## Urinary Tract Infections

### Testimonials:

**Lori:** "Hi, my name is Lori from central Pennsylvania, I'm really happy to tell my story because so many women suffer from urinary tract infections. Once in a while I develop a UTI and if you have ever had one you know exactly what it is. It is a very painful sensation with extreme pressure. Using antibiotics for ten days is about the only way to get rid of it. Well, I'd been using minerals and mangosteen for a few months but one Sunday morning I woke up with the symptoms. I had been reading some research that showed that minerals and mangosteen was effective against many forms of bacteria so I decided to see if the mangosteen would help with my problem. I didn't know exactly how much to use so I started out with two oz. of the minerals and mangosteen followed by a large glass of water. Then I had breakfast and about one hour later I had another 2 oz. followed by water. Soon after that I realized I had no more pain whatever and the frequency was greatly reduced. At lunch time I had another oz., another oz. in mid afternoon and another oz. in the evening. I really saturated myself with the product. The symptoms were completely gone in the first sixty minutes. Just to make sure it didn't come back, I took three or four oz. the next day. However I really felt like it had done the trick in the first few hours. Now anytime something like that comes up I know what to do. I just use a whole lot of the minerals and mangosteen juice throughout the day. It works. This stuff is powerful!"
