Product

- **Mangosteen Juice** (including the whole fruit and pericarp extract)

- has been the secret to a healthier body and sharper mental focus in eastern cultures for over 400 years (where life expectancy is an average of 5 years longer than in western cultures). Researchers from TUFTS University center for anti-aging say that people should eat 10 Servings of fruit and vegetables daily. This amount will provide you with the levels of Antioxidants required to prevent damage to your body's cells. When your body's cells are damaged, this can result in fatigue,
- illness and accelerated aging.
-

-
- The Mangosteen fruit contains potent antioxidants (within supernutrients called Xanthones) many times *stronger* than other fruit and vegetables. Therefore, an easy way to achieve high levels of antioxidants is to drink a whole fruit Mangosteen juice, with high levels of Mangostin Xanthones. The **Vemma Nutrition Program** was developed by a physician with a background in both eastern and western medicine. Vemma contains five main nutrients:

- **Vemma Mangosteen juice**, including the pulp and the rind of the fruit,
- contains more Xanthones than any other independently tested Mangosteen
- juice products. Xanthones have powerful anti-inflammatory properties and are
- very potent antioxidants*. Over 14,000 papers from world-wide researchers
- report positive results from testing the xanthones.
- **Organic glyconutrient-rich Aloe Vera** helps to nourish beautiful skin,
- cleanses the body and soothes and improves digestion.
- **Plant Source minerals** in an ionic liquid form (reduced to the smallest component
- and easy for your body to use), extracted from nutrient-dense
- plant vegetation that has been undisturbed for thousands of years. Your

- plant vegetation that has been undisturbed for thousands of years. Your
- body requires extra minerals because food processing, chemical fertilizers and overused crop lands make it impossible to get a wide spectrum of minerals
- from your diet.
- **Organic Green Tea** helps to fight viruses, slow aging and improve brain power.
- **Twelve full spectrum vitamins.** The American Medical Association states that
 - "most people
 - do not consume an optimal amount of all vitamins by diet alone. Pending strong
 - evidence of effectiveness from randomized trials, it appears prudent for all adults
 - to take vitamin supplements".

Immune Booster

Vemma —an acronym for *Vitamins Essential Minerals Mangosteen and Aloe*—boasts a wide range of health properties, backed by double-blind, placebo-controlled clinical trials conducted by Brunswick Laboratories in Norton, MA.

The liquid vitamin and mineral supplement carries a high **ORAC value**, which stands for *Oxygen Radical Absorbance Capacity*. Ronald Prior, the scientist who helped create the ORAC test, recommends you consume at least 3,500 ORAC units daily for optimum health. **Vemma contains 115,000 ORAC units.**

Immune Booster

An independent, double blind placebo controlled study conducted by Brunswick Labs in Norton, Mass., showed that subjects drinking **Vemma** showed a significant improvement in immune function. An active compound in aloe, called Acemannan, is an immune stimulant.

Cancer Fighter

According to the National Cancer Institute, oxidation stress throughout your body can lead to free radical damage that causes cancer. **Vemma** contains 12 full spectrum vitamins, including beta carotene, vitamin C, vitamin D3, and B vitamins 1, 2, 3, 6 and 12, and enough antioxidant power to minimize oxidation in your body. Some ingredients include mangosteen, aloe vera and organic green tea blend. The term full spectrum refers to providing your body with all of the essential nutrients it needs in the right amounts.

Reduces Inflammation

According to the Brunswick Labs study, and reported in the August 2009 issue of the Journal of Medicinal Food, inflammation inside your body can be very dangerous. When your blood vessels and tissues become inflamed, blood pressure rises and your risk of heart attack and disease is increased. Inflammation in your joints can also result in painful arthritis. A protein called c-reactive protein is present when inflammation is present and this particular protein is reduced with consumption of **Vemma**.

Bioavailability

Bioavailability refers to the rate and extent to which the active ingredient in a particular formula is absorbed into your body. Brunswick Labs conducted a 24-hour test to see how bioavailable **Vemma** really is. Blood samples were taken, then subjects were given either a **Vemma** drink, or placebo. After 24 hours blood samples were taken again, and showed the high bioavailability of **Vemma**. Twelve full spectrum vitamins and 65 essential minerals found in **Vemma** were absorbed into the subjects' bloodstreams within that 24-hour period.

Xanthones

Xanthones are a biologically active plant phenol found in highest abundance in the mangosteen fruit. Consumption of xanthones can help you with allergies, infections, skin problems, inflammation, cholesterol and fatigue.

Vemma is definitely a superior product with real goodness inside. **The benefits achieved from the very high levels of antioxidants contained in this product are amazing, in fact it helps fight free radicals thereby slowing any damages to your body,** this makes **Vemma** a product that everyone needs. Vemma is superior supplementation

Dr. Barnet Meltzer M.D., a Board Certified Physician and Surgeon for over twenty-five years, has been called the father of Wellness Planning and "brilliant field general of the holy wholistic war." He is an authority in the field of clinical nutrition and wellness-related preventive medicine and a pioneer among a growing list of medical doctors that recommend VEMMA.

Dr. Meltzer is the author of six books, most notable is "**The Ten Rules of High Performance Living**"; he is a health advisor to Gold Medal Olympic athletes and a radio talk-show host who lectures regularly at seminars and conferences nationwide.

"Supplementation is no longer an option, it's no longer a matter of opinion; it's obligatory; it's a must. Vemma is a nutritionally significant supplement. Vemma is superior supplementation."

Vemma Training Quick Update

This weekend was Regional training for Vemma here in the Phoenix metro area! There was a ton of information and as always Tom Alkazin motivated everyone who attended. BK made a quick appearance with some great news, Glen Polcyn talked about how to save money with tax deductions that you can only take advantage of if you have a business, and Brad Alkazin gave us some great pointers on how to conduct a 1 on 1. Here are some things that I want to stress that if you want to become successful in Vemma you **MUST** do. 1> Plug in to the calls. The Monday Night Opportunity and the Saturday Fast Start Training calls are a must! If you don't plug in you will not succeed! These calls keep you up to date and motivated! 2> Use the Roadmap. 100% of those who use the Roadmap are successful in Vemma! 3> Follow this formula: Tell your Vemma Story (Home Event / 1 on 1 / 3way call) —> Enroll —> Complete Roadmap

Happy New Year! It's 2011. If you are building your Vemma business, or still thinking if you should build a Vemma business, let me give you 3 reasons why Vemma business will explode to new heights in 2011.

1. Vemma is at its momentum phase!

In 2011, Vemma is entering its seventh year in business and this is at the burst of the momentum phase, which is the period when most of the money is going to be made! Vemma has opened up more than 50 countries currently, and is going to expand into 2 more huge market in 2011 which I will talk about in a moment.

If you are still considering to [build a Vemma business](#), I believe this would be the best time to. Entering its seventh year and being backed by a billion dollar company New Vision, Vemma is going to grow and explode its sales to new heights in 2012, and this is where you want to be part of Vemma.

2. New Vemma Products Entering An Untapped Market

Vemma is in the health and nutrition industry. However, many people are really skeptical about building a business dealing with nutrition products because many people have been introduced to tons of business opportunities in the health and nutrition industry.

However, Vemma might not be your typical health and nutrition opportunity anymore after you hear what I'm going to say. Vemma has a new product, [Vemma PM](#), that is going to solve a problem faced by many people in this stressful environment – Sleeplessness, or difficulty of falling asleep at night. And this is a market that many health and nutrition companies have not tapped into! Imagine how many people you are going to help to sleep better by sharing the [Vemma PM](#) with them?

3. Vemma is opening up in 2 largest countries in the world!

In January, Vemma is going to open its market in India, a country with more than a billion of people in population. This will add up to the 52 countries that Vemma already has business in. With the opening of India, the market potential is going to be huge and open up more opportunities to do your business there!

Later in the year in 2011, Vemma is also going to open up its market in China too! Another country of 1 billion people! Now, can you imagine how big the Vemma opportunity you are going get when they do their business in India and China, the two largest country in the world?

However, I'm not going to sell you or persuade you to join Vemma right now.

What I'm doing here is to tell you honestly why the [Vemma business](#) will literally explode in 2011, and why it is the best time to start a [Vemma business](#) if you haven't. The Ultimate Choice? It's up to you.

[How I haven't been sick!](#)

[I haven't been sick since I Started drinking Vemma!](#)

True Story!

I had been chronically sick for years, In the past 10 years I have had issues with my health, and in the past 5 years it went from fair to down the tubes. I had the

Flu every other month, I was so fatigued, I had no energy, I was depressed. I could go on for ever with my health challenges!

When I started drinking [Vemma](#) in May I was skeptical just like most people are, How can a 2 oz shot of juice a day help me? Well Here we are 7 months later, I'm down 2 pant sizes, haven't had any flu symptoms, I haven't felt fatigued every day, I don't take naps after work, I'm able to get up at 6am and stay up till 10pm like I was able to 10+ Years ago. I'm no longer depressed! Everyone around me is getting sick and I for the first time in 10 years are not! It's amazing what that 2 ounces really does.

We use all the products that Vemma has out there I use [Thirst](#) when we exercise, [Vemma PM](#) to help us sleep, [Verve](#) when we need a Energy pick up!

My Kids drink [Next!](#) They love their [Next!](#) My son who is 1 recently got the flu, we doubled his [Next](#) from 1 shot to 2 shots a day and in 3 days he was better! This little guy doesn't have much of a immune system yet and I believe the Vemma [Next!](#) made a huge difference!

The [Vemma](#) Product line is quality product and is truly amazing! I've been working part time in our Business and recently we just achieved the silver rank! We're planning on hitting gold before convention! We'd like to invite you to [join our team](#), take the challenge and give [Vemma](#) a month and see how you feel, Give it 6 months and see how amazing this product is! This is Truly Nutrition for a Lifetime!

[Stop thinking like Blockbuster...](#)

[BK Boreyko](#) said this during his Vemma PM Launch in Phoenix a few weeks ago, He said "Blockbuster must have not been paying attention since they didn't respond to the NetFlix business model until it was too late! This former \$3 billion, 25,500 employee juggernaut Entertainment Company is now bankrupt. Their stock was recently de-listed and trading at just \$.06 a share. In contrast, NetFlix is three times the size of Blockbuster at its high and their stock is trading at \$160 a share" In his blog today he talked about this. I love this story that [BK Boreyko](#) Tells!

"What still amazes me is when people look at the MLM business model and see some kind of a cheesy way of doing business. Like if products aren't available in a brick and mortar store, they're not real products. Well, with Vemma that couldn't be farther from the truth. Our business model delivers ultra-premium products touting the kind of quality ingredients you can't find in stores (I've looked) and is one of the few true ways the average person can tap into a phenomenon like the home delivery model. Best of all, they only need a little money and lots of desire. When you study this business model and the way Vemma executes it, it's really the ideal business. Scalable, duplicatable and highly profitable. Its something everyone needs to look at – especially those people that still think like Blockbuster. Start thinking like a NetFlix and watch the opportunities begin to unfold for you. ~[BK Boreyko](#)"
