Testimonials:

Clyde: "...my 2 year old granddaughter, whom I was given the privilege to look after for nine months while her parents were deployed, awakened with a real bad cold and a fever. You could here it rattle on her chest as she breathed. My wife told me to give her some Tylenol and call her at work and let her know so she could take her to the doctor. Well I guess you know what I gave her. Her fever broke in about two hours. I dosed her again before bed time. The next day the rattling on her chest was gone. I myself have been truly blessed to witness first hand what the mangosteen and minerals can do.
