. 2008 and take 4oz of minerals and mangosteen per day. It is hard to believe that 4oz of minerals and mangosteen could change my life but it has."

Mike

Chuck: "I started by looking for a good all around supplement to help me deal with the effects of Multiple Sclerosis. Most of the reading I did pointed to the need for antioxidants and supplements to help with the day to day effects of the disease. Prior to taking the minerals and mangosteen, I had no energy and had trouble keeping up with my 2 year old. I took an inter-muscular shot of Avonex for MS and it would leave me in really bad shape on the morning after my shot. About 2 1/2 weeks after starting to take the daily power shot I had more energy, I was able to actually get on the floor and play with my child. The side effects were reduced and the length that I felt bad the next day was cut in half. Overall my experience with the minerals and mangosteen has been excellent! I have never felt better and I often wonder if I was not suffering from MS and used the Nutrition System how much better my life would be."

Chuck

Gary & Sandra: "I'm Sandra, retired school teacher because of Multiple Sclerosis. I have been in a Geriatric chair for 26 years with double vision so bad that I have had a patch over one eye for 13 years. I got a call from Sharron who asked me to just try the minerals and mangosteen and see if it could help me with my vision or my health. When she told me I could send it back with a 100% empty bottle money back guarantee, I said "yes". I could not exercise, because I was just too weak, but after taking the minerals and mangosteen for one month I had to call Sharron and tell her I had been doing an exercise I could not do before. I rotated 200 times by myself on the peddles that the therapist would attach to my chair. So I reordered and double up on the product dosage on Mondays and Thursdays and by the next order I was able to do 500 rotations in 10 minutes & again I was wonderfully pleased. I'm now exercising my back doing 15 pull ups (something I thought I would never be able to do) I just keep feeling stronger as time goes on! My Husband does not miss taking the minerals and mangosteen & he still is teaching. We both love the taste & the cost, because I was spending a lot more on stuff that was not working. This product is a blessing!"
