Tennis Elbow

Testimonials:

Freddy: "In 2012 I was suffering from a very serious tennis elbow pain in my left arm. It was so severe that I couldn't pick up anything. Being the only earning member in the family, I had to go to work every day in pain, and every day was like torture. I was in pain for around 6 months, 24/7. The only time I didn't feel any pain was when I was asleep. As soon as I used to wake up, I could feel my pain coming back.

The mangosteen and mineral product was introduced to me as a business opportunity and my wife and I started taking the mangosteen and mineral product on alternate days. Within a couple of months I was stunned to find that my pain had completely disappeared. I was searching for my pain, but I couldn't find it. I was getting upset and irritated like a child who had lost its toy. I was seriously searching for my pain. I punched my forearm, picked up an empty glass, picked up my motorbike helmet, even called my 12-year-old son and picked him up. NO PAIN. I was Stunned.

Gradually, it sank in that I was pain free. What happened?? The only think I was doing was taking the mangosteen and mineral product and nothing else. No pain killers which the doctors had prescribed because I don't want to be a tablet addict for life, popping pain killers.

This product has come as a God sent in my life and as hope not only for me, but for countless people who are suffering from pain.

Thank You. Words can't do justice to describe my feelings of thanks and appreciation."

Freddy B. - Melbourne, Australia

John: "My name is John and I'm from Chicago. For the last year or year and a half I've been suffering with some muscular problems in my arms, especially my right arm. The pain was diagnosed as tennis elbow. I had gotten to the point where I was getting cortisone shots and doing acupuncture. I got relief from it but it didn't last that long. It was constant pain. I couldn't lift suitcases. I was real cautious about using the muscles in the arm. I couldn't go bowling. I couldn't do a lot of things. I heard about a mineral and mangosteen product and I had to try it. I took an oz. of each product every morning and probably within three to five days I noticed an incredible difference. I've been taking it every single day since April and to this day I haven't had the problem. The pain in my arms, either right or left, is totally gone. I'm really excited about it because its been one of the only things that has helped. It has been consistent. I'll continue to use it as long as I can get my hands on the product."
