Thyroiditis

Testimonials:

Nancy: "Thank you for this awesome product. I have been in and out of doctors offices for multiple illnesses since being diagnosed with Thyroiditis. At the age of 52, I was looking at long term illnesses such as, c.o.p.d., Asthma, Chronic Bronchitis, Fibromyalgia, IBS, migraines and Rheumatoid Arthritis. Some of these treatments cost thousands of dollars. Needless to say, the medical costs were astronomical and my home looked like a medical supply store. I've had to have back surgery and neck surgery because of the Rheumatoid Arthritis. The treatments for r/a were Methotrexate injections and weekly orenicia. We tried Remicade and Embrel, but the side effects were horrible. I had to supplement that treatment with Predinsone, Xanax, ambien, and morphine; 50 mg three times a day. My pain levels were always at a 10. A friend of mine suggested taking the mangosteen and minerals supplement in June of 2009.

Well, no longer am I taking r/a meds, sleeping aids, and breathing treatments. I even passed an echo cardio stress test last week without having an asthma attack. I am not taking morphine for pain on a daily basis. And, that awful pain you feel from fibromyalgia is gone! I know it is quite a bit to think about, but when you have been ill, more times than not you have other stuff going on. I am so relieved that the IBS is gone, and I can wake up every morning with no worries about an onset during the day. The symptoms of diverticulitis I had in July of last year are gone. When I get a migraine I double up on the dosage; sometimes triple it throughout the day.

It really doesn't matter what I had been coping with for all those years, the hope and joy of knowing that there is a product now that I can afford to take, that tastes great, and works comprehensively throughout my body is overwhelming! Thank you for this discovery!"
